

N. P. LINDBERG, RUGBY FLORIST, DIES UNDER CAR

Nels P. Lindberg of Rugby was instantly killed and Mrs. Lindberg is at a local hospital suffering from injuries sustained in an accident five miles south of Church's Ferry at 7 o'clock last Thursday evening, when their car turned turtle in the ditch, pinning the man underneath, and hurling the woman some distance free of the car.

Russell Speer and Howard George of Grand Forks on their way to Church's Ferry arrived on the scene of the accident a few minutes after it happened, but were unable to lift the heavy car under the hind wheel of which Mr. Lindberg was pinned. The woman had regained consciousness and did not know how the accident occurred other than that the steering wheel had given trouble earlier in the day. When another car came along a few minutes the men were able to lift the automobile but Mr. Lindberg was already dead. An ambulance was called from Devils Lake, which brought the woman and her dead husband to this city.

Mr. and Mrs. Lindberg had made the trip to Devils Lake from Rugby with some flowers for the funeral of a friend, and these flowers were found scattered about the scene of the accident.

Mr. Lindberg was one of the leading florists of central North Dakota, and was widely known in business and fraternal circles. He was a member of the Masonic lodge of Grand Forks, had taken the 32nd degree, and was a member of the Kem Temple Shrine. Besides his wife he leaves two daughters, one married and living at Rugby.

CLUB WOMEN END SESSION THURS- DAY EVENING

The very interesting programs held here from Monday until Thursday evening of last week by the Women's Federated Clubs came to an end on Thursday evening of last week. The place for holding the next convention has not been set.

Among the subjects considered at the conference were: a children's code to safeguard the health and welfare of the children of the state; preservation of historical documents and landmarks; appreciation of the state's natural beauties and the fact that there is in the North Dakota prairies a distinctive beauty; the elimination of illiteracy; child welfare in various phases; spreading of information in regard to America's immigration problem with the view of helping to frame a constructive permanent immigration policy; the development of the cultural side of life in art, music and literature.

NEGRESS GETS SIX MONTHS FOR SELLING BOOZE

Mrs. Juneatta Rivers, a negress, was sentenced to six months in the county jail and assessed a fine of \$200 and \$13.00 costs by District Judge C. W. Buttz, after she had entered a plea of guilty to the charge of selling moonshine at her home on east 11th street. She was arrested last week.

Wm. Haggerty of near Jerusalem in Odessa township, was also given a jail term of six months and a fine of \$250 after he admitted manufacturing and selling moonshine. He had been doing business on Pete Anderson's farm, and was arrested last week by Deputy Sheriff Tom Hanson.

Mr. Anderson, who was arrested at the same time and is now under bonds has not yet decided to plead guilty, but may do so later.

RAMSEY COUNTY WELL REPRESENTED AT NATIONAL DAIRY EXPOSITION

Among those interested in dairying from Devils Lake and vicinity who have either left for the National Dairy Exposition being held this week at the Minnesota State Fair grounds, or expect to leave tonight are N. O. Hefte of the Cobb plant, Geo. Belcher, Howard Maher, Blanding Fisher, B. B. Mouch, Alfred Sorenson, County Agent A. M. Challey and E. W. Gilbertson. Many others residing in other parts of the county are also planning on being there. During their stay at the show the Devils Lake people are planning on visiting some of the big dairy farms in the vicinity of St. Paul, and Minneapolis, among them being the Arden farms owned by Senator J. M. Hackney and the modern dairy farm of John B. Irwin.

COUNTY TAXES BEING PAID

The county treasurer's office is now receiving a liberal stream of taxpayers, who are paying the second installment of their real estate taxes which will become delinquent on Oct. 15 unless paid before that date. The receipts issued thus far indicate that the taxes will be pretty well paid up before they become delinquent.

A five per cent penalty will be added to delinquent real estate taxes if not paid to Oct. 15, and additional penalty is assessed on delinquents for the second half payment on Nov. 1.

The annual tax sale will be held on the second Tuesday in December. Personal property taxes not paid by October 15, according to law, will be placed in the hands of the sheriff for collection.

14 NEW VOTERS FOR NEXT GENERAL ELECTION

At a naturalization hearing in Devils Lake on Wednesday of last week which was in charge of District Judge C. W. Buttz and Naturalization Examiner A. G. Carlson of St. Paul, the following Ramsey county residents were admitted to citizenship: Johannes Ebertz, Johan E. T. Mykelbust, Frank Dykhoff, Alexander G. Mason, Victor A. Major, William Thorp, Carl E. Christianson, Louis P. Simonson, Agnes J. Carlson, Tilpher E. Thompson, Carolina Danielson, Stein S. Johnson, and J. C. Johnson, the last named a returned soldier.

