

NERVE WORN KIDNEYS.

Doan's Kidney Pills make freedom from kidney trouble possible. They carry a kind of medication to the kidneys that brings a bright ray of hope to desperate cases.

Aching backs are eased. Hip, back, and joint pains overcome. Swelling of the limbs and dropsy signs vanish.

LOCK HAVEN, PA.—Mrs. L. W. AMMUNER, writes: "A few weeks ago I sent for a trial box of Doan's Kidney Pills for myself, and they did all they are said to do. My husband was kicked last fall

by a horse and badly hurt—his hip was fractured—and after he recovered he was in such misery that he could hardly walk, and to stoop caused him such distress that he thought he would have to quit work—also, it affected his bladder, and he was unable to make his water without so much distress. I insisted on his getting a box of your pills and trying them, so I went to Mason's Drug Store and got a box. The first box helped him so much that I got the second and also the third, and now he is entirely well."—Mrs. L. W. AMMUNER, Lock Haven, Pa.

DAIRY

Pastures Profitable.
From Farmers' Review: During our 40 years of experience we have used pastures and find them profitable. We find a cow to be a creature of education. If one dries off a heifer and lets her go dry for four or five months she will be inclined to repeat the habit. Most farmers depend wholly on pastures and make their calculations to use so many acres to a certain number of cows, and when the flush is over or a dry time comes their rations are curtailed, and hence the yield is shortened, and when a cow falls in her yield for a few days it is almost impossible to get her back to a normal yield again. A cow is simply a machine to be governed by a manager, and to be the most profitable she must have all she can eat and be taken good care of to do her best; hence, it is necessary absolutely to provide proper rations in case of short pastures to keep the machinery running profitably. This can be most economically done by providing silage for such emergencies or some succulent food such as alfalfa or sweet corn or green clover. The profit comes from the food used after a ration necessary to maintain the machinery and keep it in use; then whatever feed is used runs to profit and the yield is kept up much longer. We do not want to keep cows that are non-paying boarders for four or five months.—J. F. Converse, Jefferson County, New York.

HORTICULTURE

Hand Pollinating.
The Almighty created the vegetable kingdom, but he gave its dominion to man. To what extent this dominion has been given to him man himself has not yet realized. It is evident that he has the power of molding the vegetables of this kingdom to a most remarkable extent. Take for instance the sugar beet, which man found containing 5 per cent of sugar, and has molded it till it contains 15 per cent, sometimes 20 per cent. It may be even possible to do better than that. In our modern cabbage, the cauliflower and various kinds of turnips we find it almost impossible to recognize the original wild forms, so much have they been changed. As yet the work of man has been with a few plants. What about the thousands that his hand has not yet attempted to mold?

SUFFERING WOMEN.

Mrs. EMMA MITCHELL.

AMERICA is the land of nervous women. The great majority of nervous women are so because they are suffering from some form of female disease.

Mrs. Emma Mitchell, 520 Louisiana street, Indianapolis, Ind., writes: "Peruna has certainly been a blessing in disguise to me, for when I first began taking it for troubles peculiar to the sex and a generally worn out system, I had little faith.

"For the past five years I have rarely been without pain, but Peruna has changed all this, and in a very short time. I think I had only taken two bottles before I began to recuperate very quickly, and seven bottles made me well. I do not have headache or backache any more, and have some interest in life. I give all credit where it is due, and that is to Peruna.—Emma Mitchell.

By far the greatest number of female troubles are caused directly by catarrh.

Tired, Nervous, Aching, Trembling, Sleepless, Bloodless—Pe-ru-na Renovates, Regulates, Restores Many Prominent Women Endorse Pe-ru-na.

They are catarrh of the organ which is affected. These women despair of recovery. Female trouble is so common, so prevalent, that they accept it as almost inevitable. The greatest obstacle in the way of recovery is that they do not understand that it is catarrh which is the source of their illness. In female complaint, ninety-nine cases out of one hundred are nothing but catarrh. Peruna cures catarrh wherever located.

Chronic invalids who have languished for years on sick beds with some form of female disease begin to improve at once after beginning Dr. Hartman's treatment.

Among the many prominent women who recommend Peruna are:—Belva Lockwood, of Washington, D. C.; Mrs. Col. Hamilton, of Columbus, Ohio; Mrs. F. E. Warren, wife of U. S. Senator Warren, of Wyoming.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

The Strenuous Vacation.
Caterby—What are you doing in town? I thought you were living in the country, playing golf, ping-pong, tether ball and going to dances.

Peterkin—I am. But I have to come to town occasionally to get rested.—Detroit Free Press.

