ISSUE OF BONDS MUST COME

No Provisions Made for Some Past Due.

Street Work Put Off for Want of Funds.

Council met in regular session last Tuesday night with all members present but Myers.

A petition for grading and macadamizing the north end of Sugar street, signed by almost every one of the residents in the two squares recently opened,

This condition of affairs brought on an animated discussion, which finally resulted in the Solicitor being instructed to prepare a resolution for passage at the next meeting,

Councilman Lennarts stated that the Citizens Bank had on hand \$5,000 highway improvement bonds, due the first of May,

The City Engineer was instructed to furnish grade and set grade monuments for streets, alleys and sidewalks in the new Buckland Milling Co.'s addition

Merchant Fred Olmhausen was again before council in regard to over front footage assessment on his property on North Main street.

A resolution was then read and adopted transferring \$130 from the general fund to the safety fund to meet the expense of the extra fireman recently appointed.

Councilman LeBlond stated that he had been asked by members of the Shakspeare club about council charging the club for use of the opera-house for the lecture course members, as they had been informed a charge would be made by council next

season. All members of council expressed surprise at such a statement, and immediately and unanimously passed a motion granting the club the free use of the hall. Then it adjourned.

POLITICAL ETCHINGS

George H. Preston, of Franklin township, one of the members of the present Board of Infermary Director, is a candidate for renomination. The other two members are serving their second terms, and, of course, are not candidates.

It is the custom of the Democrats of this county to give every man two terms of office if his conduct has been such as to commend him to the people, and we feel confident that Mr. Preston has given his office such care and attention as to merit a unanimous renomination next Tuesday. See that he gets your vote.

Put your cross mark in the square in front of Mr. Preston's name, then make your second and third choice from the remaining candidates.

The Standard has nuthin' agin' Mr. Goeke personally, so it says. Then it must be politically—too much of a Democrat—too democratic to suit its tastes. It is quite true Mr. Goeke favors giving each voter a chance to vote for whom he pleases.

Early mass next Sunday and hereafter during the summer will be at six o'clock in the morning, instead of half past six.

The Standard very evidently believes that the Democrats of Mercer County are a lot of political asses and chained to the Standard's chariot.

Listen to this idiotic stuff: "If we are bound, gagged and delivered in a congressional deal, we are entitled to yet say who we want for county office."

So it's a county office for brother-in-law Fishbaugh that is causing all the trouble.

If Mr. Goeke and his friends would only stay at home and let Mr. Cunningham and his friends, Mr. Welty and his friends, Mr. Marshall and his friends, Mr. Robeson and his friends and Mr. Shappell and his friends meet and talk with us and ask for our votes and support, wouldn't it be nice?

Wouldn't it be nice if all the candidates for Surveyer would quit asking for votes and get off the earth for brother-in-law?

The first of the old staff of teachers on the public school roster will pass from the academy of the school room in this city after the present year. The Pönes-Davison quintette is to be first operated upon the veteran, Prof. Thoms, of the west building. The passing of Prof. Thoms will not be received with any pleasure by the great mass of parents who have known of his merits.

To Whom It May Concern: It has been falsely reported by some that I was not a candidate for County Surveyor. The motive of the party so doing may be judged, and I wish to say that at no time did I authorize the statement. It has been my desire to call on all of the parties that were my friends ten years ago when I was a candidate, and others as well. Sickness in my family and lack of money has forbidden me doing so.

Attendance Large and Intense Interest Shown—Program Well Carried Out.

[By Miss Maude Sprague, Secretary.] The Washington Township Sunday-school convention, which convened at the State Line Lutheran Church last Sunday, May 8, was a success in every detail. All assigned to parts on the program responded with excellent addresses. The house was filled to its fullest capacity, while an active interest was manifested by all present.

The afternoon session opened with song, "Onward Christian Soldiers," followed by Scripture reading and devotional by Geo. L. Schroyer. Song, "Send the Light," was then sung.

Prof. W. S. Younger, of Celina, addressed the assembly upon the subject of "Christian Citizenship." Christian citizenship is the product of Christian character. The one essential in creating Christian citizenship is to have Christian homes, as children come into homes without sin. The Sunday-school is a means to create Christian citizenship, as children of all ages are permitted to attend. The home, the school and the church are the foundations of Christian character, the basis of Christian citizenship.

