OUR NATIONAL CAPITAL.

From Our Regular Correspondent.

The Present Session in Washington—The Crooked Ways and Means of a Committee. Kellogg holds his seat.

This subject that is discussed in local lobbies and on the streets in Washington is not political, and the coming event is not a Presidential nomination. It is a sporting match. Two vulgar muscular sportsmen to have a boat race on the Potomac. Their photographs are in all the windows. The daily papers print interviews with them and give the minutest details of their professed daily existence.

On yesterday the Committee of Ways and Means voted to adjourn on the last day of May, and if their action shall be ratified by the House there will remain but fourteen more working days in this Congressional session. This resolution may be understood as providing for the passage of the regular appropriation bills, with the intention of allowing the hundreds of other bills that have been presented, some of them involving much needed legislation, to be heard.

Mr. Editor—I beg your pardon for occupying so much space with such trash. My only excuse is that Mr. Haskell neither makes use of nor replies to anything else. I have found it necessary to feed all animals upon that which their appetite craves and now leaving him to feast upon the above I will offer your more sensible readers a dish of different nature altogether.

OHIO SABBATH SCHOOL UNION.—It is intended to be a Mass Convention, and each Sunday School is entitled to a delegate. The people of Circleville, through their local committee, offer entertainment to delegates. In order to insure this, delegates are urgently requested to send their names to M. K. Mabball, Circleville, Secretary of local committee, on or before May 31, that homes may be prepared. Fall parties and socials are to be held at all delegates can be had of the Corresponding Secretary, Rev. A. H. Studebaker, Bucyrus, by enclosing a stamp. Circleville, June 1, 2, and 3, 1880.

"Rajax" to the Public.

I have again out lived the terrible

broadside fire from the batteries of the mighty Haskell and am sorry to learn that he wishes to withdraw from the controversy and that hereafter I must address my letters to the public. Though it is possible that I am "weak about the head," yet don't be alarmed upon my account. Mr. H. I am not fatigued in the least. Indeed I now feel as though this sort of mental exercise continued from this time till about the middle of August would result in much good both to me as well as to a certain man of my acquaintance, whom you or some others of your clique have allowed to become of unsound mind. And do know Mr. H. that this mental aberration is spreading at a most alarming rate? Why, I know of a neighborhood, where, two months ago the people were nearly all sound and healthy, but they have been talking and thinking so much of late that at the present time there is but one voter whose medical men would call sound of mind and even he is getting feeble. Living among such a class of people and being at the same time a very modest man, you can't blame me for refusing to "come out over my own signature like a brave little man." I'll tell you my occupation and then perhaps you can identify me. I have been engaged during the last four weeks as the county "fool killer," and I commenced in Ashtabula upon the worst case I could find. My easy victory in the first contest seems to indicate that the business is both light and agreeable.

Mr. Editor—I beg your pardon for occupying so much space with such trash. My only excuse is that Mr. Haskell neither makes use of nor replies to anything else. I have found it necessary to feed all animals upon that which their appetite craves and now leaving him to feast upon the above I will offer your more sensible readers a dish of different nature altogether.

Mr. H. distinctly asserts that he does not wish to discuss the merits or demerits of the two candidates. That is a matter which the reading thinking people of the 19th Congressional District do desire to discuss fully and thoroughly. He may desire to vote for the man regardless of his social, moral or political worth. He may willfully close his eyes to superior qualities possessed by other candidates and vote for his own particular choice, because he, like him, for his sociability, his comical jokes or his shrewd tricks, but the majority of the voters of Ashtabula county ask for other qualities in the man who is to fill the place now occupied by James A. Garfield, who (as I said in my last letter) has no superior as a Legislator in America. Yes sir, the voters desire to know something about the ability of the several candidates for this high office of honor and trust. I asked Mr. H. to exhibit the record of his favorite candidate. Now I ask you again what has he ever done to protect the rights of those whom he represented in the General Assembly of the State of Ohio? I ask you what he ever originated a single act that was intended to save a dollar or a cent for the farmers and mechanics of this county? He did during his year at Columbus introduce an act or utter a sentiment tending to show that the common laboring people of the State had any rights or interests which were worth protecting? Perhaps I am asking too much. It may be that we have no right to expect anything of our representatives except that they enjoy the honors and draw their mileage and per diem. For myself, I neither ask nor expect remuneration for being a drone in the world's busy hive and accomplishing nothing except to make a great noise. Steady, every day labor for the benefit of those who pay us our wages is the recommendation which we all ask, expect and demand of those who ask of us employment. Do we in the ordinary transactions of business employ even a common laborer unless he can furnish us a recommendation from those for whom he has worked? Then I fail to see why we have not the same right to ask these several candidates to tell us what they have done to recommend them to their employers as men who will be likely to fill the place with profit and honor to the district. Now then Mr. Supporter of Taylor, Hitchcock and Northway, don't stand back any longer trying to carry your candidate upon your own shoulders.

