HORSE IS INJURED DURING RUNAWAY

Collides with a Tree and Dies From Injuries.

Mr. J. H. Irely Residing West of The City Loses a Valuable Horse.

A runaway, which resulted in the death of a horse belonging to J. H. Irely, a farmer living seven and a

half miles west of the city, occurred on Cummin avenue at 3 o'clock, Monday afternoon. A team belonging to Mr. Irely became frightened while standing in front of the home of County Recorder J. A. Key. They ran up on the lawn in front of the home of John E. Davis, at the junction of Cummin avenue and Church street, and almost ran on the porch of the dwelling.

One of the horses collided with a tree in front of the Davis home, and received injuries which resulted in its death a few hours later. The team was stopped there and the injured horse was taken up town to receive the attention of a veterinarian.

The cause of the runaway is unknown. The phaeton to which the team was hitched was wrecked, and considerable damage was done to the Davis property.

PROF. TUBBS HONORED

Presented with a Cast of Shakespeare by Seniors.

The senior class of the high school perpetrated a very pleasant surprise upon Principal Frank D. Tubbs yesterday afternoon when he was presented with a fine bronze cast of Shakespeare, an emblem of appreciation of his faithful work with the class. The class also presented Miss Edith Wolf with a fine solid gold bracelet. Miss Wolfe has had charge of the seniors and won the high esteem of all. She will leave shortly after school closes for Montana where she recently accepted a position.

MARION EAGLES

Will Bring For One Week to Marion

Minnelli Brothers Biggest Dramatic Co. Supporting the Dainty Mina Geunell.

The amusement season in Marion will be made notable by the coming of what is without doubt the greatest attraction of its kind on earth, the Minnelli Brothers Bigger and Better Dramatic Company and their magnificent new \$5000.00 outfit. This attraction will visit this city for one week, commencing Monday, May 27, under the auspices of the Marion Eagles. To those who are posted on contemporaneous amusement events, the name Minnelli Brothers stands for the extreme possibilities to which organization, equipment and perfection in the theatrical business can be carried. They are this season presenting the greatest efforts of their managerial careers. Amazing, stupendous, incredible, such are the adjectives the press have bestowed upon this great amusement organization. Step by step, the Minnelli Brothers have moved upwards and onwards in dramatic reputation, merit and honesty have won Every detail connected with the present tour has had the personal painstaking attention of the management. An answer to conflicting claims of similar organizations is the fact that they appear year after year in practically the same territory, before the most cultured and refined audiences and always with the same results. I. e. a hearty come again. The Minnelli Brothers' rapid progress and advancement has set a standard hard to equal. Backed by capital and experience, maintaining a company of the greatest excellence it is not hard to understand the reason for such remarkable success. It should be remembered that their outfit this season is entirely new from stake to centerpole; the monster tent seating over 3000 people. The stage is much larger than the stage of the average large city theatre, giving plenty of room for the perfect productions the Minnelli Brothers are presenting this season. The tent will be set upon the Aronhalt lot on North Prospect street.

5-20-21 Dance tonight in Schwinger's hall.

COUNCILMEN ARE ANXIOUS

For Blame to Rest Where it Belongs.

SCHOOL BOARD GUILTY

If City Tax Levy is Boosted This Year.

The C. D. & M. Officials are Granted a 25 Year Franchise for the Bucyrus Extension.

If the city tax levy is boosted this year, the blame must be placed against the board of education. At least that's what the members of the city council claim, and they have no hesitancy in making a public announcement to that effect.

At a regular meeting of the council, held Monday evening, the members bewailed the fact that the council invariably gets the blame for increases in the tax levy. The truth of the matter is, according to the assertions of the councilmen, it is unjust to ensure them for the size of the levy, when they are generally the last ones who might be held responsible.

"I was a member of the school board 10 years," City Clerk Fies stated, Monday evening, "and during all that time, I did not receive a single word of censure because of the tax levy. I am not saying that we really spent any money needlessly, but what we did spend had its effect on the tax duplicate."

