

EIGHTEEN MEN ARE NAMED AS CULPRITS

IN REPORT ON PENNSYLVANIA STATE CAPITOL STEAL.

THE MACHINERY OF THE LAW

Will be Set in Motion in an Effort to Punish the Grifters and Compel Them to Disgorge Ill Gotten Gains.

Harrisburg, Pa., Aug. 17.—Criminal proceedings against all persons concerned in the fraudulent transactions in connection with the construction and furnishing of Pennsylvania's \$13,000,000 capitol is recommended in the final report of the capitol investigation commission made Friday to Gov. Stuart. Eighteen persons are named in the report as being involved in one way or another in the irregular transactions, and the attorney general, through the governor, is urged to act at once.

The persons named and against whom either criminal or civil suits are recommended are: John E. Sanderson, of Philadelphia, contractor for furnishings; Joseph N. Huxton, Philadelphia, architect; and Stanford H. Lewis, his assistant; James M. Shumaker, of Johnstown, former superintendent of the board of public grounds and buildings; W. P. Snyder and E. B. Hardenberg, former auditors general; W. L. Mathews and Frank G. Harris, former state treasurers; Congressman Burd Cassel, president of the Pennsylvania Construction Co., which supplied the metalwork for the capitol; George F. Canning and furniture; George F. Payne, who built the capitol, and his partner, Charles G. Wetter, Charles P. Kinsman, Wallis Boyleau, John G. Neuderger and George K. Storm, who organized the Pennsylvania Bronze Co., which supplied the loaded lighting fixtures to Sanderson; Frank Irvine, an auditor in the auditor general's office; George C. Towne, bookkeeper under Shumaker, and the International Manufacturing and Supply Co., which bid against Sanderson for the capitol furnishing contract.

The name of Gov. Pennypacker, who by virtue of his office was a member of the board of public grounds and buildings which let the furnishing contracts, and those of ex-Gov. Stone and his associates who made up the commission which constructed the capitol are not mentioned in the list of persons against whom the investigators recommend that action be taken.

Senator A. G. Dewalt and Representative Scott Ammerman, the democratic members of the commission, presented a brief supplemental report in which they specifically name some of those already mentioned as criminally and civilly liable for the frauds against the state. They are in entire accord with the report of the republican members and presented their supplement as a further expression of their individual views.

The commission says it was able to ascertain by testimony that goods costing \$1,574,399 were sold to the state by Sanderson and the Pennsylvania Construction Co. for \$6,434,745, a profit of \$4,860,346.

The report was presented to the governor by Chairman Fisher in the presence of the commission. After receiving it Gov. Stuart issued a statement in which he said:

"I will transmit the report to the attorney general for his action and I can assure the people of Pennsylvania that there will be a vigorous prosecution of every person whom the evidence may show to have been guilty of any criminal offense in connection with the construction and furnishing of the state capitol. Wherever the evidence submitted shows that there has been any money wrongfully or fraudulently taken from the state treasury, civil suits will be commenced to compel restitution."

Attorney General Todd is in Maine, but he will return in time to prepare for beginning criminal proceedings in the Dauphin county court here in September. His office force has already begun work on the papers.

The state will be represented by the attorney general and his deputy, James Scarlett, of counsel for the investigation commission, and State Senator Fox, of this city. David T. Watson, of Pittsburgh, will be associated with the attorney general as advisory counsel.

Of these all were taken out alive, but one of them, George D. Gill, died shortly after and two others are seriously hurt. The loss on the building is \$15,000 and on contents \$75,000, fully insured.

"WHERE'S THAT COLLAR BUTTON?"

A ROSE COLORED BUSINESS BULLETIN

IS GIVEN OUT BY DUN'S WEEKLY REVIEW.

THE LEADING INDUSTRIES

Are Said to Have Orders Covering Output for Months in Advance—New Records for Production are Made.

New York, Aug. 17.—R. G. Dun & Co.'s Weekly Review of Trade says: Lower prices for railway securities than at any time since July 1, 1904, greater stringency in the money market and the telegraph strike were the week's adverse factors, offset by many favorable reports of jobbing trade, manufacturing activity, rapid progress of the crops and remarkably prompt collections considering the scarcity of money.

Undue significance was given the Pope failure which, as in the case of the Milliken assignment in June, was caused by monetary pressure and not lack of business. Reports from the interior are almost unanimous in telling of active trade and bright prospects for fall and winter. Most leading industries have orders covering output for months in advance, and new records of production are constantly noted.

Much new business has appeared in the market for iron and steel during the past week. The least favorable reports are received from tin plate mills, a short fruit crop having restricted purchases by canning interests. Pig iron furnaces complain that new contracts are not abundant. Some steel mills have little business beyond the end of the year, but order books are usually full for five months ahead, and the past week has brought out considerable structural work, while a large contract for specially made steel rails was a feature. Activity continues at cotton mills.

Lillian E., an almost prohibitive favorite, won the 2:09 trot. Wilkeshaart won the 2:12 trot in straight heats.

A NEW YORKER SAYS ONE RAILROAD STOLE ANOTHER.

An Unique Complaint Against Chicago & Alton Railroad Co. is Filed with Inter-State Commerce Commission.

Washington, Aug. 17.—An unique complaint was filed with the interstate commerce commission Friday in which the Chicago & Alton Railroad Co. is charged with having practically confiscated another railroad which now forms a part of the Chicago & Alton system.

