

SUGAR CONTROL SAVED MILLIONS

American Consumer Profited by \$180,000,000—French Situation Helped.

HOME PRICE HELD AT 9 CENTS.

This Nation's Sugar Supply Reduced to Seventy Per Cent. of Normal. Java Stocks Unavailable.

Sugar control has saved the American public \$180,000,000, Herbert Hoover, United States food administrator, declared the other day.

He pointed out that sugar was selling for 11 cents a pound last August and that it would have advanced to 20 cents a pound, with the world shortage as a stimulus, had not the food administration secured the co-operation of the refiners and wholesalers and fixed a sugar price that today enables housewives to buy sugar at from 8 1/2 to 9 cents a pound.

"Every 1 cent raise in sugar from September 1 to January 1 means \$18,000,000 to the American consumer," Mr. Hoover said. "Numbers of gentlemen will tell you that 20 cent sugar would have prevailed and the public robbed of \$180,000,000 this year if we had not taken these actions." Later Mr. Hoover called attention to the fact that uncontrolled sugar advanced to 35 cents a pound during the Civil War.

France Got Our Sugar.

Today the American public has been allotted 70 per cent. of its normal supply. Before the war the average annual household consumption here was 55 pounds a person. In England the annual consumption during the war is 24 pounds, and in France each person is allotted a little over one pound a month.

"In August the French government found itself unable to maintain even this ration," Mr. Hoover declared. "An appeal was made to America. France needed 100,000 tons. We agreed to fill this demand and up to December had shipped 85,425 tons. In the meantime an appeal was made to the American public to reduce its sugar consumption, and requests were made to distributors to supply the confectionary and sweet drinks trade with 50 per cent. of normal supply. This has been generally followed, although such regulations were voluntary, as the food administration had no authority to impose them."

Domestic Price is 8 1/2 to 9 Cents.

Retail grocers throughout the country are supposed to take a profit of no more than 50 cents a hundred—half a cent a pound—on sugar. By reason of food administration regulations, binding refiners and wholesalers, the retailer is able today to buy sugar at from 8 to 8 1/2 cents a pound. This enables him to sell to the housewife at 8 1/2 to 9 cents a pound.

There have been some violations of the sugar rulings. Mr. Hoover said recently: "Sales of sugar from 16 to 20 cents per pound have been reported and followed up vigorously and stopped and is evidence itself of the prices which consumers would have been met had we not intervened. We have forfeited wholesalers' licenses in aggravated cases, and we have issued warnings to first offenders in a great many instances through our local administrators."

Effect on Military Situation.

American sugar stocks could be filled to normal very soon if ships could be sent to Java, where 250,000 tons of sugar is waiting for shipment. But the shipping situation is so acute that the nation cannot spare the eleven ships needed to transport this sugar. It would take the boats one year to haul 250,000 tons. In the same time they could be used for transporting 200,000 soldiers to France.

The food administration believes that the American public will diminish its sugar consumption by 10 or 15 per cent. when it is made clear that such sugar saving is a patriotic act and when it is understood that there are plenty of sweeteners available to take the place of sugar, such as honey or corn syrup.

Why Shortage Exists.

The three great sugar producing centers of the world are Germany, the West and East Indies. German sugar is, of course, used at home. The East Indian sugar is unavailable because of the ship shortage.

While U boats made big inroads on the world's shipping, France and Italy ceased to be self sustaining in sugar manufacture. England in the meantime was cut off from German sugar—1,400,000 tons a year—because of the war. The result has been that the allied nations have been forced to turn to America and the West Indies for their sugar.

EVASIVE RIGID FOOD CONTROL.

Food is Bought in Germany Surreptitiously in Violation of Auto-ratary Rulings.

Even the autocratic food control of Germany has been powerless to prevent surreptitious sales, according to semi-official reports reaching the United States food administration. Illegal sales of butter are being made in Germany at prices ranging from \$1.75 to \$2.25 a pound. Eggs sold contrary to the German food regulations are bringing 10 to 15 cents apiece, according to these reports. And bacon on this is bringing from \$2.25 to \$3.25 a pound.

Woman's friend is a Large Trial Bottle of SanoI Prescription. Fine for black heads, Eczema and all rough skin and clear complexion. A real skin tonic. Get a 35c Trial Bottle at the drug store. adv.

WHEN BANKS ARE CLOSED HOLIDAYS THAT DELAY THE WORLD'S BUSINESS

Only 84 Days in the Year in Which the World's Business is Not Interrupted Somewhere by Holidays and Sundays.

