THE TELEGRAPH.

Friday Morning, Aug. 27, 1880.

LOCAL NEWS.

Forepaugh's circus is to exhibit at Warren, Sept. 7th.

The fall term of the Ashtabula Public Schools commences on Monday, September 6th.

Messrs Hubbard & Strader have gone into the phosphate business. See advertisement.

Scoville's cornet band will furnish the music at the encampment of the Tenth Regiment.

The L. S. & M. S. pay car unloaded part of its valuable cargo at Ashtabula last Wednesday.

There were twenty-one vessels of all classes in the harbor last Wednesday, and business was booming.

The train men on the passenger trains of the A. & P. Ry., wear white canvas caps, similar to the main line.

An excursion train will probably be run over the A. & P. Ry., during one of the days of the encampment of the 10th regiment.

There were no services at the Congregational church on Sunday evening last—the pastor taking a little respite during the warm season.

Scoville's cornet band made some excellent music in the North Park last Tuesday evening. These open air concerts are duly appreciated by all lovers of good music.

The longest telephone line in town is one from the residence of Mr. George B. Riser on Bunker Hill to his office at the A. & P. depot at the Harbor, a distance of nearly five miles.

The A. & P. Ry. Co., are now employing about 200 men on their docks at the Harbor, and the orders for ore are coming in faster than the cars can be procured to fill them.

The Ashtabula Light Guards and Juvenile Band are to give a series of three dances at the armory during the encampment, probably on the evening of Thursday, Friday and Saturday of next week.

The prospect of a full gathering of Pioneers and old people at the Hub, Sept. 8, is very encouraging. The incipient steps taken at Jefferson on Monday last, together with all others in the way of preparation, will find a place in the TELEGRAPH.

"Gertrude's" letter from North Kingsville came a little late—Thursday morning—for insertion, especially as the main subject had been alluded to in another. The other items are given. We shall be pleased to hear from the writer—as intimated—at any other time.

The dredge Hercules was engaged last Tuesday in pulling up twenty-eight piles that formed a point to the front of the new dock of the Ashtabula Loan Association. The dock line will be carried back about eight feet at this point, making the river that much wider.

The old and reliable dry goods and carpet store of L. P. Collins is occupying a liberal amount of our advertising space this week in announcing the closing out of the entire stock at cost. Mr. Collins means business, and all close buyers should avail themselves of his low prices.

The Blakeslee brothers began work upon the "Pop's nose" last week, at the Gulf, and showed that they mean business. A few six feet blasts left an impression. The rock, however, is pretty hard and solid, and there are about 1,100 yards—by survey—to be removed. The rate per yard is 34 1/2 cents.

Mr. S. B. Wheeler, of Union City, is among the callers at the TELEGRAPH office the present week. Wheeler is doing a good business, but the highest benefit of his removal from Ashtabula is the regaining of the health of Mrs. W., who left Ashtabula on her bed, and is now in the enjoyment of sound health.

A flag staff has been erected over the residence of ex-Mayor Morrison, from which floats a Weaver & Chambers streamer. This is the only Greenback flag in town. Now if Brother Castle, or some other apostle of temperance, will unfurl a Dow & Thompson flag all the Presidential candidates will be represented.

On Wednesday evening of last week, 125 guests in attendance at the wedding of Miss Louise Porter, of Painesville, to Mr. Fred Smith, of Elyria, were taken sick, probably from something in the refreshments, and between the hours of 12 and 2 o'clock in the morning there was a lively time sending for doctors. The difficulty was in the bowels, from which, however, all recovered.

—Mr. John Granger, who has been quite a sufferer, and unable to get about, under the judicious treatment of Dr. King, is fast recovering his powers of locomotion and bodily comfort. He now moves about his farm with ease and cheerfulness, and a prospect of perfect restoration. He has made so good a beginning in improving his naturally fine place, that any interruption of his usefulness would be a misfortune.

