TELL THE TRUTH.

The people of this hidden and corporation controlled state of Wyoming and other Northwestern states are in favor of the Dingley tariff "for the present" according to Senator Warren. But if the Dingley tariff is protecting the trusts and making the people pay high prices for trust products, it would seem that everyone not specially protected, would be anxious for immediate tariff revision. If there is anything wrong, or predatory, about the tariff, why should it not be at once revised to eliminate the evils, and if the tariff is as efficacious as Senator Warren and the other standpatters declare it is, why promise to revise it "after election?" When people have a good thing they hang on to it. Why don't the Republican politicians tell the truth like the former Congressman McCleary of Minnesota did that, "if the tariff is to be revised it must be revised higher?" Still McCleary's open heartedness was his undoing for his Republican constituency repudiated him and like other Republican "game ducks" he was rewarded by President Roosevelt with a federal office, so his example hardly commands itself to other stand pat statesmen.

REPUBLICAN BLUFF.

The Republicans cannot forgive Oklahoma that her voters gave a Democratic majority and Secretary Taft advises the voting down of the Constitution, mainly on the avowed ground that the wicked Democrats have gerrymandered the new state. With every political close state in the Union a monument to Republican gerrymandering it is hardly seemly for Taft to cast the first steps, even if the Democrats have somewhat favored their own side. The people of Oklahoma must, however, remember that a Republican congress will be rather slow in giving them another opportunity for "statehood and whether it is not better to flee the ills they know exist under a Re-

The House of Post Cards.

publican territorial government to the apocryphal ills the Republican politicians assure them will come under Democratic government. One would think to hear these Republicans talk that the Democrats will when in power, try to ruin their own property and create a Democratic desert out of a Republican rose garden.

A great many persons and a great many cities want something Federal. The persons want post-offices, judgeships, receiverships, and other offices. The cities usually want public buildings, harbor improvements, etc. Now comes Butte, Montana, with a new Federal idea. It wants a Federal lawn. Some day we shall have people crying for a Federal backyard, or a Federal kitchen garden. There is no end to this longing for something at the expense of Uncle Sam. And therein lies President Roosevelt's power, not in his statesmanship.

Henry Clevs now thinks that the world boom has burst. We told our readers the same thing last January, and have many times since reiterated that view. One-sided trust-breeding prosperity which pauperizes the masses and creates millionaires who are specially favored by law, cannot last long. And when it collapses, the whole world groans. It is like a sinful life, to which death is always a catastrophe. Far better is that moderate well-doing which Democracy assures, and which in its end, as in its progress, is like a virtuous life.

The Greensboro, N. C., Record asks this question. If a Northern presidential Democratic candidate can, and always does carry the solid South, why should not a Southern Democratic presidential candidate carry enough Northern and Western States to elect him president of the United States? The question is referred for answer to those people who think there is but one Democrat in the world worthy of confidence.

Every man who has a drop of pure sporting blood in his veins will be delighted to learn that Sir Thomas Lipton is going to make another try for the cup. Lipton is the kind of a man whom every one likes and if American yachtsmen are ever to lose the coveted trophy, they would rather lose it to Sir Thomas than any other man.

President Robert Mather, of the Rock Island Railroad, says that bismirched corporation managers are in the minority. The reason no doubt is that only the few ever get to be corporation managers, while the many, the great majority of people, have only to furnish something for the few who manage corporations to steal.

Americans have taken to putting Lords, Counts, Countesses and the like in the penitentiary. That is better than allowing them to marry heiresses and heirs.

It has generally been supposed by credulous people that Teddy was "loaded for bear" but it turns out that Baer was loaded for Teddy.

Dr. A. E. Smith says a man who chews tobacco is a hog. A boy who chews must be a shoot. But who ever heard of a porker chewing tobacco?

A Meadville, Pa., girl's assailant was given a fifty-five year sentence. It depends altogether on how old the criminal is, whether the term was made long enough.

Walter Wellman has given it up until next year because of adverse winds. Peary probably figures it is an ill wind that blows nobody good.

Vice President Fairbanks will attend the National Irrigation Congress as an offset, probably, to his cocktail record.

Sir Thomas Lipton can come as often as he likes, but we have no use for Lord Dunraven and his sort.

Scientists now declare that laziness is due to a little bug. The expression "gone bug house" will now have a double meaning.

Some one should suggest that Japan declare war against Great Britain because the Lusitania failed to lower the record.

One nice thing about these ocean races against time, there are no open switches or broken rails.

