BUCKEYE NEWS NOTES

MATTERS OF GENERAL INTEREST TO RESIDENTS OF OHIO.

War Flour on Market. Columbus, Dec. 31.—War flour, ground according to a government formula, is being made now at practically all Columbus mills. Millers declare it is appetizing and wholesome. The principal difference is in saving of material. Sixteen pounds of material formerly used as stock feed is used in each barrel of flour under the new formula. Nine per cent of wheat is saved, according to millers.

Confiscated Whisky Stolen. Columbus, Jan. 2.—Theft of confiscated whisky stored in the federal building here was charged against W. E. Thompson, a night fireman at the federal building, by United States District Attorney Bolin. With Thompson is held Link Ward, a companion, who is alleged to have sold the liquor for Thompson, after diluting it with water, at 50 cents a pint and shared the proceeds with Thompson.

Automobiles in Ohio. Columbus, Jan. 1.—Ohio has almost 100,000 more automobiles than a year ago. State Auto Registrar McCurdy said he had issued \$350,414 tags last year, compared with 254,000 the year before. The tags were distributed thus: "Gasoline" machines, \$42,000; electric 45.15 machines, \$42,000; electric, 4,515, and dollars, 3,500.

Fatal Leap of Cripple. Cleveland, Jan. 3.—The body of a man believed to be Albert Metzger, 60, of Bucyrus, a cripple, was taken from the Cuyahoga river by firemen on a city fire tug who think the man jumped to his death from the viaduct crushing almost every bone in his body on the ice 100 feet below. A pair of crutches were found on the ice.

Turns Up Alive and Well. Cleveland, Jan. 3.—Mrs. George Simko, recorded at the county morgue as dead and buried, returned to her home from Akron, where she had been visiting. Two weeks ago Simko identified the body of a woman found in a field as that of his wife, who had been missing. He buried the body.

To Work Without Pay. Cleveland, Jan. 1.—Edmund O. Burke, a local broker and capitalist, has severed his connection with the brokerage firm in which he was a partner and has retired from business to become a volunteer worker without pay in the federal reserve bank here.

All College Men. Chillicothe, O., Jan. 1.—Twenty-one Ohio selects, all college men, have been designated as the first drafted men here for the third officers' training camp, which is to start Saturday. The announcement was made at division headquarters.

Dayton Minister Dead. Dayton, O., Jan. 2.—After lying unconscious for more than a week from a stroke of paralysis, Rev. I. W. Icenbarger, 70, is dead. He was pastor of Central Baptist church for 25 years and was in the active ministry of the church for 50 years.

Babe Weighs Pound and a Quarter. Newark, O., Jan. 3.—There was born to Mr. and Mrs. Robert Hartman in this city a daughter, the weight of whom is but one pound and one-quarter. This is said to be three-quarters of a pound less than the official world's record.

Killed by Gas Fumes. Greenfield, O., Jan. 1.—James A. Parrett, 55, well known farmer, was asphyxiated by gas while trying to repair his automobile. His wife found him in the car, with the engine running. The window and one son survive.

Traction Service to Be Curtailed. Columbus, Dec. 31.—Interurban officials predicted that government pressure will bring the elimination of all cars considered a luxury, and that the service during the war will be such as to discourage unnecessary traveling.

High School Boy a Suicide. Toledo, Dec. 31.—Poor health, brought on by overstudy in a contest for a good scholarship medal, is said to have prompted Arnold Richards, 14, a Scott high school senior, to commit suicide. He drank poison.

Flames Liek Up Elevator. Van Wert, O., Jan. 2.—A grain elevator belonging to S. D. Brand was destroyed by fire, together with a large quantity of hay and oats. The loss was \$30,000. The fire is believed to have been of incendiary origin.

Spurgeon, the great preacher, said wisely: "Economy is half the battle of life; it is not so hard to earn money as to spend it wisely." Buy Thrift Stamps and United States War Savings Certificates and it will be well spent.

State of Ohio, City of Toledo, Lucas County, ss. Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH MEDICINE. FRANK J. CHENEY, Notary Public. (Seal) Hall's Catarrh Medicine is taken internally and acts through the Blood on the mucous surfaces of the System. Send for testimonials, free. F. J. CHENEY & CO., Toledo, O. Sold by all druggists. Beware of cheap imitations. The Hall's Family Pills for constipation.

LEARN USE OF PENNY

War Introduces It Into California for First Time.

Heretofore Regarded as Too Insignificant to Bear Value in Relation to Business.

