

AUTO LICENSE EVADERS DON'T LIKE THE COURT

Four Concerns See The Judge At Ten Dollars

Evaders of the state automobile license law were given a jolt in Devils Lake last week, when Special Agent Charles Carl from the Motor Vehicle department at Bismarck arrived on the scene—Net results, four "ten dollars and costs" by the judge with one remitted.

In each instance, according to Agent Carl, failure to display either one or two tags as required by law was the charge preferred. It was admitted however that in none of the actions, had there been any intentional act to violate the statutes.

It was pointed out by the representative of the state that a special agent will be in continuous operation in this section of the state with positive instructions to prosecute every offenders caught hereafter.

Every automobile in operation, owned privately, by business institutions or auto dealing firms, must display two license tags, one front and rear in plain sight to the public. If tags are lost, they may be renewed at a nominal fee by addressing the Motor Vehicle Department, Bismarck, North Dakota.

LEGION MEN TO SEEK INCREASE

Dakota Department Will Pull For Large Development

FARGO, N. D.—The North Dakota department of the American Legion which has entered up its second year, is out for a total membership of 20,000 which will include practically every Flickertail who was in the service. There are 196 chartered posts in the state with a total membership of 13,000.

The service bureau which was opened at headquarters on April 1, 1920, with Wm. T. Kroll as war risk officer, has already settled a total of \$191,977.68 in compensation, bonus, Liberty bonds and other claims. The appropriate amount of government insurance reinstated during this period was nearly \$450,000. There were about 2,000 men who reinstated their insurance. At present reinstatements are coming into the state headquarters at the rate of \$100,000 a week.

The organization of women's auxiliary units to the American Legion has been successful and at this time there are 50 Women's Auxiliary units in the state. This movement was given impetus at the Minot convention and in a few months it is hoped that every post in the state will have an auxiliary.

ONE CITY CLUB DENIES CHARGE

Business Women's Club Don't Like To Be Mixed

A prominent and enthusiastic member of the Devils Lake Business and Professional Women's Club has presented a published statement that the organization of which she is a member, sponsored in part the formation of the O'Connor club which it was reported had its inception in the official organized clubs of women in the city. The fact was cited to a representative of The World that reports given out to that effect were entirely false.

It was declared that the "constitution and by-laws of the Business & Professional Women's club prohibits the organization from participating in politics."

To correct the impression given out, The World publishes the above information, which should correct any misconception of the workings of the club. Its members are left entirely free to vote and act in political campaigns as they see fit.

BIG AUTOMOBILE COMP'Y SLOWING DOWN PRODUCTION

Overland Company Lays Off Big Force Of Workers

TOLEDO, O.—Toledo plants of the Willys-Overland company were closed down yesterday and today following the lay-off of 4,500 men and women workers.

Less than 2,000 remain to operate the plant, the rest of the week when they re-open tomorrow. Normally there are between 12,000 and 14,000 employed.

Those released yesterday were instructed to report Monday morning by which time, officials say, it will be known definitely whether the plants will operate on a three day a week basis or remain closed until conditions in the automobile industry get back to normal.

Falling off in the demand for automobiles is assigned as the cause for the drastic curtailment of production.
