

BIG PROGRAM FOR STATE FED- ERATION MEET

Big preparations have been made for the entertainment of the State Federation in this city on Tuesday, Wednesday and Thursday of next week, and announcement has been made that everything is now in readiness for the big event.

The address of welcome will be delivered by Mrs. Henry Hale, president of the City Federation of Women's Clubs, and the response will be made by Mrs. James E. Rockwell of Fargo, director of the Women's Federation. Delegates will be welcomed by Dr. W. E. Hocking. All meetings will be presided over by Mrs. L. N. Cary of Mandan, state president, who will also deliver the annual address at the first meeting Tuesday morning.

All meetings will be held at the Presbyterian Church with the exception of the annual federation tea which will be held at the Grayson hotel. This will be held Tuesday evening, and will be followed by a Music Endowment Program at the church, which will be given under the direction of Mrs. Carl Nerhaugen.

Among the speakers, who will take a prominent part in the program will be Mrs. Eugene Fenelon, chairman, Mrs. J. E. Hunter of Cando, Mrs. T. N. Yeomans of Minot, Supt. of Public Instruction Minnie J. Nielson, Mrs. C. A. Conant, instructor in music at the Devils Lake schools, Dr. Robert Olson of Grand Forks, who is connected with the United States Public Health Service, Dr. C. A. Prosser, director of the Dunwoody Institute in Minneapolis, Mrs. Frances E. Whitely of Webster City, Iowa, general federation chairman, C. L. Young of Bismarck, member of the Children's Code Commission, Mrs. J. A. Jardine of Fargo, Mrs. Florence Hedstrom Morshach of Valley City, Dr. Thos. Smith of Langdon, state chairman of the Oral Hygiene Commission of the Dental Association, Miss Grace Abbott of Washington, D. C., director of the Children's Bureau, Wm. Hodgson of Minneapolis, director of the Minnesota Children's Bureau, and others.

HISTORICAL EXHIBIT AT FEDERATION MEET

A unique feature of general interest to all Lake Region residents, especially the pioneers, in connection with the meetings next Tuesday, Wednesday, and Thursday, of the State Federation of Women's Clubs, will be an historical exhibit of family and personal heirlooms, curios, and articles illustrative of the early history of this region.

Many of these relics are of priceless value having been handed down from generation to generation, and are mute reminders of the privations and struggles, and early achievements of loved ones who have long since gone before.

Among the valuable articles to be loaned the exhibit which will be held at the library of the Presbyterian Church, are books, lace, jewelry, pictures, costumes, embroideries, spinning wheels, candles, and an exceptionally fine collection of beads and Indian handicraft kindly loaned by Mrs. John Haslam of Fort Totten.

The committee in charge are Mrs. A. M. Powell, Mrs. C. W. Kelly, and Mrs. E. W. Cunningham, who will be glad to receive loaned articles for the exhibit. They will be displayed to the best advantage and safely returned to the owners.

The committee requests that in honor of the Federation, the merchants of our city decorate their windows during next week for the instruction and entertainment of the delegates and general public. They suggest that relics and pictures of the Dakotas be shown, each window to present rather a complete story of Indian or pioneer life, and war windows of the Civil, Spanish and World Wars, and other windows devoted to pictures of early settlers, their homes, and the public institutions of the early territorial and state history. Relics brought from foreign shores, and the early American colonies will reveal the wide diversity of places from which the original settlers of Devils Lake and vicinity gathered themselves.

Mrs. I. Glerum has returned from a visit at Tower City and Fargo, where she went after attending the state convention of the American Legion Auxiliary held at Valley City last week.

Mrs. L. M. Ellis is enjoying a visit from her old school friend, Miss Matthews of Glendale, Cal., who arrived here last week for a week's stay at the Ellis home.

