CREAM RATE HEARING, JULY 16

Question of Alleged Excessive Charges to Be Threshed Out by North Dakota Railroad Commission. Bismarck.—The question of alleged excessive rates charged by the express companies in this state handling cream shipments will be threshed out by the state railroad commission on July 16, for which date a hearing has been called.

Comparison of the rates charged in this state, with those effective in Minnesota, reveals a marked difference in favor of Minnesota, hence the investigation. Express rates from Bismarck to Minneapolis on a 10-gallon can of cream is 53 cents a gallon, while the rate to Fargo is 9 cents. The distance from Bismarck to Minneapolis is 420 miles; to Fargo it is only 184 miles.

Rates on a mileage basis are sought by the cream operators in North Dakota. The twin city central creameries, because of the lower rates, are in a position to pay better rates for cream than are the operators in North Dakota—and it is maintained that this condition results in operating against the successful promotion of creameries in this state.

Tolley Has Annual Market Day. Tolley.—Tolley's second annual market day was a decided success in every way and there was as large a crowd in town as has been seen for some time.

The Tolley band was busy most of the day and the music was appreciated. The merchants and business men report large sales, everybody taking advantage of the liberal discounts given.

The auction did not amount to as much as it should, this being the first attempt at anything like this. The real attraction of the day was the ball game between Tolley and Russell and a large crowd witnessed the game.

Tolley again came out winners getting away with it by a score of 9 to 3. But the game was fast and much more interesting than the score would indicate.

The dance at the opera house drew a large crowd. Red River on Rampage. Grand Forks.—The Red River on July 17 was twenty-three feet above its mark of June 8th and still rising.

Recent rains throughout the Red River valley have caused the most remarkable midsummer rise in the history of the stream. North of Grand Forks the river is reported to have spread over the fields. The Red Lake river seems to have reached its crest. Many residents in low sections of the city have been driven from their homes.

New Laws Become Effective. Fargo.—The enactments of the last legislative session, except three measures, said to have been held up by the referendum, and the appropriation measure, which had the emergency clause, became effective July 1. Among the important new measures are the immigration bill, placing all educational institutions under the board of regents, the state budget, new game laws and the creation of two new boards of chiropractics and nurse examiners.

Found No Scarcity of Food. Steele.—No scarcity of food, with meals provided him at less than cost he paid hotels in the United States, was the condition found at Guaymas, Mexico, by H. S. Wood, editor of the Steele Ozone, who has just returned from a visit to Mexico. "Americans who have settled in Mexico, and of whom so much has been said and written, are much the same as the pioneers who settled upon the lands of the Northwest," says Mr. Wood.

Fargo's Population Increased. Fargo.—The population of Fargo has increased more than 30 per cent in the past five years. The census, taken by the state, shows the total population is 20,549, as against 14,385 by the Federal census of 1910. This makes a gain of 6,214. Outside of Fargo there has been a slight decrease in the population of Cass county.

Annual Meeting of Stockholders. Lidgerwood.—The stockholders of the Lidgerwood Farmers' Elevator company held their annual meeting and business of the year was carefully gone over. Everything was found in excellent condition. A good dividend was declared.

Falls in River; Saves Hat. Almont.—Hanging on to her hat, Mrs. S. G. Nagel was rescued after an exciting experience in the river. She and her husband found the river about eighteen inches higher than when they drove over earlier in the day, but thought the stream could be forded. The horses were swept down stream and the rig overturned, throwing Mr. and Mrs. Nagel into the stream. They reached shore safely and the team was rescued. She held to her hat while struggling in the water and brought it safely ashore.

FINDS HEAVY GRAIN STAND.

Official Says Crop of Western North Dakota Likely to Set New Record.

Mandan.—"Never in the long experience I have had in the northwest have I seen such wonderful stand of grain, such plentiful signs of prosperity and so much optimism expressed as at the present time," says General Manager J. M. Rappelle of the Northern Pacific Railroad company. "I have just returned from a trip through North Dakota and Montana. Not alone along the main line, but on all the branches the towns are taking a new lease of life. Montana will have a crop this fall which will set a new record. Good conditions exist in North Dakota and from my inspection I am willing to say that this western North Dakota will also set a new mark."

"We realize that thousands of cars will be needed, but preparations are being made in advance so that shipments will run smoothly. I do not believe there will be any car shortage, but with the wonderful yields I appreciate the fact that we will have our hands full keeping the grain moving."

Mr. Rappelle was noncommittal when questioned concerning a possible extension of the Mandan-Killedeer branch line to Sydney, Mont., but talked freely of the Beach extension. He asserted that the line from Beach, N. D., to Berkeley, Mont., will be completed within 60 or 90 days and that everything possible is being done to have it ready for grain shipments.

Decrease in Grand Forks County. Grand Forks.—While there has been a slight general decrease in the population in the rural sections of the county during the past five years the city of Grand Forks will show an increase in population, thereby bringing about a general population gain during the period covered by the state census, nearing conclusion.

Completed census reports have been received from all the townships in the county but Chester and Mekinock, and figures have been received from all the cities and villages with the exception of the city of Grand Forks.

Leaving out these two townships and the city of Grand Forks, the census returns received up to the present show that there is a population in the remainder of the county of 14,439 souls as against 14,634 as shown by the 1910 census and 15,951 by the 1900 census.