CURIOS FACTS ABOUT THE WORLD'S HOLIDAYS.

- There is no national legal holiday in the United States. Massachusetts does not observe New Year's Day as a legal holiday. Five Christian countries do not observe Christmas as a legal holiday. New Year's Day is the only holiday observed throughout the world. Eleven different dates are observed as New Year's Day in different parts of the world. International business will be interfered with by holidays or Sundays in 281 days in 1918, of these 261 days being holidays. This leaves only 84 days in which universal banking business is possible. November, with 26 holidays in different parts of the world, leads the months. March, with 19, has the fewest holidays. Brazil leads the nations of the world with 84 holidays. The United States comes next with 54.

By GARRET SMITH.

WHILE man plays or prays the world's business will be interfered with on 281 days during 1918. In other words, there will be only 84 days in this coming year that are not Sundays or special holidays in one or more important commercial regions of the earth.

The growth of international finance has made the world's aggregate of closed days a serious factor and an expensive one. Not until now, however, has any attempt been made to compile an exhaustive list of holidays for the guidance of bankers and merchants. This task has just been completed by the Guaranty Trust Company of New York City.

Contrary to the popular notion, the new democracies of the west enjoy a greater number of holidays than their sister nations of the eastern hemisphere. Of the 97 nations or dependencies listed Brazil leads, with 84 holidays. The United States, with 54, is a close second, although she, unlike Brazil, practically ignores the church days. Another popular delusion is shattered when we find that France has only 18 formally observed days and Italy only 23. We had supposed the Latins always outdid us in this particular. Among the other belligerents Germany, it is presumed, will observe 30 days next year, Great Britain 10, Japan 15 and Russia 17.

The United States has no national holiday. Acts of Congress and Presidential pronouncements in this respect apply only to the District of Columbia and the territories. Among the favorite months of holidays the world over November leads with 26 out of its possible 30 days. May comes next, with 25 and an additional Sunday not otherwise celebrated, thus actually tying November in the number of days closed to business. March, on the other hand, is the longest all around business month, having only 19 holidays.

New Year's Day is the only holiday universally observed. But, alas, it falls on 11 different dates in different parts of the globe, and some countries observe more than one of them.

Christmas Day, due to its religious significance, is not so generally observed as New Year's Day. It has 11 different dates in different dates.

Catarhal Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it has a running sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface of the Eustachian Tube. Medicine acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, Fac. F. J. CHENEY & CO., Toledo, O.

WAR DEMANDS TRAINING OF MORE NURSES

Thousands of Young Women Are Needed to Fill Ranks of Nurses in Red Cross Service

Thousands of patriotic young women throughout the country are looking for ways in which they can serve the government at the present time. The Bureau of Nursing of the Lake Division, American Red Cross, Cleveland, points out that there is no form of service open to women more greatly needed than that rendered by the nurses of the country.

The Red Cross Nursing Service—for which most registered nurses are eligible—constitutes the reserve for the army and the navy nurse corps. It is calling for many hundreds of highly qualified nurses for service abroad in our own hospitals and those of our allies. It is also calling many hundreds for service in the base hospitals in our cantonments.

"We have," says Miss Roberts, "nurses enough to meet our present need, but in order to maintain our health standards at home during and after the war and to continue to care for our armies many more must be trained.

"The need for skilled nurses during the next few years will be the greatest the world has ever known and the number of students in the spring classes now being enrolled in the schools for nurses throughout the country should be limited only by the teaching facilities of the schools and by the clinical facilities of the hospitals with which they are connected."

The committee on nursing of the Council of National Defense has encouraged those hospitals possessing sufficient clinical material to increase their facilities for the thorough training of nurses and in many instances this has been done.

Following are some of the advantages in nursing education and some points a young woman should consider in selecting a training school: 1 Nursing education not only prepares for a large variety of professional fields, but is an excellent preparation for home and family life and for public service in many ways.

2 Almost upon enrollment the student begins her service to the community in helping to care for the sick, as a part of her instruction and training.

3 Life in most schools is healthy, wholesome, simple and regular. It is full of vivid human interest, the student sharing in deepest realities of life.

4 The graduate of a good school steps at once into regular professional life and work with an assured livelihood. No weary struggle to get a foothold—to show what she can do. Her work is ready and waiting for her if she successfully completes her training.

5 The student is at no expense for tuition, board, lodging, laundry, uniform, etc., in the great majority of schools. Only a few schools charge a tuition fee, for preparatory course. The student is also cared for in illness.

