

Marks of Distinction

What the Victoria Cross is to the British soldiers, the "Triangle A" is to cigars—the mark of highest merit.

Only soldiers of proven merit wear the cross.

Only the best cigars on earth bear the "▲" (Triangle A).

You record an emphatic protest against low-quality high-profit cigars every time you demand the "Triangle A" brands.

When you buy cigars get your money's worth and be sure of it!

Choose your cigars from boxes bearing the "Triangle A" mark of merit—then you know you're getting greater value than your money can buy any other way.

The "Triangle A" identifies the product of the American Cigar Company—the only complete organization with the only "stemmeries" equipment for scientifically developing the ripest fragrance of the best tobacco, for making a smooth, uniform blend, and for delivering the cigars to you in their best smoking condition.

The "Triangle A" on a cigar box guarantees full value, cleanliness, and unvarying quality.

The New CREMO

represents the best quality that can be produced and sold for five cents—it proves every claim we make for cigars sold under the "Triangle A."

Every box is extra-wrapped in glassine paper, sealed at each end with the "Triangle A" in red, to maintain perfect smoking condition and cleanliness until the box is opened.

LARGE FORCE OF LABORERS

Will be Put to Work on New Ball Grounds.

SURVEY IS COMPLETED

Contract for Buildings to be Let on Tuesday.

Manager Drumm Will Arrive Tomorrow and Get Things in Readiness for Arrival of Players.

Preparations are being made to commence work on Marion's new baseball park on Wednesday morning and to rush the work to completion. The grounds have been surveyed by C. D. and M. engineers. The contract for the construction of the grand stand and the bleachers will be left Tuesday.

The local magnates are working hard to have things in readiness by the opening of the season. Manager Ferd Drumm will arrive in the city Tuesday and make preparations to receive the players who are to report here the middle of next week.

The baseball officials are having no trouble disposing of the \$3,000 stock issue. Local business men realize that the team is a good thing for the city and are not slow in coming across with the funds to put the club on a solid financial basis.

The home plate has been located at the southwest corner of the site at the intersection of Bellefontaine avenue and the C. D. and M. railroad. The field is laid so that the batter faces northeast and bats in that direction. The right field will be the sun field. The natural drainage of the property is excellent and little grading will be necessary to make the park as good as any in the league.

The site is located just over the corporation line and a long fly over the right field fence will land in the corporation. As soon as the lumber is delivered at the grounds a large gang of carpenters will be placed at work. It is hoped that the park will be completed in time to play a number of exhibition games before the season opens.

MAYOR WILL FILE BUDGET

For Fiscal Year With Come Tonight.

A FIVE MILLS LEVY

Recommended for the Year for Sinking Fund.

That a Building be Constructed for the Central Fire Department Near the Center of the City.

The curtailment of expenses, the codification of the city ordinances, and keeping as low as possible the city's bonded indebtedness, are the principal recommendations of the annual budget of the mayor which will be presented to the city council tonight. The budget is interesting in many of its details.

The mayor, after jollying council a little speaks of the large mileage of the city in paved street, sandstone sidewalks and sanitary sewers. He believes that the time has been reached when the yearly addition to such mileage should be decreased rather than kept up and recommends that council in the future pave only those streets that are sufficiently settled. He also requested council to take severe action against corporations that are tearing up the city streets and falling to repair them properly afterward.

In regard to the market house, the mayor recommends that council remodel the present city building, so that the city offices and board rooms can be located there as well as the market house, which is now too small for its purposes. He recommends that council construct a building for the Central department, either on the city property or on some lot as near as possible to the business center of the city.

The members of the various city boards and the city officials are highly commended by the mayor for their work and interest in the city's welfare.

The purchase of a motor generator, a repeater and additional fire alarm boxes, is recommended for the fire department. It is also asked that council revise the present ordinance so that a satisfactory method of handling the numerous dogs and chickens at this time of the year, can be had. Many complaints of this nature have come into the police headquarters and there is no relief given under the present laws.

The budget recommends that the levy for the present year for the sinking fund be five mills as requested by the trustees of the fund. In conclusion, the mayor justifies his course in giving the doings of the police court without reserve to the newspapers by complimenting the press in assisting him in stamping out many evils.

The budget contains recommendations for appropriations in all the city departments for the ensuing year.

TOOK AWAY THE EVIDENCE.

Bridegroom's Proof That He Had Been a "Real Sport."

A Denver hotel man tells the following story and says it's true: A few days ago a bride and groom from the country registered at the hotel. "What are your rates for room and board for two?" asked the groom. "Six dollars," was the reply. That was satisfactory, and the two were given a room. When they decided to leave the groom asked for his bill. It was \$24. He was staggered. "What!" he ejaculated. "Twenty-four dollars! That's an outrage. You said six dollars." "Six dollars a day," came from the clerk. "Six dollars a day!" the groom almost shouted. "I thought you meant six dollars a week." The clerk simply smiled. Finally the groom paid over the money. "Now," he said, calming down somewhat, "wait a minute. I want to go upstairs. Keep that money in your hand." The clerk didn't understand, but he decided to humor the man. The latter soon returned with a camera. Aiming it at the clerk he took a picture. "This is the highest priced place I ever stopped at," he explained. "I just wanted a picture to show my friends that I was a real sport here in Denver." Then he and his bride gathered up their telescopes and went out.

Loyalty to the Worthy.

There is no other kind of way by which human society can be sweetly constructed than that feeling of loyalty whereby those who are worthy are revered by those who are capable of reverence.—T. Carlyle.

Diplomacy.

A collector stepped into an office and, seeing the debtor talking to a number of lady friends, waited till he had leisure. Whereupon the debtor turned to the collector with a very pleasant manner and said: "I will lend you this dollar to-day. Come again when you are hard up." and he smiled one of those smiles that crack a looking glass.

Part of Their Business.

A Winsted (Conn.) dispatch says: "Yankee schoolmarm" are getting scarce. Not surprising when one learns, further on, that these teachers are, as a rule, good cooks.