Do Your Feet Ache and Burn?
Shake into your shoes, Allen's Foot-Ease, a powder for the feet. It makes tight or new shoes feel easy. Cures Swollen, Hot, Sweating Feet, Corns and Bunions. At all Druggists and Shoe Stores, 25c. Sample sent FREE. Address Allen S. Olmsted, LeRoy, N. Y.

HIS EXCELLENT REASON.
Why He Would Rather Have Ears Than a Nose.

Robert is a bright little chap of five years. "We are the best of friends," said a neighbor, "and he often runs in to see me. He likes to have me read to him, and is particularly fond of Gelett Burgess' rhymes. The other day I happened to run across this little verse and took it to his home to read to him:

"I'd rather have fingers than toes,
I'd rather have ears than a nose,
And as to my hair
I'm glad it's all there,
I'll be awfully sad when it goes."

"I read no further than the second line.—"I'd rather have ears than a nose," when Robert burst out with—

"I wouldn't. I wouldn't rather have ears than a nose."

"Wondering what possible reason this small critic could possibly have for disagreeing so emphatically with his friend Mr. Burgess, I ventured to ask:

"Why is it, Robert, that you wouldn't rather have ears than a nose?"

"'Cause they're harder to wash."—Public Ledger.

A Good Story.
Frederika, Ia., July 13th.—Mr. A. S. Grover of this place tells an interesting story showing how sick people may regain their health if they will only be guided by the experience of others. He says:

"I had a very bad case of Kidney Trouble, which affected my urinary organs so that I had to get up every hour of the night. I could not retain my urine and my feet and limbs began to blot up. My weight was quickly running down.

After I had tried many things in vain, I began to use Dodd's Kidney Pills, a medicine which had cured some other very bad cases.

"This remedy has done wonders for me. I have gained eight pounds in two months. The blot has all gone from my feet and legs, and I don't have to get up at night. I took in all about ten boxes before I was all sound."

Those who suffer as did Mr. Grover can make no mistake in taking Dodd's Kidney Pills, for they are a safe, safe and permanent cure for all Kidney urinary disorders.

A beautiful woman enhances her charm if she can surround herself with an air of mystery.

Well Described.
"What is a trust?" asked the teacher.

"A trust," replied the newspaper man's boy, "is a subject for an editorial when there is nothing else to be discussed."—Chicago Post.

NO MORE SUFFERING
OF Dyspepsia or Indigestion.

MAN-GO-RUS WILL CURE YOU.
You don't have to wait weeks for relief, you get it at once. Purely vegetable. All druggists in Minneapolis and St. Paul handle it. Will send a sample free if you send your druggist's name. Price, 50c a box. M. J. GIBBS & Co., Wholesale Grocery and Drug Co., 22 and 24 1/2 St. Street, South, Minneapolis, Minn.

Terrible Case.
"They say Underwood baffled six physicians."
"Must have been a terrible case."
"It was. Although they took him to court they could never collect a cent."

Cole's Carbolic Salve
The Great Skin Remedy
Will stop the pain of burns and scalds at once and there will be no scar. Don't wait until someone gets burned but keep a box handy. 15 and 50 cents by all druggists.

FREE TO WOMEN!
PAXTINE TOILET
To prove the healing and cleansing power of Paxtine Toilet Antiseptic we will mail a large trial package with book of instructions absolutely free. This is not a tiny sample, but a large package, enough to convince anyone of its value. Women all over the country are praising Paxtine for what it has done in local treatment of female ills, curing all inflammation and discharges, wonderful as a cleansing vaginal douche, for sore throat, nasal catarrh, as a mouth wash and to remove tartar and whiten the teeth. Send today; a postal card will do.

Sold by druggists or sent postpaid by us, 50 cents, large box. Satisfaction guaranteed. THE PAXTINE CO., Boston, Mass. 216 Columbia Ave.

\$1,500 WORTH OF GOODS CAN BE GATHERED IN ONE YEAR FROM ONE SQUARE ROD OF
GINSENG
Fills larger profits than any other steadily advanced other plant. The market has steadily advanced during the past 10 years. The demand now greater than ever. Illustrated pamphlet telling how to grow and cultivate it sent upon receipt of fifty cents. Plants and seeds bought and sold.

THOMPSON'S EYE WASH
N. W. N. U. — NO. 25 — 2008

In the Ark.
It was during the first biweekly cakewalk in the ark.

The other animals had done their best.

Then the porcupine and his wife were seen coming down the line, doing an excruciatingly funny step.