6 Salaries compare favorably with salaries of other trained women. In some fields they are higher than the average. Especially is this true of teaching and administrative work either in institutions or in Public Health Nursing. Opportunities for advancement are many and steadily increasing.

Choice of Training School.

(a) Be careful in choosing a training school. Be sure that its diploma will enable you to register in your state.

(b) That its educational standards are good.

(c) That it offers thorough training in medical, surgical, children's and maternity nursing.

(d) That the housing and living conditions are such as to ensure the health and well-being of students.

(e) That the working conditions are modern and the hours reasonable.

(f) That the general standing of the school and its graduates is good. Where any doubt exists on this point further advice should be sought, through officials of the State Nurses' Association or the State Board of Examiners.

Addresses and further information can be obtained by writing to the Bureau of Nursing, Lake Division, American Red Cross, Garfield building, Cleveland.

The American Red Cross has provided \$122,000 worth of supplies for the relief of sufferers in Guatemala. A party of experienced Red Cross relief workers has also been sent to Guatemala.

The American Red Cross in France does not admit to its staff any American of draft age unless they present the proper credentials from the United States military or naval authorities, giving the reasons why they are not qualified for military or naval service.

At present there are 3,958,079 Red Cross members in Ohio, Indiana and Kentucky.

BIG HERDS GONE

World War Wastes Europe's Meat Supply.

American Stock Raisers Co-operate With Food Administration in Conservation Measures.

It is probable that Europe for many years after the war will look to a great extent to America for its meat supply.

Europe's herds are dwindling under war's demands faster than they can be replenished.

When the German armies retired from occupied portions of France and Belgium approximately 1,800,000 head of cattle were appropriated. This addition virtually safeguarded Germany from cattle shortage other nations now suffer.

In England some 2,400,000 acres of grass lands have by compulsory measures been forced into grain production, thus reducing pasturage and hay lands. A declining scale of maximum meat prices for live cattle was ordained in England, as follows: For September, 17.76 per hundred pounds; October, 17.28; November and December, 16.08, and for January, \$14.40. The evident intent of this measure was to drive the beef animals into market as soon as possible.

According to official French figures, the cattle of France have decreased to a total of 12,341,500 as compared with 14,807,000 in 1913. Today, due to lack of forage principally, France is producing only one gallon of milk where before the war two and one-half gallons were produced.

Meantime the United States food administration has taken steps to conserve our stocks and herds and to improve their numbers. The stock breeders of this country show a disposition to co-operate with the government in this.

For many years it has been a practice among many of the dairy people of this country to kill male calves at birth and in many instances the females if not needed to replenish their herds rather than go to the expense of maturing them into veal. The high prices of meat caused the virtual discontinuance of this killing. Another encouraging fact is 75 per cent. of calves killed for veal this year were males.

Somebody has very aptly said that the wars of the world have been won with grease, meaning that bacon and lard have been an essential to success in war as powder, which is true.

The hogs of Europe have been very greatly sacrificed to present day needs.

Executor's Sale of Real Estate

In pursuance of an order of the Probate Court of Mercer County, Ohio, I will offer for sale at public auction, on SATURDAY, the 2nd day of March, 1918, at 10 o'clock in the afternoon, at the east door of the Court House of Mercer County, Ohio, the following described real estate, situate in the County of Mercer, and State of Ohio, to-wit: Tract No. 1—The west half of the northwest quarter of Section eleven (11), Town six (6) south, Range Two (2) east, containing eight (8) acres of land more or less, in Jefferson township, Mercer county, Ohio, and being and lying two miles west and one mile south of the center of Celina, and south of the State Line pike, and near the Celina road. Appraised at \$10,800.00.

Also Tract No. 2—Lot Number Sixty-five (65) of the eighth addition to the incorporated village of Celina, Ohio, the same being in the west part of Celina and on South street, and being and lying south of Logan street. Appraised at \$700.00. Possession of both tracts immediately. Terms of Sale: Cash.

S. L. BEOUGHNER, Executor of estate of Harvey Beoughner, deceased. Frank V. Short, Attorney.

Public Sale

The undersigned will offer for sale at his residence on the Coldwater pike, 8 1/2 miles west of Coldwater, 5 miles north of Ft. Recovery, 2 miles south and 1/4 mile west of St. Anthony and 2 miles west of Macedonia, on the Fred Heffer farm, on WEDNESDAY, FEBRUARY 13, 1918, commencing at 10 o'clock a. m., the following personal property:

FOUR HORSES—Consisting of 1 bay gelding, coming four years old, weighing 1100 pounds; 1 iron gray gelding, coming 4 years old, weighing 1100 pounds; 1 brown gelding, 7 years old, weighing 1200 pounds; all-purpose horse, good driver and a splendid worker, anyone can drive him; 1 black gelding, coming 2 years old, weight 1200 lbs.

