OUR CITIZEN'S DEMAND

Fully Complied With—A Marion Resident Furnished It.
There are few items which appear in this paper more important to Marion people than the statement published below. In the first place, it is from a citizen of Marion, and the second place, it indisputably proves that Doan's Kidney Pills do their work thoroughly and not temporarily. Read this carefully.

J. N. Reed, 163 Home St., Marion, Ohio, says: Doan's Kidney Pills still have my heartiest endorsement. I used them on several occasions since giving my former statement and they have never failed to relieve me. I willingly verify all I said in their behalf at that time, for the benefit of other kidney sufferers. I was taken with an acute attack of backache which greatly annoyed me when I stooped, and in the morning when I first got up, I felt lame and sore. Reading about Doan's Kidney Pills, I began their use and to my surprise, one box gave me perfect relief. For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

The church met in the pastor's study Friday afternoon. The meeting was led by Mrs. H. G. Shumaker, who read the Scripture lesson, and Mrs. C. R. Havighurst offered prayer. The regular report of the treasurer, Mrs. T. J. McMurray, was submitted and accepted.

The remainder of the afternoon was devoted to sewing and various other matters of business.

ALL DAY SEWING.

There was an all-day sewing yesterday afternoon at the rectory, Mrs. A. H. Ross being the hostess to the Daughters of Grace of the St. Paul's Episcopal church.

The ladies assembled in the morning, and spent the day sewing industriously on articles for a bazaar which will be held in a few weeks. At the noon hour a delicious course dinner

LEADERS OF BOTH PARTIES

Want an Early Adjournment of Congress—Old Guard Republicans and Underwood Democrats Co-Operating.

(Special to The Mirror.)

By WINFIELD JONES.

Washington, April 12.—Congressional leaders, both Democratic and Republican, are planning to bring about an early adjournment of congress. These leaders want to prevent any further tariff legislation. The Democrats want no more tariff legislation this session because they fear that they may make a mistake which might react unfavorably in their presidential campaign, and the Republicans are naturally opposed to tariff reductions of any kind.

If these leaders have their way, congress probably will adjourn inside of two months, and before the Chicago and Baltimore conventions. The Old Guard Republicans in the senate, led by Senator Penrose, as chairman of the Finance Committee, are working to an early adjournment. They are getting aid from Democratic directions. Chairman Underwood, of the House Ways and Means Committee, is working for an early adjournment, and some of the Democratic senators, especially those of the protective tariff stamp, are eager to get away from Washington early.

On the other hand, there is a strong body of progressive Republicans and aggressive Democrats in the senate who, while not anxious to prolong the session, wish to have certain matters disposed of before congress quits. Many of these men would prefer to see congress remain here all summer than to see the session end with nothing accomplished.

Under these circumstances, it is conjectured whether congress will adjourn before the national conventions or whether the statesmen are in for another summer of sweating work. It all depends on whether Senator Penrose and the Old Guard Republicans plus certain Democrats who habitually lean toward them, are able to muster votes enough to bring about an adjournment early in June.

If an early adjournment is forced it will be for the purpose of blocking tariff revision just as far as possible, for the purpose of blocking any progress toward legislation on the control of trusts and corporations, for the purpose of heading off important labor legislation, and for the purpose of confining as nearly as possible the legislation of this session to the passage of appropriation measures.

The Lorimer case is pending before the senate and is being permitted to drag along. Suspicion is harbored that Lorimer's friends will throw the decision of this case over until next winter if they can. However, it seems unlikely this will be accomplished for the reason the opponents of Lorimer are determined to force a vote and in a showdown it will not be easy to prevent one. Notice of the determination to have a vote was practically given in the senate the other day by Senator Bratton when he arose to inquire when the report of the Lorimer committee would be in, and said he, for one, did not want to remain in Washington another summer. The inference from this was that Bratton and other progressives were going to have a vote on Lorimer if they had to have an all-summer session to bring it about.

Progressive senators, both on the Republican and the Democratic side, would like to have votes on the steel bill, the excise bill, the sugar bill, and the wool bill before adjournment. In addition to votes on these tariff matters, they want to dispose of the Lorimer case, to settle the Panama canal legislation involving the question of permitting railroads to own competing lines of steamships to make some reasonable progress, at least in committee, toward solution of the question of what to do with the trusts and corporations, to pass the eight-hour bill, and the workmen's compensation bill, and dispose of some other matters on the whole, putting through a comprehensive program of legislation.

The senate however is listless. Many senators feel that with a campaign on for congress next to one and a half years, a little is possible. For many Republicans and Democrats are showing much enthusiasm about an alliance on tariff, and while

Senator Martin, Democratic leader, has told Senator Cummins that the Democrats will unite with the progressive Republicans in passing a steel bill, such a union is coming to be regarded as in some degree uncertain, either as to steel or other schedule.

TO FLOOD VAST TERRITORY.

Vicksburg, Miss., April 12.—Major James A. Woodruff, United States engineer, in charge of this levee district, wired today from Lake Providence, La., that the two crevasses at Panther Forest, Ark., and Salem, La., would flood 1,000 square miles of land in Texas basin six to ten feet, that thousands would be destitute and suffering, and that relief was needed at once.

Steamboats and supplies have been rushed from Vicksburg to Salem, 45 miles above here where many persons spent the night in trees, on house tops and on the levees. For miles below the break, which is now 1,000 feet wide, thousands of persons and droves of livestock are crowded on the embankments this afternoon.

The river is falling here as a result of the break above and it is now thought the Mississippi levees will remain intact. The river has fallen 4 feet at noon today.