San Francisco.—The war is introducing the humble penny into California. For the first time in the history of the state it will be used in commerce. Heretofore this fraction of currency has been regarded as too insignificant to bear any value in its relation to business. The value of the copper cent is one of the lessons in thrift which Mrs. A. S. Baldwin of San Francisco will take back to the women of California. Mrs. Baldwin is one of the most prominent clubwomen of San Francisco and she was recently called to Washington by the secretary of the treasury to serve on the woman's liberty loan committee, and to carry the lessons of the Liberty loan and of the war savings certificates to the women in the far West. "Out in California we are so far away from the center of things that many of the remote communities know the thrift campaign of the Liberty loan only as a name. The duty of our women, as I see it, is not only to conserve in a large way, but to save the small amounts which the people of the West are apt to overlook. "We are only beginning to use coppers in San Francisco," said Mrs. Baldwin, "and they are still only used in a few of the shops. In California the copper cent has been regarded heretofore as too insignificant a trifle to be given any consideration. The war and its emergency measures, such as the war savings certificates and the thrift stamps, will change the Californian's attitude toward the modest penny.

RATIONING IS SYSTEM URGED

British Workmen Demand Better Distribution Methods for Food Supplies.

London.—Resolutions calling on the government to introduce a system of rationing and asserting that a grave crisis is approaching in many of the working class districts were adopted by the Workers National committee, which includes representatives of most of the large trades unions. Robert Smith, president of the Miners' Federation, is chairman of the committee. The resolutions say that in some working class districts women are compelled to wait in front of shops and often are unable to obtain tea, sugar, milk, butter, bacon or margarine. A bad system of distribution is said to be largely responsible for this state of affairs.

ONE SKIPPER EARNS \$125,000

Hazardous Calling of Great Britain's Fishermen Pays Well During the War.

Hull, England.—It was announced by the northeastern sea fisheries committee that a Hull fishing skipper has earned \$125,000 since the war broke out, and another made \$75,000 in two years. The chief officer remarks in his report that "the skippers earn all they receive when the perils of the North sea are remembered."

AMERICAN IS BRITISH LORD

Frank Cooper, chief of the information bureau of the office of the district attorney of New York, received word that through the death of his elder brother, Sir Horace Cooper, he succeeds not only to the English baronetcy of his brother, but also to the family estate in England appraised at half a million dollars. Sir Horace's only son, who would have become the baron was killed in the battle of the Somme. A full-fledged citizen, he will not, he declares, exchange that citizenship for the title. Mr. Cooper, or Lord Cooper, is a nephew of the first Lady Dufferin, and a younger brother, Maj. Charles Cooper, is now governor of the Western Soldiers' home, near London. Mr. Cooper since becoming an American, has been a newspaper man and an actor.

Marriage Licenses Issued

Charles W. Andrews, 26, Celina, First Lieutenant Infantry, son of W. T. Andrews and Grace F. Kelley, 29, Center township, teacher, daughter of T. M. Kelley, Dr. W. W. Lance.

Bluff old Dr. Samuel Johnson, mental giant and admirable educator, said this pregnant thing: "Economy is the parent of integrity, of liberty, and of ease, and the bounteous sister of temperance, of cheerfulness and health." Get the economical habit by investing the money you win from useless expenditures in United States War Savings Stamps.

BUNCHED PARAGRAPHS

Turkeys sell for \$15 apiece on the London market. Seventh Day Adventist churches throughout the United States will raise a fund for the relief of Armenians and Syrians. As a coal conservation measure, all lights except those necessary for safety will be extinguished in New York six nights a week.

Fire destroyed eight acres of the Harrisburg Pipe and Pipe Bending company's munitions plant at Harrisburg, Pa., with a loss of more than \$250,000. No more silver coins are being used in Italy. It was discovered local and foreign speculators were melting them up and reselling the metal at a good profit.

Fire which followed a violent explosion destroyed the \$2,500,000 plant of a private corporation on Staten Island which has a contract for the reduction of all garbage from the city of New York. Mexican congress adjourned until Sept. 1. A small American patrol boat was sunk off the Atlantic coast, the navy department announced. The crew was rescued.

With railways in government hands, it is said boat lines will be utilized as adjuncts of railroad traffic, instead of stified as competitors. Fire, believed to have been of incendiary origin, partly destroyed a branch plant of the American Propeller and Manufacturing company at Baltimore. The concern is engaged in making airplanes for the government.

For the first time in the history of Methodism, the average salary of the Methodist preacher is more than \$1,000, according to Rev. Joseph B. Hingley, corresponding secretary, board of conference claimants, Methodist Episcopal church. Alaska is now bone dry. The ban on liquor closed saloons which have been operated since 1898 during the gold rush.