Roll call and report of schools, of which four schools responded to roll-call, and two as to report, the State Line Sunday-school taking the lead as to representatives and financial standing.

Round table topics were next discussed by different members of organizations. "Is it well to pledge scholars by signature against the saloons and the use of intoxicating drinks?" discussed by Rev. Butler and Harvey Pennig.

What are the best methods for teaching and conserving the spiritual harvest of the school?" discussed by W. S. Younger.

"Decision day—Are stated decision days desirable?" Rev. Saunders.

"Missions—Is the Sunday-school awake to its strength and opportunity as a missionary force?" discussed by Rev. Banders, Rev. Butler and Mrs. Nicholas Schroyer. Song, "Love of Light," followed by an address, "The Adult Bible Class," by Rev. S. F. Banders. The little cloud of the "A. R. C." or the adult Bible class, started at Toronto in 1865 and is now lighting the whole world.

Rev. J. H. Butler, in his address, spoke of the great revolution taking place in the day school and the Sunday-school, but the one factor needed to be revolutionized is the spiritual revolution. Crown your education with a knowledge of God. Skill and science have no value, unless the soul is saved. The Sunday-school is a "gateway" to the church.

After singing an offering was taken, followed by dismissal by Rev. Banders. The evening session opened at 7:30 by the president, Harvey Pennig, with song, "Love of Light." The offering was followed by devotionals by Supt. S. Wilkin, of Celina, and after singing Rev. Rice, of Celina, responded with an address on "Sunday-school and some things that make them good."

The Sunday-school, he said, has become one of our strongest institutions. Its value to our country cannot be overestimated. A great progress has been made in the Sunday-school, from its primitive state to the present day. The weak factor in our Sunday-school at present is more machinery than force. Some things that make them good: Communion, interest, good superintendents, earnest and faithful teachers, all filled with vim, energy, earnestness and enthusiasm. Propriety is one of the best means to success.

The minutes of the previous meeting were read and adopted as read.

The church and the Sunday-school was next taken up by Rev. Martin, pastor of the State Line Church. The Sunday-schools are too scattered and need to be more closely associated with the church. The Sunday-school should perform the teaching of the church.

"The Principle Thing," an inspiring address to the young people of the community, and other ones as well, was delivered by Prof. S. Wilkin, of Celina. The principle thing—wisdom. In all your getting, get wisdom. Where is the way to wisdom? The fear of the Lord is the beginning of wisdom. Organization in the Sunday-school is essential, but Mr. Wilkin insisted by a story, that organization was of no use without steam or power. Along with the principle thing, grow in the image of God and get his spirit within you.

CELINA KIDS WIN UP-HILL CONTEST

With Hard-Hitting Ft. Recovery Elks by Score of 5 to 4—H. S. Drops One.

Celina will play the fast Lima Stars at Mercedia Park diamond next Sunday afternoon. The visitors are reputed to be Lima's fastest amateur team, having made things interesting in a couple of contests with the Lima club of the Ohio State League. Ellis or Smith will do the pitching for the local club. Game called at 2:30 sharp.

Games Scheduled

Celina will play the Dayton Lilly Breads in the Gem City on the 22nd and St. Marys in that city on the 29th. Next Sunday in the last Sunday game in this city until June 5, Rockford may, however, play here on the 30th, Decoration Day.

Celina 5—Ft. Recovery 4

There are many and various definitions for the greatest of joys, but they all fade away in the minds of local fans when they look back over the score sheet of last Sunday's contest with Ft. Recovery at Mercedia park on a pair of crutches last Saturday afternoon. The visitors were seen, and then joyfully come to the last halves of the eighth and ninth innings, and then to the final finish of the twelfth. When it comes to coming in from behind and snatching victory from apparent defeat never again let it be said that the "kids" are wholly helpless.

The final score was 5 to 4, but Celina was on the top side of the margin, and had overcome a handicap of three runs in the closing innings of the usual time allotted contests, setting down the visiting kickers so hard that their language was brutal and violent as they journeyed back to the hotel, and they were still rampaging when Manager Jimmie Big Injun and Captain Heap Much Big Mouth Pausch gathered the tribe together and toted them off to their tepee at the Fort.

