MEN HIGHER UP ARE CONVICTED

Jury Finds Heike and Gerbracht Guilty of Frauds.

DELIBERATE TWELVE HOURS

Report to Court That They Are Unable to Reach Agreement in Case of James Bendernagel, Former Cashier of the Havemeyer Refinery. Judgment Arrested Until Today to Permit Attorneys to Decide Upon Course of Action.

New York, June 11.—The jury in the sugar fraud cases found Charles R. Heike, secretary and treasurer of the American Sugar Refining company, and Ernest W. Gerbracht, formerly superintendent of the Havemeyer & Elder refinery in Williamsburg guilty of complicity in the weighing frauds on the docks. The third defendant, James F. Bendernagel, who was formerly cashier of the Havemeyer & Elder refinery, was the subject of a long fought disagreement among the 12 jurors during the nearly 12 hours in which they deliberated.

This is the verdict returned by the jury: "We find the defendant Heike guilty on the sixth count of the indictment. We find the defendant Gerbracht guilty as charged in the indictment. As to the defendant Bendernagel we can not agree."

Attorney Stanchfield, who is counsel for Heike, arose and asked that any of the usual practices be deferred until a reasonable time to enable counsel to determine on the next step to take. With the acquiescence of Henry L. Stimson, the government prosecutor Judge Martin said that there would be an arrest of judgment until today, when he asked counsel to have the defendants in court and would then decide what would be done. The prisoners were allowed to go on the hall they have been under since their indictment, on the understanding that their respective counsels should be responsible for their appearance.

Is Omnibus Indictment. The sixth count, on which Heike was convicted, is an omnibus count charging all the defendants with unlawfully and wilfully conspiring with each other and with Oliver Sutzler and his convicted subordinates of knowingly making and effecting and aiding in effecting dutiable sugar at less than their true weights by means of false and fraudulent statements prior to March 1, 1907. PARING KNIFE USED ON BILL

Conferees Hard at Work on Railroad Measure.

PHYSICAL VALUATION IS DEAD

All Members Said to Favor Adoption of Provision For Long and Short Haul—Plan to Regulate Stock and Bond Issues of Common Carriers Doomed to Certain Defeat—Mann Works to Secure Incorporation of House Amendments.

Washington, June 11.—Hope was expressed by the Republican conferees on the administration railroad bill that an agreement will be reached for a report to both houses early next week. Senator Aldrich said he believed an agreement would be reached as early as Monday. Other members of the conference were not so optimistic. Representative Mann, chairman of the house conferees, is strongly contending for the house amendments.

While no definite agreement has been reached on any special feature of the bill, it appears to be reasonably certain that the authorization for taking the physical valuation of the property of common carriers—Senator LaFollette's pet measure—which the house adopted, will not be permitted to remain in the bill.

Anti-Injunction Favored. Senator Overman's anti-injunction amendment is in higher favor with the conferees, and there is strong likelihood that it will be retained. Another important feature of the bill that bids fair to go into the law is a long and short haul clause. The fact that both the senate and the house adopted long and short haul provisions has impressed the conferees with the necessity of giving some legislation along this line. A plan is under consideration for re-writing the provision blending the features of both the senate bill and the house bill.

The conferees show a disposition to retain Senator Cummins' amendment shifting the burden of proof to the carrier to establish the reasonableness of any increase of rates filed with the interstate commerce commission before the same can be effective. Democrats and Republican insurgents have threatened that if this feature of the bill is not retained they will hold up the conference report indefinitely. Representative Champ Clark, Democratic leader of the house, said that the Democrats would never permit any conference report to be adopted that omitted that provision.

The proposed federal regulation of stock and bonds has been discarded. There is an impression that the conference committee will not disturb the features of the senate bill which permit the interstate commerce commission to suspend a rate for about 10 months while investigating its reasonableness.

MILLIONS

Educated On Disease Of Consumption

Over 4,000,000 churchgoers, nearly 46,000 sermons and preachers, and more than 1,250,000 pieces of literature, are some of the totals given in a preliminary report issued today by the National Association for the Study and Prevention of Tuberculosis, of the results of the first National Tuberculosis Sunday ever held, on April 24th.

The report states that fully one-eighth of the 33,000,000 listed communicants of the churches of the United States heard the gospel of health on Tuberculosis Sunday, and that a number of people who were reached by notices and sermons printed in the newspapers will aggregate 25,000,000. Hardly a paper in the country failed to announce the occasion.

From clipping returns received at the National Association's headquarters, it is estimated that fully 20,000 newspapers, magazines, religious and technical journals gave publicity to this national event. For this assistance on the part of the press, the National Association desires to express its thanks.

Although the movement for Tuberculosis Sunday was handicapped by a lack of time and funds, the National Association feels that the campaign has been worth while. Many foreign countries observed the day also. Plans are now under way for a wider observance of the day in 1911. The active co-operation of every religious denomination, besides that of governors, mayors and public officials, as well as that of other agencies will be sought.

The promoters of the movement announce that they do not wish to interfere with the church calendar of any denomination. It is not planned to have a special Tuberculosis Sunday as a regular church day. The plan is to have the subject of health, and particularly tuberculosis, brought up in the churches for any service or part of a service and as nearly simultaneously in all parts of the country as possible.

Cook in Comfort

You no longer need wear yourself out with the weakening heat of an intensely hot kitchen. You can cook in comfort.

Here is a stove that gives no outside heat. All its heat is concentrated at the burners. An intense blue flame (hotter than either white or red) is thrown upwards but not around. All the heat is utilized in cooking—none in outside heating.

New Perfection Oil Cook-stove

entirely removes the discomfort of cooking. Apply a match and immediately the stove is ready. Instantly an intense heat is projected upwards against the pot, pan, kettle or boiler, and yet there is no surrounding heat—no smell—no smoke.

Why? Because The New Perfection Oil Cook-Stove is scientifically and practically perfect. You cannot use too much wick—it is automatically controlled. You get the maximum heat—no smoke. The burner is simple. One wick with a cloth cleans it—consequently there is no smell. The New Perfection Oil Cook-Stove is wonderful for year-round use, but especially in summer. Its heat operates upward to pan, pot, or kettle, but not beyond or around. It is useless for heating a room. It has a Cabinet Top with shelf for keeping plates and food hot. It has long turquoise-blue enamel chimneys. The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet. Every dealer everywhere; if not at yours, write for descriptive circular to the nearest agency of the