Two applicants, Frank Fraut and Valentine Stoppler, were refused admission to this hearing on account of their lack of knowledge in regard to the U. S. Government, and their cases were continued until the next hearing to permit them to learn more about civil affairs in this country.

A new federal act governing the naturalization of women was in effect at the time of this hearing, this being an act approved on Sept. 22, 1922, which provides that the marriage of an alien woman to an American citizen, or to an alien who may thereafter become a citizen, shall not confer American citizenship upon her. It is provided also that after the passage of said act a married woman who is otherwise eligible shall have the privilege of becoming naturalized on her own account.

Citizenship acquired by women thru their husbands by virtue of law in force prior to the passage of the act, is not affected by the new legislation.

The two principal classes of married women specifically referred to in this legislation, according to Clerk of Court Stenseth, are as follows: An alien woman marrying an American citizen after the passage of this act, or any woman who is naturalized after this act.

A woman who, before the passage of the act, was an American citizen and lost her United States citizenship by marriage to an alien.

Full information in regard to the new act may be obtained by those interested by applying to Clerk of Court Stenseth at the court house.

Many People Attend Bargain Day

The Lake Region Bargain Day advertised yesterday under auspices of the Kiwanis club in a special edition of the World issued last week brought a large number of people from long distances, and the business men of the city enjoyed a heavy trade during the afternoon. The nice weather however kept many at home at work, who had planned on coming. The free auction sale was well attended, and everything brought was disposed of at a good price. In fact there were too many buyers and not enough sellers on the ground to make this feature a big success. The free street dance in the evening at which the Devils Lake Concert Band furnished the music was especially interesting. Dancing started at nine o'clock on Kelly avenue between fourth and fifth streets, and a large number of people gathered to see the novel event. Corn meal was spread on the paving after it had been swept off clean, and dancing was enjoyed by the young folks for over an hour.

Boy Scout Officers Visit Lakota Monday

Fred J. Traynor, Judge H. W. Swenson, Torger Sinness, Scout Executive L. D. Fackler went to Lakota last Monday evening for the purpose of attending the opening meeting of the year of the scout troop there. Mr. Fackler conducted a model troop meeting, while the other members of the party from Devils Lake delivered short talks.

ADDITIONAL TAXES UPHELD

The supreme court of the state of North Dakota in a decision handed down one day last week upheld the school board of Devils Lake in levying additional taxes for the current school year, and interpreted the tax limitation law of 1921 on two points.

The law provides in one paragraph that although political subdivisions must limit taxes raised to one-third the amount levied in 1918, 1919 and 1920 school districts may increase the levy a total of 30 percent beyond this limitation. The next sentence provides that political subdivisions may increase the tax levy 25 per cent beyond the limitation upon vote of the people. The court holds that the last sentence applied also to school districts although they are not specifically named.

It was contended by J. A. Kramer, auditor of Ramsey county and appellant in the case, that the school board had not certified the increased tax levy to the auditor within the time provided by a previous law, which was July 20. The court held that since in tax limitation law there was no time designated within which the increased amount to be raised must be certified to the county auditor and since in this case it was certified in time for him to spread upon the books, the old law as to time did not apply.

The suit originated after voters of Devils Lake had approved the school board's proposal for an increase of \$17,000 in the tax levy, which the court found to be within the 25 per cent increase permitted.

BURTSCHER TO BUILD BRICK BLOCK AT ONCE

J. J. Burtcher tells The World that this is his last week in the tailor business in his old building on Kelly avenue, and that the structure has been sold to O. E. Greenleaf, who will move it onto other lots immediately. As soon as the building is moved Mr. Burtcher will start excavating for a new one story structure 19x75 feet to be constructed of pressed brick. It will have a full basement, and will be ready for occupancy by the first of the year. The new building has been leased for a term of five years to the Home Candy Kitchen. After the old building is moved Mr. Burtcher may be found in the office of the Northern Land & Loan Co. in the Great Northern Hotel building where he has rented desk room, and from which place he will look after business matters requiring his attention. He expects to leave for California where he will make his future home.

Church's Ferry Sun Is 36 Years Old

The Church's Ferry Sun, one of the oldest newspapers in Ramsey county, was 36 years old last week. During its long existence, it never missed a single issue, and changed hands only three times. The paper was established on October 9, 1886 by S. A. Nye, who continued as its editor and publisher until January 1890, when it was turned over to G. C. Chambers, whose name appeared at the helm until April 1913, when Mr. Chambers died, and the paper turned over to his son, Tom In August of the same year, the present editor C. E. Harding, took charge, and has been the editor and publisher since that date. The Sun is one of the newest newspapers in this section of the state, and the publisher is justly proud of the confidence it has among its hundred of subscribers.

