A NEW YEAR'S RESOLUTION.

Politics during the coming year are going to be tremendously important. A great many states and city officials

are to be elected in the various states, but the big fight is going to be for national control. Right now is a good time for you to resolve not to vote for the agitator, the demagogue and the revolutionist. The country is on the verge of great prosperity. We have a bumper crop; the Panama canal; war orders aggregating millions of dollars; the South American republics are opening their doors to American manufactured goods and the American dollar is becoming the world's standard of exchange. The situation is unprecedented. It is not the time to try experiments in government. Any radical departure from the tried methods of government is apt to prove disastrous, and the country should stand solidly opposed to radical change. Business should be let alone. Adequate railroad legislation should be

passed to enable the railroads to resume expansion. Capital should be allowed the same freedom that labor enjoys. There has been too much politics during the past few years. Let us resolve this year to let patriotism stand before all other considerations. Let the farmer join hands with the business man for mutual benefit, and serve notice on Congress that only legislation that means prosperity and progress will be acceptable to the country.