—The place between John Granger's and John Murfin's has recently come into the possession of Mrs. King, and is now undergoing considerable repairs and very decided improvement, which are doing much for the fine avenue upon which it is located. These improvements, with those of Mr. Granger, and the new and tasteful residence of Mr. George Metcalf, are changing the aspect of that neighborhood and adding to its attractiveness.

—The west approach to the pontoon bridge at the Harbor was carried away last Tuesday by the steam barge Ontonagon, and travel over the bridge thereby interrupted for about twenty-four hours. Since the widening of the river at this point there is now no reason for steam barge captains to thump this approach every time they pass, and one or two heavy bills for damages would have a salutary effect on them.

—Mr. Daniel Kunkle of Greensworth, Pa., has rented the new dock of the Ashtabula Loan Association at the Harbor for a lumber yard, and on Saturday last received his first cargo of lumber, lath, etc. When his stock is complete he will be prepared to fill all orders, both at home and from abroad, and at the lowest living prices. His yard is located between the L. S. & M. S. Ry. and the dock, thereby saving considerable expense in hauling and handling. This winter he will erect a planing mill and furnish dressed lumber.

—The Sunday school excursion and picnic, spoken of in these columns two weeks ago, is to take place today. The excursion train starts from Inland, and will stop at New Lyme, Rome, Rock Creek, Eastville and Austintown, reaching the Harbor at 9:15, excursion time. Superintendent McCoy has kindly made the fare one-half rate for adults, and one-third for children; it is expected there will be a large number who will take advantage of the inducement offered. At 5 p. m. the excursion is to leave the Harbor on the return trip.

—On Friday and Saturday last the steamer was put to work to fill the fire cisterns, many of which had become dry. Some of the water was drawn from that supposed exhausted fountain in front of the Methodist church—which supplies the street sprinkling wagon. Another portion—where most convenient—was taken from the creek. The extent of hose in use for some of this work was 1,500 feet, and the water pressure, as indicated by the gauge, was 160 pounds to the inch. Of course, the best of hose was required to meet this pressure, and the poor failed, and two sections yielded. Some of the hose were injured by the steady vibration, where carelessly laid upon a rough surface and not protected against the attrition, as they should be. All the principal cisterns, we believe, have been filled and are now ready for any emergency likely to arise.

—That new dry goods establishment of Collins & Stevens is getting ready for opening up in the Willard block. Mr. Collins is in New York taking the cream of the market by buying for cash, and about the first of September they hope to get things in readiness for a grand opening up. They then expect all their old friends will be on hand to take advantage of the bargains that are to be laid before them. The arrangement is to lay in the stock for sharp cash, and sales will be shaped accordingly—on the cash basis—and prices will therefore be put at the lowest rates. As both the proprietors are well and favorably known to our citizens, there need be no hesitation about beginning a full flow of business from the start. Having one of the choicest locations and best stores in town, everything will be favorable for such an opening as will lift the concern into a full realization of the good things in store for them.

—Mr. F. G. Fardon in the last week's paper did good by to the Standard and its readers. He does it gracefully and with good temper, but with a lurking idea that it may not be final. We take leave of Mr. F. with kindly feelings as our relations socially have been reciprocally amicable and pleasant. Though we have some times found it necessary, in the way of discipline, to rub down the Standard office, and show to its editors that as Democratic politicians we should tolerate none of their Jacobinism, yet socially as neighbors of the same guild, they were entitled to our heartiest good feeling and kindly offices. Notice is given that the services of Messrs. Appoth and Fricker, as receivers, from present indications, might soon be dispensed with, and that the even tenor of the paper would probably go on without interruption, with the same success and with the same well supplied exchequer that has attended it.

