"CASCARETS" CLEANSE LIVER AND BOWELS.
NO MORE HEADACHE, BAD COLDS, SOUR STOMACH AND CONSTIPATION.

Get a 0-cent box now. Are you keeping your liver, stomach and bowels clean, pure and fresh with Cascarets—or merely forcing a passage every few days with salts, cathartic pills or castor oil? This is important.

Casarets immediately cleanse the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry out of the system the constipated waste matter and poison in the bowels.

No odds how sick, headachy, bilious and constipated you feel, a Cascaret tonight will straighten you out by morning. They work while you sleep. A 10-cent box from your drug gist will keep your head clear, stomach sweet and your liver and bowels regular for months. Don't forget the children—their little insides need a gentle cleansing, too.

BUILD WARM

The double dead-air space keeps warmth in and cold out

If you're going to build a new house, build one that's warm in winter, cool in summer. To make this easy for you, we offer home builders everywhere, without royalty, H.-L.-F. stud and wall board construction (patent applied for) illustrated above.

Dead-air is the best non-conductor of heat. This new construction provides two dead-air spaces between your warm rooms, and twenty below zero weather outside. Your house is just twice as warm as a house built the ordinary way.

H.-L.-F. stud and wall board costs 25% to 50% less than back plaster

Here's a chance to have a warm house at small extra cost. H.-L.-F. stud and wall board construction costs 25% to 50% less than back plaster, and it's a lot better. Back plastering simply makes the outer wall warm. H.-L.-F. construction makes your house twice as warm by providing two dead-air blankets to keep out cold. H.-L.-F. stud and wall board construction is easy to use. Studs are accurately nailed to take the wall board and wall board is especially made, exact size required. Slip it into place, raise your wall, and there you are. No fuss, no muss, no delay—and, best of all, absolute insurance against cold. Get a price on this construction for the house you are planning.
