## Silverwear Silverware

### ROCKFORD SILVERWARE

—Better than standard

Let us help you to make the selection of Silverware a pleasant task.

You, the woman, who delights in beautiful things for your table, must also buy silverware that is heavier than standard.

Cheap Silverware looks all right but in a few years it's gone because only a shell of silver was used in the making.

It's our business to know the inside of Silverware. We know the amount of silver each brand contains.

The jeweler alone knows this and we are only interested in seeing you buy that which will prove a permanent investment.

Sound alike, but spelled differently, and mean different things. When you buy don't go by the sound alone. You want silverware that will wear. Any other kind is too expensive. Beware. Do you know the difference between washed goods and triple plate? If not you should seek the advice of a reliable jeweler, whose guarantee is worth something.

All goods I sell are guaranteed as represented and are sold at prices that are right. Let me show you.

M. H. MILLER.
