PRICE TWO CENTS

REMAINS REST BESIDE THOSE OF MARTYRED PRESIDENT

Simple Funeral Services Over the Remains of Ida Saxton McKinley Were Held in Canton and Body Rests in the Great Vault.

No Funeral Sermon Preached, Simply the Ritualistic Service of the Church was Read by the Pastor of Mrs. McKinley's Church--President Roosevelt and Many Other Government Officials Attend Services--Room in Which the Body Lay was a Mass of Red and White Carnations.

Canton, O., May 29.—The funeral of Ida Saxton McKinley, widow of former President McKinley, Wednesday afternoon, was simple as her life had been. No sermon was preached. Rev. E. O. Buxton, pastor of her church, read a simple service and a little later the plain casket was placed in the vault at West Lawn cemetery, where the body of the dead president had been.

In the house, white carnations banked the room on either side. These were the flowers she loved best. They were mingled with red carnations, the favorite of the martyred president. "Nearer My God To Thee" was sung. The service at the house lasted barely a half hour.

Shortly after 1:30 President Roosevelt and party left the Day home, a few doors away and joined

the relatives in the house. The casket lay in the front parlor. Few were in the room when the President bent above the white face there. No flowers were on the casket itself but the space behind and the walls on either side were banked high with them. Rev. Buxton and Rev. Holmes of Youngstown, alternated in reading the ritual. A short prayer, another hymn "Lead Kindly Light", the favorite of the dead president and the service at the house was ended.

In the procession to the cemetery the clergymen and pall bearers followed the hearse; then the relatives, then came the president's carriage. With Roosevelt were Vice President Fairbanks, Elihu Root and Secretary Loeb. Secret Service men were in carriages close behind. In other carriages were James R. Garfield, Secretary Wil-

son, Surgeon General Rixey, Assistant Secretary Latta, Ex-Governor Herrick and Mrs. Herrick, General Corbin, Senator Knox, Ex-Postmaster General Gary and Mrs. Gary, C. G. Dawes, former comptroller of currency and Mrs. Dawes, Senator and Mrs. Dick, Governor Harris and state officials from Columbus. Behind these were the carriages of Canton city officials.

At West Lawn cemetery the casket was borne to the vault where the body of ex-President McKinley lies, under a guard of soldiers. There the reading of the ritual was continued. The service closed with the Lord's prayer and benediction.

The president arrived here at 12:40 after an uneventful trip from Washington. He was warmly greeted at the few places at which the train stopped enroute from Pittsburg to Canton. Here, extraordinary precautions were taken to safeguard the President, due to the alarming rumors, largely untrue, Police from Cleveland, Massillon, Canton and other cities assisted the secret service officers in guarding the president from the moment he reached here until he left for Indianapolis, late this afternoon. On the run from Washington, the utmost precaution was taken to give the train a clear track and special railroad detectives patrolled every foot of the way to see that nothing untoward occurred.

At Ellwood City and New Castle Junction, the President was greeted by crowds. At Akron, he waved his hands cheerily to the little toils and at other points, he shook hands and exchanged words with members of the crowd nearest to the car.

When the president landed in Canton he was plainly shocked by the cheers of the big crowd that greeted him. He made no response but passed on to his carriage with bowed head.

Three men were arrested today as they got off a train from Cleveland and will be held until the president leaves. Nothing is known of the men.

TYPHOON SWEEPS CAROLINE ISLANDS.

Victoria, May 29.—Two hundred and seventy persons are known to have been killed in a disastrous typhoon in the Caroline Islands, recently reported by cable from Sydney, Australia. Persons clung to the tops of trees for days before being rescued. The smaller islands were practically swept clean by the waves.

LAWSON CONFIDENT

He Says Roosevelt will be Nominated by Republicans, Democrats or Independents.

Paris, May 29.—Thomas W. Lawson, the Boston financier, who is touring Europe, says in an interview, that Roosevelt will be re-nominated and re-elected president. Lawson says if the Republicans do not nominate Roosevelt the Democrats probably will and if neither the Democrats or Republicans put him on the ticket, Lawson says he will organize a finance party to name Roosevelt on an independent ticket and "Tolly will win in a walk."

GREAT GAS WELL IS STRUCK AT STEUBENVILLE

Steubenville, O., May 29.—The greatest gas well ever struck in the vicinity came in last night across the river. It will produce over five million feet daily. The strike has created a great excitement.

