An Exciting Scene in a Court Room.

LOUISVILLE, Ky., August 31. THE Courier-Journal's special from Nicholasville gives the following account of a rather startling episode in the trial of James H. Arnold for the murder of his brother-in-law, the Hon. Robert Little, which was concluded at that place to-day.

At a little after four o'clock Mr. C. J. Bronson, the Commonwealth's Attorney, rose to close the argument of the prosecution and review the facts in the case, and lay before the jury the grounds upon which he believed the defendant in this case should be acquitted. At the outset he explained that he was simply discharging his duty as a lawyer, and that he intended to discharge that duty as honestly as he could. He then proceeded to review the facts in the case, and lay before the jury the grounds upon which he believed the defendant in this case should be acquitted. At the outset he explained that he was simply discharging his duty as a lawyer, and that he intended to discharge that duty as honestly as he could.

He had just concluded his enumeration of the facts in the case, and was about to deliver his opinion, when a man in the audience rose and addressed the court. He stated that he was a witness in the case, and that he had seen the defendant in the act of committing the crime. He then proceeded to give a detailed account of what he had seen, and concluded by stating that he believed the defendant was guilty of the crime.

The court then proceeded to ask the witness a number of questions, and he answered them in a straightforward manner. The court then turned to the defendant and asked him if he had anything to say in his own defense. He remained silent for some time, and then said that he was innocent of the crime.

Hints to Women Travelers.

TRAVELING in these days is a very simple thing, and by no means attended with any special difficulties, if a woman possess ordinary intelligence, presence of mind and common sense.

Indeed, she may go very safely with the slenderest provision of these qualities if she will but look on herself in the light of a parcel, to be forwarded from place to place, and give herself up to the necessary worry which regard to what does not concern her on the way. I know a fragile little lady who went abroad last summer, crossing the ocean in the captain's care, and having not an acquaintance on the great steamer. She traveled from Liverpool to Hanover, and afterwards went from place to place through the South of England, returning to her native land after some months, without having fallen among thieves, or encountered a single disagreeable experience. And it is a very simple thing, and by no means attended with any special difficulties, if a woman possess ordinary intelligence, presence of mind and common sense.

And it is a very simple thing, and by no means attended with any special difficulties, if a woman possess ordinary intelligence, presence of mind and common sense.

Indeed, she may go very safely with the slenderest provision of these qualities if she will but look on herself in the light of a parcel, to be forwarded from place to place, and give herself up to the necessary worry which regard to what does not concern her on the way. I know a fragile little lady who went abroad last summer, crossing the ocean in the captain's care, and having not an acquaintance on the great steamer. She traveled from Liverpool to Hanover, and afterwards went from place to place through the South of England, returning to her native land after some months, without having fallen among thieves, or encountered a single disagreeable experience.
