Our attention has been called to the November issue of the Review of Reviews magazine in which the Wells and Dickey Land company of Minneapolis, have a page ad, containing a large picture of the John L. Solberg farm and a few statements regarding the owner and his struggles here during the early pioneer days. This good bit of advertising came about as the result of the pictures and write up, which we had of this farm and Mr. Solberg some weeks ago. Noticing this writeup in our paper the land company wrote to Mr. Solberg for a picture that they might have acut made for their own use, for the purpose of advertising N. D. This may be the means of attracting hundreds of new settlers to this splendid state of ours.

## AUTO OWNERS

Have your tires repaired and save the expense of new ones. We are now able to save you about half the cost of your tire up-keeps as our plant is equipped to cure rim cut and cover cuts without curing the tire from bead to bead. Any auto owner will appreciate what this means in cost of repairs as curing the tire from bead to bead has a tendency to weaken the casing.

All outside orders will receive prompt attention.

## WARWICK

Mr. Peter Anderson after a long and strenuous campaign won the election of County Superintendent. The people of Benson county acted very wisely and can congratulate themselves on electing so notable a gentleman and one whom they believe to be perfectly capable of taking care of the schools of this county. Benson county is by no means an easy county to superintend and it certainly needs one who can get around through the county despite the large and awkward county and bad weather that we have to encounter here and we know his campaign was a clean one.

The hunters have been quite plentiful through this vicinity. Several of them from Minnesota and other states.

The party and supper given by the ladies improvement society here last Thursday evening was certainly a great success, and a large attendance was at hand. The proceeds which netted a five spot will go to build a hall here which is so badly needed. The music was just the best and every body reports a fine time and supper.

FAMED FOR FIT      FIT FOR FAME

**A prominent doctor said:**  
"There's more feet ruined during the first sixteen years than in forty years thereafter."

This is probably true. There is no trouble with children's feet when well made shoes are selected. If this is neglected foot trouble begins. Very few factories know how to make correct footwear for children. It requires exceptional skill. The shoes we show above—the Selz Waukenphast—are considered by experts as being among the most perfect ever produced. They were introduced last fall, after years of experiments by some of the best designers in the country. They are sewed throughout, not nailed. First cost is more, but mighty good shoe insurance for your children.