Snow fell at Miami, Florida, the first ever seen in that section. Argentine trading ship Pimento is aground in a difficult spot off the Atlantic coast. The crew has been taken off. Thirty-one murders were committed in Franklin county, O., during 1917, according to the annual report of Coroner Herakowitz. Suicides totaled 29.

With the temperature at 16 below, three inmates of Sing Sing prison, whose terms expired, pleaded to be allowed to remain another day. Their request was granted. Edward B. McLean of Washington and Cincinnati purchased a supply of coal and in his Washington newspaper he announced a plan to give it all away in a bushel lot to the poor. General Anson George McCook, a veteran of the civil war and a prominent Republican politician, died in New York of pneumonia. He was 82 years old. He was born in Steubenville, O.

Women telephone operators are being sent abroad for service at the offices of the American forces in France. They have the same privileges and allowances as army nurses. Two men were killed and a third is expected to die as the result of an explosion which occurred at the Hercules plant of the Hercules Powder Company, 18 miles from Salt Lake City. With the arrest at Bristol, Pa., of Joseph Tausan on a charge of arson, Fire Marshal Brophy of New York city announced that he believed a long step had been taken in clearing up several mysterious water front fires.

Credits to the allies passed the \$4,000,000,000 mark when Secretary McAdoo authorized additional loans of \$155,000,000 to Great Britain for January purchases from the United States; \$155,000,000 to France; \$75,000,000 to Belgium, and \$1,000,000 to Serbia.

New York school children have thus far invested nearly \$50,000 in war savings stamps. Earthquake shocks have forced people out of their homes in Guatemala City. Dr. Maurice F. Egan, American minister to Denmark, has arrived in the United States on his way to Washington. President Wilson celebrated his 61st birthday anniversary by putting in his usual day's work. He received many messages of felicitation. Dr. Charles W. Mitchell, 59, noted specialist in children's diseases, and a member of the faculty of the University of Maryland, died of pneumonia.

Lieutenant Archibald B. Roosevelt, son of Theodore Roosevelt and who is in France, is proposed for a captaincy in infantry. Three hundred American railway engineers, who have been in Russia, have arrived in Japan. Work on the Trans-Siberian railroad has been temporarily abandoned. Dr. James Brock, deputy warden of the Atlanta federal prison, was instantly killed by Demeter Popoff, an Austro-Hungarian prisoner, who was sent to the institution from Toledo, O., last May for counterfeiting. Engagement of Miss Virginia B. Loney, heiress survivor of the Lusitania, to Robert Howard Gamble, naval corps aviator of Jacksonville, Fla., was announced at New York.

Four bandits robbed the First State bank at White Bear, Minn., of \$5,000. They drove to the bank in a limousine. Three entered the bank, forcing Cashier H. A. Warner and his assistant, into a vault. The robbers escaped.

LITTLE GIRL DIES FROM BURNS

Geo. L. Kuhn, of Fremont, was in town Wednesday on his way to Dayton, where he went to attend the funeral of a little ten-year niece, who died Monday from effects of burns sustained a few days before, when her dress was ignited by fire of a gas stove. Mrs. Celia Kuhn and daughter Katie and Mrs. Arson Wenning, of this city, also went to Dayton Tuesday to attend the funeral of the unfortunate little girl. The child was the daughter of Mr. and Mrs. Henry Kuhn.

LISTEN!
We just unloaded a car of course, sweet, flaky soft Winter Wheat Bran. Nothing better as a milk producer. Give your milk cow a chance to make more money for you. Slop her and she will show a good profit.
We also have oceans of Oil Middlings and Hog Feed. This is also an excellent dairy feed when mixed with Bran.
Good Investment---Swap Oats for Bran and Middling NOW
A car of POLAR BEAR Flour is coming. It will be 14 days yet. Watch the papers for its arrival. In the meantime lay in your supply of good Bran, Middlings, Salt and New Kiln-dried Corn Meal.
Yours Mutually,
PALMER & MILLER

HORSE MEAT SALES REPORTED INCREASING

New York.—New York butchers have begun to awaken to the fact that the threatened introduction of horse meat at low prices had not only become a reality but is promising to get an overwhelming welcome in the poorer quarters of the city. Already the beef butchers in localities where the horse meat shops have been established are beginning to feel a falling off in trade, and in one section are charged with showing their resentment by violence.

IMMENSE AIR RAID DUGOUT

England Opens to Public Use Railway Tunnel Accommodating 20,000 Persons.

