

VITAL WASHINGTON NEWS

TAVENNER, "WRITER AND THINKER," GIVES US THE FACTS AS THEY REALLY EXIST.

(By Clyde H. Tavenner) Washington, June 29—Why is it that the price of articles on which the tariff was not advanced, has increased since the passage of the Payne-Aldrich bill?

I put this question to United States Senator Moses E. Clapp of Minnesota, one of the genuine progressive Republicans of Congress.

"I can answer that question," replied Senator Clapp, "in less than two minutes, and no one will successfully contradict my statement.

"In the Payne-Aldrich revision of the tariff the rates on scores upon scores, of articles were advanced. Those increases have advanced the price of everything; yes, have increased the price of articles on which the tariff was not changed.

"You can't raise the cost of living to a man who is producing something to sell, without forcing that man to raise correspondingly the price of what he has to sell.

"Suppose both of us are in business, and that each has to use what the other produces. Suppose the tariff on the article I handle is increased, while the tariff on the article you handle is not increased. By virtue of my increased protection, I force you to pay increased prices. What are YOU going to do about it? What MUST you do about it? Answer: you must increase the price of what YOU have to sell! And that's just the way it works out all along the line, and in the end all of the increases fall upon the broad shoulders of the consumer.

"But you will hear it said constantly with reference to something on which the price has been advanced, 'Oh, that isn't in the tariff at all. That increase has nothing to do with the tariff.' But the fact is tariff revision upward on a few articles reaches all along the line.

"The new tariff law has cost, and is costing the American people millions on millions of dollars, in increased cost of living. And if the Payne-Aldrich bill had been beaten, those millions would have been saved to the people."

Congress has authorized two more battleships. It is estimated each ship will cost \$12,000,000 to build, and \$1,000,000 a year during its 20-year life-time to maintain. The aggregate ultimate cost of each ship, as a matter of fact, is, therefore \$32,000,000!

The cost of each ship would buy 6,000 farms at \$4,000 each; it would construct 1,600 churches throughout the country at \$20,000 each; it would furnish the means of education through a four-year course to 16,000 men or women at \$500 per annum; it would build and equip 50 manual training schools with necessary tools and appliances, giving a trade to 75,000 young people each year; it would build a macadam road between Chicago and New York, or build and equip 40 Y. M. C. A. buildings of magnificent proportions, each building accommodating the young men in a city of 200,000 people.

The eve of the Congressional campaigns is at hand. It looks as if the Republican party proper will boldly attempt to bluff the American people on these propositions:

That Aldrichism is a good thing for the country.

That "Uncle Joe" belongs to the Abraham Lincoln type of statesman. That the Payne-Aldrich tariff bill was the "best tariff bill ever passed" and is a God-send to the consumer.

That the expenditure of more than double the sum used by Cleveland to run the government is really necessary for "party solidarity."

Here is the platform the average Democratic candidate for Congress will present to the people:

Lower duties on the necessities of life.

An income tax that a large part of the burden of the cost of government may fall upon those best able to bear it.

Reciprocity with Canada and our best customers.

Repeal of Section 2 of the Aldrich act that forces tariff wars and retaliation.

Election of Senators by direct vote. Old-time democratic economy in public expenditures.

Restoration of popular government in House of Representatives.

Gilson Gardner, a newspaper correspondent who joined the Roosevelt party in Egypt and accompanied it to Washington, and who had almost daily interviews with the ex-president, stakes his reputation on the prediction that the Taft administration has been so thoroughly bad that Roosevelt will not endorse it in any shape, form or manner. He declares Taft deserted the Roosevelt policies cold-bloodedly. In connection with Gardner's statement, it is significant that Roosevelt should have been this long on American soil following his long absence in Africa without having seen the man he made president or having mentioned him in any way. Roosevelt and Taft have not met since March 4, 1909.