—The Exodus—Capt. C. A. Sperry, of Topeka, Kansas, who has been connected with the exodus movement of the freedmen, is stopping in town for a few days, and proposes to speak to our citizens on Friday evening, the 27th inst., at Haskell's Hall. The Captain is connected with a law firm in the city of Topeka, a fluent speaker, and from sympathy and identification with his subject, posted, and we are inclined to expect a lecture of much interest.

Women that have been given up by their dearest friends as beyond help, have been permanently cured by the use of Lydia E. Pinkham's Vegetable Compound. It is a positive cure for all female complaints, and to Mrs. Lydia E. Pinkham, 393 Western Avenue, Lynn, Mass., for pamphlets. 96-100.

Don't you forget it. Sellers' Liver Pills were the first pills so called in the United States, and never fails to do its work.

THE COMING ENCAMPMENT.

Arrangements have been completed for the encampment of the 10th regiment on Harmon's Place, instead of on the Lake shore. The following is a list of the companies comprising the regiment and the number of men belonging to each:

- Co. A, Iron Guards, Youngstown, 60 men.
Co. B, Mitchell Guards, Niles, 50 men.
Co. C, Mineral Ridge Guards, Mineral Ridge, 64 men.
Co. D, East Palestine Greys, East Palestine, 80 men.
Co. E, Niles Guards, Niles, 58 men.
Co. F, Windsor Guards, Windsor, 38 men.
Co. G, Ashtabula Light Guards, Ashtabula, 80 men.
Co. H, Lake Co. Guards, Madison, 72 men.
Co. I, Geneva Rifles, Geneva, 83 men.

HEADQUARTERS, ASHTABULA LIGHT ARTILLERY, THIRD BATTERY, U. S. A.

- 1. By order of the Governor the annual encampment of the 3d Battery, Light Artillery, will take place at Ashtabula, O., commencing on Wednesday, Sept. 1st, and continuing six days.
2. Every active member belonging to this organization must report at our armory at 8 o'clock, a. m. of Sept. 1st, for duty, and no excuses will be granted, save in cases of sickness or extreme necessity. All persons having members of this Battery in their employ will bear in mind that this is a duty they owe to the State of Ohio; they will therefore do all in their power to enable members to render this service.
3. No member will be entitled to pay for this encampment unless he is present four days.
4. Any member becoming intoxicated, or conducting himself in an undisciplined manner will be placed under guard, and upon conviction, will be recommended for dishonorable discharge and his pay forfeited.
O. W. GILBERT, 3d Lieut. Commanding.
F. C. MOORE, 1st Serg't.

A NEW HARBOR.

Our Painesville neighbors are still agitated on railroad matters. The Connotton Northern Railway wants a terminus on the south shore of Lake Erie, and if Painesville will raise \$10,000 by which to purchase the right of way, it will go to Fairport. As yet, this comparatively small sum has not been pledged, and the enterprising citizens of beautiful Painesville, those who do not possess the wealth of the town, are hard at work soliciting subscriptions, with the lead that the road will go to Willoughby. There is no harbor at Willoughby now, but the preliminary survey with a view of making one, has just been completed by Messrs John L. Culley of Cleveland, and David Sloan of Ashtabula, under instructions from Colonel Wilson, United States Engineer at Cleveland. The Chagrin River empties into the lake at that place, and Mr. Sloan informs us an excellent harbor can be made there at no very great expense. The amount of running water in this river is greater than in either Ashtabula or Grand river. Fairport is entitled to this new road, and if her capitalists come down gracefully with the dollars, it is said the road will be put under contract at once. It would take several years before a suitable harbor could be made at Willoughby, and as the Connotton is anxious to commence business as soon as possible, it is quite probable that Fairport will get it.

RUNAWAYS.

A team belonging to Charles Brainard, of Dorset, and attached to a farm wagon in front of the Redhead block, broke loose last Tuesday and ran south through Main street at a terrific speed, turning at the Gulf road, where they collided with a large covered carriage from Gregory's; Eli Beer's horse and wagon were the next victims, knocking them down the side of the hill. The last damage done was to one of the horses belonging to Mr. P. W. Blakeslee, that was being driven up the hill.

