BUILD WARM

The double dead-air space keeps warmth in and cold out

If you're going to build a new house, build one that's warm in winter, cool in summer. To make this easy for you, we offer home builders everywhere, without royalty, H.-L.-F. stud and wall board construction (patent applied for) illustrated above.

Dead-air is the best non-conductor of heat. This new construction provides two dead-air spaces between your warm rooms, and twenty below zero weather outside. Your house is just twice as warm as a house built the ordinary way.

H.-L.-F. stud and wall board costs 25% to 50% less than back plaster

Here's a chance to have a warm house at small extra cost. H.-L.-F. stud and wall board construction costs 25% to 50% less than back plaster, and it's a lot better. Back plastering simply makes the outer wall warm. H.-L.-F. construction makes your house twice as warm by providing two dead-air blankets to keep out cold. H.-L.-F. stud and wall board construction is easy to use. Studs are accurately milled to take the wall board and wall board is especially made, exact size required. Slip it into place, raise your wall, and there you are. No fuss, no muss, no delay—and, best of all, absolute insurance against cold. Get a price on this construction for the house you are planning.

No advance in lumber prices—send list quick for prices

Until further notice, summer prices which resulted in four times as much business this year as last year for Hewitt-Lea-Funck, will continue. No telling what the war will do to prices later on. Get your order in early.

We have sold several thousand cars of lumber in less than two years. We own and control, through officers, sawmills, forests, logging railroads, and millwork factories. This means low prices. Our square treatment has brought many orders from old customers and their friends. Learn how much we can save you—send your lumber list quick for freight-paid quotation. Do this now, so that you may get your lumber at the low summer prices.

Send coupon for Prize Plan Book

Gives pictures, floor plans, accurate descriptions and guaranteed costs of 100 good practical homes, all designed for folks who work for their money. This book will save you a thousand dollars—yours for ten cents, and this coupon.

Barn Builder's Guide

Gives real barn information—pictures, floor plans and full information, including guaranteed costs of barns designed by H.-L.-F. Co.'s expert architects, after ideas submitted by practical farmers. Send 4c and the coupon for Book of Barn Plans.

H.-L.-F. Silo Folder

Here's a double wall silo originated by H.-L.-F. Co., that means no freezing of silage and costs 50 per cent less than stave silos. Can't bulge, shrink or blow down. Send coupon and get this folder. It is free.

Hewitt-Lea-Funck Co.
Capital One Million Dollars
143 Crary Bldg., Seattle, Wash.

Double quick shipments from big stocks

Orders are filled by us within 48 hours. Delivery is a matter of only two or three weeks. A. W. Frust, Wilton, N. D., wrote us July 29th, 1914: "Received the carload of material O. K. It came sooner than I expected by about four days. I am saving about \$250.00 on lumber by ordering from you, and, furthermore, I will not have to wait for material, as these local yards do not have the lumber on hand and they hold up the job." Hewitt-Lea-Funck Co. will save you money and guarantee you clean, good lumber—we let you see the lumber before you accept, and guarantee satisfaction, or money refunded. Get our prices on your lumber. Use coupon.

Hewitt-Lea-Funck Company,
143 Crary Building, Seattle, Wash.

Gentlemen:—Please send me the following:

- Approximate cost of H.-L.-F. stud and wall board construction for house I intend to build. Width of house _____ ft.; length _____ ft.; height of walls _____ ft.; number of outside doors _____ number of windows _____
- Prize Plan Book (send 10c)
- Barn Builder's Guide (send 4c)
- Delivered, freight-paid price on enclosed list of materials (no charge)
- Lumber Price List and Millwork Catalog (free)
- H.-L.-F. Silo Folder (free)

THE STYLE OF BILLY SUNDAY

Goliath, according to Billy Sunday, "was the head cheese and the whole works." "Who's that gazaboo?" asked David. "Then he gave Goliath the once over." Here the evangelist illustrated the effect on the giant by himself falling at full length upon the platform. The language accompanying the ocular demonstration was "Beamed!" David soaked him in the coco between the lamps and Goliath went to the mat and took the count. David chopped his head off and Goliath's gang beat it. And then he stirred the trail hitters with this appeal: "Say, are you riding a blind baggage or a gospel train? I'll know in a minute whether you're men or mutts. If you're a man you'll fight your way down these isles and take my hand. Oh, I'll have your number. I'll know whether you've got gasoline or dishwater in your veins, whether you're real or a four-flusher."

