# Buying Good Clothes

It is just as much of a business as buying anything else. It is like buying a horse. You might be able to buy a horse for \$25, but you would not expect to get one worth \$150 for that price. Why pay \$18, \$20, or even \$25 for a hand-me-down suit of clothes when you can step into our tailor shop and select the goods which suits you and have a nobby suit made out of that exact piece of goods for the small price of \$25. We carry in stock the latest patterns of domestic and imported goods, and when you make a selection we cut your suit out of that particular piece and it is made up in the latest style by our own workmen right here in Devils Lake. Such a suit will give you far better service and look better than the ready made suits which you will have to pay about the same money for.

If you need a new Spring suit, just call in and look our suitings over and let us show what we can do for you.
