The management of the base ball team have asked us to thank the High School girls for the interest they are taking in the ball team and for the financial aid given them, derived from the basket social.

A good many of our farmers are now busy with their seeding. The work is being unusually well done in anticipation of good prices, and we hope they will be rewarded. For the next few weeks the merchant in town can take life easy, as the farmer will be too busy to make more than an occasional trip to town.

Clarence Sagen and family were au. to visitors at the county seat yesterday afternoon.

Two carloads of cinders were unloaded at the depot the past week and have been spread out around the building and yards. During the past few weeks it has been hard to get to or from the station on account of the mud but in a week's time the cinders will pack and become nearly as hard as cement.

The old custom of serenading a bride and groom was dug up again last Tuesday evening in honor of Dr. and Mrs. T. (Tord) Neilson who arrived here on that day and are making their home for the present at Mr. Hendrickson's.

A number of young boys got together, er loaded with bells, kettles, pans, and everything conceivable that would make a noise, except firearms, and furnished the old time charivari (call it shiverer) keeping the hilarious noise up for nearly two hours, but up to the present writing no satisfactory result.—Hoople Dept. It is with pleasure that the Edmoreites learn that Lawton is to have a ball team the coming season. It was a rumor that they were to have no team this year but we hardly thought that the enterprising business men of that place would be content to sit back and see their town drop behind their neighbors. We understand they will get a pitcher and catcher from Manager Fox of the Grand Forks team.

From the amount of seed corn that is coming into town it would seem that some of our farmers are going to grow a little corn this year. Those

who ripen their patch this year, and "repeat the dose" next year, will prosper if they continue enlarging the acreage.

Ole Ohnstad of Devils Lake transacted business in this vicinity on last Monday.

What was formerly the Burgess elevator at this place was sold the last of the week at Devils Lake to the St. Anthony & Dakota Company for \$3,750. This was one of the three elevators sold at the time to satisfy a judgment held by Turle & Co., of Duluth, against C. E. Burgess. Another of the elevators was the one at Lawton which was bid in by the Turle Co., for \$4,000.

Through the columns of the Herald. News Charley Hetland, rural carrier on route No. 2 wishes to extend his thanks to Abe Calof and family and Charley Calof and family for the many acts of kindness shown him during the time of his service as carrier. During all that time Mr. Hetland had had dinner for himself and feed for his horses at the above mentioned homes for which payment has been repeatedly refused. The Calof family are soon to move away and will be greatly missed by their many friends.

Only a small crowd was in attendance at the social and dance given by the High School girls for the benefit of the ball team Friday evening, but what was lacked in number was made up for by the spirited bidding of the few in attendance. About fifty dollars was taken in out of which there was some expenses to pay.

We learn later that the exact receipts were \$49.75. The four-piece orchestra donated their services, the printing bill was donated, the work of getting ready for the event and the cleaning up after it, was all done gratis; in fact every item of expenses was eliminated except for the hall for which the committee paid \$10, leaving nearly \$40 above expenses.

Monday evening some of the boys about town held an impromptu rehearsal, at which time it was decided to organize the old band, there being 11 of the old members left with a well balanced instrumentation. Some new music has been ordered and regular practice set for Tuesday evenings. The purpose of this organization is to furnish amusement to those who play, and for the benefit of the public at such times during the summer as their services are needed.

Arrangements were concluded yesterday afternoon with Fortier of Minneapolis to take the place of Knapton as pitcher on this year's ball team. He comes highly recommended with six years professional ball behind him. In 1912 he was with Willmar, Minn., in 1913 with Spooner, Wis., and last year with one of the fastest teams of Minneapolis. He is a "south-paw" and with experience in such fast company he should prove an A. 1 man.

However, he hopes for a general resumption of the mining industry this spring.

**CLEAN-UP WEEK FOR THE STATE FIXED BY GOV.**

NEW IMPETUS GIVEN THE MOVEMENT LAUNCHED SEVERAL YEARS AGO.

The adoption of the clean up movement as a state wide proposition is endorsed by Governor L. B. Hanna, in a proclamation issued today, fixing the week of May 3 to 8 as the time for all citizens to make a special effort for the creation of a condition of cleanliness.

By giving the state support to the clean-up movement, a movement that was originated in Grand Forks years ago, and which city was the first in the state to undertake the scheme—it is expected that greater impetus will be given the work than ever before.

Governor Hanna realizes the advantages obtained by the several cities through their clean-up work, and he anticipates that the same good can come to the state as a whole through the adoption of the scheme.

As yet, no definite plans have been laid for the clean-up work in Grand Forks, but the week that has been fixed by the governor no doubt will be accepted by the city.

**Clean-up Week Proclamation.**

In keeping with the spirit of spring, time, when all nature puts on new, clean and healthy garments, and conforming to custom established in other states of the Union to guard against disease and to promote cleanly and sanitary ideas in the conduct of our municipal and home affairs, it is fitting and proper that we in North Dakota at a certain stated period should do our utmost in an endeavor to improve conditions and surroundings by the removal and destruction of all dirt, filth, and waste materials which have accumulated during the winter season.

Now, therefore, I, L. B. Hanna, governor of the State of North Dakota, in order to encourage the observance of such a movement, do hereby designate and set apart the week beginning May 3 and ending May 8, 1915, as **CLEAN-UP WEEK** for the State of North Dakota and during that week I earnestly recommend and request that the men, women and children of the state make special effort to promote the cause of cleanliness in our surroundings, there by tending toward a neater, cleaner and more wholesome aspect in our cities, towns and homes.

Done at the Capitol at Bismarck, this 8th day of April, A. D. 1915.  
L. B. HANNA,  
Governor.
