NEW PROBLEMS TO BE SOLVED

American People Right In Demanding New Nationalism

Kansas Speeches Of Roosevelt Held By Some To Mean That He Has Placed Himself At The Head Of A New Party--Political Creed Of The Former President As Announced In His Several Addresses In The Sunflower State

Kansas City, Sept. 1.—Many thousands turned out to greet Theodore Roosevelt on his arrival here today. The greatest enthusiasm prevailed. A parade and reception were features of the day, following which Roosevelt made a characteristic address. Owing to the tenor of the ex-president's speeches in Kansas and elsewhere, many here profess to believe the colonel has placed himself at the head of a new party, and that his address at Osawatomie is practically the platform on which he intends to stand. He declared that the American people are right in demanding a new nationalism, without which they can not hope to deal with new problems. He declared also that the new nationalism puts the national need before sectional or personal need. He said that it is impatient of the utter confusion that results from local legislatures attempting to treat national issues as local issues.

Roosevelt's Creed.

Franchises should never be granted but for a limited time. We should control combinations on the necessities of life, such as meat, oil and coal. The government must have supervision of the capitalization of all corporations doing an interstate business. I favor an expert tariff commission and I favor revising one schedule at a time. I am for a graduated income tax

on big fortunes and I advocate a graduated inheritance tax. I believe in regulating the terms and conditions of labor as well as regulating wealth.

The "special interests" must be driven from politics.

Whenever the alternative is forced, I am for men and not for property.

Those who oppose all reform must remember that ruin in its worst form is inevitable if our national life brings us nothing better than swollen fortunes for the few and the triumph in both politics and business of a sordid and selfish materialism.

We need comprehensive workingmen's compensation acts. We need in our common schools practical training for daily life and work.

KILLED HIMSELF

Roseville, O., Sept. 1.—When John Brown, 55, returned home late at night his family locked the door and refused to admit him. The man sat patiently on the step for a time, then there was a shot. The family rushed out to find the man dead with a bullet hole through his head and a revolver in his hand.

FATALLY WOUNDS TWO THEN KILLS HIMSELF

Kansas City, Sept. 1.—A minister, gambler, British soldier and locomotive engineer, Charles S. L. Brown, ended his varied career when he took the life of one woman and probably fatally wounded another in an outburst of jealousy. The dead woman is Mrs. Edith Ward, while Mrs. Anna Lamphere, for love of whom Brown is said to have committed the deed,

is dying in a hospital. Brown's jealousy was aroused by Mrs. Lamphere's refusals to marry him. Mrs. Ward was killed when she interfered to protect Mrs. Lamphere.

Mosquitoes are so numerous near the coast of Borneo that the streams of that region are in summer often un-navigable.

AS YOU LIKE IT

R. H. Boggs was instantly killed at the Panhandle shops in Columbus by a falling car. Skull crushed.

Princess Dolgorowski, while trying to qualify for an aerial pilot's license at Chartres, France, fell with her monoplane, which was smashed. The princess was not hurt.

Deprived of his wife by death and of his 10-year-old daughter by kidnapping, Texie Allison, a farmer living near Princeton, Ky., has returned home after a fruitless search for his little one through the south.

Sherman in Oklahoma. Guthrie, Okla., Sept. 1.—Oklahoma greeted Vice President James S. Sherman here today. He spoke two hours to 5,000 people at Highland park and was followed by former Congressman James R. Watson of Indiana. The applause indicated that insurgency has no foothold in Oklahoma. One of the first things that met Mr. Sherman's eye here was a large banner with the words, "Sunny Jim for President in 1912."

SENATOR DICK TALKS

Washington, Sept. 1.—Senator Dick of Ohio conferred with Assistant Secretary Andrew at the treasury department about the case of F. M. Couden, cashier of the customs office at Cincinnati, who is under suspension. Senator Dick spoke in Couden's behalf. He was told that final action in the case rests with the report of Assistant Secretary Charles D. Hilles. Couden is suspended on the charge of being away from the office without leave.

Queer, but the man who doesn't need credit is the one who can most easily get it.—Portland Express.

Five Generation Family Lives In Pennsylvania

Lillian May Ginder, three-months old daughter of Mr. and Mrs. Herbert C. Ginder of Manheim, Pa., is the center of this interesting five generation family group. Lillian May is in the arms of her mother, Mrs. Ginder, while her father is to the right, and to the left are Great-grandmother and Great-grandfather Shiffer. In the rear row at the left end are Great-grandmother and Great-grandmother Hossler, while to the right are Grandmother and Grandfather Herr.