"Isn't that a peach?" exclaimed Father Ape, who was one of the judges.

"I thought it was a prickly pair," responded the monkey, who immediately found it advisable to seek the highest perch in the vessel.—Baltimore American.

PATENTS.
List of Patents Issued Last Week to Northwestern Inventors.

David Allen, Maple Lake, Minn., belt punch; Nicholas Dreis, Hastings, Minn., scraper and grader; Harry Dryer, Medora, N. D., vehicle tongue; Matt Goss, Duluth, Minn., firearm; Samuel Hunt, Minneapolis, Minn., folding egg crate; Allan McGregor, Duluth, Minn., vehicle gear; Charlie Zillgitt, Lake City, Minn., spring wheel.

Lothrop & Johnson, patent lawyers, 311 and 312 Pioneer Press Bldg., St. Paul.

One Woman's View.
"I suppose you turned me down because of my poverty," said the impecunious youth who had just been handed the frosty mitt; "but you should remember that it is possible to have plenty of money and still be unhappy."

"True," replied she of the refrigerator men, "but I would rather be unhappy with money than without it."—Chicago News.

Not to Be Thought Of.
Housewife (to tramp)—If you saw that wood I will give you 10 cents.

Tramp—My dear woman, I would be happy to favor you, but you see if I did that job for 10 cents I would be prosecuted under the new anti-trust law for charging you less than I charge your neighbors.—Boston Commercial Bulletin.

This Will Interest Mothers.
Mother Gray's Sweet Powders for Children, used by Mother Gray, a nurse in Children's Home, New York. Cure Feverishness, Bad Stomach, Teething Disorders, move and regulate the bowels and destroy Worms. Sold by all Druggists, 25c. Sample FREE. Address A. S. Olmsted, LeRoy, N. Y.

Returned the Kiss.
"When I got to town to-day my old girl met me on the street and ran right up and kissed me."

"Oh, I see—and you kissed her back?"

"No; I kissed her sister. She's prettier."—Cincinnati Commercial Tribune.

If there is anything more annoying than callow youth it is imbecile age.

HAIR GROWTH

Promoted by Shampoos of Cuticura Soap

And Dressings of Cuticura the Great Skin Cure

Furthest, Sweetest, Most Effective Remedies for Skin, Scalp and Hair.

This treatment at once stops falling hair, removes crusts, scales and dandruff, destroys hair parasites, soothes irritated, itching surfaces, stimulates the hair-follicles, loosens the scalp skin, supplies the roots with energy and nourishment, and makes the hair grow upon a sweet, wholesome, healthy scalp when all else fails.

Millions of women now rely on Cuticura Soap assisted by Cuticura Ointment, the great skin cure, for preserving, purifying and beautifying the skin, for cleansing the scalp of crusts, scales and dandruff, and the stopping of falling hair, for softening, whitening and soothing red, rough and sore hands, for baby rashes, itchings and chaffings, for annoying irritations, or too free or offensive perspiration, for alleviating weaknesses, and many sensitive, anti-septic purposes which readily suggest themselves, as well as for all the purposes of the toilet and nursery.

Cuticura remedies are the standard skin cure and humor remedies of the world. Bathe the affected parts with hot water and Cuticura Soap, to cleanse the surface of crusts and scales and soften the thickened cuticle. Dry, without rubbing, and apply Cuticura Ointment freely to all itching, irritation and inflammation, and soothe and heal, and, lastly, in the severer forms, take Cuticura Resolvent, to cool and cleanse the blood. A single use is often sufficient to cure the most torturing, disgusting skin, scalp and blood humors, such as pimples, eruptions, itching eczema, when all else fails, from itching eczema.

A BARREN ISLAND TRANSFORMED INTO A PARADISE.

The Great Achievement of the St. Paul Health Commissioner.
When Dr. Ohage was appointed health commissioner of the city of St. Paul by Mayor Klefer, the doctor endeavored to demonstrate his appreciation of the appointment by making the city a present of Harriet Island. The people smiled, for Harriet Island was a barren sandbar in the Mississippi river, supposed to be always flooded in high water. It remained for the energetic doctor by his untiring labor and ingenuity to transform this waste into an enjoyable health resort frequented by thousands of rich and poor alike. The St. Paul public baths situated on Harriet Island are entitled to no small credit for the Saulty City's reputation as the healthiest city in the world, visited as they are by over a million people a year. To enlarge these baths and add many new features is the patriotic project of her citizens in their magnificent Summer Carnival held for the benefit of the public baths July 27th to Aug. 8th.