Dr. Romig Moves In From Farm

Dr. H. G. Romig and family, who resided during the summer on their farm south of the city between here and Lakewood, have broken up house-keeping there, and have moved to their residence on seventh street which has just been remodeled and enlarged. The automatic water system which the doctor had installed at his residence recently is working fine. A well on his place has been producing as good drinking water as there is to be found in the city, and to this Mr. Romig had connected a pressure tank with an automatic pump which keeps the pressure up at all times of the day and night, and keeps running water in all parts of his residence. The system is working so well that others are planning on installing the same thing in order to get away from using the city water which is undesirable for many purposes.

KIWANIS GLEE CLUB TO MEET NEXT FRIDAY

At the regular noon luncheon of the Kiwanis Club on Tuesday of this week Rev. Geo. Loftness announced that up to the present time none of the singing members had volunteered to join a glee club which was being promoted, and that he was calling a meeting of all those whom he knew could sing for Friday of this week when the club will organize and hold regular rehearsals.

A communication was read by Chairman Bert Baldwin from the Boy Scout organization asking that Kiwanis Club members allow their employees time off to attend a school for scout leaders held each Friday.

C. J. Kelly announced that it was just about time for the Kiwanis Club to look for a place for a skating rink this winter, and suggested that the vacant lot on Fourth street between Missouri avenue and Pal be leveled off before the ground froze, and be flooded later. He also advised the club that J. J. Burtcher was planning on putting up a new building on his lot on Minnewaukan avenue, and was willing to give the old frame building to the boys if they would move it off the property at no expense to him. Mr. Kelly suggested that the building be accepted and moved onto the lots mentioned above and be used there by the skaters. The building could be cut in two, and one part used by the girls and the other by the boys. The idea seemed to be met with much favor by the club members and a committee will be appointed to look into it further.

45 in Boy Scout Training Class

The training school for the leaders of the Boy Scouts opened last Friday evening at the rooms of the Civic & Commerce Association with 45 enrolled members, all of whom were very enthusiastic over the work. Scout Executive Leonard D. Fackler, had charge of the class, and at the first session outlined the work which will be carried out.

Members of Class
The members of the school thus far, who have become enrolled and most of whom have already taken the Scout oath, are: Mrs. D. L. Stewart, Mrs. Fannie Alderson, Dr. C. J. McGurran, R. R. Boyd, L. A. Heustis, Ralph Heustis, Fred P. Mann, Jr., Mrs. E. W. Cunningham, A. V. Haig, Harry Kneeshaw, Mrs. F. P. Mann, sr., Dr. W. K. Moeller, F. L. Kneeshaw, Rae Kneeshaw, H. M. Bekken, Mrs. J. J. Puhl, E. W. Cunningham, John Cowan, S. L. Serene, John Axtman, Judge Swenson, G. W. McDonnell, Louis Johnson, Rev. Loftness, C. J. Kelly, Mrs. Harry Kneeshaw, Miss Margaret Riordan, F. J. Traynor, Torges Sinness, I. A. Anderson, Dr. W. F. Sihler, H. J. Hugelen of Warwick, Prof. Edgar Dale of Webster, J. D. Stenson, Rev. Benjamin Babcock, Howard Latham, Mr. Magnese, Max Kruger, Olaf Peterson George Crook and E. D. Klinkhammer of Warwick.

Officers of Troops
Officers of the troops, elected Friday are President, Rev. J. O. Loftness; scribe, Judge H. W. Swenson; treasurer, Dr. W. F. Sihler; patrol leaders: tiger patrol, S. L. Serene; Owl patrol, George Crook; hawk patrol, J. D. Stenson. The senior patrol leader and bugler will be chosen later.

A new grain separator owned by Jim Hunter and H. F. Maney, was entirely destroyed by fire on Friday evening of last week at the Hunter farm in Grand Harbor township. The separator had been used for threshing during the season, and at the close of the season's run had been hauled to the Hunter farm where it had been planned to build a shed over it before winter set in. Before the shed was built it was destroyed. The origin of the fire is unknown.

COBB CHECKS TO BE WORTH MORE THAN REAL CASH

Farmers in the famous Lake region will be receiving one cent per pound more for their cream and poultry at the Cobb plant next Saturday than the farmers will at any other place in the state on same day, and we opine that hundreds of farmers will drive here from long distances to take advantage of the special price which is offered for this one day only.