MACHINISTS WANT UNION RECOGNIZED

Louisville, Ky., May 29.—A general strike of machinists on the Louisville and Nashville railroad was ordered this morning. The machinists ask recognition of the union and a uniform scale. No increase in pay is demanded.

NOMINATES ROOSEVELT FOR ANANIAS CLUB

Dr. Long the Nature Man, Upon Whom Such a Violent Attack was Made by the President has a Come-back and a Hard One.

He Makes the Issue a Personal One and Comes Very Near to Calling Roosevelt a Willful Prevaricator—Brown Demands a Public Apology, Saying That the President's Square Deal Policy Should Include it--Warm Letter is Given to the Newspapers.

Stamford, Ct., May 29.—Dr. William J. Long, the nature man, who has been so thoroughly advertised in the past few weeks by President Roosevelt objects to being given a membership in the Ananias club. He says he's not qualified, and in saying it almost nominates the president himself for a place.

Dr. Long puts the question right up to the president, and says the matter has become a personal one between the two. He tells the president all this in a letter sent to the White House and given to the papers by the writer.

The message in which he comes very near nominating the president for membership in his own famous club is couched in conservative, but none the less unmistakable language. He declares his work has been as honest as any educated man could

make it, that he has written nothing unsupported by either his personal observation or reliable testimony, and demands that the president apologize as publicly as he condemned him for the charge laid at his door.

The letter says in part: "The issue between you and me is no longer one of animals, but of men. It is not chiefly a matter of natural history, but of truth and personal honor. In a recent magazine article you deliberately attack me as well as my book. You have used the enormous influence of your official position to discredit me as a man, to injure my reputation, and incidentally to make a poor man even poorer by destroying if possible the sale and influence of his work."

"In every preface I have stated, and I now repeat, that every incident I have recorded from my own observation is true as far as an honest, educated man can see and understand the truth. In your recent attack this is what you chiefly deny. I have spoken the truth and you accuse me of deliberate falsehood and misrepresentation. As president of the United States, you have gone out of your way publicly to injure a private citizen who was attending strictly to his own business and as a man you have accused of falsehood another man whose ideals of truth and honor are quite as high as your own."

"This is the whole issue between us. I meet it squarely and so must you. If I have spoken falsely, if in look or work of mine, I have intentionally deceived any child or man regarding animal life, I promise publicly to retract every such word and never to write another animal book. On the other hand, if I show to any disinterested person that you have accused me falsely, you must publicly withdraw your accusation and apologize. As a man and as a president, no other honorable course is open to you."

"You cannot at this stage, Mr. Roosevelt, take refuge behind the presidential office and maintain silence. You have forfeited your right to that silence by breaking it by coming out in public to attack a private citizen. If your talk of a deal is not all a sham, if your frequent moral preaching is not hypocrisy, I call upon you, as president and as a man, to come out and admit the error and injustice of your charge in the same open and public way in which you have made it."

MISSIONARIES FLEE TO SWATOW FOR REFUGE

Fear of the Uprising Assuming an Anti-Foreign Aspect Has Alarmed Them—Two Detachments of Troops are on Their Way to the Rebellions Sections' but the Task is too Big for so Few Soldiers.

Swatow, China, May 29.—Missionaries from the interior districts of China are flocking to this city, fearing for their lives in the present uprising of the Triad society. At Lien Chow, the German mission is reported destroyed. The missionaries of all nationalities fear the uprising may assume an anti-foreign complexion and are abandoning their stations and rushing to Swatow.

Hong Kong, China, May 29.—Two large detachments of troops

are on their way from Swatow and Shingling into the rebellious sections of Twan Tung province to meet the armed rebels and put down the uprising. It is feared the task is greater however than the troops can accomplish.

The Rebels captured the family of a Chinese brigadier general and compelled every member of the family to suicide by jumping into a well. Reports of similar outrages are coming in. Not since the boxer uprising, has China faced such a serious revolt.

WILL FIGHT FOULLY STANDARD MURDERED

H. Clay Pierce is Planning to Enter the Field Against the Big Trust.

Kansas City, May 29.—A friend of H. Clay Pierce is authority for the statement that Pierce is planning to enter the field against the Standard just as soon as the Missouri oyster decision is handed down.

