CONTRACTORS ARE PUZZLED

Cannot Secure Men to Perform Labor.

WORK WILL BE DELAYED

And Some May be Entirely Abandoned.

Skilled Labor is Hard to Secure and a Decided Raise in Wages Can be Expected.

In almost every branch of business in the city there is a great scarcity of labor and it is feared that much of the work planned for spring and summer will be either delayed in completion or abandoned.

The large amount of building that is being done at present gives employment for a large number of carpenters. Over one hundred houses are now under construction in the city and it is with difficulty that the contractors can secure carpenters to carry on the work. One contractor who is building a number of dwellings at this time states that on account of the scarcity of carpenters and common laborers he has been compelled to turn down a number of contracts which under ordinary circumstances it would be easy for him to fill. The work on his present contracts is being seriously delayed by the scarcity of labor.

It is estimated that this year will be a record breaker in the construction of buildings of all sorts and during the next two months the demand for carpenters, bricklayers, other classes of skilled labor and common labor will be increased. Unless conditions change to a very large extent within that time prices paid for the various forms of labor will reach a top notch mark.

In all of the shops, at all of the railroads, at the stone quarries and in other places where large numbers of men are employed the officials have found it practically impossible to secure the full quota of men notwithstanding the fact that tempting wages are offered. The scarcity of labor in this city has been the cause of bringing many families here and the surrounding towns and country are expected to furnish many

more before the close of the season.

\$100—Dr. E. Detchon's Anti-Diuretic may be worth to you more than \$100 if you have a child who soils bedding from incontinence of water during sleep. Cures old and young alike. It arrests the trouble at once. Sold by Flocken Drug Co.

Y. M. C. A. HAPPENINGS

The individuals of the Y. C. A. bowling tournament were almost all bowled last evening, and some very good scores were made, the rivalry being very spirited.

A few games are yet to be bowled, but the standing is not expected to be affected very much, if any at all. However, the complete standing of the individuals in the entire tournament will be given, together with the prizes, in Monday's paper.

The honors of last evening went to Edson Bush who rolled 587 pins, while Charles Mason with 563 was second and Ed. Pierson with 538 third.

Following were the results:

Name	Score	Name	Score	Name	Score
Burnett	147	117	184	Totals	508
Hoffman	170	162	170	Hoffman	170

A WARM TIME IS ANTICIPATED

When Council Meets Next Monday Night.

A Hard Fight is Looked for in the Matter of Paving South Prospect Street.

At the regular meeting of the city council to be held Monday evening, the communication from Mayor Scherr, giving his reasons for vetoing the ordinance to proceed with the paving of South Prospect street from Hill street to the corporation line, will be read. According to City Solicitor Donithen, however, no action can be taken on the veto at that time. The ordinance will be held up for ten days following the meeting.

According to reports, there will be a large representation of South Prospect street people at the meeting, some to fight against the improvement and some for it. A warm time in general is anticipated. Mayor Scherr will be present to give further explanations, if such are found to be necessary.

A movement has been started to pave two of the most important up-town alleys, one running north and south between Main and Prospect streets from the Big Four railway to George street, and the other running east and west between Center street and the railroads from Prospect to Oak street. Petitions for the paving of these alleys will be presented at the meeting Monday evening.

Leave your measure for your spring suit at Joe Voll's, North Main. 3-1511

ENJOYED THE TREAT

Many Children Present at the "Story Hour" Today

One hundred and twenty-five children, ranging in ages from six to fourteen assembled in the Y. M. C. A. auditorium at 10 o'clock this morning for the regular monthly "Story Hour" which has grown so popular with the young folks of the city since its establishment several months ago by the city library attendants.

Rev. E. G. Mapes gave the talk of the hour, telling in an interesting manner his experiences of a tour in a home made row boat on the Kossing river, in eastern Ohio several years ago. Rev. Mapes has planned an excursion to the Scioto next month for all the children who are regular attendants at the "Story Hour."

The next regular talk will be given by Miss Rachael Thomas.

QUARTERLY INSTITUTE

Held Saturday at the High School

PROGRAMS OF INTEREST

Rendered at Morning and Afternoon Sessions

A Number of Prominent Educators From Distant Cities Deliver Interesting and Address.

The Second Quarterly Institute of the Marion County Teacher's Association was held in the auditorium of the Marion High school building Saturday with a large number of city and county teachers in attendance. The sessions were presided over by Prof. Frank Stoll, superintendent of the Agosta schools.

The morning session opened at 9:30 o'clock with devotional exercises conducted by Rev. Byron C. Platt, pastor of the Central Christian church. A piano duet, by Miss Berdine Millisor, and Miss Mary Frye was a number which was highly appreciated.

Prof. Frank D. Tubbs was scheduled to talk upon the theme of "Robert E. Lee," but on account of illness, was not able to be present and consequently one of the features of the program was lacking.

The principal address of the institute was delivered by Prof. E. E. Smock, of Dresden, Ohio, who talked on "The Teacher Who Teaches." His address was rich in practical thought and common sense and easily impressed the teachers. He said, "We're living in an age of investigation and research. Many ancient discovered truths are now but a mere matter of curiosity. All researches are made simply to acquire the knowledge of how to put to practical use the discoveries."

In continuing the speaker declared that the teacher is the object of investigation by the pupils, the patrons, press and by public sentiments. Said he, "Now the whole civilized world is turning its attention to America as is shown in the report of the German scientists, who visited the country four years ago for the purpose of investigating our schools."

What Prof. Smock said in his remarks are suggested by four of the points made in the report of the Germans, viz., first, the peculiar organization of our schools; second, personality of teacher and pupil; third, industrial tendency and lastly, in the United States the work has been made permanent.