GEORGE MILLER

George Miller passed away at his home on Kelly avenue last Saturday morning at four o'clock after an illness of several months duration. He was 62 years old. Deceased had been a resident of Devils Lake since the year 1905, and during all of the time he resided here was connected with the Farmers Mill & Elevator Co. He was born at Epworth, Iowa.

The deceased is survived by his widow and one child, Mrs. Verma Veitch; a grand child, Miss Evelyn Veitch; three sisters, Mrs. George Dickinson and Mrs. Geo. Banton of Epworth, Iowa, and Mrs. J. H. Hoskins of Denver, Colo.; and a brother, Robert Miller of California.

Funeral services were held at two o'clock last Monday afternoon from the Miller residence on Kelly avenue, and interment was made in the G. A. R. cemetery. Pall bearers were M. P. Kelly, H. H. McDonald, Edward Ravenberg, Arthur Sinness, J. P. Smith and Charles Blazek.

In living learn and learning live. If you don't know how attend Mankato Commercial College, Mankato, Minn. Senr for catalog.

Mann's Speech By Radio Heard Here

Although Fred Mann of this city had talked into radio broadcasters a number of times during the past summer, it never happened that his talks were heard in Devils Lake until last Wednesday evening, when a talk he made at St. Louis, Mo., was heard very distinctly here at the Archie Miller radio at the Grand Theatre. A number of Devils Lake citizens were present and heard what Mr. Mann had to say. After the announcer had made a few remarks, Mr. Mann first greeted the people of Devils Lake, and the delivered a talk on the advertising and business methods. The same talk was also heard at the city hall by the Devils Lake Radio Club. This is the first time in history of the city that local people heard one of their own citizens talk to them half way across the continent.

Effect of Manure Is Felt for Nine Years

Yields of corn and grain have been increased from 10 to 100 percent with a consequent decrease in cost of production through the use of manure on farms of the America & Sharon Land Company during the past nine years, according to A. E. Cure, farm superintendent for the company.

"In 1913 one-half of an eighty-five acre field was well manured," relates Mr. Cure. "The entire field was fall plowed and from then on handled the same. In 1914 corn was planted on the entire field and the manured part yielded fifteen bushels more corn to the acre than the unmanured part. In 1915 the entire field was sown to barley and manured part yielded nine bushels more to the acre than the unmanured part. In 1916 the manured part of the field yielded five bushels more of wheat to the acre than the unmanured part. The crops even up to the present time show up better on the manured part of the field than on the unmanured, although no manure has been placed on the field since 1913.

"Section 25 was the home farm of America and Sharon Land Company and has always been manured. All the manure from the horse barn has been spread on this farm and in addition the manure from the sheep barn, where from two to six thousand sheep were fed every winter for a number of years. For the past eight or ten years from 150 to 250 ewes have been kept on the farm. The sheep were sold two years ago and at the present time about one hundred head of cattle are handled. In 1917 a carload of heifers was purchased on the South St. Paul market. This carload consisted of 27 head of common cows showing shorthorn breeding. In 1918 an additional 18 head were purchased at South St. Paul. A first-class Shorthorn bull is used and the steer calves for the market as two-year olds. The heifer calves have been kept to increase the herd and they have just started to cull out the females, two of the poorest being sold last year. Several cows have been sold from the herd as milk cows, two of them bringing \$90 each last year.

In 1921 the corn crop on Section 25 yielded 60 bushels to the acre. In 1922 the average wheat yield on this farm was 25 bushels, the average yield of barley was 50 bushels and of oats, 80 bushels. We have a good corn crop on the farm this year, although it has not yet been harvested. However, a good crop of silage is being put up.

"The yields this year on this farm are no doubt more than double the yields on other company farms where the crop rotation practiced is little, if any, different. Possibly a little better farming has been practiced on this farm, but no better than should be practiced on every Cass County farm. The practice of packing the soil after the plow in the fall has been followed for a good many years and early fall plowing has been practiced wherever possible. This has resulted in much wild oats and other weeds such as pigeon grass being killed out. The farm is very clean, being practically free from wild oats, pigeon grass and other noxious weeds. The land is giving a light discing as early as possible in the spring followed by lots of harrowing, the land being harrowed four or five times in the spring before the crop is sown."