The question of the annual tax levy was brought up by J. E. Phillips, chairman of the finance committee, who gave figures to show that if the levy is increased this year, the increase will be made in order to meet needs of the school board.

"It looks as though we will have to shut down our street improvements in order to care for our children," said Mr. Phillips. He stated that it had been planned to pass the annual tax levy ordinance at this meeting, but owing to the fact that a communication had been received from the board of education, announcing that an addition of two and a half mills will be needed for the schools, action on the ordinance was deferred.

"The council had expected to lower the city levy slightly, but if the school board insists on this addition to its levy, we will probably have to raise the total levy," said Mr. Phillips. He announced that the finance committee will meet with the school board as soon as possible, and endeavor to devise some way of cutting down the increase sought by the board.

Mr. Phillips stated that the corporation levy for Marion compares very favorably with the levies in other growing cities in Ohio, and in fact is considerably below the average. He named probably 20 of the leading smaller cities, which have levies larger than that of Marion.

Figures were given to show that the school board has been raising its levy continually. In 1903, Mr. Phillips said the levy for school purposes was 8.5 mills, and in 1904 it was 8 mills. In 1905, the board asked that the levy be raised to nine mills, but the board of equalization, which then had the authority to revise the levy, cut it down to 8 1-2 mills. In 1906, the board again levied 8 1-2 mills, and now it wants to boost the levy to 10 1-2 mills.

City Solicitor Donthen said that the increase was not wanted for bonds or new buildings, but to meet an increase in salaries and the contingent account.

"Last year," said Mr. Phillips, "the city levy was 15.45 mils. We had hoped to lower this to 15.40 mils, but the wants of the school board promise to make this impossible."

Mr. Phillips announced that the state levy for this year will be 1.345 mils, county ditches five mils, while the estimate levy for county purposes is 6.955 mils and for township, 1-2 mill.

The tax levy ordinance will be adopted at the next meeting of the council.

With the coming of spring, activity in interurban railway circles is being resumed. Representatives of the Findlay-Marion company and the C. D. & M. were present and an extension of time was given on another. Representatives of the Findlay-Marion stated that it is certain that their road will be built this year.

A resolution was introduced, extending the time for commencing the Findlay-Marion road from June 1, 1907 to September 1, 1907. The resolution was adopted after it had been explained that there has been delay in financing the enterprise.

"Mr. Meeker, the president of the company, called me up today and asked me to request the council for this extension of time," stated J. W. Jacoby, attorney for the company. "He stated that there is practically no question that the line will be built, but that there has been some delay in financing it. The depressed con-

dition of the money market during the past few months has delayed matters, but now it looks as though all of the money necessary will be secured within a few days."

Councilman Phillips said that he had been informed that, Tuesday, representatives of the company would meet with agents of a big financing company, and that the deal was expected to be closed at this meeting.

General Manager Whysall, of the C. D. & M. was present, asking for a 25-year franchise for bringing the Bucyrus extension into the city. The franchise was granted, the requirements being that work on the extension shall be started not later than June 15, 1907, and that the road shall be completed and in operation, Jan. 1, 1908. The franchise gives the company the right to construct its track on North Main street from Fairground street to the north corporation line.

Mr. Phillips at first objected to the franchise because it made no provision for city service. He said that people on Davis street have been kicking for city service for a long time, but have never gotten it.

In answer to this complaint, Mr. Whysall said it is the intention of the company to give the city to the north corporation line, but that no provision for it can be placed in the franchise, owing to the fact that the franchise was for an interurban company. He stated that a contract for this city service will be entered into by the interurban and city railway companies. As for Davis street, he said he expected to have city cars running over it regularly within a few weeks. The company has been waiting for switches and turnouts, and these will be here next week, the general manager stated.

