JOHNNY HAD HIS MISGIVINGS

Small Boy Shrewdly Calculated the Size of Stockings Worn by His Aunt Emma.

Dear little Johnnie's Aunt Emma, a lady of most generous build, had come for a visit and dear little Johnnie had been gazing at her raptly for some minutes. Finally he could stand it no longer.
"Mamma," he cried, "does Santa Claus fill everybody's stockings?"
"Of course, dear," replied his mother in some surprise.
"Grown-up people's, too?"
"Yes, dear."
"Well," returned Johnnie doubtfully, but as one clinging to a shred of hope, "I hope he gets to mine first."—The American Legion Weekly.

Important to Mothers
Examine carefully every bottle of CASTORIA, that famous old remedy for infants and children, and see that it bears the Signature of *Chas. H. Fletcher* In Use for Over 30 Years.
Children Cry for Fletcher's Castoria

A Boy and His Goat.
Ed and his brother Harry were the proud possessors of a goat. One day their mamma said: "Eddie, I saw Nanny standing with her fore feet on the fence."
"Oh, no, mamma," came the reply. Nanny had only two feet on the fence."

State Summary

Passing Glimpses of Late Events in North Dakota

The annual meeting of the North Dakota division of the Theodore Roosevelt International highway will be held in Minot January 5.

Courses in Painting at A.C.
Beginning January 2 the state A. C. will institute complete courses in painting and decorating.

Governor Seeks Tax Reduction.
Letters have been written by the governor to all county auditors in the state asking their close co-operation in the reduction of the state tax burden.

Discuss Co-ordination of Charities.
At the first open forum meeting of the newly reorganized Association of Commerce in Bismarck, the subject of co-ordination of the city's various charities was discussed.

Destroy \$4,000 Worth of Whiskey.
Fire hundred quart bottles of whiskey valued at \$4,000 were destroyed by the Stutsman county sheriff at Jamestown, on order of the county judge.

Lone Tree Bank Looted.
Tunneling through the concrete wall of the vault and using explosives on the safe doors, yeggs looted the Lone Tree State bank of \$900 in Liberty bonds, \$200 in cash, and \$60 in stamps.

Alfalfa Brings \$52 per Acre.
Four acres of alfalfa yielded one Ramsey county farmer a gross return of \$52 per acre this fall. It was planted last year and this year produced seven tons of hay and 400 pounds of seed. The farmer plans to sow 25 acres next year.

Indian Cattle Top Market.
Twice this fall cattle shipped by Standing Rock Indians have topped the market. The second triumph was scored last week when stock sent by Little Eagle and Bullhead from near Fort Yates brought seven cents a pound.

Albino Rats Killed at Minot.
Some years ago a business man at Minot gave up raising white rats and released a number. Recently Boy Scouts have been conducting a campaign against a peculiar albino rat infesting portions of the city; they are uniformly marked in gray, white, and pink. It is believed they are the common species crossed with the white rats of years ago.

Teachers' Secretary Resigns.
R. L. Brown of Valley City has resigned as full time secretary of the North Dakota Education association and whether or not this organization of the state teachers, numbering now about 3,600 members, can afford to employ another salaried secretary is being considered by the executive committee. The only source of revenue is a \$2.50 annual membership fee.

Lignite Goes Over Million Mark.
From October, 1921, to October, 1922, North Dakota produced 1,057,923 tons of lignite coal, the first time the state's output of this product has reached the million ton mark. The year ending October, 1921, had a production of 895,715 tons. In 1911 the output was only 502,000 tons. The value of last year's product was \$2,278,771.22. There were 1,963 men employed in 120 mines; this was 259 more men in eight less mines than reported in 1921. There were four fatal accidents during the year.

Granville Ships Much Poultry.
Up to November 30 the surprising total of 30,260 pounds of dressed turkeys had been shipped from Granville by rail. This figure does not include the live fowls sent from the community, nor the large quantity that went by auto truck to Minot. At the average market price of 40 cents per pound, these dressed turkeys brought more than \$12,000 into the Granville community. It is estimated that the value of this year's poultry crop there was around \$100,000.

