No More Record Breaking Runs on That Road

A Large Number of Well Known Railway Officials Make Local Men Pleasant Calls Wednesday

The Pennsylvania railroad issued notices that no more record breaking runs are to be made on that system. Engineers of passenger trains have been instructed that they must not exceed the maximum limit announced in a circular sent them.

This action has caused considerable comment, as it was generally supposed that the Pennsylvania would make still greater reductions in the running time of its fast through passenger trains with the taking effect of the spring time table.

One part of the order says that hereafter engineers on passenger trains must not attempt to make the run from Altoona to Harrisburg 132 miles, in less than 135 minutes. The eighteen-hour traffic between Chicago and New York are scheduled to make the run between Altoona and Harrisburg in two hours.—Plain Dealer.

Burr Myers, of Huntington, has been appointed traveling engineer of the Erie in the place of J. A. Cooper, who was transferred to the New York division. Myers is well known to local railroad circles and upon his visit here this morning received the glad hand of congratulation from scores of railroaders.

The annual meetings of the Columbus, Delaware and Marion Railway company, the Marion Railway and Light company and the Northern Power and Construction company which were to have been held at the Chittenden hotel yesterday were postponed until April 2.

All of these corporations are controlled by John G. Webb and associates of Springfield and it was owing to the absence of several prominent stockholders that the postponement was taken.—Ohio State Journal.

W. F. Burch, district passenger agent of the Chicago Great Northern with headquarters at Cleveland, was looking after the interests of his road in local railroad circles today.

The Erie commenced the work of icing meat trains at the local ice plant yesterday afternoon. An extra force of men was employed, and practically every refrigerator car passing through the city will be examined and iced when necessary.

Frank L. Tullis, traveling freight agent of the Illinois Central railroad with headquarters at Cincinnati, was attending official business at the union depot today.

L. C. Sigler, traveling freight agent from Cincinnati of the Union Pacific railroad, was a business visitor at the union depot today.

Erie train No. 3 today carried private car No. 993 occupied by H. O. Dunkle and party enroute from New York to Huntington.

Opening Tonight

You are specially requested to attend the opening of the Ohio Decorating Co. tonight at 7 to 9 o'clock. Good music and a beautiful souvenir for every lady.—Come.