Negress Bound Over For Selling Booze

Mrs. R. W. Rivers, a colored damsel, who resides 203 West 5th St, was taken in custody last week by Deputy Sheriff Tom Hanson and policeman Ted West after a complaint had been made against her charging her with selling booze. On being taken before Acting Police Magistrate Parshall she waived examination, and was bound over to the district court. Her bond was placed at \$500.

OLD RESIDENT DIES SUNDAY

Mrs. J. J. Burtcher a resident of Devils Lake during the past 25 years, passed away at her home on School avenue last Sunday evening. She was 64 years old, was of a kind and loving disposition, and was held in the highest of esteem by all who knew her. She was a native of Scotland, but immigrated to the United States when quite young and grew to womanhood at River Falls, Wis. For a time after her marriage she resided at Superior, Wis., before moving to this city.

Deceased is survived by her husband and three sisters. Mrs. C. P. Hunt and Mrs. Angus Cameron both of Superior, Wis., and H. D. Ball of Grand Forks.

The funeral services were held at the Presbyterian church yesterday afternoon at three o'clock, the Rev. P. H. Cass officiating, and interment was made at the G. A. R. Cemetery. Pall bearers were J. M. Thompson, Martin Hovde, Mr. Rodenbach, M. J. Belcher, Alex. Elmslie, and L. Hanson.

Training Class Hike to Lake

After the over-night hike of the Scout Leader's Training Class last Friday evening to Chautauqua, the sessions of the school will resume their indoor work Friday evening of this week at the Civic and Commerce rooms at 7:45 sharp.

According to Scout Executive Leonard D. Fackler, director of the course something new will be given at the session this week. New Scout games will be introduced, and the First Aid work of the Second Class Scout will be explained. This will be taken up by Dr. W. F. Sihler, who will give the theoretical part, Miss Elsie Stenson, county nurse, who will demonstrate bandaging, and Rae Kneeshaw, who will demonstrate the one-man, two-man, and four-man stretcher carries.

In addition Tenderfoot examinations will be conducted, the compass work explained, and the Scout law will be discussed in full by Rev. J. O. Loftness.

The high interest in the work of this course is being maintained and a considerable number of those enrolled are thus far in line to receive certificates from the National Council for taking such work in a satisfactory manner.

The members of the class, who took part in the session last Friday night down at Chautauqua, all report a most pleasing and instructive time.

PRICES TOO LOW TO DUG SPUDS

While most of the farmers of the Lake Region who planted potatoes last spring harvested their crops during the past week, there are many others who have dug only enough for their own use, and are leaving the balance in the ground, as the market price is so low that it hardly pays for digging them. Unless there is a radical change in the potato market within the next few days a large amount of potatoes will be left in the ground to freeze. The low price does not seem to be entirely due to an over-production, but more to the lack of cars in which to ship them.

Edmore Man Injured In Threshing Accident

John Kavanagh of near Edmore was seriously injured while working on a threshing rig near Lawton, and came near losing his life. He was employed as separator man while the rig was threshing on the John Hastad farm west of Lawton, and the last he remembers was when he was watching a hot box at the blower into which he had just put in some grease. When he was picked up he was found to be suffering from a severe scalp wound, a dislocated shoulder, and many minor bruises. He is now at the Commercial Hotel at Lawton and is recovering nicely.

I. V. A. Organization Is Perfected Here

Theo. G. Nelson of Fargo, president of the Independent Voters Association, was in the city on Wednesday of last week, and during his visit here local members of the I. V. A. organized. Col. Joseph M. Kelly was elected chairman, and Mrs. A. B. Jackson, Secretary. Committees will be appointed immediately for the purpose of organizing Nestos-O'Connor clubs in all parts of the county. It is the intention of the local Independents to put up the hardest kind of a fight they know how between now and the general election, and put Ramsey county as far ahead as possible ahead of all other counties in the I. V. A. column.

BOUND OVER ON BOOZE CHARGES

Peter Anderson an Wm. Haggerty, both of Jerusalem were taken in custody last week, the former on the charge of selling moonshine, and the latter on the charge of making it and selling it to Anderson, Haggerty waived examination and was bound over to the district court, while Anderson demanded a hearing, and while on the stand admitted having made a sale of the forbidden drink, so was also held for trial. Both men were taken before Justice W. H. Wilson. Their bonds were fixed at \$1,000 each, and both furnished same at once, and were released from custody.

CANDIDATES ON STATE DEMOCRAT TICKET RETIRE

The November election, so far as state office candidates are concerned, will be clean cut as between those opposed to the Nonpartisan league and those who favor that organization.

That fact became patent when it was definitely announced that Charles Simon, nominated by the Democrats as a candidate for governor, and other candidate on the Democratic ticket nominated for offices for which the independents succeeded in nominating candidates in the Republican column, would withdraw.

