

LOCAL DEPARTMENT

Vegetation is a little slow. Picnic season is the next. Tax-paying time is again drawing nigh.

Our court has adjourned but the Brooklyn court goes on. Saturday was a busy day in Eaton for business.

To let: Several rooms in our county prison. Board furnished free by our County Commissioners.

The plaintive, luscious note of the lightning rod man is now heard in the land.

The backward spring has done two good things. It has kept back crabs and base ball nonsense.

We saw no May-day parties going out last Saturday to gather flowers. The clouds were drops of rain.

Last Sunday was a cold, blistering day, better suited for October than second of May.

The daily papers are still filled with the Beecher-Tilton scandal. We're sick and tired of it.

Sheriff Townsend translated Elmore Thomas from our county prison to the Ohio Penitentiary for life, on Thursday last.

The String Band gave a splendid musical entertainment in front of our domicile on Friday night last. Thank you, boys, we like it.

Windows and wood-work of Eaton dwellings are just receiving the annual renovating attention of our local housewives.

What rugged boys this town can boast of. Why, lots of them get ten years old, can swear as much as a man, and without the least fatigue.

It is said that a Kansas man who handled a good deal of the grasshopper fund never had a horse, or watch or diamond pin until this winter.

Why are country girls' cheeks like French calli? Because they are warranted to wash and retain their color.

For posterity. The ground covered with snow on the 24 day of May. Murphy says this is the last one. Murphy steps down and out now.

Some men have not sense enough to take a joke, yet they are always ready to get them off on others. They are thin skinned gentlemen, and thin skulled, too.

We can only endure the changeable weather by thinking how nice it will be to have good roads and nice times by and by, say about the first of August.

A friend at our elbow remarks, that the chances are good for the population of our town being largely increased this summer, from different causes. Jest so.

A little peppermint is better than brandy when there is any trouble with your "wind-jams," but it won't do for a case of "jams." We've tried it.

From present indications the Doty House will be closed for a time. Morris Doty will remove the furniture to Union City, Ind., and Geo. Lockwood goes into a private dwelling.

If correspondents knew that anonymous articles, intended for publication, are not even read in a newspaper office, there would be considerable time and white paper saved.

The fourth of July comes on Sunday this year, which makes it good for the boys, as they can commence Saturday and have Sunday to "taper off."

In Coshocton county the girls ride horses "hair-pin style" if you know how that is. -KENTON DEMOCRAT.

Never heard it called by that name before. How is it Fisher?

One thousand one hundred and fifty-nine divorces were granted by Ohio Courts last year, which ought to cause love sick swains to shudder at the thought of going into the business.

Dennis has leveled down the building dirt in the Court House yard, and helped the appearances around the "old farm residence" very much. Our Court House yard never looked better.

After reading the Beecher trial, a young lady in the county lately declared she could never say "so-so" to the old cow again as long as she was a milk maid—no, not if the cow proved ever so frisky. Correct.

Centennial Tea Parties is the latest amusement given by the ladies for the advancement of the Church and christian religion. Eaton ladies will please take notice.

One of our young ladies received a BILLET DIXIE the other evening and after reading it, put it into her pretty mouth and chewed it up, saying, "that was the way to get all the good out of it!"

Movers are beginning to pass through town, travelling in a westerly direction. If the grasshoppers make a raid in that section again, many of them will wish themselves back before the summer is over.

The Ladies, who headed the crusade movement last year, now slanders women school teachers, by saying that after one of them has taught "school five years no man can live with her as a wife." The wretch!

Five hundred cords of good wood wanted on subscription. We think that will be enough to see us through the remainder of this winter; we've been foomen long enough with a cord at a time, expecting summer every day.

"Jim-Jammed"—Our Devil.

Straw hats and bare-footed boys have not been bobbin around very much for the last few days.

As Decoration day comes on Sunday and it is claimed as a christian performance, we don't see why those who want to exercise the duty, can't just as well do it on that day as any other. Everybody would be at leisure to attend, you know.

A notable fact—one of vital significance to every farmer—is, that the wheat which had been put in last fall with the drill has endured the severe freezing of the past winter and spring, much better than that sowed by the old broad cast method.

No man can be a good fellow who does not pay his debts—no one can be a good Mason, Odd Fellow, Granger or christian, or should be permitted to call himself either, who withholds from his fellow man that which is his just due! Think of this truth, reader!

He came home late and found his wife in a high state of nervousness. She exclaimed: "Here I've been waiting and rocking in this chair till my head spins like a top." "Jest so where I've been," said he; "it must be (hic) suthin' (hic) in the atmosphere?"