The complainant is John B. Manning, of New York, a minority stockholder in the Louisiana & Missouri River railroad, and the defendants are the Chicago & Alton and the Louisiana & Missouri River roads. Manning alleges that he holds 123 shares of the common and 51 shares of the preferred stock of the Louisiana & Missouri River road, and that, with the exception of 313 shares of the common and 167 shares of the preferred stock the Chicago & Alton owns the entire capital stock of the road, which amounts to \$1,010,000 of preferred and \$2,312,700 of common stock.

He asserts that after the Chicago & Alton had acquired this stock it "entered into a pretended lease with itself," by which it "pretended to lease to itself the 101 miles of railroad and equipment owned by the Louisiana & Missouri River Railroad Co. at a price which practically confiscated the property rights of your petitioner."

It is alleged that the only compensation paid for this property by the Chicago & Alton is \$25,000 a year interest; that the Chicago & Alton is converting the earnings and surplus of the smaller road "to exaggerate the earnings of the Chicago & Alton Railroad Co.," that the complainant has been denied access to the books of the roads in order that he might protect his interests, while he asks the commission to obtain an accounting of the Louisiana & Missouri River road since 1871 and to afford him such relief as may be equitable.

The department of justice proposes to do this and no more."

FEW RESPONDED TO SMALL'S ORDER

TELEGRAPHERS' STRIKE SITUATION SHOWS FEW CHANGES.

NO SIGNS OF SETTLEMENT

Indications are that Strike Movement Reached Its High Water Mark Before the General Strike Order was Issued.

New York, Aug. 17.—Interest in the telegraphers' strike centered Friday in the probable effect of the general strike order issued by President Small, of the national union, and which called upon all operators employed by the commercial telegraph companies and those working private and leased wires not under union contracts, to go out. Throughout the east there were few if any responses to the call. This was explained on the ground that all operators who would strike had already quit work, and here the strike order was given importance only as affording official sanction of the action already taken by the strikers with the previous approval of the national officers.

Both the Western Union and Postal companies claimed not to be affected by the strike. The Postal company's call and to be working their wires better than at any time since the strike was declared. Business it was said was again moving smoothly. The Associated Press was not affected adversely. On the contrary, several of the men who had left the service in the east returned to work after the strike order had been promulgated.

Chicago, Aug. 17.—No progress was made Friday by labor leaders who intervened to bring about a settlement of the telegraphers' strike by arbitration. President Small, of the telegraphers' organization, met Samuel Gompers and Labor Commissioner Neill during the day, but last night he said it was only in a social way and that it was too early in the fight to talk of arbitration.

Despite the general strike order sent out early in the day, both telegraph companies by actual test were able to handle business with greater promptness than at any time since the union men walked out. Small towns which have been almost cut off from telegraphic communication in various parts of the middle west and far west were reached in regular order. Both telegraph companies declared that since the strike order had been issued many recruits had been added to the working force, with almost no desertions traceable to the order.

Commissioner Neill left Friday for Washington. Just before taking his train he said that the strike could not be settled in Chicago and that the only place where an adjustment could be reached was in New York.

Would Bring Mrs. Eddy Into Court.

Concord, N. H., Aug. 17.—A reading of correspondence to show the delusions alleged to be held by Mrs. Mary Baker E. Eddy was continued Friday before the masters to whom the court has assigned the duty of determining the question of competency. Mr. Kelley, for the next friends, asked the masters for an order to bring Mrs. Eddy in court or permit an examination of her under regular court proceedings at her home and with several of the plaintiffs present. Mr. Kelley also asked for an order for the production next Monday of the books in possession of several of the Eddy trustees. Both the motions were taken under advisement.

Taft Accepts Bonaparte's Opinion.

Washington, Aug. 17.—Secretary Taft, in a memorandum to the chief of staff of the army, has reluctantly accepted the opinion of Attorney General Bonaparte that the naval militia in any state has the right to participate in the national rifle contest held annually under government auspices. In view of the fact that the national contests have already begun at Camp Perry, Ohio, there does not seem to be any probability that the naval militia will be benefited by the decision this year.

QUIET IN CASABLANCA

French Soldiers are Clearing the City and Preparing it For Business.

Casablanca, Morocco, Aug. 17.—The town is quiet and business is being transacted. The French authorities are still engaged in clearing up the streets, burning the dead and collecting property.

The commandant is making domiciliary visits in search of loot, of which an immense quantity has been collected. A meeting of the foreign consuls will be held here this afternoon to decide on its disposal. It probably will be sold for the benefit of the sufferers from the bombardment and rioting.

The number of persons killed in and about Casablanca has been greatly exaggerated. Probably about 1,000 men were killed in the fighting and massacre. The majority were Arabs killed by the fire of the warships.

Only 5,000 people remain in Casablanca; the rest have fled to Gibraltar, Tangier or Spain. The town is completely under the control of the French and Spanish authorities and no further trouble inside need be feared. French troops to the number of 3,000 are camped about a mile to the east. Their outposts are in touch with the Moors and continued skirmishes are taking place.

Five hundred Spanish troops arrived here yesterday and are camped in the town. Fifteen hundred more are expected shortly and two French transports with troops are due to arrive here within a few days. Gen. Druide, the French commander, is holding a defensive position pending the arrival of reinforcements.

The Moors have received large reinforcements and the French and Spanish authorities hear that they are planning a great attack on Casablanca tomorrow. There are ample troops available to repulse any attack.
