A Deep Waterways Convention.
Philadelphia, Nov. 20.—The Atlantic deep waterways conference, having for its object the improvement of inland waterways along the Atlantic coast and more particularly the furtherance of a project for a continuous inland water route from the Carolinas to Boston, began here Tuesday. Interest in the question of improved inland waterways was amply shown by the large attendance of representatives from nearly all the Atlantic states from Maine to Florida. The delegates numbered more than 500.

Bankers to be Indicted.
New York, Nov. 20.—Material progress was made Tuesday by the Kings county grand jury in its investigation into the affairs of the Borough Bank of Brooklyn, and Assistant District Attorney Elder, who is conducting the case, intimated that indictments might be found within a few days. Nine witnesses appeared before the grand jury and an examination of the bank's books was made. Several directors of the bank, together with several assistant bank examiners, gave testimony.

No Crime to Give Away a Drink.
Jefferson City, Mo., Nov. 20.—The Missouri supreme court has decided that it is not a violation of the law for a person to give a friend a drink of whisky in local option counties.

Poultry Shows continue over Saturday for benefit of country people. Come in.

Paderewski as Farmer.
His passion for country life has led Mr. Paderewski, the famous pianist, to establish a farm on his estate in Poland, where, between his tours, he occupies his time in rearing livestock and growing agricultural produce.

During a previous visit to this country Paderewski, through an agent, bought some prize pigs from a farmer in Essex who was quite unaware of the real profession of the purchaser.

A day or two later Paderewski visited the farm without disclosing his identity. During an inspection the farmer led the pianist to a sty and showed him a fine lot of pigs, remarking confidentially: "Do you see those? I have sold them to Mr. Paderewski, the great pig dealer from abroad."

New Beethoven Dances Found.
Berlin.—An interesting musical find is reported here. It consists of 11 unknown dances by Beethoven, composed in 1819, for friends forming a musical society at Moeding, a suburb of Vienna. The dances were found at Leipzig. They are orchestrated for seven instruments, and it is said, will be shortly published.

FLOCKEN'S SUCCESS

Flocken, the enterprising druggist, rather than await the ordinary methods of introduction, urged the Dr. Howard Co. to secure a quick sale for their celebrated specific for the cure of constipation and dyspepsia by offering the regular 50c bottle at half price.

In addition to selling a 50c. bottle of Dr. Howard's specific for 25c, Flocken has so much faith in the remedy that he will refund the money to anyone whom it does not cure.

When your head aches, your stomach does not digest food easily and naturally, when there is constipation specks before the eyes, tired feeling, giddiness, bad taste in the mouth, coated tongue, heartburn, sour stomach, roaring or ringing in the ears, melancholy, liver troubles, Dr. Howard's specific will cure you. If it does not it will not cost you a cent.

Diamond Proof Against Acids.
There is no acid which has any perceptible effect upon a genuine diamond. Hydrofluoric acid, if dropped in a stone made of glass, will corrode it, but will not affect diamond one way or the other. A trained eye can see the hardness in a diamond, whereas the imitations appear soft to the vision of the experts.

Big Money in Popcorn.
A woman in a Kansas town thrown suddenly upon her own resources invested \$200 in a popcorn outfit. Her sales in eight weeks amounted to \$445.83, giving her a net profit of about \$297, this paying for her equipment and leaving her an overplus of \$97.

Put on the Artistic Touch.
Where self-tone colorings are desired and cannot be found on the printing counters the dyer's art comes to the rescue, and white embroidered letters are colored to match materials. Often, too, a touch of gold or silver added to the embroideries after dyeing will be an improvement, and this can be readily accomplished by any woman with the slightest taste and skill in needlework.

Adaptation Means Success.
He alone is wise who can accommodate himself to all the contingencies of life. Success in life depends on quickly adapting one's self to the changes and conditions which surround.—Green.

WHO GETS THE RAILWAY INCOME?

The three main claimants upon the revenue of the railroads of the United States are labor, capital and government. According to the latest available statistics, the expenditures for these three classes in the form of wages, dividends and taxes, averaged \$1,381,000,000 yearly for the latest five years. Of this total the employees of the railroads, including officers and all kinds of labor, received 57.3 per cent. For dividends and interest paid to capital the average disbursements were 38 per cent, and the bill of the tax collector for all political divisions was 4.7 per cent. The table below gives in millions of dollars exhibits the totals for each of these lines of expenditure between 1902 and 1906, inclusive, as reported by the Interstate Commerce Commission:

(Millions of Dollars.)

Years	Wages Div. & Int.	Taxes	Total	
1906	\$901	\$595	\$75	\$1,571
1905	\$840	\$600	62	1,462
1904	818	573	62	1,432
1903	767	490	58	1,295
1902	676	468	53	1,197

Average 798 \$529 \$62 \$1,391
Per cent 57.3 38 4.7 100

PC 1902-5 33. 27. 41.

The total represented in the above figures forms somewhat more than two-thirds of the gross earnings of our railroads. The other third not represented is held in the form of working capital, of surplus and other undistributed resources. The annual disbursements of the two-thirds here under discussion comprise a series of financial operations of the most intimate relation to the communities concerned. The wage payment or earnings of employees in 1906 was \$901,000,000, having increased \$225,000,000, or over 33 per cent, since 1902; while dividends and interest, or the share which capital gets, increased 27 per cent, and the share of taxes 41 per cent. The number of employees of railroads has increased during this period from 1,189,315 to 1,521,255 persons, or nearly a third. The total amount of disbursements to the credit of labor has kept pace with the gain in numbers. The rewards to capital have gained somewhat less, while the amount of taxes has increased more rapidly than either of the other participants.—Wall Street Journal.

