

AN OPEN LETTER TO WOMEN

Mrs. Little Tells How She Suffered and How Finally Cured

Philadelphia, Pa.—"I was not able to do my housework and had to lie down most of the time and felt bad in my left side. My monthly periods were irregular, sometimes five or seven months apart and when they did appear would last for two weeks and were very painful. I was sick for about a year and a half, and doctored but without any improvement.

A neighbor recommended Lydia E. Pinkham's Vegetable Compound to me, and the second day after I started taking it I began to feel better and I kept on taking it for seven months. Now I keep house and perform all my household duties. You can use these facts as you please and I will recommend Vegetable Compound to everyone who suffers as I did."

Mrs. J. S. LITTLE, 3455 Livingston St., Philadelphia, Pa.

How much harder the daily tasks of a woman become when she suffers from such distressing symptoms and weakness as did Mrs. Little. No woman should allow herself to get into such a condition because such troubles may be speedily overcome by Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been restoring American women to health.

Not at All.

Husband—"You don't mean to say you paid \$240 for that gown?" Wife—"Oh, no, dear; I left that for you to do."

Grand Forks—For the first time since his enlistment 23 years ago, A. R. Tatten has returned from service with the United States army in the Philippines for a visit at his former home.

Fargo—July 4 is set as the closing date for entries in the draft horse, cattle, swine, and sheep departments of the Interstate fair. Other departments close July 11.

Mandan—Tom Snyder, for 50 years a noted broncho rider of western North Dakota, came down on the saddle horn recently, tearing his abdomen open so badly that death ensued.

Dazey—The first elevator in the United States to enter into contract with the United States Grain Growers is the Farmers' Cooperative elevator at this point. Other North Dakota grain handlers are following fast.

Minot—"Stay in North Dakota," is the advice of the federal employment agency here to harvest laborers. The reason is that there are short crops in many southern and middle western states, while North Dakota has every promise of delivering a bumper crop.

Fargo—A stage 500 feet long is being built for the fireworks spectacle, "Montezuma," to be shown in connection with the Interstate fair here. The finest program of entertainments, as well as the best exhibits, in the history of the exposition are assured for this year.

Beulah—Senator E. F. Ladd addressed a farm bureau picnic here. He was a member of the original Committee of 17 which formulated plans for the National Grain Growers, Inc., and declares that this organization is the greatest marketing machine the world has ever known.

Fort Yates—Superintendent James B. Kitch of Standing Rock Indian reservation and Superintendent E. D. Mossman of Fort Peck Indian reservation have been ordered by the national Indian office to exchange posts. Mr. Mossman is expected here at an early date.

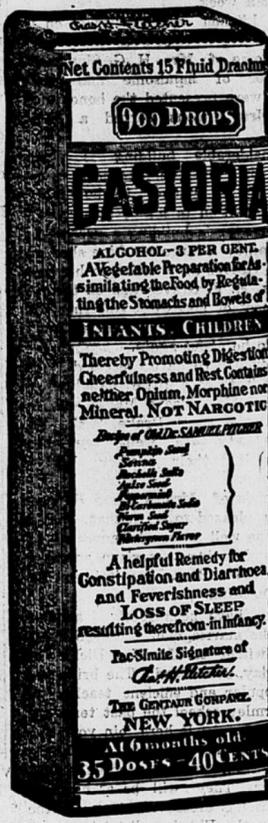

Grand Forks—Auto races will feature the first and last days of the State fair here July 18 to 23. July 19 is Farm Bureau day, July 20 will be American Legion day, July 21 will be first reunion of the 104th Infantry; the 21st will be Minnesota day, and the 22nd Shriner, Rotary, and Kiwanis day.

Steel—The wide and keen interest in the wheat pooling movement is manifested by the fact that 2,500 people heard U. L. Burdick, president of the state Farm Bureau federation and state representative of the National Grain Growers, in an address here

Are You Human?
A little baby. A little child. Don't they appeal to you? Doesn't your heart yearn to pick them up, to cuddle them close to you, to shield them from all harm? sure it does else you're not human. Being human you love them. Their very helplessness makes you reach out in all your strength to aid them. In health there's no flower so beautiful. In illness there's no night so black.

Save them then. Use every precaution. Take no chance. When sickness comes, as sickness will, remember it's just a baby, just a child and if the Physician isn't at hand don't try some remedy that you may have around the house for your own use.

Fletcher's Castoria was made especially for babies' ills and you can use it with perfect safety as any doctor will tell you. Keep it in the house.