The speaker placed special emphasis on the second point, disclosing that in any school it is the influence of the teacher, and not the science she teaches, that counts. In illustration of the point, the speaker told a number of stories. In closing, Prof. Smock left with the teachers a motto which is as follows: "I fear nothing in this world so much as that—I shall not know my duty and not do it."

The morning program closed with two select readings which were delivered in a highly pleasing manner by the talented elocutionist, Mrs. K. H. Marshall.

AFTERNOON SESSION.
The afternoon session opened with music by the institute. "Things Worth While" was the theme of an interesting and instructive address given by Prof. A. B. Jones, of La. Rue.

Prof. Frederick Berryman rendered a vocal solo receiving applause. Miss Rachael Thomas, preceptress of penmanship and drawing of the city schools talked in her usual interesting manner on the theme, "Dros Y Mor." After a vocal solo by Mrs. W. N. Harder, the program closed with an address, "Ideals of American Education," by Prof. William M. Vance, of Delaware. The attendance at this session was exceptionally large, the high school auditorium being occupied almost to its seating capacity.

Dance tonight in Schwinger's Hall, 4-13 11.

Clubs and Societies

The Advance Club will be entertained Monday afternoon by Mrs. Fred E. Scheffer, of East Center street.

Howard Wetmore pleasantly entertained the officers and employees of the City National Bank at a dinner last night at his home on Delaware avenue. The affair was in the nature of a farewell as Mr. Wetmore will leave next Wednesday for a trip abroad. On the trip he will be accompanied by E. J. Lee and R. T. Leys.

PEARLS FROM SULU SEA.

Most Beautiful of This Particular Gem is Found There.

Many and beautiful pearls are found in the Sulu sea and the possibilities of that body of water seem unlimited. The greatest pearl ever claimed from the sea in the Sulu archipelago was recently marketed in Singapore for 60,000 pesos, nearly \$30,000. It is the size of a small marble, perfectly round and of perfect color. The gem was found by a poor Moro fisherman and was promptly seized by the sultan of Sulu. Then Gov. Steever interfered and took the part of the poor fisherman. Under the old Moro law, in force when the American troops first took charge of Jolo, all pearls of unusual size must be sent to the sultan, who in return made the finder a "present." The only alternative the finder of a large pearl had was to sell his treasure privately to the pearl traders.

But to do so placed the finder's life in jeopardy, for if the trader could not buy the gem at his own price he could report the matter to the sultan, who had the power to seize the finder and execute him. Under American rule, however, this law has been abolished. The finder of this \$30,000 pearl, knowing this fact when his find was seized by the sultan, speedily made a trip to Jolo and reported the matter to Gov. Steever. The matter was taken to court, and the sultan forced to give up the pearl. The governor commissioned the Jolo Trading company to sell the pearl for the finder, the company receiving 20 per cent, for so doing.

So far as known this pearl is the largest ever taken from the Sulu sea, though owing to the secrecy practiced in selling the gems before American rule in Sulu there may have been greater finds. Three years ago a pearl found somewhere to the south of Jolo was carried to Batavia, and there sold to a European buyer for \$18,000. During the recent fair at Jolo, given by the government for the purpose of bringing the Moros together, Capt. Trana of the Jolo Trading company exhibited a magnificent black pearl valued at \$7,000, a rare gem of unusual size and beauty.

WEASEL A SMALL HORROR.
Animal is Sure Death to a Rabbit It Has Cornered.

The weasel is one small horror. Astonishingly strong, apparently fearless and as persevering as an ant, when once he has settled to the track of a rabbit, that particular bunny is indeed in grave peril, says Edwyn Sandys in Outing. The rabbit seems to know, too, and the knowledge seems to half paralyze him, for he seldom attempts the one saving chance—a straightaway, long-sustained run at top speed. And the end of the patient, if-we-do-but-wait-the-hour sort of pursuit! 'Tis indeed bloody murder. The fiend in angel garb finally toils within deadly distance. There is a snake-like stroke, most likely aimed at the big vein near the butt of the rabbit's ear. Once there, the brute sticks leech-like to the blood-sucking, while the trembling, walling rabbit totters aimlessly about till its drained body falls limply to pay its tax to mother earth.

Frank Clark has filed an application to be appointed administrator of the estate of Daniel Heil. The Ministerial Association will meet Monday morning at 10:00 o'clock in the parlors of the Y. M. C. A. All members are requested to attend.

The Board of Trustees of the Wesley Rescue Home met last night and appointed a standing committee composed of James Osborne, chairman, William Watkins and C. Montague.

Mrs. Stella Young of Cincinnati has been called here to nurse Mrs. William McClellan, who is critically ill at her home six miles west of the city.

Applications has been made in probate court for the appointment of a guardian for Caroline Kull, an alleged imbecile. The hearing has been set for 2 o'clock, Tuesday.

Do You Own a Rain Coat?
Ours are the guaranteed kind, waterproof and shape retaining. All colors.
\$10 to \$30.
HUGHS & CLEARY

Sandusky, Friday.
Dr. C. T. Wiant was attending to professional business in Richwood, Friday.
Mr. John Utrevis and Charles Weaver have resigned their positions at the Royal Rink.
Miss Ava Main of Delaware was the guest of Marion friends yesterday.
Mrs. Frank Bryan of West Center street was the guest of Columbus friends yesterday.

A. V. Dutton has filed in the probate court an appeal from the finding of the board of trustees of Bowling Green Township in regard to a township road which has been petitioned for. The trustees found the road to be unnecessary. The hearing will be held Thursday morning at 10 o'clock.