Saturday was the last day on which petitions could be filed by candidates who seek nomination, or on which withdrawals could be filed.

League candidates who are nominated as individual candidates, and whose names will appear in the "individual nominations" column, were formally placed in the running Saturday when petitions were filed with the secretary of state at Bismarck.

Resignations that were filed Saturday by Mr. Simon include his own and those of W. P. Porterfield of Fargo, nominated by the Democrats for lieutenant governor, Mrs. L. W. Gammans, prominent for secretary of state; Isaac Hegge, nominated for state treasurer; R. E. Smith, nominated for congress in the First district, and John B. Fried, nominated for congress in the Second district.

D. J. O'Connell, Democratic nominee for attorney general, had previously withdrawn, while Nick Nelson, nominated for commissioner of agriculture, failed to file an expense account after the primary election and his name automatically went off the ballot by reason of that fact.

League candidates nominated by petition Saturday are Wm. Lemke for governor, Eric Bowman for lieutenant governor, P. A. Moeller for secretary of state, E. G. Larson for state treasurer, J. H. Ulrud for attorney general, and B. F. Baker for commissioner of agriculture.

Agreement Carried Out The withdrawal of the Democratic candidates is in accordance with the understanding that was arrived at as between the independents of Democratic faith and those of Republican faith, at the convention held in Jamestown last spring.

As a result of the retirement of the several Democratic candidates, there will be no "third candidates" in the field for any state office.

Independents will support candidates of independent faith who are nominated in the Republican column and those Democrats nominated for office in the Democratic column who have not withdrawn. In other words, all Democratic candidates for state office will receive support of the independents as will the independents in the Republican column.

RESERVATION HIGHWAY WOULD COST \$35,000

At the regular noon luncheon of the Kiwanis Club held yesterday C. O. Russell stated that Division State Highway Engineer Ludwigson, located here, had driven over the proposed highway between here and Fort Totten Sunday, and estimated that the cost of building same could be approximately \$35,000. The new proposed route which is practically the same as the one being used this summer since the grade was built across the lake would make the route about three miles shorter than the old one, and would make the distance from Devils Lake to Fort Totten 15 miles. Engineer Ludwigson made this preliminary survey at the request of the Kiwanis and Rotary Clubs of Devils Lake.

Mr. Ruddy of the Sun Oil Co., and representing the Marshall-Wiels Co., of Duluth in this territory, gave the members a very interesting talk on the history of the oil industry from the time oil was first taken out of the ground up until the present time.

C. O. Russell also suggested that the Kiwanis and Rotary Clubs unite in reorganizing the Commercial Club and make it a live organization with a paid secretary, and thereafter instead of the Kiwanis and the Rotary Clubs doing things, have the commercial club to the same with the united support of both clubs. This idea was well received, especially the suggestion that a good live secretary be employed.

Torger Sinness, who is on the committee to look after placing of signs on all roads leading to Devils Lake, reported that while his committee was about ready to put the signs up he thought it advisable to defer such action until next spring for two reasons. First because the red devils on the sign posts made good targets for hunters who happened to be coming home empty handed, and secondly because there will not be much tourist traffic through the north half of the state until next spring, and it would probably look better to put up the signs next spring in a fresh and new condition. If they were put up now it would almost be necessary to repaint them next spring. Secretary Hutchinson of the T. R. Trail Association stated that his association would be glad to register the red devil sign posts, and protect them the same as it did its own sign posts.

E. E. Mann, advertising manager of the Kiwanis edition of The World gotten out last week, reported that the gross income from the edition in advertising and extra copies of the paper sold was nearly \$1,100, but that the cost of getting it out had not yet been figured up, though this would be reported at the next meeting.

Legore to Sell Out and Move to Minnesota C. F. Legore of 12 miles northeast of the city was in town on Saturday of last week and made arrangements to hold a public sale of all his personal property, after which he will move to northern Minnesota to make his future home. He has engaged F. H. Hyland to cry the sale which will be held very soon. Mr. Legore has resided in this vicinity during the past seven years, and while he likes the Lake Region fine in every respect he made up his mind to move to the Lake of the Woods country where land is cheaper. He has some very desirable property both in live stock as well as farm machinery, and it would pay farmers to see what he has to offer before making purchase elsewhere.

OUT of every dollar paid to the cooperative creamery for butter, 90 cents returns to the dairy farmer.

No other business pays the producer such a high percentage of the market value of the product.

Mr. Business Man: Dairy farmers are not avoiding payments at banks and stores.