Hear ye! Hear ye! Senate Boss Nelson Wilmarth Aldrich stands pat on his original statement that the government is wasting \$3,000,000 a year, Senator Beveridge, fretting under Aldrich's indictment of the Republican party on the charge of gross and wanton extravagance, sought to discredit Aldrich's statement. But Aldrich declared he knew what he was talking about, and that if he could run the government as a business man, "without let or hindrance from anyone," he could save the people \$300,000,000 a year. Query: Is Aldrich contemplating joining the ranks of the insurgents? It would be interesting to know what the "stand pat" Republican editors of the country think of Aldrich's statement on Republican wastefulness!

The once much-boasted Taft economy is no longer mentioned, either in Washington or by the Republican newspapers. For excellent reason, too. Indications are that this Congress will spend at least \$20,000,000 more than the previous session, which created a new high water mark in Republican extravagance. Here are a few of the increases over last year's appropriations, in bills already enacted at this session:

Table with 2 columns: Item and Amount. Includes Rivers and harbors (\$23,462,954), Postoffice department (5,119,825), Sundry civil (8,633,994), Agricultural department (517,600), Consular and diplomatic (505,520), District of Columbia (247,429), Total (\$38,487,422).

The most material decrease up-to-date is in the pension bill, amounting to about \$6,000,000.

Ladies' gloves that were \$1 a pair before the passage of the Payne-Aldrich tariff bill, are now \$1.25. Ladies' shoes that were \$3 are now \$3.50. Ladies' sandle rubbers that were 25 cents a pair are now 75 cents. Even the kitchen broom which once cost but 25 cents now retails for 35 and 40 cents.

REPORT

Of Examination Of The Walthonding Bank

Shows Holding Of Paper Of Butler Co.

Which Is Said To Be Practically Worthless

Newark Court Proceeds In Matter Of Contempt

Items Of Interest From Temple Of Justice

The report of the examination of the affairs of the Walthonding Bank Company, made by M. B. Smith, assistant cashier of the Coshocton National Bank, has been filed with the receiver but is not made public. It is understood that the report deals with the manipulations of the affairs of the bank by A. J. Solomon and the Butler Mfg. Co. The report was not filed in court so as to become a matter of record but it is in the hands of the attorney of the receivers, and its contents not given to the public, but being held for the information of the receivers and he court.

In addition, the notes in the bank, which amount to \$13,159.31 are considered practically worthless. It is understood that the report shows that the deposits of the bank have been invested entirely in securities of the Butler Manufacturing Co. which is one of Solomon's concerns, and which paper is now regarded as of little value.—Coshocton Times.

Contempt Proceedings—

In common pleas court Tuesday morning the court appointed a committee to prefer charges against the two men held in contempt.

The men are "Red" Connolly and "Shorty" Cochran and a committee found that they had menaced and threatened with an assault on the dry detectives here recently testifying in certain cases where infractions of the local option law were charged. There was appointed on the committee of investigation, Messrs. Roderic Jones, James R. Fitzgibbon, B. F. McDonald, C. W. Montgomery and Charles L. Flory.

It was ordered this morning that the same committee act in this matter. No time was set for them to return the charges against the men.—Newark American Tribune.

PECULIAR

Mix-Up Of Automobile And A Buggy

An exciting accident took place on South Main street in front of the Ankeny jewelry store on Wednesday morning at about 8:30 o'clock. A buggy owned by Mr. Charles Benson, who resides just north of the city, was hitched at the east side of the street and was entirely out of the way of passing vehicles under ordinary circumstances. In a short time, however, Mr. M. E. Lytle drove around the square in his automobile and turned south on Main street and when he did so, the wheels of the car caught in the street car track and in spite of his attempts, Mr. Lytle could not steer the machine to one side of the street. Just as he was opposite the buggy the wheels suddenly slipped from between the rails causing the automobile to swerve suddenly and dash against the back wheels of the vehicle which was standing a short distance away. Fortunately, no one was in it at the time of the accident, and the only damage done was the demolishing of the rear wheels of the buggy and the bending of the fender of the automobile.
