

# The Organized Farmers and Organized Workers

Have moved out of  
"Newspaper Row" But--

**They Have Not Moved out of the  
Lake Region**

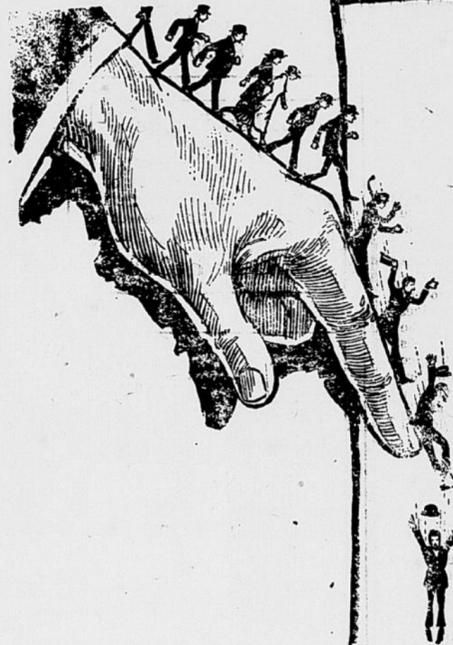

## An Appreciation

This is the last issue of The Devils Lake World under the ownership and management of organized farmers and workers of the Lake Region. In parting we wish to express our appreciation for the patronage of those who have stood by us during the 15 months that we have had control of the paper.

In a separate column on this page appears a list of the business men and firms that did not enter into the "gentleman's agreement" against The World. We urge our friends throughout the Lake Region to continue patronizing them in the future as they have in the past. They "stood by" us — and we should continue to "stand by" them.