Analyze North Dakota Debt.
Thirteen middle west and northwest states have a total authorized indebtedness of \$376,685,115.12, 85 per cent of which is represented by soldier bonus and highway improvement expenditures. North Dakota, along with Nebraska, Indiana, Kentucky, and Oklahoma, has no bonus debt nor highway debt, although in some of these states road work funds are obtained from the general revenue fund. Illinois, Michigan, Missouri, Kansas, Minnesota, Wisconsin, Iowa, and Ohio have authorized more than two hundred million dollars for World War veterans; other states, including ours, are paying bonuses from bond sales. Real estate bonds make up the greater part of North Dakota's indebtedness. Illinois tops the list, with highway improvement as the biggest single item.

Ask for Safety Gates.
The Grafton city council has asked the state railroad commission to order the Great Northern and Northern Pacific railroads to install safety gates at Fifth and Sixth streets.

Little Country Theatre in Book.
"The Little Country Theatre" is the title of a book recently published by the Macmillan company for A. G. Arvid of the A. C. In 1914 Mr. Arvid founded the little theatre at the state college as "a laboratory in which to test out programs for country entertainments."

Organize "Homemakers" Club.

Women of Glenburn have organized a Homemakers club and elected officers.

Decorate With Christmas Trees.
Minot's business streets were decorated with Christmas trees, spaced every 27 feet, and illuminated.

Civics Book by N. D. Attorney.
"Government of North Dakota and the Nation," is the title of a text book on civics just published by Attorney C. L. Young of Bismarck.

More Non-attendance Losses.
Absences of school pupils during the school year cost Logan county \$34,000 according to the county superintendent at Napoleon.

Langdon Fair in February.
The annual midwinter fair for Langdon and Cavalier county will be held at Langdon the second or third week in February.

Bible Taken from Church.
When members assembled at St. Matthew church, Beach, for the Wednesday evening meeting they discovered that someone had taken the pulpit Bible away.

Prominent Pastor Resigns.
Dean Henry F. Kloman of Gethsemane Episcopal Cathedral, Fargo, well known in church circles throughout the state, has resigned to accept a call to Salisbury, Maryland, in January.

Indians to Get Pensions.
About a dozen Indians on Standing Rock reservation who served as federal scouts in the 90's, will be entitled to the recently allowed pension of \$20 per month, according to Superintendent E. D. Mossman of Fort Yates.

200-Pound Friend Falls on Him.
Claud Movius, an A. C. student, was walking with his 200-pound friend, Francis "Tubby" Hull, football guard on the Bison team, when he lost his balance. In falling, he upset Tubby, who landed on him, and now Movius is laid up with a broken leg.

Community Church Center Dedicated.
Bottineau recently dedicated a community center building, equipped as a part of the Presbyterian church of that city. It provides for indoor sports of all kinds for summer and winter and will be opened by the church to the entire community.

Only 295 of the 1,404 students at the state university can be accommodated in the dormitories on the campus, according to the registrar. Three hundred ninety-seven live in the Forks, 228 are lodged in fraternity and sorority houses, and the remainder live in rooming houses. Residents of North Dakota are in big majority, totaling 1,228, while Minnesota sent 133 of the remaining 178, five of whom came from foreign countries.

Missionary Returns to Trouble Zone.
Treatment recently accorded missionaries in China did not deter Mrs. O. E. Distad from returning, with her two young sons, to Hankow, China, to resume her work as a Lutheran missionary. After a year's leave, spent largely at Minot, Ross, and Williston, she sailed December 14.

Trail Meeting at Minot.
To Equalize Rights of Parents.
A bill proposed by the North Dakota Children's Code commission for action at the coming legislative session provides that the mother shall share equally with the father in the custody, services, and earnings of their children. The present law gives the father first and superior control. Another proposal by this organization is a bureau for child research to be conducted in connection with the state university, to make investigations and examinations and to spread information as an aid to the whole child welfare system of the state.