Attorneys Ask Change of Venue. Mandan.—Alleging that the matter comes under interstate-commerce rulings, Attorneys Foster and Graugham of Aberdeen have filed a petition with Judge J. M. Hanley, asking for a change of venue from the district to the federal court of the injunctive case against the Chicago, Milwaukee & Puget Sound railway, preventing the company from accepting for shipment liquor into North Dakota.

The railroad was enjoined a month ago by Attorney General H. J. Linde, and Judge Hanley set the date for the hearing on the petition. The injunction is now presumed to be in effect, and it is believed a precedent was established when the Northern Pacific was enjoined and will be followed in that the attorneys will stipulate the injunction to continue in force until after the trial.

Farm Experts Coming to Mandan. Mandan.—Between 150 and 200 experts of the United States department of agriculture will meet July 14, 15 and 16 at the northern field station here for the annual meeting of the Great Plains Co-operative Experiment association and the Great Plains section of the American Society of Agronomy. The program was published by the executive committee and includes talks on every phase of intensified farming.

The northern great plains field station at Mandan is headquarters for United States agricultural work for North and South Dakota, Montana and other states of the great plain area. It was established three years ago with W. A. Peterson in charge.

Indians Want Citizenship. Fort Yates.—Full citizenship for Indians, with every right claimed by the white men, is the topic of discussion at a big meeting held at Bullhead agency on the Standing Rock reservation. The following day another citizenship conference of the Sioux Indians was held at Fort Yates. The Indians, through their chief justice, John Grass, will enter an appeal to congress in which scores of reasons will be advanced as to why full citizenship should be granted.

Indian Fighter Visits Capital. Bismarck.—E. J. Dodge of Waseca, Minn., was a caller at the state historical rooms at the capitol building. Mr. Dodge was a member of Co. G, Second Minnesota cavalry, during the Sully expedition in 1864 and was a member of the detachment that went to the rescue of Captain Fisk and party at what is now Ives in Bowman county in the southwestern part of the state.

Miss Dalrymple Becomes Bride. Fargo.—Miss Dorothy Dalrymple, daughter of Clark C. Dalrymple, Fargo, at Gethsemane cathedral, became the bride of John Corse Pollock, son of Mr. and Mrs. Robert M. Pollock, Fargo. The Episcopal ring service was used. Right Rev. John Poyntz Tyler, bishop of North Dakota, performed the ceremony, assisted by Dean Clark C. Dalrymple, Jr., brother of the bride; Hewison Pollock, brother of the groom, and Reuben Warner III, St. Paul.

HADN'T THOUGHT ABOUT THAT. Of Course Young Mother Could Only Reason That the Fault Must Be With the Scales.

The story is told of a young mother who, after her first baby had been born, hurried to a hardware store to purchase a pair of scales, that she might be able to keep tab on the remarkable growth of her first born.

When she got the scales home and weighed the baby for the first time the little bunch of humanity did not quite measure up to her expectations and she promptly carried them back, stating that they were not satisfactory. Asked by the storekeeper what the difficulty was, she replied: "I think the scales are not right. My baby did not weigh as much as I think she ought to."

"Did it ever occur to you," asked the hard-hearted seller of hardware, "that the fault might be with the baby and not the scales?" She saw the point and kept the scales.—Brockton Enterprise.

His Complaint. "You say in your paper," said the man who had asked to see the editor, "that Mr. and Mrs. Henry Peck are enjoying a visit from Mrs. Peck's mother."

"Isn't that statement correct?" asked the editor. "Oh, she's visiting us all right enough," admitted Mr. Peck, "and I guess my wife is enjoying it, but you can leave me out of it. If you put any more sarcastic remarks like that in your paper, I'll stop my subscription."

Taking Papa Along. The baggage master halted the family party and politely explained that under the new law the value of the contents of each trunk must be given. After a brief consultation with her daughter, mamma pointed to her own trunk and said: "Please put this one down as containing one thousand dollars' worth of personal belongings. This one," indicating her daughter's trunk, "you may put down for eight hundred."

"How about this little one?" asked the baggage master, resting his heel on its top. "Oh, that!" replied the lady contemptuously. "Ten or twelve dollars will cover that one."

"I see," returned the official. "Father's going along too."

Willing. "Did you punch the time clock as you came in?" asked the foreman. "I did not," replied the burly workman that dares to dock me for being ten minutes late.

Canadian Wheat to Feed the World. 160 ACRE FARMERS' WESTERN CANADA FREE. The war's fearful devastation of European crops has caused an unusual demand for grain from the American Continent. The people of the world must be fed and there is an unusual demand for Canadian wheat. Canada's invitation to every industrious American is therefore especially attractive. She wants farmers to make money and happy, prosperous homes for themselves while helping her to raise immense wheat crops.

You can get a Homestead of 160 acres FREE and other lands can be bought at remarkably low prices. Think of the money you can make with wheat at its present high prices, where for some time it is liable to continue. During many years Canadian wheat fields have averaged 20 bushels to the acre—many yields as high as 45 bushels to the acre. Wonderful crops also of Oats, Barley and Flax.

Mixed farming is fully as profitable an industry as grain raising. The excellent grasses, full of nutrition, are the only food required either for beef or dairy purposes. Good schools, markets convenient, climate excellent. Military service is not compulsory in Canada. There is no conscription and no war tax on lands.