These horses are all sound and well broke.

SEVEN HEAD CATTLE—Consisting of one light Jersey cow, 6 years old, due to be fresh by day of sale; one dark Jersey cow, 5 years old, due to be fresh by day of sale; one Holstein cow, 9 years old, will be fresh first of April; one light Jersey cow, will be fresh first of May. These cows are all extra good milk and heavy producers.

One Holstein heifer, coming 2 years old; one Holstein heifer, coming 2 years old. These heifers are not bred and in good shape. One Holstein coming years old.

FARM IMPLEMENTS—Consisting of 1 McCormick binder, 7 foot cut, with trucks; 1 Ohio Valley hay loader; 1 Black Hawk corn planter, new; 1 disc superior drill, 1 Osborne disc with trucks; 1 clod crusher, 1 steel hay rake, 1 Deering mowing machine, 1 John Deere riding breaking plow, 16 inch sheer; 1 Rock Island riding breaking plow, 16 inch sheer; 1 walking plow, 1 double shovel plow, one gang the plow, 2 riding cultivators, 1 spring-tooth harrow, 1 spike-tooth harrow, 1 corn sled, 1 Turn-bull farm wagon, 1 flat bottom hay loader, with bed, 1 spring wagon 1 buggy, 2 sets tritihen work harness, set single harness, set buggy harness; 1 storm front, 1-tee bed, 1 corn shelter.

Also about fourteen tons of No. 1 timothy hay, 175 shocks of fodder 50 bushels of corn, 6 acres of corn on the stalk, 2 gray Highlander geese, one gander, 55 head of chickens, one Prairie State incubator, new; 1 Blue Bell cream separator, 1 5-gallon cream can, 1 7-gallon hot water churn, new; 1 stove and other articles too numerous to mention. Also culled dog, four years old, a extra good stock dog.

TERMS OF SALE—All items of \$5 and under to be given, purchaser giving a bankable note. 5 months will be given, purchaser giving a bankable note. Lunch on ground.

Z. D. BEOUGHNER, P. C. K. ex. auctioneer.

This makes the American burden all the more heavy and makes doubly essential an increased pork production in this nation. In Italy grain is now forbidden to be fed to hogs. In Denmark under a recent order one-fourth of the hogs were ordered to be killed. It is estimated that one-half have now been killed.

SEIZURE OF HOUSEWIVES' FOOD STOCKS IMPOSSIBLE

The government has never considered any plan of seizing foodstuffs owned by householders. Nor is there any policy of this kind suggested for the future.

In spite of this fact, the United States food administration has been obliged repeatedly to issue official denials of rumors that the government intends commandeering preserves and canned goods put up in American homes.

These rumors were originated partly by pro-German propagandists and partly by conscienceless grafters, who sought to profit through buying from misinformed housewives.

The year 1918 will see home canning and preserving practiced on greater scale than ever before in the nation's history, officials in Washington believe. And they are assuring all patriotic housewives that foods so saved are theirs, and theirs alone.

Help Wanted

Married man to work on farm; must be sober and industrious. Further information write or call on G. E. Hillery, Ft. Recovery, O. R. D. 2.

Public Sale

The undersigned will offer for sale, at public auction, at his residence, on the road pike, 8 miles west of Celina, one and one-half mile northwest of Durbin and 2 1/2 northeast of Wabash, on Thursday, February 14, 1918, commencing at 10 o'clock a. m., the following personal property:

Horses—Three head, consisting of one bay mare, 11 years old; 1 coming 4 year-old iron gray mare, bald face, and 1 coming 3-year-old iron gray mare, bald face.

Cattle—Ten head, consisting of four milk cows, one fresh, with calf by her side; two will be fresh soon, and the other is giving milk and will be fresh the 1st of August. Also two 2-year-old steers, and 4 yearlings, 2 heifers and 2 sters.

Farm Implements—Consisting of one corn planter, 1 Flyin Dutchman double corn plow, new; 1 breaking plow, new; 1 single shovel plow, 1 double shovel plow, 1 swing of harrow, 1 2-horse wagon, one 1-horse wagon, 1 grain bed and hay ladders combined, 1 one-side bar buggy, one phaeton buggy, 2 set buggy harness, 1 set double work harness, 1 set single work harness and other things.