The personal friendship which has long existed between Pierce and John W. Gates, together with the fact that Gates has recently purchased leases on thousands of acres of oil lands in the Indian Territory and that both have recently been trimmed by the Standard Oil crowd, lends color to the story.

The Waters-Pierce Oil Co. was founded by Pierce and made him his fortune. He was getting rich rapidly when the Standard, through alleged questionable means secured large holdings in his company and he was being driven out of the field. It is said he and Gates have been framing up the independent company deal for several months.

Infant was Killed and Beheaded—The Head Has not Been Found.

Springfield, O., May 29.—After a careful examination by the coroner, it was announced today that the headless child found in Buck Creek, last Tuesday, had been born alive and then brutally murdered. Finger marks about the shoulders and arms showed plainly how the child was held by its executioners. The head has not yet been found.

SECRETARY TAFT WILL NOT TALK POLITICS

Cincinnati, O., May 29.—Secretary Taft passed through Cincinnati, Wednesday, on his way to St. Louis where he will deliver an address before the Millers' convention. He refused to talk politics.

Good Use for Lava. Lava may be blown into beautiful green-colored bottles, lighter and stronger than ordinary glass.

"LET NOT YOUR LEFT HAND KNOW WHAT YOUR RIGHT HAND DOETH."

Note.—Look at one side of this picture at a time.

—Mowhorter in Dispatch.

NO SIGNS OF SUMMER SAYS WEATHERMAN

Cold Waves are Sweeping Over Country From Siberia—All Records are Broken and the Outlook is Decidedly Discouraging.

Washington, May 29.—As to the cause of the unseasonable weather conditions now prevailing the experts of the weather bureau have but two facts and one theory. One fact is that practically every bit of the cold air that has been rushing down from the northwest has come from the direction of Siberia.

Another fact is that it has come in such great volumes that it has leaped over the natural barriers found in the mountains of British Columbia and spread over the northwest, the middle west, come around the Great Lakes to New York and New England and gone as far south as Texas.

Remarkably unseasonable weather with a cold wave extending throughout the country east of the Rocky mountains, thermometers in some sections registering the lowest temperatures for the season in many years, is reported by the weather bureau.

Weather bureau officials say that there is no immediate prospect of any summer weather anywhere. The present cold wave, they add, has been running through most of the present month. Heavy frosts are reported from Michigan and other states of the lake region. The cold wave is particularly severe in the southwest, and is due, according to the weather experts, to the heavy rains in that part of the country.

It is with a good deal of comfort that the weather bureau people are able to bring forth printed documents to confound the oldest inhabitants who insist that there never was anything like the backward spring of this year. Prof. Frankfeld, with much show of bulky volumes, said that the spring and summer of 1882 were worse than this one. Eight years before that, he said records were just as bad as this year. Two years before that the civil war the oldest inhabitants said that there had been neither spring nor summer.

But the weatherman of that year called attention in 1841 when there was frost in every month of the year and the statement that there had been no summer at all was nearly true. If there were any oldest inhabitants that year who needed silencing the records of 1816

was produced. That was the first year the history of meteorology knows about. There were killing frosts that year in every month except August.

There has been snow later this year than any authentic records show. In 1894 there was snow in Chicago on May 24, but this year there was snow three days later and Monday night produced freezing weather in south western Kansas and last night there is frost around the national capitol.

Secretary Wilson is not at all alarmed about frosts and green bugs. He knows that wheat, barley and grains of that kind are not hurt by frost. It requires the hardest kind of freezing to do much damage to them. He knows that frosts are hard for corn but he has no data showing what amount of corn has been put out nor has he any figures to show what percentage of that which has been planted is frost-bitten. In two or three days he will begin receiving the report.

During the month of May the temperature around Washington has been 5-12 degrees below the normal. Upper Michigan has been the worst section of the country, because the deficiency has been 10 degrees. The next coldest has been eastern New York where the temperature ran from 6 to 9 degrees below what it should have been.

RELIEF IS PROMISED.

Washington, May 29.—The weather bureau finally promises relief for the present almost unprecedented season of cold weather. In the forecast issued today, the bureau says it will be warmer tonight in the middle and south Atlantic states and upper Ohio Valley, killing frost have swept over a large section of the United States and, in some places, snows have fallen later in the month than ever before.

New York, May 29.—The big liner Kaiser Wilhelm Der Grosse, which went aground in the mud near Sandy Hook, last night, was floated at high tide this morning and proceeded to the dock at Hoboken.
