Soldier Victim of Rare Affliction

PORTLAND, Ore,—Sojourning here the last several weeks has been a man who has attracted widespread attention in medical circles. He is Thomas P. Dunn, a native of Montana, who, as a member of the First Montana volunteers in the Spanish-American war, was shot through the head at Caloocan in the Philippines more than twelve years ago and is alive to tell of it today.

When Dunn fell wounded on the battlefield of Caloocan he was carried to the ward where the fatally injured were placed and no one paid any attention to him for two days, as there were too many other wounded whom the physicians and surgeons in charge believed had better chances for recovery. At the end of two days, during which the Montana boy lay practically without attention, the surgeon in charge remarked upon his vitality and decided to try to save his

A Mauser bullet had entered the left side of his head just above the have examined Dunn ever heard.

His remarkable recovery and the fact that he retains his reason are the most remarkable features of this While he is alive, in good health and able to walk around the streets and converse with his friends and acquaintances, Dunn is handlcapped by the loss of all sense of smell or taste and has lost the sight of his right eye. Despite these af flictions he bears his lot with fortitude. He cannot enjoy a meal, for no matter what choice viands he may or der, he cannot relish them any more than he would hardtack and salt pork. The loss of the sense of taste he looks upon as his worst affliction.

Tommy Dunn, as he is known among his friends, is a ward of the government, though not of his own choosing, for he has relatives and influential friends who take care of him and look after his comfort at all times. His Mrs. Taylor, Daughter of Former impaired eyesight has proved an obstacle toward his securing employ ment, and idleness is something he dreads because of his afflictions. His only amusement is to join several congenial companions and tell stories of past experiences, or to take street car rides or journeys through the country in automobiles. He cannot go to the theater, being handicapped by partial blindness and fearful lest the glare of

his remaining eye. temple and emerged from the right must report at Washington or some side just below the temple, a wound other military headquarters at certain in northern New York. Mrs. Goldberg was chosen as the first to be the blind one.

She was blindfolded and led into the parlor. She was entitled to kiss any man she could catch, and she upposed that Jim, her husband, would e on the job and see that he was caught. But a young man named Harry was caught by Mrs. Goldberg and was kissed. Jim was just a second too late. Then they pulled the blindfold off and Mrs. Goldberg saw whom she had kissed.

The crowd combined in a roar of glee and Mrs. Goldberg graciously olned in the laughter. But she overexerted herself. In the midst of an unusually loud "Ha-ha!" she grabbed her jaws and began to dance about the room. She gasped and groaned, and Policeman Mott, rushing upstairs; found the company in confusion and invited all their friends and relatives hysteria.