He must go into the convention supported by his own personal strength and protected by his own political worth. There will be no great wave of public excitement at Warren upon which any man's pet candidate can ride in over the positive strength and political worth of others. Between now and the middle of next August every man will be carefully weighed in the balance. The people will learn to estimate their relative value of war already done and good already accomplished, and instruct their delegates to support the best man respective of personal acquaintance, friendship or outside influence.

JEFFERSON, O., MAY 15, 1880.

THE LESSON OF LIFE.—Dr. Richardson

says that the body should be in its best physical condition at forty years; for thirty years after the organization should become more perfect; at seventy, old age should begin and last fifteen years, when from eighty-five to one hundred, there should be a gradual subsidence of the vital functions. This is the ideal limit of life where nature has its undisturbed course.

To the O. N. G.

The officers of Co. G., 10th Regiment, O. N. G., are in receipt of the following

general orders, which should be read by all members of the O. N. G.:

GENERAL HEADQUARTERS, STATE OF OHIO, ADJUTANT GENERAL'S OFFICE, COLUMBUS, May 16, 1880.

General Orders. I. It having come to the knowledge of the Commander-in-Chief, that certain members of the Ohio National Guard claim to be the owners of the uniforms furnished them by the State, the following section of the Revised Statutes of Ohio is hereby published for the information and guidance of all concerned:

"Section 9771. Each enlisted man shall furnish himself with a fatigue uniform of the prescribed pattern, at a cost of not less than eight dollars, which amount shall be refunded to him out of the State treasury, upon proper vouchers being furnished, approved by the commanding officer of the Troop or Battery, and by the Governor; only one suit in five years shall be allowed to each member; such uniform shall be worn only when upon duty, and shall be turned over to the commanding officer when the member leaves the organization."

II. All uniforms of the Ohio National Guard which were purchased and paid for by the State, are its absolute property, and Company commanders will be held to the same accountability for the preservation and care of arms and other State property. It is hereby ordered that upon the discharge or promotion (as interest of the State) of any enlisted member of the Ohio National Guard, the fatigue uniform issued to him, or paid for by the State, shall be immediately turned over to the commanding officer of his corps, to be held by such commandant subject to orders from these headquarters.

III. The appropriation made by the General Assembly for the purchase of uniforms for the year 1880, is intended solely to cover the cost of uniforms for new recruits, and no purchase by the State will be made for any other purpose. Company commanders requiring additional uniforms for issue to recruits, enlisted since the former purchase of uniforms, will, before making contracts for the purchase of the same, forward to this office an enlistment roll, containing the names of all recruits for whom uniforms are required. Such enlistment roll must contain a certificate of the commanding officer of the corps, that the men were actually enlisted on the dates specified, and that they have never been discharged or re-enlisted in the State of Ohio. Upon an examination of said enlistment roll, if found correct, purchases of uniforms at the expense of the State will be authorized by orders from these headquarters. Blank enlistment rolls will be furnished upon application.

General Orders, No. 4.

The terms of enlistment of a large number of enlisted men of the Ohio National Guard being about to expire, and demanding it to be to the interest of the State and the Ohio National Guard, that as many of the experienced members of the organization as possible should be retained in service, the following regulations for the discharge and re-enlistment of such members are hereby established for the information and guidance of all concerned:

1st. Companies, Troops, or Batteries, reduced below the minimum number prescribed by law, by the discharge of enlisted men, whose terms of service have expired, may, nevertheless, continue in service; provided the minimum number required by law is secured by the re-enlistment of original members and recruits of acceptable recruits. Blank re-enlistment rolls will be furnished Company, Troop or Battery commanders upon application to this office, and thirty days time, from the date of the expiration of the terms of enlistment, will be allowed for carrying out the provisions of this paragraph.

2d. When the terms of enlistment of a majority of the enlisted men of any Company, Troop or Battery have expired, and are about to expire, and no considerable number of said members desire to re-enlist, upon application of the commander of said organization, the said Company, Troop or Battery will be disbanded, and all officers and enlisted men honorably discharged; provided, that the number of enlisted men, whose terms of enlistment have not expired, does not exceed one-half of the minimum number now required by law.

3d. Each enlisted member of the Ohio National Guard, upon the expiration of his term of enlistment, is entitled to an honorable discharge from the service of the State. Application for discharge, properly drawn and approved by Company and Regimental commanders, will be approved by the Governor. Blank discharges will be forwarded to Company commanders on application.

By order of

CHARLES FOSTER, Governor and Commander-in-Chief.