In order to bring as many farmers as possible to Devils Lake Saturday for the purpose of attending a dairy meeting to be held that day, and for the further purpose of advertising the National Dairy Exposition to be held at the Minnesota State Fair Grounds during the week of October 7 to 14, Manager Hefte of the Cobb plant decided to put on a new and novel stunt that is bound to prove a winner. Practically all of the business men of Devils Lake are behind Mr. Hefte in his offer, and in order to make the stunt even more attractive are offering to accept checks issued by the Cobb plant on Saturday and pay the farmer an additional cent per pound for his produce, provided he trades out the entire amount of the check in Devils Lake. This gives the farmer not only more money for his cream or poultry by bringing it to Devils Lake, but gives him a chance to get more merchandise for his check here than he would be able to get anywhere else.

The only reservation made by the Cobb plant is that the farmer bring the cream or poultry to Devils Lake in person on Saturday. No premium will be paid for cream or poultry that is shipped in on that day.

A full page ad in this issue of The World gives the details of the offer, and also gives a list of the stores in the city where the Cobb checks will be worth more than the amount of cash they present.

Prominent Salva- tion Army Man Con- ducts Services Here

Col. W. S. Baker, divisional commander of the Salvation Army, for the northern division, conducted services at the Salvation Army hall in Devils Lake last Sunday. The colonel directed all of the affairs of the Salvation Army in France during the war. He was accompanied here by Staff Captain Stretton, the divisional secretary.

Anten Marshall, who during the past few years had been working the John Sieverson farm six miles north-east of Penn, will dispose of his live stock and farming equipment at public auction on Wednesday of next week, after which he intends to engage in some other line of work. The property to be sold consists of six head of heavy work horses, 11 head of cattle, a complete line of farming machinery, and household goods. While ordering his auction posters printed Mr. Marshall told us that he had his threshing completed, but would be compelled to wait here for a time after his sale in order to haul his grain. At the present time the elevators at Penn are filled to the brim, and cannot accept any more grain until they are able to get cars to ship some out.

W. F. Mobray and wife of near Maza drove to Devils Lake on Saturday of last week for the purpose of doing some shopping, and while here Mr. Mobray dropped into The World office to get acquainted. He told us he had finished threshing on his own place, and that all of the threshing in his neighborhood would be completed by the middle of this week. Wheat there went all the way from 16 to 24 bushels to the acre, which yield none of the farmers were kicking about, but what was causing discontent right now was the price at which the grain must be sold. Mr. Mobray raises some live stock and poultry, and told us that were it not for this side line he would have a hard job making ends meet out of what the grain will bring him this year.

State Printer, E. M. Cray arrived here last week from Bismarck to spend a short time with his family, and at the same time look after his farming operations in Ramsey county. Mr. Cray owns quite a large amount of land here, and in talking to The World told us that it didn't seem to make much difference how large a crop of grain was raised, the expenses seemed to be just high enough so there was no profit left for the land owner at the end of the season. Mr. Cray's land produced a grain crop this season which was above the average, but he is still figuring out where the interest on his investment is coming from.

Bertsch to Dis- continue Farming

Peter M. Bertsch, who has been farming during the past three years in the vicinity of Devils Lake, and during the past two years worked the F. H. Hyland farm four miles west of the city, has decided to discontinue farm work, and will on Thursday of next week dispose of his entire farm equipment at public auction, after which he will move to the city to live during the winter. He has not fully made up his mind what he will go into after cleaning up his personal property. His live stock and farm equipment is very desirable, and should be in big demand by farmers who want the best. The sale will be cried by Auctioneers F. H. Hyland and Orval A. Jones.

