## Wines are Sent to America from France.

### IN BIG QUANTITIES.

#### Our Consul at Bordeaux in an Interesting Report Tells of Some Tricks of the Trade.

Washington, Jan. 14.—Olive oil and wine coming from France to the United States are adulterated and misbranded, states Consul D. I. Murphy of Bordeaux, in a report to the bureau of manufactures. False brands and fictitious names are used and authorized by the laws of France, though it must be admitted that in many instances their use is directed by American importers. The consul writes that while immense quantities of olive oil are shipped to the United States under fictitious names, it must not be presumed that all or any considerable portion of it is adulterated. A list of the fictitious names, with the houses using them, is on file at the bureau of manufactures.

French packers of preserved fruits and vegetables and wine merchants are also addicted to using their proper names only for their goods of first quality. It would require a volume to give the fictitious names used by them, and it would require another volume to contain all the names insisted upon by American dealers.

Certain unprincipled buyers or brokers, says the report, deal up the entire output of some of the vineyards where good wine is produced, and with the addition of alcohol and water multiply the output many times over. Examination of the matter leads Consul Murphy to believe that among the growers there is practically no fraud and that the trouble is with certain dealers or brokers who practice what is called "mouillage," or adulteration with water and alcohol.

A number of convictions have been secured in the courts of Bordeaux and in other places in southwestern France, nearly all of them through the instrumentality of an association of the leading wine merchants of Bordeaux, who have determined, if possible, to put an end to the fraudulent practices of unprincipled dealers.

### A GREAT LANDSLIDE.

#### Carried Away the Tracks of the Wash Railroad for a Distance of 700 Feet.

Wheeling, W. Va., Jan. 14.—Early Sunday morning a tremendous slip occurred on the main line of the Wash railroad on the West Virginia side of the Ohio river at the bridge opposite Mingo Junction, O., 18 miles above this city, which will put the road out of commission for several days, and in the meantime trains are being operated via other lines. "The slip extends for a distance of 700 feet from the approach to the bridge and is 50 feet in width. Thousands of tons of earth slipped, carrying away the tracks and filling the bed of Cross creek, the waters of which are now flowing over a nearby cornfield.

Just as the slip started a westbound freight train was passing over the bridge. Engineer McCabe felt the track enveloping and opened the throttle wide. The caboose and six freight cars of the freight were demolished by the avalanche of earth. Several brakemen in the caboose saved themselves by running.

### Request that the Wrongs Existing in Congo State be Considered and if Possible Corrected.

Philadelphia, Jan. 14.—At a meeting of the conference of the foreign missions boards of the United States and Canada held in this city on Saturday it was unanimously agreed to forward to President Roosevelt, the United States senate and King Edward an appeal on behalf of the stricken people of the Congo state. The appeal follows:

"The conference of the foreign missions boards of the United States and the Dominion of Canada would most respectfully bring to you an appeal on behalf of the stricken people of the Congo state. We do this in the name of 40 missionary organizations, whose work is prosecuted in all sections of the world, and we are persuaded that the petition interprets faithfully the sentiment of their constituency of upwards of twenty millions of Christian men and women.

"We speak with deep conviction concerning this issue, because we are intimately associated with many residents of the Congo state by whom the conditions to which we refer have been disclosed. We are constrained to accept their testimony and we know that the earth does not hold men of more sensitive honor or more self-sacrificing devotion. But you will not need to be reminded that other testimony than ours has been given to the credibility of their witness.

"A commission selected by King Leopold himself has said of them and of their fellow missionaries in the Congo state, that they constitute for the native the sole representative of equality and justice. Of their testimony, dreadful as it has been, the commission has declared that they found it to be supported by a multitude of witnesses and established by a mass of evidence and official reports.

"The request which we are urging is obviously fair to all interests, since it asks only for such impartial action as shall give authoritative revelation of actual facts and insure correction of such wrongs as shall be disclosed. "In the name of humanity, of international justice, of regard for the primal rights of man, we would ask that you will use the full power reposed in governments by the supreme ruler in the interest of an immediate discharge by the nations of their responsibility of guardianship over the remnant of the humble people who a generation ago, without choice of their own, were brought out of their isolation into relations with the world of men and states."

### STEAMER RAN ASHORE.

A Big Freighter Strays from Her Course and Lands on the Beach Near Chatham, Mass.

Chatham, Mass., Jan. 14.—Straying out of \$5,000 led to the arrest Sunday of Frank F. Homans, of Paris, France, and David T. Tanner, alias Townsend, of White Plains, N. Y., on the charge of conspiracy. The two men were taken into custody in a hotel after Dr. Thomas J. Kemp, of this city, had reported to the police that Tanner had made a proposition to him to enter into a deal "to put a New York gambling house out of business."

Dr. Kemp declares that the men assured him that by investing \$5,000 he could easily win from \$200,000 to \$300,000 within one week. The physician, however, says he did not put up any money, but encouraged the men to secure evidence. The "get-rich-quick scheme," according to Dr. Kemp's report to the police, was that Dr. Kemp was to pay \$5,000 and Tanner, who claimed to be manager of a gambling house, was to tip Homans and the physician off on the run of the case in a faro game. Tanner and Homans were locked up at a police station. Both men deny the charges.

# AN EPIDEMIC

## Of Typhoid Fever Alarms People of Pittsburg.

# A CRISIS IS NEAR.

### High Water in the Rivers Will Bring Millions of Germs to the City — Water Must be Boiled.

Pittsburg, Jan. 14.—The dangerous flood stage anticipated in the rivers here Sunday by the United States weather authorities failed to materialize and last night the stage of water was stationary after reaching a little over 20 feet. While this stage causes considerable trouble in the lowlands, a 25-foot stage is necessary for a flood stage in the downtown section of the city.

Aside from filling many cellars with water and tying up transportation on the river, the present stage of water wrought no serious damage. Tows in the harbor and along the rivers had been moored fast and tugboats maintained a sharp patrol all day.

Hundreds of industries and thousands of families made preparations for the flood by moving all goods to places of safety, while the police department had hundreds of skills in readiness to convey the people residing in the flood district to and from their homes.

Referring to the present high stage of water and its effect upon the typhoid fever situation in this city, Dr. I. F. Edwards, superintendent of the bureau of health, said:

"The high water has washed from off the land up the rivers all the impurities that have been collecting there for months. These impurities, containing millions of germs, are being carried toward Pittsburg on the crest of the flood. When it reaches the city it will bring with it the crisis of the typhoid fever epidemic."

Bulletins of warning are being sent broadcast urging the people to boil all the water.

In an effort to keep the impending typhoid crisis down to a minimum, notices of warning are pasted on billboards, advertising space is utilized in street cars and the daily papers carry at the head of their papers the injunction which reads:

"In view of typhoid fever in Pittsburg, the bureau of health urges that you boil the water used for drinking purposes, for the protection of yourself and family."

### THE DOCTOR DIDN'T BITE.

A Washington Physician Causes the Arrest of Promoters of a Get-Rich-Quick Scheme.

Washington, Jan. 14.—What is charged by the police to be a scheme to defraud a Washington physician out of \$5,000 led to the arrest Sunday of Frank F. Homans, of Paris, France, and David T.