One Iowa man is for Foraker for president. Another Iowa idea.

SAVED A CHILD

Woman May Have Sacrificed Her Life For the Little One.

Camp Perry, O., Sept. 14.—Saving a child from death may cost the life of Mrs. Charles X. Zimmerman, wife of Col. Zimmerman of the Fifth regiment, O. N. G., Cleveland. When a runaway horse dashed into a crowd at guard mount yesterday Mrs. Zimmerman, in attempting to drag the child from the animal's path, was knocked down. A rib was fractured and she suffered serious internal injuries.

A large crowd of men, women and children had gathered to witness the guard mount on the principal company street. The playing of the band prevented either soldiers or citizens from hearing the frightened cries of two children of Captain Benjamin Duperow, Cleveland, regimental quartermaster, who were being bumped along in a buggy behind the runaway, as it tore down the street in the rear of the tents. The horses had started at the end of the company street and turned into the depopulated thoroughfare.

As the animal swerved into an intersecting street, the buggy hit a tent stake and one of the children was thrown out. Before the crowd in the company street could scatter, the horse was upon it. In terror the spectators ran in every direction.

At Mrs. Zimmerman's side stood a little girl. When the officer's wife saw the runaway, she quickly turned grabbed the child and pushed her out of the animal's path. Before she herself could jump aside, the horse was upon her.

Bleeding and unconscious, Mrs. Zimmerman was picked up and carried into the officer's tent. She revived soon afterward under medical treatment.

As soon as she was able to be moved the injured woman was conveyed by her husband to her home in Cleveland.

NICK IS SLATED

Republican Politicians Are Grooming Him to Beat Foraker.

Cincinnati, Sept. 14.—The Post today says that there is a movement on foot among local and state Republican politicians to elect Congressman Nicholas Longworth mayor of Cincinnati and Julius Fleischmann governor of Ohio. The plan indicates the entering of Longworth into the lists against Senator Foraker and Congressman Burton, of Cleveland, to wrest the toga from Senator Dick. The article continues:

"Foraker is to be eliminated, and Longworth is slated for the toga, in good time. The Ohio legislature is expected to repudiate the senior senator for his attacks upon the administration and make the punishment fit the crime by electing the president's own son-in-law to the office. "Congressman Burton is supposed to duplicate the operation in northern Ohio, if he can muster up enough votes to beat Tom L. Johnson in Cleveland as the first step. Thus southern and northern Ohio are to be enabled to get together, and the last vestiges of the old Hanna contingent eliminated from the state, lake to river."

WOULDN'T ALLOW FUN MADE OF HIS CLOTHES

Bellefontaine, O., Sept. 14.—Joseph Tracey, an Oklahoma cowboy, who is here visiting his sweetheart, created a panic today by firing three shots into a crowd of school children. The children taunted him as he strolled along the street with his sweetheart on account of his big hat and flannel shirt.

When arrested Tracey said: "I only shot to frighten the galoots."

FRICK SLATED TO HEAD THE STANDARD

New York, Sept. 14.—Wall-st., reports that Henry C. Frick is soon to assume active management of the Standard Oil interests have been revived by accounts of H. H.

I. MARX & SONS

Rogers' serious illness. The street pays little attention to denials that Rogers has suffered a serious breakdown.

Traders argue that the oil man is growing old; that he has lived for years under the most intense mental and physical strain, that he has taken so many vacations of late as to indicate plainly that even rest fails to restore his failing health, and that Frick unquestionably hastened his recent return from Europe for the purpose of consulting with the oil leaders concerning matters believed to be related to Rogers' retirement and Frick's assumption of the former's duties.

Friends of both Rogers and Frick scout the suggestion that any changes in the Standard's management are contemplated.

DREAMED OF BURGLARS AND SHOT A MAN

New York, Sept. 14.—The jury at Elizabeth, N. J., in the case of George W. Hollins, whose trial on a charge of manslaughter ended yesterday brought in a verdict of guilty.

Hollins, who formerly lived in Montclair, was indicted for the killing of James Thorne, a negro, whom he mistook for a burglar. He claimed he had been dreaming of burglars; that the noise of ash cans Thorne was helping to remove from the cellar partly awakened him and he fired involuntarily.

Both sides finished their cases shortly after noon and Judge Atwater charged the jury. Both Hollins and his mother bore up well under the verdict. Hollins immediately was released in \$5,000 bail, which was furnished by his aunt, Mrs. Sarah G. Pickman.