Excursion rates to St. Paul will be granted by all the railroads on July 28th and 30th, Aug. 3d and 5th.

A Domestic Mystery.
Hubby (walking the floor at 2 a. m.)—I'd just like to know why this baby persists in staying awake every night?

Wife—Really, I can't imagine. I never have any trouble in keeping him awake in the daytime.—New York Weekly.

Hall's Catarrh Cure
Is taken internally. Price, 75c.

No Danger of a Fall.
Sharpe—Yes, Parker invented the safest airship ever heard of.

Wheaton—But it refused to fly. You couldn't go up on it.

Sharpe—That's why I say it was the safest.—Philadelphia Record.

Pino's Cure is the best medicine we ever used for all affections of the throat and lungs.—W. O. EXELBY, Vaaburen, Ind., Feb. 10, 1904.

Real Thing.
"What game have you to-day?" asked the half-starved Eastern man, as he registered at an Arizona hotel.

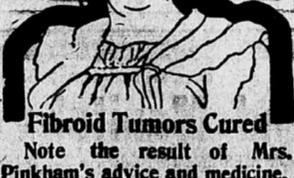

"Seven-up and poker, sir," replied the proprietor, as he extended the glad hand.—Chicago News.

To Cure a Cold in One Day.
Take Laxative Bromo Quinine Tablets. All druggists refund money if it fails to cure. 25c.

Sure Enough Degeneracy.
Of course, there are bare steins for the dolls, and they come in different styles in blue and gray, with and without covers, and in different sizes.—

Win's Soothing Syrup
For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

Pity the man who is unable to distinguish between his friends and his enemies.

Fibroid Tumors Cured
Note the result of Mrs. Pinkham's advice and medicine.

"Some time ago I wrote to you describing my symptoms and asked your advice. You replied, and I followed all your directions carefully, and today I am a well woman."

The use of Lydia E. Pinkham's Vegetable Compound entirely expelled the tumor and strengthened my whole system. I can walk miles now.

"Lydia E. Pinkham's Vegetable Compound is worth five dollars a drop. I advise all women who are afflicted with tumors or female troubles of any kind to give it a faithful trial."—(Signed) Mrs. E. E. HATZ, 232 Dudley St., (Roxbury) Boston, Mass. — \$5000 for trial of original of above letter proving genuineness of product.

Mountains of gold could not purchase such testimony or take the place of the health and happiness which Lydia E. Pinkham's Vegetable Compound brought to Mrs. Hayes.

Such testimony should be accepted by all women as convincing evidence that Lydia E. Pinkham's Vegetable Compound stands without a peer as a remedy for all the distressing ills of women; all ovarian troubles; tumors; inflammation; ulceration; falling and displacement of the womb; backache; irregular, suppressed or painful menstruation. Baring the volume and character of the testimonial letters we are daily receiving in the newspapers, our lives are made the best in the mind of fair women.

Selling Milk Exhausts Land.
From Farmers' Review: For the last seven years I have sold my milk at wholesale to the Boston contractors. Previously for a time I sold cream, and before that butter. I consider it now more advantageous for a farmer to sell cream if possible than any other method of disposing of his product. Next I prefer butter, the small additional price secured for selling whole milk is not sufficient to make up for the value of the skim milk to the farmer, both for feeding and fertilizing purposes. The milk producers of this vicinity have been shipping the fertility of their farms to Boston for years; hence there is a general complaint of worn out lands. I sell whole milk because I am obliged to, not because I prefer it.—J. B. Marcou, Worcester County, Massachusetts.

An Iowa Decision.
The Iowa courts have just decided a very interesting point in regard to oleo having a slightly yellow color. It has been asserted and believed that butter could be incorporated with oleo, thus giving it a color legally. Some oleo very slightly yellow was seized in Iowa and the sellers prosecuted. The oleo men argued that the little color in the butter did not come in as a result of artificial coloring. The prosecutors contended that it made no difference how it got there, as long as it was present. The judge and the jury took this view of it.

Night Pasturing.
From Farmers' Review: I have tried both the yarding and pasturing of cows in summer and have found out that our cows did a good deal better by letting them run at night, as they like to take a bite after milking and sometimes one can hear the bell-cow grazing as late as nine o'clock and later. If a farmer had a place to give them some feed, yarding would be all right, but otherwise they will give better returns by letting them run.—Fred Tachud, Green county, Wisconsin.

A Community Bull.
From Farmers' Review: I think the benefit to a community would be great, if the leading farmers that have dairy cows would combine and buy a first-class dairy bull to be used on their herds. He would soon pay for himself and the farmers would soon have some good cows. It would also be a good plan to make a change every two years.—James E. Gray, Clay county, Iowa.