SWAN TO BE EXECUTED ON FRIDAY MORNING

Columbus, O., Sept. 1.—W. T. Ewan, the colored man from Ross county under sentence to be executed Friday morning, will have to go to the electric chair. Governor Harmon told Warden Jones that he had decided not to interfere in the case. Swan was charged with a colored woman named Della McKinley with murdering a child and the child's grandmother. The McKinley woman is now serving a life sentence for the crime. They were both convicted on circumstantial evidence, and the theory of the prosecution was that Swan and the McKinley woman wanted to run off together and regarded the child as an impediment to the plan. The old woman was killed, it is believed, because she was sleeping in an adjoining room and, being awakened by the noise, saw the crime and was killed to still her tongue. The house was afterward burned to hide the crime.

RECORDS FOR COLORADO

Three-Year-Old Reduces Time For Both One and Two Heats.

Readville, Mass., Sept. 1.—World's records were broken in the trotting division of the American horsebreeders' futurity for three-year-olds when Colorado E flashed under the wire in the first heat in 2:06 1/2, the fastest mile ever trotted by a three-year-old, and then repeated his win in the second heat, getting home in 2:07 1/2. This made a world's record for the fastest single heat and also for two successive heats. Offers for the game little trotter went up with a leap, and it is stated that Mr. Bradley now stands ready to give \$75,000, but there is little possibility of Mr. Estabrook disposing of his record-breaker.

FATAL ACCIDENTS

Canton, O., Sept. 1.—Two men were killed here. Henry Muckley, former hardware dealer, was buried under a fall of sand at the plant of the Greer Sand company and instantly killed. Thomas Hodgson of Bergholz was drowned at Myers lake. Muckley was repairing a belt when he met death.

BURNED TO DEATH

Marietta, O., Sept. 1.—Kernel McCormick played about an oil barrel until his clothing was saturated with oil. Then he struck a match and instantly he was a blazing funeral pyre. Frank Stage, the lad's grandfather, rushed to his aid and was badly burned in his futile attempt to rescue the lad.

WILLAMAN MUST DIE

Canton, O., Sept. 1.—Clotus Willaman, convicted murderer of Warren Koons, his father-in-law, and the latter's wife, was sentenced to die in the electric chair before sunrise of Friday, Dec. 16. Willaman showed no emotion, but his wife, who sat by his side in court, arose hysterically and cried out to County Prosecutor Kriebbaum, who conducted the state's case against Willaman: "Kriebbaum, I hope you'll be punished for this." Willaman was a farmer living near Massillon and is supposed to have slain Koons because he was refused money.

FLIES OVER LAKE ERIE

Aviator Glenn Curtiss Makes Longest Over-the-Water Trip.

Cedar Point, O., Sept. 1.—Glenn H. Curtiss in his "Hudson Flyer," starting from Euclid beach, nine miles east of Cleveland, landed here amid the cheers of thousands of people, completing the first leg of his over-the-lake flight under the auspices of a Cleveland newspaper. The flight here was made in 1 hour and 18 minutes, the distance being 58 miles. If the weather conditions are favorable Curtiss will attempt the return flight today.

Curtiss for only a few minutes was a mile away from shore. At Lorain he waved to the crowd and again at Huron, where he was within 150 feet of shore. Off Rocky river he distanced Carroll, a speedy motor boat. A fast wireless steamer followed all the way to the Point. Curtiss was seen to be dipping and rising, seeking better air currents, after he turned north from Huron. That was in his attempt to get away from the 30-mile gale he encountered.

By his flight Curtiss accomplished the longest all-over-the-water flight ever made. His biplane was in perfect condition and he lived up to the predictions that the aviator made before starting that he would be able to negotiate the distance without serious trouble. A 30-mile northeast gale was blowing, and this seriously retarded his speed.

Lambs—\$5 75@7 15. Hops—\$1 75@1 85. Corn—\$1 02 1/2. Cattle—\$1 02 1/2. Hops—\$1 75@1 85. Corn—\$1 02 1/2. Cattle—\$1 02 1/2. Hops—\$1 75@1 85.