On the same day two of Fargo Bros' teams, attached to milk wagons, demolished things. One of the whiffletree bolts gave out while the team was being driven down North Main street by George Hubbard, and the horses ran, freeing themselves and demolishing the wagon in front of the residence of John Booth. The wagon was badly broken, milk cans emptied and tickets and small coin scattered in all directions. The driver was uninjured.

About the same time Fargo Brothers' other milk wagon was being driven over the railroad crossing Depot street, when the driver discovered a locomotive approaching. He struck the horse and the animal jumped, freeing itself, and leaving the wagon on the track. It was, however, pulled off, and the papers deprived of another railroad accident.

GRAND PICNIC.—The forestry of this region turned out freely to the picnic at Kelloggsville on Wednesday last. Mr. A. D. Strong, Master of the County Grange, presided. The opening prayer was made by Rev. Mr. Smith, of Kelloggsville. Addresses were made by Mr. Armstrong, Master of the State Grange, of New York, and editor of the Huskandman; by Messrs. Ogden and Brigham, of the State Grange of Ohio; Mr. H. Talcut, of Jefferson, Secretary of the County Grange, stated the objects of the order, and after a song by the Glee Club an adjournment was had.

Hartford, Wis., Nov. 13, 1880. Wells Richardson & company, Burlington, Vt. Dear Sir—For years from time to time I have been troubled with lumbago and have never been able to get anything that afforded me little if any relief, until I was recommended to use your Kidney Wort, have used but part of a box and am entirely cured. Resp't Yours, David M. Hatten.

THIS TIME DEFEATED.

THE FAIRBANKS' FIRST VICTORY OVER THE ASHTABULANS.

The largest audience that has visited the ball grounds this season, witnessed the third game between Painesville and Ashtabula on last Monday afternoon. About one week ago Fowler, a colored pitcher, was added to the Painesville nine, and from that time on, their uninterrupted series of defeats has been followed by frequent victories. There is no mistake about Mr. Fowler's color, nor the general opinion that he is an excellent pitcher.

Although there was only five innings played, and many runs made, it was an interesting game, as both clubs played for all they were worth, and were frequently cheered. Silliman, pitcher of the Ashtabulas was sick and unfit to play; seven men took their bases on balls called against him owing to his indisposition. Fortunately the game closed on the fifth inning, to enable the visitors to take the 5:12 train, otherwise the score would have reached the twenties. The following tells the tale:

Table with columns for ASHTABULA, FAIRBANKS, and TOTALS, listing runs, hits, errors, and other statistics for both teams.

Innings: 1 2 3 4 5. Ashtabula: 0 2 2 4 2. Fairbanks: 2 4 0 2 3. Total: 2 6 2 6 5.

Two base hits—McCullough. Home runs—Houses. First base on balls—Painesville 7, Ashtabula 2.

Struck out—Painesville 2, Ashtabula 2. Double plays—McCullough to Warrington to Metcalf. Passed balls—Streeter 2, House 2, Ritter 2. Wild pitches—Silliman 3, Fowler 3. Umpire—C. H. Richardson.

—The Ashtabulas did not go to Madison Tuesday last, owing to the sickness of their pitcher.

—The Genvas were beaten by the Painesvilles last Saturday by a score of 19 to 3. If Geneva does not take revenge of this narrow game club we will pass the hat for the victors.

DISORDERLY SAILORS.

Thomas Denny, J. Hart, Thomas Burns, Thomas Shipman, Michael Short alias "Liverpool Mickey," and John Shipman, livermen from the steam barges at the Harbor, were arrested last Tuesday for fight, drunkenness and disorderly conduct, and had a hearing before Police Justice Heath on Wednesday, who gave Farrell \$5 and costs, and fifteen days at hard labor. The others \$10 and costs, and thirty days at hard labor.