Hand Pollinating.
The Almighty created the vegetable kingdom, but he gave its dominion to man. To what extent this dominion has been given to him man himself has not yet realized. It is evident that he has the power of molding the vegetables of this kingdom to a most remarkable extent. Take for instance the sugar beet, which man found containing 5 per cent of sugar, and has molded it till it contains 15 per cent, sometimes 20 per cent. It may be even possible to do better than that. In our modern cabbage, the cauliflower and various kinds of turnips we find it almost impossible to recognize the original wild forms, so much have they been changed. As yet the work of man has been with a few plants. What about the thousands that his hand has not yet attempted to mold?

There is much hope to be placed in the cross pollination of fruits—especially in the pollination that is done by hand, for in that way definite results are attained. The possibilities of this work are very great. Hardy and high quality fruits may be combined, even though it may take years to get results that will be a fair reward for the labor and time expended in obtaining them.

In hand-pollinating, the flowers must be well understood. The amateur will soon learn that the ovary is the receptacle in which the seed is formed, that the pistil is the central cylindrical portion, the female organ of the flower, that the stamens are the male organs of the flower, bearing knob-like bodies on their tops, in which is the pollen that is to fructify the ovary through the pistil. The petals and the sepals are of no consequence to the pollinator, as they are only for the protection of the organs of germination.

The pollinator selects a bud that is about to open, opens it with instruments and removes the stamens. This is to prevent the stamens fructifying the ovary. If taken before the flower is open none of the pollen will have escaped from the stamens, nor will the ovary have received pollen from any other source. It requires a little practice to remove the stamens without harming the pistil and ovary, especially if the flower is small, but it can be done. The petals are also frequently removed with the stamens, as they are of no particular value except to attract insects to assist in the work of pollination.

To get the pollen from another blossom is an easy task. A blossom should be selected that would open in a day or two. It is cut open and the anthers on top of the stamens removed. These are damp and are full of pollen. They should be spread on a paper and laid in the sun. When they are dry they will burst open and let out the pollen. This is applied to the other blossom by means of a fine brush, the pollen of course being placed in the stigma, which is the entrance to the ovary.

A sack of considerable size should then be placed over the fertilized blossom to prevent any other pollen getting into it. The sack should be removed after the fruit has set, and a bag of mosquito netting substituted. These will catch the fruit if it starts to drop and will be a means of identifying the crossed fruit at harvest time. A tag should be put with each pollinated fruit, giving the names of the varieties crossed.

The Strawberry Patch.
In locating a spot for a strawberry patch, bear in mind that the strawberry is a surface feeder, and, consequently, easily injured or killed by a surfeit of water or during severe drouth. The land should be well drained and one that has been previously planted to hoed crops, so that weeds will give as little trouble as possible. Plow the ground in the fall and again the spring, while in the meantime a liberal coat of barnyard manure should be given. After having plowed the plot it should be thoroughly cultivated and then rolled. It is then ready for marking out, which may be done in various ways, with whatever the planter has convenient for this purpose. The rows are usually placed about three and a half to four feet apart, and the plants 15 to 24 inches apart in the rows, according to the thriftiness of the variety or varieties grown. The choice of varieties is often a perplexing question, and can only be decided by actual test. Varieties that succeed well in some localities are entire failures in others. In fact, varieties will thus fluctuate on a single farm, according to the variation of the soil. If the intending grower has had no experience in selecting varieties, his only safe course is to choose those succeeding best with his neighbors, or such standard varieties as have a wide-spread reputation. Begin planting as early in the spring as possible, so as to get the benefit of the early rains, and thus give the plants a vigorous start. The plants should be well trimmed; all large or dead leaves removed, together with the tips of the roots, which will then branch out and take a firmer hold of the soil. Commence cultivation immediately after planting and continue it throughout the season, thereby keeping all weeds in check, conserving moisture in the soil, and confining the plants to their allotted space in the rows. All blossoms should be removed the first season, and also any runners that may make their appearance before the plants are in a vigorous condition to support them.—Arthur Pease.

of Cuticura Soap, for preserving, purifying and beautifying the skin, for cleansing the scalp of crusts, scales and dandruff, and the stopping of falling hair, for softening, whitening and soothing red, rough and sore hands, for baby rashes, itchings and chaffings, for annoying irritations, or too free or offensive perspiration, for alleviating weaknesses, and many sensitive, anti-septic purposes which readily suggest themselves, as well as for all the purposes of the toilet and nursery.