Also one DeLaval cream separator, 1 organ, 1 kitchen scale, 1 set quilting frames, some household goods and other things too numerous to mention.

Terms of Sale—All sums of \$5 and under cash; over this amount a credit of 9 months will be given, purchaser giving a bankable note. 4 per cent off for cash.

LEONARD SILER, P. C. Knox, Auctioneer, Lunch stand on ground.

SEE THE ASBESTOS SWEAT

See Why the Copper-Clad Ranges Do Not Rust Out

A section of a range body is heated and there on the iron body is the sweat from the asbestos.

You see just exactly what happens every time you build a fire in your range. You see why the sheet of copper is used and what it does and how it does it. You take nobody's word—you see—you know—absolutely, positively.

You know how the many walls and air spaces of a thermos bottle hold the heat. You know that a house with a single wall is not as warm as the house with two walls and an air space. You know that storm windows, two windows with a space between, are much warmer than a single window, even if it is as thick as the two windows.

Save a Thousand Shovels of Coal Every Year

The Copper-Clad Range has four walls and an air space. See what it means in fuel saving. See how the heat is wasted by radiation on the three-wall construction and how it is saved by the four-wall thermos construction.

Suppose that you save but one shovel of coal at each meal; in a year's time you would save over a thousand shovels of coal. Pay? Of course, it will pay; and you owe it to yourself to see these two great demonstrations and know for your own self what range lasts longest—is most economical—cooks best—and looks best.

COPPER-CLAD means that a sheet of pure Copper is placed BETWEEN the sweat asbestos and range body. To place it elsewhere would be like climbing on top of a roof to get out of the rain.

Probably you know what Coal-saving means these days

Oh, You Beauty

That's what comes to your mind every time you go in the kitchen and see the Copper-clad Range. It is an inspiration because the finest known example of the artificers' art in range making. It is a picture because so pleasing—a statue because ideal in proportions—a symphony because of the perfect performance.

Oh, You Beauty

Probably you know what Coal-saving means these days

BRYSON, the Stove Man

Furnaces, Tin and Aluminum Ware. S. Main St. Celina, O.

Crushed to Death. Toledo, Jan. 29.—A guest at the Vendome apartments discovered the body of O. D. Finch, 46, elevator operator, crushed between the elevator floor and the elevator shaft, at the first floor. No one witnessed the fatality.

Public Sale of Household Goods

To be held on the W. A. Bair farm, one-half mile north of Neptune, on the Mendon and Neptune pike. Absolutely without reserve or limit, as the owner is moving to Kansas.

FRIDAY, February 8, 1918, Commencing at 12 o'clock noon, the following goods will be sold: Kitchen cabinet, range, kitchen table, oil stove, linoleum, dining table, chairs, rockers, rugs, buffet, heating stoves, book case, sewing machine, Davenport, beds, mattresses, springs, commodes, bureaus, carpets, large quantity of canned goods; also some empty cans and many other valuable articles not mentioned.

These goods are all nearly new and in excellent condition. Terms of Sale—All sums of \$5 and under cash; all sums over this amount a credit of 3 months will be given, purchaser giving good bankable note bearing 6 per cent interest.

Mr. and Mrs. JOHN MARTIN, R. C. Springer, Clerk, Owners, Arland M. Copeland, Findlay, Ohio, Auctioneer.

Renew the Joy of Living

Don't let those awful Rheumatic Pains and Stiff Joints deprive you of life's pleasure. You can rid your system of that awful suffering by taking

STECH'S Rheumatic Remedy

Its action is prompt; usually requires a few days to obtain results. Its success lies in being a Blood Tonic, the only Rheumatism can be cured. It not only dissolves Uric Acid but rids your Blood so thoroughly of it that a return is very seldom.

Stech's Rheumatic Remedy

Is on Sale at the following Drug Stores: HIGHT'S DRUG STORE, H. F. PUTHOFF'S DRUG STORE, KINDELL'S DRUG STORE, BAKER'S DRUG STORE

Wright's Meat Smoke

Is really smoke condensed in water, and contains all the flavor and preserving properties of smoke. It is cheaper than the old way because it can be applied in an hour whenever you can spare the time. It is safer, as there is no danger from fire. It is better, since you get the flavor of smoke and avoid heating your meat to a high temperature for five or six days.

Kindell's Drug Store