John Reiley and Tom Waylan were arrested at the Harbor and brought before Justice Heath on Thursday morning, charged with drunkenness and disorderly conduct. The first was sentenced to five dollars fine and costs, and 15 days in jail. Waylan's sentence was \$5 and costs, and ten days imprisonment.

—Wm. Doras was charged with furnishing liquor clandestinely to prisoners in habit of intoxication. His sentence was \$35 fine and costs, and committed until paid. This business of furnishing to prisoners is the cause of a deal of trouble to officers and delay in bringing parties into court. Hence this summary decision.

PERSONALS.

The little daughter of Mr. and Mrs. H. M. Haskell, who has passed through a siege of typhoid fever is recovering.

—Mr. S. D. Tyler, of the firm of Cardiac & Tyler, expects to start for New York next Monday to make his fall purchases of dry goods.

Dr. Datimer, who some two or three years ago went to California, has returned to Lenox with the intention of resuming his practice in that township.

COUNTY NEWS.

FROM OUR OWN CORRESPONDENTS.

RINGSVILLE. The hum of the thrashing machine is heard in the land, and wheat and oats are sheeling out beautifully. As a consequence the farmer's money is doing the same, and all kinds of business is looking up. Farmers are buying their wives that calico dress and pair of shoes that they promised them last spring, and the merchants are looking happy.

Frank Eastman has received a new stock of fall goods at his clothing store, and is flying around as busy as a hornet, suiting customers, and relieving them of their heavy silver dollars.

Politics are assuming gigantic proportions just now, and people are getting woke up to the importance of the campaign. The Democrats are all out now, thick as woodchucks in a squash patch, busy gathering benches, preparatory to liberating about the first of November.

The enterprising Republicans of North Kingsville raised a very pretty Garfield pole on Saturday evening, after which they listened to a stirring speech by Mr. Cox, of Conneaut, followed by some fine maneuvering by the North Kingsville mounted Wide Awakes, under Capt. McCray, and the Kingsville foot company, under Capt. Davis. Index—was out with his martial music for the occasion.

Mrs. Hammond and her son-in-law, Mr. Stiles, who have been making over their house, have it nearly completed, and its nice arrangement, together with its beautiful location—directly opposite the park—combine to make it one of the most desirable residences in town. Isaac Wood.

RICHMOND.

William Ridge is teaching a select school at the Center, with 42 scholars, and good success is reported.

Many farmers are digging wells to supply water for their stock.

Henry Turner is reported sick with fever.

W. G. Hopper will soon take charge of the hardware store at Andover, having closed out business at Padanaram.

Lafayette Warren has sold out and intends to remove to Montana and to make that country his future home.

Say, Susan, have you lost your appetite? Are you weak and nervous? If so, Dr. Lindsey's Blood Searcher is just what you need.

Mrs. Jacob Willison, Marion, O., says her child was not expected to live, owing to a severe attack of croup, she tried Dr. Thomas' Electric Oil, which gave immediate relief.

Mr. C. Clendennen, Marion, O., used Dr. Thomas' Electric Oil for burnings. He says at first start he thought it was like the rest of the advertised humbugs, but was agreeably disappointed and now would not be without it in the house for any money.

The lady lay in her bed. Her couch so warm and so soft. But her sleep was restless and broken. Still by turning off and oft. 'Twas indigestion that troubled her, Pickled salmon and toasted cheese, With cramps that almost doctored her, But in Spring Blossom she'd find ease.

Epitaph. Here lies I and my three daughters. Killed by drinking Vichy waters. If we had stuck to Epsom salts, We shouldn't be lying in these vaults, Or if Electric Oil we'd tried, We never should have gone and died.

A School Trustee said it was unnecessary for the children to repeat lessons in American History, for every body knows that History repeats itself and we can't too often repeat that Spring Blossom is the best cure for dyspepsia, biliousness and indigestion.
