Home Building Boom Sweeping The City

Home building is undergoing its first sign of a boom here since before the war, and according to prominent lumbermen, will eclipse all records of the past eight or ten years. In every section of the city carpenters are pounding away, lumber piles litter lots, excavations are being made and signs of civilized times, in this line of meeting the need for domiciling the public, are in evidence. Few large residences are planned, it is understood, but the rank and file of the people are the ones apparently taking advantage of reduced lumber and building material costs.

Little Pills Under New Ban

Has it happened? Have the billiard parlors quit selling cigarettes? And what will the fellow do who uses the little pills, and what will the preacher, if there happens to be such who uses them for an after dinner "pull" or elsewhere do? Well, there's only one thing left to do, send away for 'em. It is reported word has gone out to be wary of Mr. Lemke, the attorney general. Maybe "Bill" wouldn't like to enforce the law if it wasn't on the statute books, but it's there so cigarettes selling will have to stop or the people change the law.

The new editor has had practically a lifetime of experience as a printer-editor, which will insure our readers a bright, up-to-date sheet, and the usual high class work and prompt service in the job printing department.

THESE MEN Are On The C. & C. A. Job Now.

These are the men who will take credit for the accomplishments of the Chamber of Commerce—Civic and Commercial association this year—Archie M. Kelly, proprietor of the C. & C. A. theater, M. H. Graham, editor of The I. V. A. Journal, C. J. Kelly, one of the city's leading grocers and general storekeepers popular in all sections and Lillian Wineman, secretary and the following directors in addition, A. E. Wheeler, attorney, the firm of Cuthbert & Wheeler and personally the representative of those factions instrumental in prosecuting a libel suit against the employees of The World and otherwise generally well known for his various proclivities in the social, business and civic world of the city, M. P. Kelly, popular ex-newspaper man and son of Col. Joe Kelly and generally well liked in all quarters and a leading ex-service member of the American legion, Herman Shark of the Hub clothing store and who would have liked to have been a candidate for city commissioner but unfortunately for the public was "sit down" upon by the ring politicians and Frank Breaker, head of the flour mill here and believed to carry the stamina which will perhaps ward off the misnomers which may be hurled at the club in a year—unless it makes good—and here's hoping it will do that little stunt.

RAILROADS DO THE BOND ACT

Permitted To Issue A Bond Flotation

Washington.—The interstate commerce commission has granted authority to the Northern Pacific and Great Northern railway companies to issue \$230,000,000 joint 15-year convertible gold bonds at not less than 91.5 per cent and authorized the companies to issue and pledge \$33,000,000 of other bonds to aid in securing the joint bonds.

The issue was authorized to enable the two roads to retire joint bonds amounting to \$215,227,000 issued in 1901 for the purpose of purchasing the Chicago, Burlington and Quincy railroad.

Our Ideal

F. S. AUSTIN. In the newspaper field, the writer, admires the principles of the Nonpartisan League, but—there is no greater ambition to be had by any news writer than the conduct of a newspaper in which the editor may voice his honest opinion of praise—and condemnation of errors than that offered by a publication in which he is interested. Should it be in the province of the writer to promote, solely, the best interests of the farmer and labor forces along with the forces which represent capital, there would be no pleasure more appealing to him than to carry on, not such propaganda, but such facts as will assist in developing those good things. Why not?

NATIONAL BODY BACKING SALES OF N. D. BONDS

\$2,000,000 Worth State Bonds To Sell As A Result

BIG PLAN FORMED

State Mill And Elevator To Get Aid From Big Organization

Usher L. Burdick, president of the North Dakota farm bureau and director of the National Federation of Farm bureaus, is all for the Nonpartisan league program of state industries from Chicago. He has endorsed the completion of the mill and elevator project at Grand Forks and is assisting in the promotion of bond sales to put the big institution in operation. Already arrangements are being worked out thru Mr. Burdick's efforts to dispose of at least \$2,000,000 worth of bonds and in all probability this amount will be increased to perhaps \$4,000,000 or \$5,000,000.

Chicago.—Mill and elevator bonds of North Dakota to finance the big project of the Nonpartisan league program which the farmers are attempting to put across, are sure to be disposed of, according to indications here following efforts of Usher L. Burdick, North Dakota head of the Farm Bureau Federation. As a result, at least \$2,000,000 will be sold in bonds to finance the big industrial program. The proceeds will be used to complete the state owned plants at Grand Forks. He intimated that if deemed advisable the Bureau would take over operation of the mill and elevator. Mr. Burdick said: "The state of North Dakota has already expended \$1,000,000 on the plant at Grand Forks, which will have one of the best planned terminals in the country. When finished farmers can ship in 150 carloads of grain per day and the facilities will permit of its being cleaned, dried and shipped out the same day. The wheat growers of North Dakota are anxious to have the mill and elevator completed. They look upon the sale of the bonds as an economic and not a political measure. The rank and file of our wheat growers are behind the plan to sell the mill and elevator bonds, and there is no question but that they will be quickly absorbed."

Usher L. Burdick, state president of the North Dakota Farm Bureau Federation, and member of the board of directors of the United States Grain Growers, Inc., said yesterday that he found it necessary in the Chicago conferences to speak plainly about the situation in North Dakota. "There were so many knocks at North Dakota, by members of our own committee, who were ignorant of conditions there, and simply took their views from unfriendly newspapers," said Mr. Burdick, "that at last I asked for permission to speak for 15 minutes, and have my remarks incorporated in the minutes. Permission was granted, and I had my say. "I told them I was not a Nonpartisan. I told them I had been fought by the Nonpartisans when I ran for governor. But I told them that we have a constitution in this state. I told them that under that constitution the people of the state have certain rights. One of these rights is the right to say exactly how the state shall be governed."
