Shall We Let Philippines Go? (Cedar Rapids (Ia.) Republican.)
The United States cannot continue to hold the Philippines unless this nation wants to give the lie to its own professions in the matter. The United States must keep faith with the world. The American people do not want the Philippine Islands to become their Irish question.

Filipinos Are Making Headway (Mt. Vernon (O.) Republican-News)
The Filipinos are making an intensive and intelligent campaign for independence. They are urging their claims with shrewdness and vigor. They declare that they have proven beyond question that they are capable of self-government, and they believe that with independence the Filipino will so conduct himself as to gain the respect of the world.

PRESS COMMENT ON PHILIPPINES

The Philippines! (Shenandoah (Ia.) Post.)
Our Idea of the Philippine question is to get out as quickly as possible and stay out. What do you say?

Our Little Brown Cousins (Argus, Rock Island, Ill.)
There is no mistaking that Filipinos want their independence. And it is just possible, as they insist, that they in the islands, better than we Americans over here, are the best judges of whether they are fitted for independence. The United States wants no outburst in the Philippines as England faces in Ireland. The easiest way to head off a rebellion is to give the

Pembina Saving and Loan Association

Why not rent when monthly rent money will buy the property

For example, suppose the house is purchasable for \$1,000, which you are renting at \$12 per month. You buy the house putting in \$300 a borrowing \$700 from the Pembina Savings and Loan Association. Your monthly payments to the latter would then be \$10.50 instead of \$12 with the difference that every payment to Saving and Loan Association is a payment on the house, while the payments made for rent are lost to you. Call in and let us show you the experience of others. We can also show you that it is just as good for the investor as for the borrower. We have twenty-five years of business to prove it.