CHURCHES FERRY MAN DIES WHEN PLANE FALLS

Lieutenant Herbert V. Hanson, son of H. C. Hanson, president of the First National Bank of Churches Ferry, was killed last Saturday at Baltimore, Md., when an airplane in which the deceased was riding fell to the ground from an elevation of 100 feet. Deceased was 28 years old, and spent his boyhood days in Churches Ferry. He was a student at the University of Minnesota at the time the World war broke out, and he left his studies to enlist in the Marine corps. In a short time he was promoted to the position of lieutenant, and at the time the war was over he was stationed at Santiago, where he entered the aviation service. He is survived by his father, his mother, a brother, Ivan Hanson in Minnesota, a sister, Miss Helen Hanson, who teaches school at Eglendale, N. D., and a younger brother at home. He was an usually bright young man, and was very popular among all who knew him.

REDUCED FARE FOR DAIRY SHOW

Pre-war railroad rates will apply to the National Dairy Exposition, October 7-14, at the Twin Cities. An open Passenger Association from all points in Minnesota, Wisconsin and North Dakota, from all points in the Northern Peninsula of Michigan, all of South Dakota east of the Missouri River, eastern Montana and the part of Iowa, on and of The C. & N. W. Ry., Clinton to Missouri Valley. Tickets at the rate of one and one-third fares will be on sale October 5 to 13 inclusive, with a final return limit of October 16th and minimum excursion fare of \$1.00. Half fare will apply to children. These are the lowest rates granted by the railroads since before the war and it is believed by Col. W. E. Skinner, General Manager of the Exposition, that the announcement will speed up the organization of large delegations to the 1922 Exposition at St. Paul and Minneapolis.

J. O. BAUGHMAN

J. O. Baughman, pioneer resident of Devils Lake, died at his home in Philadelphia, Wednesday night.

He came to this city in 1892 was for many years, owner of the Sevilla hotel. He started the platting of Greenwood at the lake. In 1909 Mr. Baughman moved to Philadelphia, where he has made his home since. He is survived by his wife, and two children, Mrs. Robert Collinson, of Devils Lake and J. S. Baughman of Philadelphia. The family were all present when he died.

MANY STUDENTS SEEK JOBS

Grand Forks, N. D.,—More than 100 requests for employment by prospective students at the state university have been received by the commercial club employment bureau which is canvassing the city to ascertain what positions are available. Every business firm is being visited and urged to employ students wherever possible.

FRANK WALTERS

Frank Walters, a brother of Alois and Valentine Walters of this city, died at his home at Oshkosh, Wis., Sunday, and the remains will be shipped to Devils Lake for burial. Funeral services will be conducted from the Rutten church, where the father and a sister of the deceased are buried.

Sheriff Ed Elliott went to Minot yesterday morning to look after official business that required his attention.

Mrs. H. M. Creel left Monday evening for Baltimore, Md., where she will spend some time in visiting with relatives and old friends.

THRESHING TO BE COMPLETED IN FOUR DAYS

Another four days of favorable weather will see practically all of the threshing in Ramsey county completed. The threshing in the vicinity of Devils Lake and along the main line of the Great Northern was finished several days ago, but in the north end of the county where there are fewer threshing machines, and where more of the land is cropped it will take a few days longer. Some of the rigs even in the north end of the county are on their last jobs and will pull in for the season this week.

Since the ten days of rain during the fore part of the month the finest weather has been enjoyed by the threshers, and as each day passed the acreage cleaned up was unusually large.

Many elevators in the Lake region were filled as soon as threshing started in earnest, and have been unable to accept any more grain until they are able to get cars in which to ship same out. There is a shortage of cars that is felt all over the lake region, and many farmers who have finished threshing and want to sell some of their grain in order to pay some of their obligations are unable to do so.

H. D. Michell, charged with having swindled residents of McHenry and Ramsey counties out of about \$70,000 on Oklahoma oil leases which U. S. District Atty. M. A. Hildreth holds to be spurious, was held for trial in U. S. district court on a charge of using the mails to defraud, when arranged before Judge Chas. F. Amidon Saturday. He was released on \$5,000 bonds. Mitchell, arrested in Oklahoma, fought extradition bitterly, taking the case to the court of appeals, where he was defeated. His case will come up for trial in November or December. He was brought to Fargo Saturday by an Oklahoma marshal.