NEWS ITEMS OF INTEREST

Elmore, Ind.—Gray Ferris, telegraph operator, played a joke on the village marshal. The marshal locked him up. Ferris' uncle appeared to put up bond or pay a fine. The marshal, it is said, refused, and in a quarrel which followed it is stated that he tried to shoot the uncle. A short time afterward a group of citizens appeared, tore down the jail and released young Ferris.

Bradford, Pa.—An industrious and appreciative hen owned by Mrs. F. E. Roberts, presented her owner with an egg last week which measured 6 3/4 inches around the short way and 8 1/2 the long way and contained three yolks.

Rochester, Minn.—Blondell Berry, the tallest man in the country owes his life to his height. He was digging a ditch at his home and the sides caved in burying him up to his neck. His wife heard his cries and brought assistance. Had Berry been a man of ordinary height, it is certain that he would have been suffocated.

Hopkinsville, Ky.—John Henry, balloonist and parachutist, although a show man is not superstitious. At the conclusion of flight here one day he fell into a graveyard and was

dragged over the tombstones. Henry refused to attach any significance to the place of landing and made another flight the next day.

Mandan, N. D.—Susie Majewska 72 years old, who for 26 years worked in the home of a well to do resident with, on receiving pay, is suing for \$6,240 back wages. Recently her former employer shipped her to a neighboring farm agreeing to pay \$10 a month for her board. The money was paid for a few months and then stopped. It was then that the aged woman sued.

Wheeling, W. Va.—An attempt to steal the corner stone of a church was made here last week. The vandals had almost succeeded in completely loosening the stone when discovered. It is supposed that they thought the stone contained articles of value.

Portland, Me.—The liquor deputies on Sheriff Pennell's staff have unearthed two new schemes used to smuggle liquor into the city and sell the same right under the eyes of the officers. The first was the discovery of a copper receptacle made in the exact form and size of a commercial ledger. It held two gallons. The second was a peddling scheme in which the pint bottle of liquor were perambulated around in hokey pokey or ice cream push cart.

BET EVEN ON PEACE BY FALL

Betting on the outcome of the war is all the rage in London now. Several firms and individuals, through Lloyd's Exchange, have on board today the following "book" on the duration of hostilities:

- That the war will end before May 1, 1915—3 to 1 against.
- That the war will end before June 1, 1915—2 to 1 against.
- That the war will end before September 1, 1915—even money.
- That the war will end before December 1, 1915—10 to 1.
- That the war will end before March 1, 1916—115 to 1.
- That Germany will take Paris—25 to 1 against.
- That Germany will take Warsaw—5 to 1 against.

MADE FROM A BIG TREE

A church in Santa Rosa, Cal., has the distinction of being built from the timber of one tree, a gigantic redwood that grew in Mendocino county. The pews were also made from the tree. The spire is 100 feet high, the audience chamber seats 400 people, and the parlor 100. A pastor's study, 12x20 feet, is also in the building. The church cost \$5,000. Only two-thirds of the tree was needed to construct the church. After the roof was finished it was discovered that there were 60,000 shingles left over.

WATER ANALYSES SHOW PECULIAR PROPERTIES

The United States Geological Survey has issued a small pamphlet containing 203 water analyses, which were in the chemical laboratory of the Survey. Most of these analyses have already been published, but many of the original reports are out of print, and the data are therefore obtainable with difficulty. A number of the waters analyzed are commonplace in character, but some are most unusual, if not unique. The Devils Inkpot, for example, in the Yellowstone National Park, is essentially a solution of ammonium sulphate; the waters of Sulphur Bank, Cal., are rich in borates; the Shoal Creek Springs, in Missouri, contain a remarkable proportion of zinc.

A copy of the report which has been issued as Water Supply Paper 364, may be obtained free on application to the Director of the Geological Survey, Washington, D. C.

No personal claim is made against the defendants.
W. M. Anderson,
Plaintiffs' attorney,
Deviis Lake, North Dakota.

Hides-Furs-Wool

Mr. Farmer, we call your attention to the sale of your wool. Some people ship their wool, thinking they will get a better price, as they see the quotations in some paper, but when they get their returns they scratch their head. The price is generally below the lowest quotations they see in the paper. The best way is to sell your wool and hides to Davis Rubin and you will get more than you expected. We will treat you right.