AKRON BOLT WORKS DESTROYED BY FIRE

Akron, O., Sept. 14.—Fire from a spark on the roof destroyed the entire plant of the Falls Hollow Stay Bolt works at Cuyahoga Falls, entailing a loss of \$50,000 with only \$5000 insurance.

TAFT'S STEAMER IS WAY BEHIND TIME

Seattle, Wash., Sept. 14.—When the steamship Minnesota of the Great Northern Steamship company pulled out from the dock at Smith's cove yesterday, having on board Secretary of War William H. Taft she was exactly 68 hours or nearly three days behind her schedule time.

KILLED HER CHILDREN TO PREVENT KIDNAPING

Johnstown, Pa., Sept. 14.—Martha and Catherine, two small children of Mrs. Catherine Thomas, an inmate of the Cambria county almshouse were found dead in their beds having been strangled.

The mother came down to breakfast as usual and casually remarked that two of the children had died during the night. An investigation was made and finger marks were found on the children's throats. Mrs. Thomas denied that she had killed the little girls, but it is said afterwards admitted the deed, saying that she was afraid of her husband, who is serving a term in the workhouse for alleged non-support, would take them from her.

OCEAN WAVE SWING BREAKS; SIX INJURED

Pomeroy, Sept. 14.—By the breaking of an ocean wave swing at the fair grounds this afternoon Miss Artie Birdine, Charles Smith and Arthur Jones were seriously injured and three others slightly hurt.

EARLE MAY HAVE GOOD LONG WAIT

Paris, Sept. 14.—Ferdinand Pinney Earle may have to wait some time before he can wed his "affinity," Miss Julia Kattner, for whom he cast off his wife and child, shipping them back to Mrs. Earle's family here. The discarded wife announced today that she will not institute the divorce proceedings for which Earle is longing immediately. Mrs. Earle reached this decision after a long consultation with her father.

The sea voyage and especially the views of her friends, it is hinted, have caused her to see her renunciation of Earle to the "affinity" in a somewhat different light.

Fall Hats

We aim to sell the best hats in town. In style and finish our line eclipses all former shows. Hats here becoming to all faces, both soft and stiff styles in every shape and shade. Price \$1 to \$3.00.

WRECK AVERTED

Engineer's Faith in a Dream Prevented a Great Disaster.

Harrisburg, Pa., Sept. 14.—Confidence in a dream averted a wreck on the Northern Central railroad. Previous to reporting for duty at the roundhouse, Engineer James B. Burd, who pulls the Buffalo Flyer leaving Harrisburg at 11:10 p. m. dreamed that his train had run into a landslide at a point between Dauphin and Halifax, 15 miles from here. He told his dream to several roundhouse attaches, but they laughed at him.

Engineer Burd to ease his mind determined to run slowly after passing Dauphin. So speeding his train up to the limit till Dauphin was passed, Burd slowed up. And it was well he did, for at a point some distance north of Dauphin identical with the place he had seen in his dream, the engine ploughed into a landslide.

Going slowly, the engineer was able to bring his train to a stop with little or no damage.

QUEER PRESENT

Secretary Loeb Receives an Elephant Tail as a Mark of Esteem.

Oyster Bay, N. Y., Sept. 14.—Secretary Loeb has an elephant on his hands—at least part of an elephant, and it might as well be a whole living pachyderm, so far as Loeb knows what to do with it. It is the tail of a huge quadruped that is worrying the secretary and it arrived today.

Ernest Lyon, United States minister to Liberia, is donor of the elephant's tail. In a letter accompanying it he explains that no one but a person in authority is allowed to use an elephant's tail either for decorative purposes or a fly spatter. Lyon declared that as Loeb is in high authority and appears daily before the "most high of the administration," he is entitled to carry the emblem of power. The present is about a foot and a half long, supplied with a black, bristly brush at one end and a neat leather handle at the other.

Some speculation was indulged in at the executive offices as to what will happen the first time Loeb appears before the "most high of the administration," waving his elephant's tail. Bets were offered that the executive will declare the trophy the work of some African nature faker and refuse to touch it. Another guess was that he will send a special message to the Liberian congress to pass a law forbidding the docking of elephants.

WIFE STABBED BECAUSE OF A BOARDER

Toronto, O., Sept. 14.—Left without the aid of a surgeon for two days after her injury, Mrs. George Kovac, stabbed in the back by her husband, it is alleged, is dying. The husband cannot be found.

WIFE STABBED BECAUSE OF A BOARDER

Kovac and his wife had quarreled over the presence of a boarder, she says. She intervened. Then she was stabbed. The knife struck between her shoulders, was pulled out by the boarder, she says, after her husband ran.