London.—The biggest air raid dugout in England has just been opened to the public for use during air raids. It will accommodate 20,000 persons. The dugout is really an unfinished railway tunnel, 100 feet underground, on which work was discontinued at the beginning of the war. It is electric lighted and seats have been provided for 2,000 persons.

FINDS LIVE "GHOST" AT TOMB

Spook? Found in Cemetery by Caretaker Proves to Be Soldier, Probably Insane. Columbus, O.—John Davis, caretaker of Walnut Hill cemetery, Hamlin township, never believed in ghosts, but he did have a "spooky" experience. Davis was strolling through the cemetery when he happened to see a figure sitting on a tombstone. Close inspection showed it to be a man with only a blanket thrown around his shoulders. His clothes were lying in a heap at his feet. As Davis approached, the figure arose and inquired if the referee was coming. Davis said he didn't know, but would go hunt him. However, the man intimated that was unnecessary and said he wanted to have a little boxing match. Davis brought the man to the county jail, where an examination of his clothes brought out enlisted man papers for the army. It was decided to hold an inquest for lunacy.

BRITISH PRISONERS STARVED

Men in German Camp Entirely Dependent on Food Sent From England. Rotterdam.—According to released Englishmen who have arrived from the camp for British civilians at Ruhleben, Germany, no food had been provided for them by the Germans in the last three months. They were entirely dependent on the parcels sent out from Great Britain. Most of the prisoners at Ruhleben are suffering from stomach troubles owing to the fact that they have principally had to live on canned food. As a result of the monotonous character of the life there all inmates are mentally abnormal, say those who have been released.

THINK "STONEWALL" JACKSON BEST LEADER

Washington.—Which of all the American generals is it that has given European strategists most food for thought? Give a guess, or two, or three. And then you will be wrong, according to a prominent Southern congressman, who says it is not Washington or Sherman or Grant or Robert E. Lee. "Stonewall" Jackson is the man," this congressman declared. "I was surprised recently in talking to British army officers to learn that they have made it a point to study all of Jackson's campaigns. It seems they regard him as the cleverest of all the American generals, and the most capable in maneuvering against odds. "One British officer told me that he personally, with a staff of subordinates, had gone on foot over all the ground covered by General Jackson in his great raids during the Civil war. He said it was as fine a study in tactics as could be found anywhere."

COMMISSIONS IN ARMY PLENTIFUL
Privates Who Show Right Timber Will Become Officers Under Pershing.
MANY LIEUTENANTS NEEDED
Promotional Scheme Outlined at Headquarters Which Paves Way for Rapid Advancement of Men From the Ranks.
With the American Army in France, Apparently the humble doughboy is coming into his own in this war. A promotion scheme has just been outlined at headquarters in conformity with a recent general order from Washington which paves the way for rapid advancement for men from the ranks who display ability for higher commands. Arrangements are already made whereby noncommissioned officers who look like they are made of officers, timber will be sent to the army candidates' school on recommendation from their superior officers. If they make good they will be assigned to vacancies as second lieutenants in replacement divisions advancing later to combat divisions where promotion may be expected to be rapid in the event of heavy casualties among the officers. Many Lieutenants Needed. In order to have sufficient officers in readiness at all times no limit is placed upon the number of second lieutenants in replacement divisions, it being recommended that they have at least three times as many as combat divisions. Under the new general order divisional and other unit commanders are to consider "young fighting efficiency units" in recommending temporary appointments for promotion to line officers. The general order makes it plain that such recommendations must be based solely on demonstrated fitness and ability to command. Divisional and other unit commanders are instructed to investigate carefully all officers' records. All recommendations must be submitted to the commander in chief for approval. The six Hooverites who are visiting the American camp awake the other morning at reveille, after spending the night in hay lofts and barracks, somewhat better acquainted with conditions under which the American soldiers are living. Too Cold for Pig. To begin with, this was to have been the story of how Everett Colby of New Jersey, slept with a pig. Mr. Colby and the other representatives of Herbert Hoover wanted to sleep and eat under exactly the same conditions as the doughboys. Thereupon the press officers in charge of the arrangements "framed it up" on the New Jersey man. They happened to know that in a certain village wherein militiamen were quartered there were ideal advantages for roughing it. Ten soldiers were billeted in a certain barn owned by an old villager who obstinately refused to allow the Americans to disturb his pig, which had been occupying the same hay loft with them for some time. The press officers arranged to have one soldier move for the night to give Mr. Colby accommodations next to the pig. Then the following morning the correspondents were to interview the Jerseyman on his impressions of the pig and the pig on his impressions of his fellow lodger. But the pig's owner had been left out of the calculation. The night was cold so the villager moved the pig into his own quarters, where there was fire. So the world will never know what Mr. Colby thought of the pig and vice versa. WANTED—Man past 30 with horse and buggy to sell Stock Condition Powder in Mercer County. Salary \$90 per month. Address 9 Industrial Bldg., Indianapolis, Indiana. Woman's friend is a Large Trial Bottle of SanoI Prescription. Fine for black heads, Eczema and all rough skin and clear complexion. A real skin Tonic. Get a 35c Trial Bottle at the drug store. adv.