The contest was one of those which made up for much that has gone before, and the half hundred fans who the previous Sunday had been relieved of their two bits, only to see a magnificent downpour of rain, were more than satisfied as they left the grounds at the close of that third extra inning last Sunday.

For five rounds it was a brilliant combat, started by courageous pitching and grand fielding by both clubs. Walls, the visiting outpawp, was flinging them over so fast that the local lads were helpless, and when they did succeed in taking a strike the ball it was blocked on its course by one or another of the visitors. At the same time young Ellis was doing nice work for the locals, and his support, with but a couple of instances, was perfect. So, when the visiting pow-wow men jumped into a nice fat lead in the sixth and seventh innings, the game looked to be a goner.

Up to that time the Kids attempted but one steal on Houser, and when they opened up on this part of the game in the eighth, matters took on another hue.

The visitors jumped away in the first round, Borman, the first man up, scoring with nobody down. It looked bad for a minute, but, fortunately, that was the limit to the round. Borman singled to right, stole second and got around on a fumble by Wennig, who failed to get Peter's throwed Wagner's sacrifice. Pausch flew out to the Rabbit at third and Houser was taken in on a deep fly to Mayer. Manager Coughlin then singled to right, but Wagner was held at third. Then Ellis pulled out by fanning Franklin. The Kids, however, got the back in the second, when, when one man out, Wagner Wenning. He went to second on a fumble of McKirran's hot grounder, and scored on Newcomb's two-bagger. But they couldn't get one better, Mayer and McComb struck out.

Everything went along almost one-two-three then until the sixth, although Myers saved a run by a most brilliant one-hand catch of a fly in the second, and Mayer's relay of Coughlin's long hit in the fourth, which caught the runner in 3d, another. Wagner started off with a fly to left, which Mayer failed to get. Betz then missed an easy chance for a double, and two men were safe when he let Pausch's grounder glide between his feet. Houser hit to short, but the ball rolled so slow that Myers' attempt to catch Wagner at third failed, and the bases were full. Coughlin hit clean to center and Wagner scored, but Burris' throw held Pausch, who a moment later was caught between the bases. Ellis then

ISAC WILLING TO TRY IT AGAIN

Such is part of the unwritten diary of last Saturday's adventures of Ike Galliguh, a part time resident of the County Infermary. Despite the fact that Ike found it necessary as well as difficult to hobble into court on a pair of crutches last Saturday morning to secure a decree of divorce from his wife Anna, whom he told Judge Layton had thrown various kitchen utensils at him, beat him over the head at various times and lastly broken his leg when she threw a stick of stove wood at him, he couldn't be without a wife, and about four hours after he had been untied by the Judge he was again tied to a life partner by Justice Raudabaugh. Galliguh is 47 and his new bride is 25.

D. Gimmel.

Frank Lenington, of Indianapolis, Ind., a brakeman on the Lake Erie & Western, was arrested at Lima by Lima Erie Detective Gerdeeman last Saturday and brought to this city, where he was given a hearing before Justice Raudabaugh on a charge of stealing three pair of moccasins, the property of the J. A. Roemer Co., from the freight house in this city last January. He pled guilty and was fined \$5 and costs. He paid the bill and was released.

NEW INDUSTRY ASSURED CELINA

Commercial Club Raises Fund to Secure Site, Condition on Which It Comes.

Celina will have a new factory within a short while, was the news imparted by Secretary Olmhausen of the Commercial club the first of the week. After several weeks of hard soliciting, Secretary Olmhausen and the new industry committee of the club have finally secured the \$1,800 subscription necessary to buy the plot of ground between the C. N. and C. H. & D. railroads, just east of the furniture factory, for the location of the Jasperson Supply Co.'s plant. This factory will employ about twenty people as soon as the buildings can be erected, the work on which will be pushed as rapidly as possible.

The Jasperson firm have been doing a wholesale and retail supply business of electrical and machine supplies at St. Marys for the past number of years, and their output here will be part of these supplies and a special lawn hose reel and sprayer combined, which they have had on the market for the past year.

There is also a possibility that there will be incorporated in the new plant, the metal furniture factory of the Mercantile Bros. Brandt & Co., recently purchased by the Jasperson firm, and which it is now running. This combination of the two plants would make a good sized factory.
