For Taking Evidence in the Haywood Trial.

JURY IS SECURED.

Nine of the Jurors are Farmers—156 Talesmen Were Examined Before Jury was Complete.

Boise, Idaho, June 4.—Twelve men to try William D. Haywood on the charge that he murdered ex-Gov. Frank Steunenberg have been chosen and bound by oath to deal justice between state and prisoner. Haywood on Monday heard the indictment charging him with the crime and today, after the state has recited its case and made promise of proof, the first chapter of the Caldwell crime of December 30, 1905, will be told.

The wearisome work of jury selection ended Monday. Alfred Eoff, the first talesman examined, was declared qualified after strong protests from the defense. Eoff said he had an opinion; that he would carry his opinion into the trial; that he could not presume the defendant innocent and that he would not like to be tried himself by a man who had any opinion; but, despite these conditions of his mind, he thought that if sworn as a juror he could fairly try the case according to law and evidence. Four challenges for cause against him failed, but the minute he was passed the defense expended its tenth and last challenge to get rid of him.

O. V. Sebern, the next talesman called, proved the last one needed. The defense had contemplated making a request for permission to reopen the examination of certain jurors, but this plan was abandoned and when Judge Wood ordered the jury sworn, no objection came from either side.

The court room came to silence as the 12 men rose in their places and, facing the clerk's desk, raised their right hands in solemn assertion of their pledge to do exact justice by the accused. It was an impressive scene and there came another two hours later, when, after the midday recess, Haywood listened to the reading of the indictment against himself, Moyer, Pettibone and Simpkins.

In the work of procuring the jury the court was in session 15 days, and 156 talesmen were examined. The jury is as follows: Thomas B. Geas, real estate; Finley McBean, rancher; Samuel D. Gilman, farmer; Daniel Clark, farmer; George Powell, rancher; O. V. Sebern, farmer; H. P. Messinger, farmer; Lee Scribner, farmer; A. J. Robertson, farmer; Levi Smith, carpenter; A. P. Burns, retired rancher; and Samuel F. Russell, farmer.

The jury is made up of eight republicans, three democrats and one prohibitionist. There is no man on the jury who works for wages or who has ever belonged to a labor organization excepting Burns, who was a member of a Carpenters' union 15 years ago, or who has ever been a student of trade unionism or the labor question. In the 200 odd jurors drawn, not more than three trade unionists were placed in the panel and these were excused on conscientious objections to capital punishment and fixed opinions.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. GERMS IN THE SKIN SCIENCE IN PURSUIT

Eczema Sufferers Will Be Interested in a Pamphlet on Diet, Exercises, Etc., Which May Be Had Free at Flocken's Drug Store

The eczema germ is a curious parasite. Scientists accustomed to the daily use of the microscope find difficulty in detecting it.

The germ lives only in the skin, and multiplies where the skin is weak and susceptible. It feeds on the oily substances, developing at the rate of thousands and tens of thousands daily. Nature combats them, but if the skin is weak the germs must be destroyed by an external remedy.

Oil of wintergreen properly mixed with other soothing ingredients is the best remedy yet found for all kinds of skin trouble. But oil of wintergreen alone will not suffice, and it is only when properly combined—as in the D. D. D. Prescription—that we get a liquid that really cures while INSTANTLY relieving the itch.

"I wish to thank the wonderful cure that the D. D. D. Prescription did for my baby boy that had eczema," says Mrs. A. L. Workman, of No. 3 Wight's Add., Trinidad, Col. "We bought only one bottle after using the trial bottle and he has been cured for three months or more and no symptoms of it coming back."

D. D. D. Prescription is a mild soothing liquid made for a number of years by a Chicago company. It is no ordinary patent medicine and we thoroughly investigated the merits of the remedy before recommending it to people in our own town.

FLOCKEN'S PHARMACY.

Call at our store and we shall be glad to show you a bottle of the remedy, and no matter whether you buy the remedy, we will be glad to give you a pamphlet free of charge. This pamphlet telling about diet, exercise, clothing, and other treatment required for skin sufferers.

WOMAN A GOOD WALKER.

Postmistress in England Has Traveled 100,000 Miles on Foot.

An extraordinary instance of the arduous work done at some of the remote branches of the post office service is reported from Newham, near Baldoek, Herts, where Mrs. Clark, at the age of 66, still fulfills the duties of postmistress and "post-woman," says the London Tribune.

For 20 years she did most of the outside work of the office, while her sister was postmistress, and during the last 15 years she has walked 52,000 miles in delivering letters. In the whole 35 years she has traveled about 100,000 miles on foot. With a large postbag strapped across her shoulders and wearing a little cloth cap and heavy boots, she trudges regularly on her rounds in spite of rain or storm or snow.

Mrs. Clark began her association with the post office at the age of 14 and has thus been in the service for 52 years. Her ordinary daily round is 11 miles, and her work often makes it necessary for her to plod along lonely country roads by night. She knows every inch of the district, and she even despises the use of the lanterns which many of her neighbors carry when abroad in the darkness.

Many Ideas of Earthquakes.

While civilized man is trying to grasp the meaning of an earthquake the uncivilized of all ages have long ago solved their doubts. In Mongolia it is the breathings and skippings of a huge frog that causes the mischief; in China a gigantic dragon; in India a world-beating elephant; in Celebes a hog, and in other countries the scheme is varied by the introduction of a bull and a tortoise. Earthquakes in Siberia are believed to be due to the frolics of mammoths who live in the center of the earth, while in Vancouver island it is the spirit of evil with his marshaled hosts of all the wicked people who have ever lived.

Good Way to Do It.

Now, for the benefit of struggling young men, will you kindly say what is the best way to become rich?"

Mr. de Billionaire leaned back in his chair and meditated.

"We are getting up a little symposium on the subject," urged the able interviewer, "and we are especially anxious to get a few words of advice from you."

"Well," returned Mr. de Billionaire thoughtfully, "I think you may quote me as saying that my own personal experience has taught me that the best way to become rich is to get all the money you can."—Judge.