FOR BETTER TAXATION

There is yet time to do something toward amending the Missouri system of taxation along the admirable lines laid out by the Tax Commissioner, whose report was published several weeks ago.

Though the cities are the chief sufferers from the inequalities of the present system, the rural counties would be equally benefited by the change, since the removal of the state tax on real and personal property would relieve them of state taxation almost altogether.

If Missouri should adopt the plan successful in Pennsylvania and several other states of raising state revenue wholly or mainly from corporation taxes, licenses and inspection fees, city interests would still pay the greater portion of state taxation. And yet it is the cities which have the strongest reasons for desiring the change.

Separation of the sources of state and local taxation as absolute as that which now exists between federal and state taxation would work so well in all parts of Missouri that it is surprising the legislature has not taken steps to give it an initial trial.

The state taxes now paid by the counties could be kept at home to build up road funds in the rural counties, while the cities would be enabled to make their assessments for local purposes as high or as low as they please, without incurring an unjust share of state burdens. A system that has been found to work so perfectly elsewhere is the system for Missouri.—St. Louis Republic.

THE INHERITANCE TAX.

President Roosevelt's argument for a progressive inheritance tax, as presented to the National Editorial association, conform, we believe, to the best and most sober thought on the subject. The tax is not a novelty, for it has been tried and is now in force in Great Britain, Germany and France, as well as in some states of this country. It existed in Ohio for a time, being abandoned in response to what was more a criticism of method than of principle itself. If the legislature, instead of abolishing the tax altogether, had increased the size of the inheritance that might be transmitted without the payment of the tax, every reasonable objection to it would fairly have been met.

It is not the purpose of President Roosevelt or of any other sane advocate of an inheritance tax to lay a burden upon those who cannot bear it, but rather to tax the "swollen fortune," at the moment of its transmission to those who have neither earned nor saved any part of it. As the president says, "a heavy progressive tax, of course, in no shape or way, a tax on thrift or industry, for thrift and industry have ceased to possess any measurable importance in the acquisition of the fortunes of which I speak, long before the tax would in any way seriously affect them."

Barred Escape by Suicide.

This from the Transvaal: "The Pocheefstroom magistrates, in committing for trial a local lawyer, who was charged with theft, agreed to accept bail only on the stipulation that if the accused man committed suicide \$4,000 (\$20,000) should be forfeited by the sureties."

Appetite-None

The Woeful Reflections of a Withered Dyspeptic.

No substitute for good nature has yet been found. Smiles take root in the stomach. Without good digestion there never can be very much sunshine, for the very simple reason that the stomach and the brain are twins, and what affects one invariably affects the other. The adage that the best road to a person's heart is via the stomach, still holds good.

Gorged grub and pappy pie always breed gloom and sleepless nights. They also breed dyspepsia—quick dyspepsia, and dyspepsia shows itself in a variety of ways,—belching, burn-

Is This You?

ing sensation, an empty feeling in the stomach, bloating after eating, brash, aversion to food, fermentation, or downright indigestion.

There are few diseases which create such misery,—long drawn out misery,—as dyspepsia. It parades you before meals, after meals, and between meals; you take it to bed with you; it is with you at the theater and at your desk.

What is the only way to get rid of it? You don't have to stop eating; you don't have to diet. Just take something that will do the work of the stomach and let the stomach take a rest.

Stuart's Dyspepsia Tablets are the most wonderful little tablets on earth for this very thing.

In plain arithmetic, 1 of Stuart's Dyspepsia Tablets—1 good strong stomach for 1 time for 1 good hearty meal. One ingredient of Stuart's Dyspepsia Tablets will digest perfectly 3,000 grains of food in just the same way that a strong, robust, healthy stomach would do it.

Stuart's Dyspepsia Tablets enrich and increase the gastric juice in your stomach, and that is mostly what you need,—more and better gastric juice. And it gives the stomach a rest, a good long rest. In the meantime it cures the dyspepsia, and all other stomach troubles.

Just a few of Stuart's Dyspepsia Tablets will prove to you what these little cherubs of health and happiness can do.

Stuart's Dyspepsia Tablets are for sale at all druggists at 50c a box.

A Happy Family.

A boy and a girl in Alabama whose parents are named Ashmead have gathered together a happy family consisting of a cat, a rat, a dog, a mouse and a canary bird. The dog will brace his feet and let the cat jump on his back. Then the rat will climb on his back. Then the mouse and the canary will complete the pyramid. Then all will grab each other by the tail, the canary coming last, and march around the room. They have been taught to perform many other tricks, and the young people are quite proud of their circus.

Hitchcock Refused to Testify.

New York, Nov. 20.—Raymond Hitchcock, the actor, refused to answer questions put to him when he was called Tuesday as a witness in the action for criminal libel brought by ex-Congressman William Astor Chanler against William R. Hearst. Hitchcock based his refusal upon his constitutional rights in that, as he was himself under indictment, he could not be compelled to make answers which might tend to incriminate him. The witness was sustained by the court. Hitchcock is under indictments growing out of charges made by girls, and the libel alleged by Mr. Chanler associated the complainant with Hitchcock in the society of these girls.

Gillette Explains Cause of Crisis.

Sau Francisco, Nov. 20.—The special session of the legislature called by Gov. Gillette convened Tuesday. The governor's message says the session has been convened to enact legislation, believed to be imperative, because of unusual financial stringency brought about by conditions existing in the east. The country is prosperous and legitimate business was never in better condition. The present state of affairs is attributed, by the governor, to extravagant living, wild speculation and the frenzied finance of stock manipulators in Wall street. The banking laws, the message says, need to be amended.