The potato bug has had an interesting, and we hope, a freeing time this spring, but it is a question whether the frost has had any effect on an insect that thrives on concentrated life, reveals in carbon oil, and will get on the stalks and make moults at Michael's Killarney agents!

Here is something that should be more generally known. It is said that bed bugs will live a year without air or food if placed in a hermetically sealed bottle. Persons desiring to keep their bed bugs over the winter without feeding them will do well to remember this. Thus science assists the most humble.

If correspondents would observe a few simple rules, many efforts might have a better destiny than the editor's waste basket. Always write briefly, write plainly, write truthfully, (editors love the truth you know) write on but one side of the paper, and when there is nothing of special interest to write about, don't write at all.

Gus Peters made a speech from the Court House steps on Wednesday evening. He says he is a candidate for Congress. John got into the calabos for getting drunk, and the "asspeck" exhibited in public, was quite different from that of his brother but it only shows the difference between the ambition of two members of the same family. Such is life.

Summer will be here, ere long with its out-door meetings and amusements. The fields will be clothed in their mantle of green and the flowers cover the earth with their rich-garment. The birds will sing in our forests, and the ripening fruit hang in tempting clusters upon the vines and trees. Who is it that can dare to be miserable in a world like this?

After Concord and Lexington, "On to Bunker!" is the centennial watchword. The hundredth anniversary of that battle falls on the 17th of June next, and preparations for duly celebrating the event are already making. Some unparaphrased wretch has suggested that our side got whipped on that occasion there is nothing to celebrate, but that sort of talk should be frowned down.

The secret of good health is first, keep warm. Second, eat regularly and slowly. Third, maintain regular bodily habits. Fourth, take early and very light suppers, or none at all. Fifth, keep a clean skin. Sixth, get plenty of sleep at night. Seventh, keep cheerful and respectable company. Eighth, keep out of debt. Ninth, don't set your mind on things you don't need. Tenth, mind your own business.

Perhaps it is not generally understood that it is the duty of every person taking up an extra to immediately advertise the same by publishing a notice and attending to the matter in a lawful manner. A person who keeps an animal without advertising it, is liable to be indicted by the grand jury and punished accordingly. We believe that under the new law all extra are to be advertised in some public newspaper.

We are not an advocate of temperance per se; neither do we believe that hating benzine promiscuously is conducive to health, wealth or moral character. Getting drunk is demoralizing and degrading. No man can get on a bender and afterwards feel richer, happier or wiser for it. It depletes the pocket, engenders disease, impairs the intellect, destroys self-respect, and lowers a man to a level with the beast. We saw several in this condition on Saturday last, and we'll bet they will all agree with us in this.

Our "Devil" has become disgusted with the printing business and quit. We dispatched one of our short-hand correspondents to interview him as to his excuse for doing thus. He gave us his reasons that, he feared some day he might become an editor, and at the same time hold an office under an administration that had deceived, robbed and plundered the people, and that his desire to keep his place might induce him to become indifferent as to the frauds, usurpations and peculations of his master, while he was denouncing those of his opponents, and rather than be placed in such an inconsistent attitude, he gives up the profession, retires to the "shades of a farm life," and will study to be a Granger! Our reporter undertook to show him that such cases were rare, but it made no impression on his determination. Another "Devil" is wanted—one that can stand the "mercenary" will be taken immediately.

Amusements.

Last week we had Felix A. Vincent's New York Theatrical Troupe two nights, which was the best ever in Eaton, and we are sorry they will not better patronized, but hope they will favor us again.

Com. Foote and Sister's Troupe gave two entertainments on Wednesday last, one in the afternoon and the other in the evening. The Hall in the evening was a regular jam, every foot of room being occupied with spectators. It was the largest attendance we ever seen at any performance in Eaton, and gave general satisfaction, and should the "little ones" ever come around again, they can bet on a full house.

James Nolan, an industrious and hard working farmer, who has been living west of Eaton for several years, came in to attend the circus on Tuesday last, and while standing on the public street was taken with hemorrhage, and died in about fifteen or twenty minutes. He had been in delicate health for more than a year. Truly in the "midst of life we are in death."

ALEXANDER McNUIT, a son of John McNUIT, was drowned in Swamp Creek, near Euphemia, this county, on Wednesday last week. The deceased was subject to paroxysms, and while sitting on the bank of the stream fishing, was taken with one, fell into the water and strangled before assistance came to his relief, although one of his neighbors was within a short distance of him. He was about 43 years old, and leaves a family of several children to lament his unfortunate death. A coroner's inquest was held by Samuel McNUIT, Esq., and a verdict rendered in accordance with the facts above stated.

The following new subscribers were received since our last issue: Aaron Wheeler, Henry Heckman, C. J. Tisch, Simon House, B. F. Bunch.