Children Cry For Fletcher's CASTORIA

Do the People Know?

Do you know why you are asked to call for Fletcher's Castoria when you want a child's remedy? why you must insist on Fletcher's? For years we have been explaining how the popularity of Fletcher's Castoria has brought out innumerable imitations, substitutes and counterfeits.

To protect the babies: to shield the homes and in defense of generations to come we appeal to the better judgment of parents to insist on having Fletcher's Castoria when in need of a child's medicine. And remember above all things that a child's medicine is made for children—a medicine prepared for grown-ups is not interchangeable. A baby's food for a baby. And a baby's medicine is just as essential for the baby.

The Castoria Recipe (it's on every wrapper) has been prepared by the same hands in the same manner for so many years that the signature of Chas. H. Fletcher and perfection in the product are synonymous.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

MUCH TOO LARGE AN ORDER

Naval Authorities Had Not Provided Sufficient Flags to Convey Peppery Admiral's Message.

A certain British admiral tells an amusing story of an explosive old seaman under whom he served many years ago.

During some tactical operations one of the ships of the squadron had made some bad blunders, and at last the admiral lost his temper. He stormed about the quarter-deck and informed his hearers of his opinion of the officer in command of the erring ship.

When he paused at last for want of breath, he turned to the signaler and said, "And you can tell him that, sir."

The man scratched his head meditatively.

"I beg your pardon, sir," he ventured, "but I don't think we have enough flags for your message."

World Loves Sweet Smells.
War discourages the international sale of perfumes, cosmetics and all toilet preparations, but such articles come quickly back to their own in foreign trade. This appears in the fact that in 1920 exports of these articles from this country were valued at \$8,739,503, which is over five times the value in the pre-war year of 1914. Our largest buyer was England; our next, Cuba; third, Australia; and fourth Brazil.

Jud Tunkins.
Jud Tunkins says there's no more use in trying to judge a statesman by the kind of auto he rides in than there used to be in studying his personal style of whiskers.

Many people seem to think that you enjoy listening to a tale of woe.

We find fault not so much with our sight as with our blindness.

Out-Praying Her.

Jack and Joan were brother and sister. Joan unusually good, verging upon the prim. Jack overflowing with healthy naughtiness. Jack had been sent to bed early, minus his tea, for some rather greater crime than usual. Joan, on arriving from the bathroom in the night nursery, knelt down to say her prayers, which she concluded with:

"And please, God, make Jack a better boy, and show him how naughty he has been."

Joan rose from her knees with a smug expression and got into bed.

Jack slipped from his bed to his knees as quick as thought, and through the darkness was heard:

"And please, God, do teach Joan to mind her own business."—From Sunday at Home.

Drawing a Distinction.
"I don't believe you know the difference between classical music and jazz."

"Yes, I do," exclaimed Mr. Cumrox. "In classical music the members of the orchestra sit still and in jazz they jump all over the platform."

A Windfall.
A couple of Chicago youths met on the street one day when one made the following announcement:

"Well, Harry Harkins' uncle has just died and left him a lot of money. Harry always said that his ship would come in some day."

"Yes," said the other youth, "but he didn't expect an heirship."

Western Canada Offers Health and Wealth

has brought contentment and happiness to thousands of home seekers and their families who have started on their FREE homesteads or bought land at attractive prices. They have established their own homes and secured prosperity and independence. In the great grain-growing sections of the prairie provinces there is still to be had on easy terms

Fertile Land at \$15 to \$30 an Acre
—land similar to that which through many years has yielded from 20 to 45 bushels of wheat to the acre—oats, barley and flax also in great abundance, while raising horses, cattle, sheep and hogs is equally profitable. Hundreds of farmers in Western Canada have raised crops in a single season worth more than the whole cost of their land. Healthful climate, good neighbors, churches, schools, rural telephone, excellent markets and shipping facilities. The climate and soil offer inducements for almost every branch of agriculture. The advantages for

No More Misery After Eating

Just Takes An Eatonic
"The first dose of Eatonic did me wonders. I take it at meals and am no longer bothered with indigestion," writes Mrs. Ellen Harris.

Thousands of people, like this dear lady, gratefully testify about Eatonic, which does its wonders by taking up and carrying out the excess acidity and gases which bring on indigestion, heartburn, bloating, belching and food repelling. Acid stomach also causes about seventy other non-organic ailments. Protect yourself. A big box of Eatonic costs but a trifle with your druggist's guarantee.