Education Inexpensive Item at A. C.
From the point of view of financial outlay, President John Lee Coulter points out, actual educational work is about the least costly activity carried on at the state agricultural college. A recent analysis of state expenditures showed this institution costing over \$800,000 a year; of this sum, however, the college classes cost only \$162,000. The new agricultural hall, built this last year, cost \$150,000. State regulatory work, extension work, and experiment stations, all of these departments which are strong in their state-wide influence, went to make up the balance of the \$812,000 A. C. item in the state's last fiscal year.

Wheat Growers Form Sales Agency.
North Dakota is among the 10 states which were represented at a recent Minneapolis meeting where plans were laid for the organization of a national Wheat Growers Sales agency. George E. Duis, president of the North Dakota Wheat Growers association, is a member of the committee of three to draft a plan of operation, the other two being an Oklahoma and a Minneapolis man. This state recently has been selling through the Minneapolis Chamber of Commerce.

"Dry Goods" Shipment Very Wet.
Several boxes of "dry goods" consigned to A. Miller at New England were confiscated by authorities at Dickinson and found to contain 18 gallons of high grade alcohol.

Dean Shepperd's Book Praised.
"The Northern Pig from Birth to Market" is the title of an interesting and profoundly instructive book by Dean J. H. Shepperd of the animal husbandry department of the North Dakota A. C. which was highly praised at the international livestock show in Chicago.

FARM BUREAU TO TACKLE MARKETS

National Body Policy Change Is Seen as Big Help to North Dakota.

WILL EXPLAIN WORK

Visit of Dairy Expert to Minot Next Month, First Result—Greater Assistance Promised Fuller by American Bureau.

Fargo—Efforts of the American Farm Bureau federation are to be concentrated next year on the farmers' marketing problems and much more money and time are to be spent in solving these problems as the result of a change in policy adopted at the annual conference in Chicago.

This is the report brought back to North Dakota by H. B. Fuller, secretary of the North Dakota Farm Bureau federation.

As a result of the new policy, the North Dakota federation will be able to secure more assistance from the statistical and other departments of the American federation body in working out local problems.

Dairy Official Coming.
One of the first results of this new policy will be seen when F. H. Heaton, secretary of the dairy marketing committee of the American Farm Bureau federation comes to North Dakota to attend the annual meeting of the North Dakota Farm Bureau federation at Minot the week beginning January 22. He will explain what other states are doing in combining the sale of poultry and dairy products, through local buying stations.

"This new policy will be of great practical value to North Dakota in the work that is now being done in marketing our grain, wool, potatoes, dairy and poultry products, horses and other livestock," said Mr. Fuller. "We will have available for our use the great and valuable array of statistics which the federation has compiled and which it is adding to all the time.

Figures on Eastern Markets.
"For example, these statistics will be available in getting figures on eastern horse markets, and figures on the supply and demand for grain, wool and other commodities.

"I think this decision to pay less attention to legislation and transportation and to concentrate the money and time of the paid officials of the federation on commodity marketing problems, was the outstanding feature of the conference.

"O. E. Bradfute of Ohio, who was elected president to succeed J. R. Howard, who refused to be a candidate for re-election, was formerly vice-president and has the confidence of the whole federation. He was elected by unanimous vote. J. F. Reed of Minnesota, W. H. Settle of Indiana, and Howard Leonard of Illinois are the members of the executive committee from the central group of states."

BODIES BLOWN FROM LAKE

Arrest of Twenty Mob Leaders Is Predicted.

Mer Rouge, La.—Bodies of two men blown from the bottom of Lake La Fourche early by unidentified dynamiters and believed to be those of two men said to have been slain last August by robed and hooded men, were lying at an undertaking establishment here while military men stood guard pending the arrival of additional troops from Alexandria and New Orleans, ordered here by the adjutant general.