SAMUEL B. SMITH, Assistant Adjutant General.

EMIGRATING TO AMERICA.—London,

May 13.—Emigration continues to be very heavy. According to the advices of the steamship companies the volume of emigration for May promises to exceed that of April, during which months 29,401 passengers left Liverpool, of whom 25,187 went to the United States. The Cunard Steamship Company will this week send out nearly 4,000 passengers. Several lines have found it necessary to put on extra steamers. The demand for accommodations at Queenstown greatly exceeds the supply. Companies which sold tickets in advance are compelled to pay detention money to emigrants awaiting their turn. The following list of steamers sailed for American ports during the current week: From Liverpool—The British Crown, Barwell, Celtic, City of New York, Egypt, Hibernian, Indiana, Mass., Massachussets, and Parilla; from London—The California and Hooper; from Glasgow—The Australia and Cornhill; from Bristol—The Bellise and Gloucester; from Hull—The Albatross; from Antwerp—The Helvetia and Valerian; from Bremen—The Demau and Rhein; and from Hamburg—The Silesia. To-day the City of Chester, Sardinia and Teutonia left the Mersey, and on Saturday the Wyoming, Bothnia, an extra Cunarder, and probably several freighting steamers will sail.

A. W. Basse, St. Catharines, Ont., writes: I have been a sufferer for years with dyspepsia and indigestion and have tried numerous remedies, but none have done me any good, until I tried your Spring Wafers. I can now sleep, relish my food, have no headache and am in fact perfectly cured. I can confidently recommend it.

ROCK CREEK.

The Council of Rock Creek village voted on Thursday evening last, to levy a five mill tax to apply upon the debt of the Board of Education—\$4,500.

Bradley & Bailey are beginning to realize some of the advantages of their ice house. They are packing, storing and shipping butter, which, for its excellence and superior condition, readily brings 22 and 23 cents a pound. The prices paid by the merchants is from 15 to 16 cents. Besides butter, eggs are stored in considerable quantities which will keep for any desired length of time. Potatoes and foreign fruits derive the same advantages from this treatment. There are stored in the building 200 tons of ice, and the uniform temperature of the apartment in which these several commodities are stored is 40 degrees.

The health of Mrs. Randall is rather precarious. She is confined to her room and bed. Landlord St. John has been confined to his room for more than three weeks, but is now thought to be gaining, and hopes to ride out, as soon as the piercing winds that have been raising up from the north shall give place to something more genial and balmy.

The whites frost that visited the county on Thursday night, seems not to have done much damage in this vicinity. Mr. H. A. Revee stated at the Creek, that the grape vines on his premises in New Lyme, were uninjured.

KINGSVILLE.

Eda, Tel.—Tidings of Misses May Hitchcock and Ella Grover, at Mobile, give us to understand that, pursuant to orders from the A. M. A. the terms of school closed on the 25th. Thus, with a couple of the other teachers, they have arranged for leaving on the 30, of May for New York, one of the four has her home in Andover, Mass, and the fourth in Baltimore, O., but goes to New Haven, Ct. The two first mentioned, will visit Washington, New York and Connecticut before their return to their Kingsville homes. The relations of these teachers seem to have been pleasant.

Our cheese factory is in full blast. Preliminary have been taken looking towards decoration exercises on the afternoon of Saturday 29th. The purpose is to give the exercises as simple as possible—the decoration to be done by the hands of ex-soldiers. It is expected that public speaking will take place in the park, with suitable music, vocal as well as martial. We hope for a speaker from abroad—such a one as we shall all be pleased to listen to. Rev. Chase of North Bloomfield, Trumbull Co., and Rev. Hickok of the Presbyterian Church exchanged pulpits on Sunday last. The former gave us a fine discourse in the morning in the evening a sermon was presented by Rev. Chase—a gentleman stopping with relatives here—a student of the University of Michigan. His effort was a satisfactory one.

Our cheese factory is in full blast. Wheat looks well. New drug and clothing store starts off well. May 17, 1880.

There is an advertisement in our columns to which we take much pleasure in referring our readers, because we believe in it and can conscientiously and most heartily recommend it. We refer to Hall's Hair Renewer. We remember many cases in our midst of old and middle aged people who formerly wore gray hair, or whose locks were thin and faded, but who now have presentable head pieces, and with no little pride announce to their friends that they have a gray hair in their hands. It is a cardable price, and the world would be better off if there were more of it, for when the aged make themselves attractive to others they are more certain to win and retain the respect and esteem to which a burden of well spent years entitles them. Try Hall's Hair Renewer if age or disease has thinned or whitened your locks and you will thank us for our advice. Fun-Handle News, Walsburg, W. Va.