A petition was received from property owners on George street, asking that it be paved between Prospect and Main streets. The width of the paving petitioned for would be 30 feet. Mr. Whysall, of the C. D. & M. said he believed that this paving would be too narrow, when it is considered that the city street railway company purposes to extend its line over George street. He suggested that the paving, if granted, be widened several feet. The petition was granted and a resolution providing for the improvement was adopted. The paving will be of brick.

A petition for a stone walk on the north side of Farming street from Greenwood to Jefferson street was referred to the street and alley committee.

An ordinance, authorizing the issuance of a note for \$3,000 to pay for the construction of sidewalks, was adopted.

Ordinances directing the service board to proceed with the construction of a sanitary sewer on Mary street from the first alley north of Silver street to the Silk Mills property, a storm water sewer, on Senate street from Silver street to the Hocking Valley Railway, on Marshall street from Senate street to the end of Marshall street, a storm water sewer on Toledo avenue from Silver street to Blave avenue, were adopted.

A petition for a sanitary sewer and cellar drain on Davis street, between the east line of the first alley north of Bannet street to Buckeye street, was referred to the sanitary sewer committee.

The third addition of D. R. Crisinger and Charles Hofstetter was accepted in an ordinance giving a description of the property. The addition consists of seven lots lying back of the Fribley property on East Center street.

Announcement was made by President S. R. Rauhauser that George B. Christian, chairman of the committee appointed to investigate the cost of the proposed railway subway, wanted the city council to select its representative on this committee. By a unanimous vote, James E. Phillips was made representative.

The meeting adjourned shortly after 10 o'clock. City Clerk Fies, who has been sick for the past week, was able to be at his desk, although not fully recovered.

SAVE GAS BY THE NEW PROCESS.

The gas saving range, the New Process Visible, a wonder for quick work—a marvel of cleanliness—no smoke—no dust—no dirt—ranks first for safety—stands high in its cooking and baking. You can see them in operation at McClain's.

FOLLOW THE CROWD.

It is impossible for us to reserve seats at lunch served by McClain's. Come early and enjoy it. A souvenir to each lady.

DELAWARE SOCIETY TO GIVE CONCERT

"The Prodigal Son" will be Rendered May 30.

Choral Society to be Assisted by Columbus Orchestra and Prominent Soloists.

What pretends to be the greatest musical event ever given in Delaware occurs on the evening of Thursday May 30, Decoration Day, when the Delaware Choral society under the direction of Prof. Edward Young Mason gives as its first semi-annual concert "The Prodigal Son" by Arthur Sullivan.

Although only organized this past winter the society has reached a membership of 165, including the city's best musical talent. Under the direction of Prof. Mason the chorus has reached a marked degree of proficiency which gives promise that the concert will be a complete artistic success. The work of the chorus will be thoroughly supported and enhanced by the Columbus Symphony Concert orchestra of twenty pieces under the direction of Franc Ziegler, one of the most eminent musicians of the state. The society's pianist, Miss Nancy Campbell, and Miss May Alcott Lance at the pipe organ will also assist in the orchestral parts.

The society will be assisted by Miss Helen Buckley of Chicago, soprano; E. Eleanor Patterson New York, contralto; Claude Selby, Cleveland, tenor; Arthur Beresford, Chicago, basso. These artists have all gained prominence in oratorio work and need no

introduction to the music loving public. The concert will be given at Gray Chapel, Ohio Wesleyan University's large auditorium.

INTRODUCING MIDSUMMER STYLES

Special Showing All This Week

Anon, it is Summer, and the Summer girl's and woman's hat is now the consideration of the hour. Given a pretty face, a lovely hat, a charming pose, what can be fairer to look upon? Especially when said hat is all a-flutter with airy, fairy ribbons, gay posies and rich ornaments. Fashion is fickle but she certainly must smile upon the magnificent creations we are now showing.

Won't you come and see the wondrous effects—there are many hats seemingly devised, particularly to become you! We especially invite you this week whether you wish to buy now or not.
