New York Elevated Railroad Employees Disaffected With Settlement.

FEW BENEFIT BY INCREASE

Advance in Wages Recently Granted by the Receiver Applicable Only to Clerical and Office Forces, It is Alleged.

Members of the newly formed brotherhood of B. E. T. employees may withdraw from the Amalgamated Association of Street and Electric Railway Employees, because of the refusal of the latter organization to accept the 10 per cent increase offered by the company, says a New York dispatch.

Only a few employees of the B. E. T. are able to benefit by the wage increase granted by Lindley M. Garrison, receiver, which went into effect recently, due to the agreement between the receiver and the Amalgamated after the strike last year, by which the deals affecting the hourly rated employees can be made except through a committee of the unionists.

Because of the agreement Mr. Garrison is unable to carry on any negotiations with the brotherhood of the B. E. T. employees or the Women's League, which have both expressed a willingness to accept the 10 per cent. As a result the only employees benefiting by the increase are members of the clerical and office forces receiving less than \$3,000.
