**WHEN STEPHENS L. BLAKELY
WAS CITY SOLICITOR OF
COVINGTON KY.**

Stephens L. Blakely
Candidate for Commonwealth Attorney,
Covington, Ky.

1. The Street Railway Franchise Ordinance was drafted.
 2. The Grade Crossing Ordinance was drafted.
 3. The natural gas mains were extended to Latonia.
 4. City water was furnished to Latonia at the same rates charged in any other part of the city of Covington.
 5. The city of Covington got a decision against the L. & N. Railroad Company that the railroad companies could not use the streets without the consent of the city.
 6. An investigation was started to ascertain why the city received no dividends on its hundreds of dollars' worth of stock in the Suspension Bridge Company.
 7. The taxes paid by the Street Railway Company to the city were increased by about \$100,000.00.
 8. Litigation was begun to prevent the Union Light, Heat and Power Company from overcharging consumers, requiring deposits and imposing penalties.
 9. The affairs of the office were conducted by Blakely alone, and for the first time in many years no additional help was employed by the city.
- After he had served but one-half of his term of office he was discharged, while many of these matters were pending. The citizens of Kenton County who remember these things should vote for **Stephens L. Blakely for Commonwealth's Attorney.**

"NO STRIKE IS EVER LOST"

Denver, Colo.—In his report to the State Federation of Labor convention, President McLennan made these optimistic references to the recent strike of Colorado coal miners.

"The astounding manner in which it has opened the eyes of the general public to the ordinary injustices and abuses with which the worker is beset has made it worth while and laid the foundation for future dividends for labor, and it can be set down as a hard and fast rule that 'no strike was ever lost.' Behind all the expense, the suffering and the hardship are the hidden gains, which will only be realized and appreciated in the future. Each strike will have its effect on subsequent strikes. It must have a tremendous effect on each subsequent occasion when labor confronts capital with a bill of industrial rights.

"As an instance of the effect of the strike on the coal operators of Colorado, the Colorado Fuel and Iron Company, in a burst of repentance and with a desire to play to public applause, asked its non-union men in the various camps in southern Colorado to meet, discuss any grievances they might have, select their committeemen, and have their wrongs, real or fancied, brought to the attention of the company. There is no record of their having been so kind, so indulgent, so paternalistic prior to the strike. The non-union men came together in several of the southern camps, they formulated demands very similar to those which the Union has asked in the first place. They asked for a 10 per cent increase in wages, and also something that the Union men had never asked for, the discharge of several harsh and tyrannical pit bosses. It was what these men had learned from the Union and its fight that made them ask for those things. They had learned the things which the Union had demanded. They had compared their own unhappy state with what it would be if they were Union men enjoying all the fruits of successful Unionism, and being given a chance, they yanked for these things. They did not get them until backed by the strength of organization."

APPOINT CONCILIATOR.

Washington, D. C.—Secretary of Labor Wilson has appointed John A. Moffett a commissioner of conciliation in the strike at the Brown & Sharpe plant here. Several thousand employees are attempting to enforce a demand for shorter hours.

BLAME CITY FOR DISASTER.

New York, N. Y.—The death of seven persons and the injury of nearly 100 others, because of a cave-in on subway work, is due entirely "to the greed, avariciousness and criminal carelessness of contractors and city officials alike," declares the Central Federated Union in a resolution presented by Secretary Bohm and endorsed by the Trade Unionists.

The workers declare "that the city officials and the contractors are responsible for this slaughter of human lives and the maiming of the many people, and the officials' retrenchment and false policy of economy to be primarily the root of this evil; the public service commission decided against our contention and in favor of cheap labor at various hearings where we proposed to protect the interests of the public."

The following opinion is expressed on the proposed investigation: "We expect long-drawn-out investigations, the juggling of responsibility from one to another, with the result nil, as in former like cases, too numerous to mention."

**OVERALL FACTORIES
UNIONIZED.**

Toronto, Canada—Fred Bush, organizer of the Garment Workers, reports that he was successful in signing up eight overall factories in Winnipeg, every factory in the city, employing 450 men and women. A slight increase in wages was also secured.

STREET CAR STRIKE SETTLED.

Columbia, S. C.—The strike of Union street car men in this city has been settled and the men have returned to work. It was charged that inspectors used their power to discharge in an arbitrary manner. The agreement gives the general manager alone power to discharge, but his decision can be appealed, both sides to appoint representatives, they to select an umpire, if necessary.

FAVORITISM CAUSES STRIKE.

Princeton, Ind.—Because two blacksmiths were discharged to make room for favorites of the company, 700 miners employed by the Deep Vein Coal Company are on strike. An arbitration board failed to adjust the matter.

DEMANDS ARE GRANTED.

Holyoke, Mass.—Machinists employed by B. F. Perkins & Son have won their strike, the company agreeing to reinstate all workers without discrimination. A 50-hour week is promised, as is time and one-half for overtime and doubletime for Sunday.