Among the prominent young people who have left and are leaving, to attend school, are the following: Miss Betty Selover, who has gone to attend the Art Institute in Chicago; Miss Harriett O'Brien, who has entered the University of Minnesota; The Misses Mildred and Adeline Brainerd who take up their work at the A. C. in Fargo, this week; Miss Fern Haggen, who left for Grand Forks, where she will be a Sophomore at the "U."

Election officers took place at the meeting of the Catholic Foresters in the church parlors Wednesday evening. Those elected were: Court deputy, J. A. Cowan; Chief ranger, Fred Degendorfer; vice Chief ranger, Fred Bowers; financial secretary, John Seiberlich; recording secretary, Geo. Rottier; treasurer, Felix Rottier; speaker, A. J. McDonald; trustees, Fred Duft, and Frank Burkhardt. Installation of officers will take place at the first meeting in October.

GROWS TOBACCO IN N. D.

Crosby, N. D., Sept. 27.—Tobacco, a product rarely raised in North Dakota, has been grown this year to a considerable degree of success by G. Lipke of Crosby. The local man is only experimenting with the crop, but states that he believes the product can be grown in northwestern North Dakota at a profit.

R. E. Rognas and Ingboel Hoel drove to Rolette Sunday to spend the day hunting as guests at the A. D. Williams home. From Rolette they were accompanied by Mrs. Rognas, who was visiting with friends in that city at the time.

N. A. Robertson left last Saturday evening for Mudbaden, Minn., where he will take treatments for rheumatism at the Sanatorium during the next three weeks. During his absence Mrs. Robertson will visit with her daughter at Breckenridge, Minn.

Miss Ruth Blackey returned to Minot on Wednesday, having visited her parents, Mr. and Mrs. H. B. Blackey for a few days and attended the graduation exercises and alumnae reunion for the General hospital nurses this week.

Auction Sale Friday, October 6th, on the Tufford farm 6 1/2 miles northwest of Devils Lake. Horses, cattle, farm machinery, household goods, tractor, threshing machine.

Mr. and Mrs. A. E. Iverson are the proud parents of a bright baby girl born to them yesterday morning at the Mercy hospital.

Benjamin Scroggs left last Monday for Grand Forks where he will attend the University during the coming winter.

Mr. and Mrs. Jos. Kelly were business visitors in Fargo last week.

IS A CRIME TO BURN STRAW PILES

Starkweather, N. D., Sept. 25.

To The Devils Lake World:
Would it not be a wise thing to suggest to the farmers of the Lake Region through your valuable paper that they desist from the senseless practice of burning straw. In our farming operations covering more than 1800 acres in Ramsey county, we have not burned any straw in 15 years, realizing that the day is not far away when we will be buying the very elements for soil fertility that so many now thoughtlessly burn. But I am thinking of the fuel question as it may develop next winter. True, wheat straw does not make ideal fuel, but should it develop that neither wood nor coal could be purchased at times when the thermometer hovers below zero next winter, with even wheat straw it might be possible to keep from freezing. In the early years of this country many burned straw for fuel.

Very truly,
O. P. N. Anderson.

Prominent Dairy- man Speaks Here

Forest Henry of Dover, Minn., a prominent farmer and dairyman of over 30 years' experience, and who is now employed in the publicity department of the National Dairy Exposition to be held at the Minnesota state fair grounds during the week of October 7 to 14, was a visitor in Devils Lake this forenoon and was prevailed upon to give a short talk to the business men of the city at the rooms of the Civic and Commerce Association.

Mr. Henry went into the dairy business in Minnesota when this vocation was in its infancy, and has watched the industry grow until now dairying is one of the largest money making lines listed in that state. He knows from experience why some farmers made a huge success of this industry while others did not do so well at the start, but in his talk here told us that it was not necessary for farmers to take any risk in diversifying, as it was no longer an experiment.