"TOMMY" FINE FIGHTER

Americans Admire the Spirit of British Army.

Entirely New Feeling Growing Up Between Two Kindred Nations in Arms.

London.—The military correspondent of the London Times, writing from France, says: "In France we have suddenly discovered America, and America has discovered us. How different we both are from our preconceived notions of each other! We did not know what a highly educated, professional and modest, gentleman the American regular officer was, nor did we quite realize what a splendid body of active fighting men he was going to bring over with him. "We are a great deal more enthusiastic about the Americans, and, if I may say so, more proud of them, than we show on the surface. How can we not regard as men of our own flesh and blood the relays of American soldiers, of all grades who come to us, who speak our own language and bear our own names, who understand us in a flash of time, and whose point of view on almost every conceivable subject under heaven is our own? "These sentiments are, I hope, mutual. The Americans did not know what our armies were, nor what they had done or are doing. Many of them had grand attacks and our raids. They observe with astonishment the terrific power of our modern artillery and the glorious activities of our splendid air-men. "They see the spirit, the discipline and the emulation of our infantry, and they are profoundly impressed by them. I hope that the pride which we feel, without venturing to express it, in the Americans is a little reciprocated by them. I can only say that every American soldier who has told me of his experiences on the British front has spoken with enthusiastic admiration of our men, and that an entirely new feeling, the consequences of which may be immense, is growing up between the two kindred nations in arms."

Another Bargain Offer

The Ohio State Journal is Out With Their Annual Offer, Embracing Reductions All Along the Line.

Regardless of the fact that the expense of publishing a newspaper has advanced enormously over a year ago, the Ohio State Journal is out with their annual Bargain Offer, making attractive reductions in a dozen different club offers. The Ohio State Journal is the oldest newspaper published west of the Alleghany Mountains. It has long been a great favorite with the farmers, who like to get a newspaper on the day it is published in Columbus or Central Ohio and therefore the only one to reach rural route patrons on day of publication. A newspaper subscription has sifted down to a business transaction. The subscriber in this day and age considers the news service and what time the paper will reach him. He wants service, both in the way of news and delivery. The Ohio State Journal is a member of the Associated Press and its readers are therefore assured of receiving at the earliest possible hour, all the important news from every section of the globe. Interest in the great European war has made the daily newspaper of greater importance than ever before. Our boys are now fighting in the big army with the allies and we are anxious to receive the latest news from every section of the globe. Special attention has been given to the Live Stock, Grain and Produce market reports, which have fluctuated so much on account of the war, and Ohio State Journal readers have been kept in close touch with every change in price. Colonel E. S. Wilson, lecturer, orator and after-dinner speaker, in charge of the editorial page, has a large following, who recognize his ability and prize his editorial work. Apparently every effort has been made by the management of the Ohio State Journal to make that newspaper interesting and reliable in every respect. Its many features show the wants of newspaper readers have been carefully studied and that for a thoroughly complete and up-to-date newspaper the Ohio State Journal is not excelled. The Bargain Offer will come to a close at midnight Jan. 31. Subscriptions for the Ohio State Journal and National Stockman or the Ohio State Journal and Ohio Farmer will be accepted during the Bargain Offer period for three dollars and fifty cents, which is fifty cents less than the regular price. Subscriptions may be forwarded through this office or sent direct to the Ohio State Journal Company, Columbus, O. Prices are advancing and it would seem that this is a good time to subscribe. SanoI Eczema Prescription is a famous old remedy for all forms of Eczema and skin diseases. SanoI is a guaranteed remedy. Get a 35c large trial bottle at the drug store. adv.

The Copper-Clad

A Handsome Renge

Where real beauty is the test, the Copper-Clad is always chosen and especially if the choice is made by the woman who is to use the Renge. Men may be attracted by fussy ornaments that catch and hold dirt, but the ladies know how hard such ranges are to keep clean. They take the Copper-Clad every time. You will never be "Range Happy" till you get a Copper-Clad. BRYSON, the Stove Man S. Main St., CELINA, O.
