**JOHN J. CRAIG**  
**FOR MAYOR**  
**COVINGTON, KY.**

**MINE WORKERS' PRESIDENT**

Is Removed From Chair at Indiana District Convention.

Terre Haute, Ind., Oct. 9.—Delegates from nine local unions of the Eleventh District of the United Mine Workers of America met here in special session today. While the purpose of the convention was given as for the "welfare of the organization," it was apparent when the meeting opened that an attempt would be made to remove District President Edward Stewart, of Hymera, and James Shiel, Vice-President.

The removal of President Stewart as presiding officer of the convention was accomplished after Delegate John Inglett, of Linton, in stating that charges were likely to be filed against the officials, moved that another presiding officer be named. John McCallum, of Carlisle, was elected by acclamation. The motion carried after President Stewart said he was willing to surrender the chair.

It has been charged Stewart showed favoritism in adjusting disputes with mine owners.

The convention adjourned for the day before charges against the officers could be introduced. A resolution was passed instructing delegates to the next International Convention to urge that the present plan of electing International Board members be abolished, and that the District Presidents constitute the board.

**ILLINOIS ASSEMBLY—N. G.**

Springfield, Ill.—The Joint Labor Legislative Board of Illinois has issued its report concerning efforts on their part to secure beneficial legislation for the workers from the 49th Illinois General Assembly. It is in part as follows: After most strenuous efforts we secured 20 favorable pieces of legislation on minor matters. The legislature, however, was more easily influenced by corporation interests and as a consequence 20 of the most important measures to labor were defeated. Those measures were: (1) anti-trust and injunction limitation bill; (2) the 75 car limit bill; (3) the initiative and referendum; (4) constitution convention; (5) the gateway amendment; (6) nine hours for women; (7) the full crew bill; (8) the

child labor bill; (9) one day's rest in seven bill; (10) uniform text book bill; (11) women's minimum wage; (12) old age pensions; (13) engineers license; (14) wages as a preferred lien; (15) free text books; (16) weekly pay day; (17) protection for compressed air workers; (18) workers protected from extortion; (19) working day of 10 hours within 12 for street car workers; (20) compulsory compensation for injuries. The joint committee feels justly indignant with the inefficient ill-balanced, corporation representatives who posed as State legislators at Springfield the last session.

**PLUMBERS ENDORSE DALY**

Journeyman Plumbers' Union, Local No. 59, indorsed Martin Daly for reelection to Council-at-Large at a meeting last week.

**INCREASE FOR TELEGRAPHERS.**

St. Louis.—All station agents and telegraphers employed by the Wabash Railroad system will receive salary increases of nine per cent beginning with November 1, it was announced at the executive offices of the road here today. In addition the working day of station agents will be reduced from twelve to ten hours and telegraphers will work eight hours a day. Overtime pay will be increased from twenty-five to thirty-cents an hour. The new schedule will increase the payroll by \$40,000 annually.

**REFUSE TO BE SPEEDED UP.**

New York.—One hundred canners' employes at the Hunters Point plant of the Standard Oil Co., refused to speed up at the demand of the superintendent. A strike resulted, throwing out of work 600 other men employed in the stilling and boxing departments. It was demanded that the men do as much work in 8 hours as had been done previous to the reduction in 9. After remaining idle two days a compromise was reached and they returned to work.

**AMUSEMENTS.**  
(Continued from page 3.)  
"Mirthful Maids," which is the attraction at the People's Theatre, week commencing Sunday matinee, October 24. The style of entertainment presented by this company differs considerably in its general aspects from the average performance of burlesque and vaudeville companies. The piece presented is said to abound in the funniest of situations, and is so constructed that the various members will have ample scope for their talents. During the action of the show specialties, dances, medleys, marches and ensemble numbers will follow in rapid succession. The piece is staged with beautiful settings, gorgeous costumes and novel electrical effects. The notables of the cast are such well-known artists as Percie Judah, Martha Edmond, Margaret King, Kittie Howard, Toney Kennedy, H. A. Rathbun, Ernst Fisher, Jack Hubb and a singing chorus that is far above the average kind of burlesque companies.  
As an added attraction for the week the management has secured one of the best singing quartettes that ever struck Cincinnati, the "Blue Grass Comedy Four." Other attractions will be the ever popular chorus girls' contest on Tuesday night, amateurs on Wednesday night, and ladies' matinee on Friday.

**STEEL PRICES GOING UP.**  
Pittsburg, Pa.—Writing in the Pittsburg Dispatch on the remarkable upward trend of the steel industry, B. E. V. Luty says:  
"Conditions in the steel market have now reached such a stage that the majority of observers expect an actual runaway market in the near future. Prices have advanced constantly, demand has vastly more chance to increase than to decrease, and the production can not be increased materially. The pressure for steel is increasing daily. All the steel mills are striving for maximum outputs, but there is little increase, as substantially all the steel making capacity has been in operation for more than two months, and as the weather in August was exceptionally favorable it is difficult to improve upon the records then made."