MOTHERS AROUSED

Indiana Man Offers His Unborn Babe for Adoption.

Hammond, Ind., Sept. 14.—By offering his unborn infant for adoption because he declares he would not be able to provide for the little one when it arrives, Lucas Campbell, earning \$100 a month, has stirred such a storm of indignation among the mothers of this city that he and his wife are preparing to seek a home elsewhere.

When Campbell realized that his wife was to become a mother, he inserted this advertisement in a local paper:

FOR ADOPTION—Anyone desiring to adopt a pure baby can do so by paying all expenses. All arrangements must be made at once. Call at 631 South Hohman street.

South Hohman street being in the fashionable part of Hammond, several women anxious to adopt a baby called at the Campbell residence and were told they must wait ten days. Finally Campbell disclosed the secret by saying the baby was not born. The news of this remarkable case spread from home to home. So many threats have been made against the Campbells that they have decided to move.

BURTON IS FIRM

He Will Accept no Donations With Strings to Them.

Cleveland, Sept. 14.—If any public service corporation has appropriated cash for political purposes this fall, it can put it back in its treasury, because Congressman Burton declares he will not accept any contributions from such sources for his mayoralty campaign.

"I will not permit any public service corporation, enjoying or which seeks to enjoy, rights granted by the city council, to contribute to my campaign fund," he said Saturday.

"I will not accept any contribution that will carry with it any obligation on our part."

BURNED HIS HOUSE FOR THE INSURANCE

Columbus, Sept. 14.—State Fire Marshal Creamer and his deputies have wrung from Varnie May Friend, a Jackson woman, a confession in which she implicates J. E. Howe, a retired farmer of near Jackson, for whom she says she kept house for several years, with threatening to kill her if she divulged the secret that he burned his house on March 31 to get the insurance money, \$1,048.85, which she alleges has been paid to him.

Howe is now under indictment at Jackson on the charge of shooting to kill the woman.

NEW INSURANCE COMPANY LICENSED

Columbus, O., Sept. 14.—The Cleveland Life Insurance company of Cleveland, an Ohio corporation, was licensed Saturday by State Insurance Commissioner Vorys to do business in the state. The capital stock is \$125,000. P. W. Ward is president and W. S. Shelton is secretary of the company.

WIFE'S NEXT FRIEND ASKS FOR DIVORCE

Canton, O., Sept. 14.—An unusual petition for divorce was filed in common pleas court today by Annie Braccia, not yet eighteen. The petitioner declares that the girl married Antonia Braccia, much her senior, when she was not yet fifteen.

The petition avers that the child-wife left her husband before she was sixteen, the separation coming on account of the defendant's alleged non-support.

The Agony of ECZEMA

Promptly and Permanently Relieved by

DR. Taylor's Remedy

Never known to fail. Most stubborn and distressing cases, permanently cured. No cure—no pay—that's the guarantee.

WILL GET NAVAL STATION AT VLADIVOSTOK

St. Petersburg, Sept. 14.—The Bourse Gazette publishes for the third time, telegrams from Vladivostok to the effect that it is insisted in naval circles there that an agreement will shortly be concluded between the United States and Russia in regard to a naval base for the former country in the Far East.

Under this agreement the American fleet will have a base at Vladivostok in addition to the present one at Manila.

TALK OF WAR WAS ALL BALDERDASH

Washington, Sept. 14.—"Not even respectable nonsense" was the way former Ambassador Luke Wright, who has just returned from Tokio to resume private life, characterized the war talk between the United States and Japan.

The ambassador had a long talk with Acting Secretary of State Adee today, having called to close his official connection with the department preparatory to going to his home at Memphis, Tenn.

"But Japan does not want war with United States, nor with any nation," declared Mr. Wright. "The country is burdened with debts and heavy taxation. The rate of taxation has been increased since the war with Russia. Further than this she has Korea on her hands, and that is no easy problem. China, too, demands her attention."

WOULD EXECUTE EVERY GRAFTER

Waterbury, Conn., Sept. 14.—The death penalty for grafting is the suggestion of Congressman Geo. L. Lilley. He has just made his opinion known in a letter to a friend saying: "If I had the supreme lawmaking power in this country, the only crime punishable with death would be grafting. Murder would receive secondary consideration."

Lilley is a candidate for governor, but he doesn't think his utterances will hurt him any. He says if his political future depends on a tolerance of grafting, he does not care for a political future.