HAS EVIDENCE, SAYS SHERIFF

Columbus Police Searching For An Alleged Dynamiter

Claimed He Purchased The Explosive In A Suburban Village And That He Received Five Dollars A Throw For His Nefarious Work--Governor Harmon Falls To Reply To Union Men's Request--Another Street-car Blown Up

Columbus, O., Sept. 1.—The dynamiting of a streetcar north of Linden, a suburb, destroyed what appeared to be a quiet night. The explosion was heavy enough to tear out two feet of track and hurl it a distance of half a city block, the velocity being so great that a fence post in its path was torn down. The front wheel was blown to pieces. The police department sent two automobile loads of police to protect the crew. No one was injured.

At the request of the governor, General John C. Speaks began an investigation of the alleged brutal treatment accorded the crowds the other night on Leonard avenue. Several witnesses were called, among them a grocery keeper, who claims to have been ordered at the point of a pistol to get back into his store. A woman was also before General Speaks who claimed to have been roughly treated by a squad of soldiers who forced their way into her home. General Speaks will make a thorough investigation.

George W. Hope, attorney for the union, has prepared a history of the strike, and a representative will take it to New York, where John Mitchell, a vice president of the American Federation, will present it to Colonel Roosevelt, who is coming here for an address. Roosevelt talked on law and order at Toledo a few days ago and it is believed that he will use this topic when he comes here. Mitchell is a close friend of Colonel Roosevelt.

Trailing a Suspect.

Sheriff Sartain's deputies have been on the trail of one Albert Strader, 22, of Grove City, a suburb, suspected of being involved in the car explosions. He has not been in the vicinity of his home since Monday and then he was pursued by officers in an automobile. They caught up with a train on which he was riding, only to learn that he had alighted some miles back. The officers returned to Orient, which is near Grove City, and were informed that the man had just purchased additional dynamite. They have learned that he was refused dynamite which he tried to buy at Grove City.

According to information given the sheriffs the man told friends that he was getting paid \$5 for each explosion. He has lived in three different apartments in Columbus at times and all of them have been shadowed for some days.

Sheriff Sartain offered a reward from his own pocket of \$100 for the arrest of Strader.

Governor Harmon will make no reply to the union labor representatives

who called upon him with a request that he publicly demand arbitration of the carmen's strike. He made no statement, but let it be known through his secretary that he was not aware that a further reply was expected of him. He left Columbus for a trip to Proctorville, Scioto county.

General Manager E. K. Stewart of the Rail-Light company said that Governor Harmon had made no new overtures and no demand for arbitration. He said he had not been called to the governor's office.

POSSE IN SEARCH

Youngstown, O., Sept. 1.—Posses are searching the country side for a band of yegmen who broke into the postoffice at Struthers and, cracking the safe, stole between \$300 and \$400 in money and stamps.

Augustus Heinze Weds. New York, Sept. 1.—Fritz Augustus Heinze, the mining man, married Miss Bernice Golden Henderson, an actress, who has been playing the leading feminine role in "The Vampire." The ceremony took place at the home of the Rev. Henry A. Handel, an Episcopal clergyman. Mr. Heinze and bride left for Butte, Mont., in a private car.

American Girl Killed in Bavaria. Munich, Bavaria, Sept. 1.—Miss Rose Buckingham of San Francisco was instantly killed and Miss Agnes Ross of the same city fatally injured when a runaway automobile ran them down as they were leaving a theater.

English Brass.

The composition of English brass is about seventy parts of copper and thirty of zinc. "Prince Rupert's metal" contains 75 to 80 per cent of copper and an amount of its golden color is employed to some extent in jewelry.

The kind of brass called tombac contains still more copper, nearly eighty-five parts in a hundred. It is the alloy used for the manufacture of what is called Dutch metal, an imitation of gold leaf. It can be rolled into sheets, and these can be beaten out till they are only fifty-three thousandths of an inch in thickness.—Chambers' Journal.

NEW YORK PEOPLE ARE SEEING THINGS

New York, Sept. 1.—That thing with the red and green eyes was up in the air over a part of New York again last night and, conversely, a part of New York was up in the air over that thing. A high state of excitement prevailed over Gramercy park and the neighborhood of Union square for nearly 60 tense minutes. This much is fact: There was something that slowly circled the heavens

above those districts between 8:15 and 9:15 o'clock. It was something buoyant enough to carry two lights, a red and a green one, arranged about 100 feet apart like the port and starboard lights on the bow of a ship.

The Artist's Aim. Friend—But—what's the idea of the work? I don't quite grasp it. Artist—The idea is to sell it.—Chicago News.