The bodies, badly mutilated and bound with wire, are believed by the authorities to be those of Watt Daniels and Thomas Richards, members of a party of five prominent Mer Rouge men by white robed and hooded men. Daniels and Richards, who have been missing since that time, have been the object of three days of raking the lakes of Morehouse parish by national guardsmen, federal and professional divers.

Authorities here state that they are satisfied the bodies were the ones sought. Relatives and close friends of the missing men have viewed the bodies and it was reported bits of clothing found on the men were recognized.

The coroner has announced that an inquest would be held over the bodies. The arrival of the attorney general of the state and two prominent pathologists of New Orleans is awaited.

Only Three Christmas Pardons.
Washington—"Christmas pardons," it is understood, will be given to only three federal prisoners by President Harding. The pardons are said to have been signed by the president and announcement as to the recipients is expected prior to Christmas day. The president has been urged to extend clemency at this time to persons still imprisoned for violation of wartime laws, but it is understood that none of these prisoners will receive a Christmas pardon.

They Do a Hundred Calories in About 9 1/2

EAT a box of little raisins when you feel hungry, lazy, tired or faint.
In about 9 1/2 seconds a hundred calories or more of energizing nutriment will put you on your toes again.

BROADWAY AN INDIAN TRAIL

Present Famous "Bright Light" Pathway Used as Artery of Trade by the Aborigines.

Weckquaesgkw Path is the Indian title which was given to the road through Manhattan island now known as Broadway. The long, curious name is that of a tribe which once occupied the upper end of the island, and it signifies "People-of-the-Birch-Bark."

So well was the street planned that centuries later modern engineers discovered that it was almost impossible to improve upon the original Weckquaesgkw path, which followed the easiest grades through the hills of upper Manhattan. Broadway, however, was not laid out as a warpath. It was a regular artery of trade, and was used by the Indians for generations.

Some of the Indian homes in caves on the side of the Inwood hills and similar ones on the north side of Harlem river are still in existence. Large quantities of oyster shells were found in the caves, and these oysters must have been brought from many miles away.

The Whole Story.

"What are the salient details of this domestic 'triangle'?"
"The husband who didn't understand is suing for divorce from the wife, who wasn't understood."
"I see."
"And he has named as co-respondent the man who didn't understand, either, but thought he did."—Birmingham Age-Herald.

Left-handedness is common to only 2 to 4 per cent of the people.

Foolish Advice.

The man had skidded on the slippery bridge and gone over into the river, crashing through the ice. A passerby noticed him floundering around in the chilly water and shouted:
"Keep cool and I'll save you!"
"Well," chattered the victim, "if I was as sure of your being able to save me as I am of my keeping cool I would quit saying my prayers this minute."

Father Was Ready.

He—Do you think your father would be willing to help me in the future.
She—Well, I heard him say he felt like kicking you into the middle of next week.—London Tit-Bits.

WESTERN CANADA

for Wheat Growing, Cattle Raising and a Happy Home of Your Own

Prosperous Farms and Happy Homes await those who are desirous of enlarging their present resources and securing for themselves homes in a country that, while yet in its infancy, has made itself famous by the quality of the grain it produces and by the excellence of its live stock.

There are Millions of Acres

of the highest class of soil available for the man whose object in life is to become his own landlord, and who wishes to share in the opportunity which has given wealth to the thousands of Americans who, having started on Western Canada farms with but small means, are now writing home to their friends, telling of what they have done. Lands are cheap and homesteads farther from lines of railway are free to settlers. Upon these lands can be grown the best of wheat, oats, barley, flax, grass, hay, fodder corn and sunflowers.
Cattle winter in most places without shelter; dairying is highly successful. Taxes only upon land (not on improvements). Perfect climate, attractive social conditions, good neighbors, churches, schools, telephones, excellent markets and shipping facilities.
For illustrated literature, maps, description of farm opportunities in Manitoba, Saskatchewan, Alberta and British Columbia, reduced railway rates, etc., write to
W. E. BLACK, Equity Bldg., Fargo, N. D.; K. HADDELAND, Park Hotel, 104 Central Ave., Great Falls, Mont.