He advised against buying high class registered cattle to begin with for the reason that it takes an experienced dairymen to properly care for the higher grade of cattle. Instead he said that the average farmer would be much better off in buying a registered dairy sire of the breed he intends to go into, and work his grade cows up so as to make them big producers. This will take more time, but has proven the most satisfactory. The best sires may now be purchased for about one-fourth of what they sold at during normal times, and now would be a good time for farmers to get started.

The business men of the cities of the Northwest must first take an interest in dairying and boost for it before the farmer gets interested, according to Mr. Henry, and probably the quickest way to interest the farmer in this industry right now would be to send as many people as possible from each community to the National Dairy Exposition. No argument will have nearly as much effect on the farmer or business man to boost for dairying as the national show will.

From here Mr. Henry went to Granville, where he delivers another talk tonight.

Mr. and Mrs. Andrew Grasser and daughters Miss Theresa and Mrs. James Orchard and children left this afternoon by car for Finley, N. D., where they will spend a short time visiting at the home of Mrs. J. O'Rourke.

"Prosperity Follows the Dairy Cow" GRAIN FARMING EXCLUSIVELY IS PASSED

You've harvested a big crop this year and yet YOU, HAVE MADE NO MONEY. It is high time that you study the diversified farming game, which means MORE AND BETTER DAIRY COWS combined with small grain growing.

FOR YOUR POCKETBOOK'S SAKE ATTEND THE Sixteenth Annual National Dairy Exposition —To Be Held—

October 7 to 14, State Fair Grounds
You can learn more about dairying at this show in a few days than you could learn at home in five years.
YOU MUST GET INTO THE GAME—WHY NOT START EARLY AND START RIGHT

Get up a party and make it a real trip
One and one-third round trip fare on all railroads

APPOINTMENT OF FRED SCOTT IS COFIRMED

The appointment of Fred Scott to the position of postmaster of Devils Lake which was made several weeks ago by President Harding, has been confirmed by the U. S. Senate, and hereafter Mr. Scott will be a full fledged postmaster. Up until the present time he had been acting postmaster. His term of office started on Sept. 12, and runs for four years.

We believe that the appointment of Mr. Scott to this position will meet with the approval of a big majority of the patrons of the office here. He served as assistant postmaster during the administration of Mrs. Bloom, and after her resignation has had charge of the office as acting postmaster.

It is doubtful if there is a man in the city that is better qualified for the position than Mr. Scott is. He has been connected with the Devils Lake postoffice since 1906, and has been employed in every department of the office. He started in as clerk and worked himself up to the position of assistant postmaster, which place he held until the resignation of Mrs. Bloom on March 1, 1921. He is very accommodating at all times, and has the reputation of going much out of his way in order to give his patrons the best of service.

The appointment and its confirmation were made as a result of the examination held on June 13, 1922, at which several local men were examined, and at which examination Mr. Scott received the highest standing.

Parent-Teachers Approve of Cur- few Ordinance

At a recent meeting of the Parent-Teachers Club of Devils Lake a resolution was adopted asking the city commission to strictly enforce the curfew ordinance during the school term, and copy of same was mailed to the city fathers. Since the passing of the resolution no meeting of the city commissioners has been held, and no action has been taken, but the ordinance is in full force and effect, and there is no reason why it should not be enforced.

Following is the resolution passed: "We, the parents and teachers of the Parent-Teacher Club of the Washington School of the City of Devils Lake, do hereby approve of the principle of the curfew law and ask the city authorities to strictly enforce such curfew law in the city of Devils Lake and we do hereby assure to the said city authorities the hearty cooperation of the parents and teachers of this club in the enforcement thereof."

MRS. ANNA TOLLEFSON
Mrs. Anna Tollefson, 80 years old, passed away on Wednesday night of last week at the home of her daughter, Mrs. Vivian Halverson near Penn. The deceased had been making her home with her daughter for a number of years, and was quite well known in that vicinity. She lived a long and useful life. Funeral services were held from the Norwegian Lutheran church last Saturday afternoon at two o'clock.

A. V. Haig, Fred Mann and William Bryant left last Sunday evening for Minneapolis for the purpose of attending the laying of the cornerstone of the Shrine hospital for crippled children, which takes place this week.