In another part of our paper will be found the acknowledgment of Mrs. Mary E. Tabor, of receiving the sum of \$8,774.90, the amount of a Life Insurance Policy, in the Penn Mutual Life Insurance Company, of her late husband, JONAS C. Tabor, of Twin Township. This Company has paid out in our county in three years, upwards of \$16,000.00, and its prompt and equitable adjustment of policies held against it in cases of the death of the holders, has given it a reputation for fair dealing, that no other institution of the kind can rob it of. If any of our readers have a desire to carry a life insurance policy, they can do no better than take one in the Penn Mutual.

THE Phrenological Journal and Life Insurance, a good and useful publication in its usual crisp and lively style. Everybody can find something to interest or stir him in this number. The Editor is Prof. Sheppard, the Editor, Geo. T. H. en, Dr. J. P. Thomas, and the late Sir William Bennett among the contributors. The articles are scientific, political, and witty—are Ocean-Sense in the Pulpit; Give Her a Chance; Cattle Raising in the United States; American Finances; Absolutism, in which those who are in the habit of running to Europe, are sharply admonished; Chapters III, and IV, of Alfred Rumlair, with illustrations of some of the Characters; The Cedar Bird; Culture of the Esthetic Nature; How to Draw the Face; Some of Our New York Artists, etc. The price, 25 cents per volume. Subscriptions for a year \$2. A new volume begins with the July number.

Received of Penn Mutual Life Insurance Company, of Philadelphia, Pa., the sum of nine thousand, six hundred and seventy-four dollars and ninety-nine cents, (\$9,674.99) being in full of the sum of nine thousand, six hundred and seventy-four dollars and ninety-nine cents, issued by said Company No. 12,946, issued by said Company on the life of my late husband, John C. Trick. MARY E. TRICK.

ORGANS.

A beautiful writer says there is nothing that contributes more to the enjoyments of a family, than music. To cultivate a love of music among children, creates and fosters a refined sentiment that is never forgotten when they are in maturity. Music excites and promotes good feeling. The blending of the voices of parents and children in song, strengthens the ties that bind them to the home. It is the best of all the home friends. It renders home attractive, interesting and beautiful, and in every home circle where it is cultivated, there will be found a greater freedom from all those discords and inharmonious contentions, that render so many families miserable, and the children anxious to find a more congenial atmosphere elsewhere. Music is not an unmanly or effeminate way of spending one's time; many unrefined parents even, when they prescribe even the cotyledon fiddle their sons enjoy scrapping in the attic. Every home should have a musical instrument in it that can be used as an accompaniment to the family voices, and we know of none more appropriate than the ESTEY ORGAN. They are the "gem of the parlor," beautifully finished, sweet and soft in tone and are ahead of any other instrument now in the market. Lewis Gable is the agent for the sale of these organs, and will furnish them on the best terms.

Mr. Beecher swears that Mrs. Moulton is a perfect lady, but that she lied all through her testimony against him. The Brooklyn ideal of a perfect lady is exceptional, like everything else in Brooklyn.

Ohio is the second coal producing State in the Union.

EATON MARKETS. BUTTER, per lb. 12 1/2. EGGS, per doz. 14. CORN, per bush. 70. WHEAT, per bush. 1.20. RICE, per bush. 1.20. SUGAR, per lb. 12. COFFEE, per lb. 12. TEA, per lb. 12. SPICES, per lb. 12. OILS, per gal. 12. FLOUR, per bush. 12. MEAT, per lb. 12. VEGETABLES, per bush. 12. FRUITS, per bush. 12. DRIED FRUITS, per bush. 12. NUTS, per bush. 12. SEEDS, per bush. 12. GRAIN, per bush. 12.

Partition Sale. James Werts, Order of Sale. Pursuant to an order of sale issued by the Court of Common Pleas, within and for the county of Preble and State of Ohio, in the above stated case, and to the Sheriff of said county directed, I will offer for sale at public auction, at the door of the Court House, in Eaton, Ohio, on Saturday, June 5, 1875, between the hours of 1 and 4 o'clock, p. m., the following premises, situate in Preble county, Ohio, and described as follows, to-wit: Containing 110 acres, be the same more or less, situate in the south-east quarter of section 4, Township 37, Range 3, east, in said county (excepting 55 acres off of the east side of said quarter section). Also, the following part of the south-west quarter of section 4, township and range aforesaid, to-wit: All the south-west corner of said quarter section, west 50 1/2 feet to a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the west line of said quarter section, and a 70 foot boundary in the north line of said quarter section, and a 70 foot boundary in the south line of said quarter section, and a 70 foot boundary in the east line of said quarter section, and a 70 foot boundary in the
