## PAINFUL Injuries Sustained By Mrs. Patrick Keenan

Mrs. Patrick Keenan sustained very painful injuries while at work at her home in Fredericktown on Tuesday morning at about 11:30 o'clock. Mrs. Keenan was walking down stairs when she caught the heel of her shoe on one of the steps and fell to the bottom of the stairs. She alighted on her head and left shoulder sustaining a number of painful bruises. A severe gash was inflicted on the left side of her head which bled profusely. Dr. J. H. Norrick was called to render surgical attention.

## RESOLUTIONS Adopted At Friday's Session Of The K. C. T. A.

The following resolutions were adopted at the Knox County Teachers' Institute on last Friday:

Your committee on resolutions submit the following:

I. Resolved, That the hearty thanks of the Knox county teachers be extended to Supt. James M. Coughlin and to Prof. F. A. Barbour for their very interesting and instructive lectures throughout the week; also Mrs. Iva Sproule Baker for the delightful music she has given us.

II. Resolved, That we express our appreciation of the labors of the executive committee for the efficient manner in which they have conducted the affairs of the Association during the past year; of the untiring efforts of our president, Mr. R. A. Knox, to make this institute one of the best in its history; and of the work of Mr. F. B. Levering, as secretary of the Reading Circle.

III. Resolved, That the thanks of the teachers be extended to Miss Jessie Bryant and to the other members of the social committee for the pleasant time they gave us Tuesday evening; to the M. E. Orchestra for the music furnished upon that occasion, and to the Misses Johnston and Headington whose readings contributed so much to the evening's entertainment.

IV. Resolved, That a vote of thanks be tendered the board of education for their kindness in giving us the use of the buildings.

V. Resolved, That we extend our thanks to the janitors for their services.

VI. Whereas, it has pleased the Almighty Father to remove from us our friend and instructor Supt. C. L. Van Cleave of Toledo, therefore we hereby express our appreciation of his excellent work and our regret for his ultimately demise. Also,

Whereas it has pleased the Almighty Father to remove from our midst our friend and co-worker, Rev. Joseph Long, we hereby express our appreciation of his service and our regrets for his removal from among us.

VII. Resolved, That as we believe that the educational value of the school processes and practices should be paramount to every other consideration, we are therefore opposed to all efforts which would aim to establish a system of state uniformity in the selection of text-books, because we believe that such a system would be a hindrance to the present progress of our schools.

## FIRE Completely Destroyed Wm Bricker's Residence Which Is Located West Of The City

The home of Mr. and Mrs. Wilson Bricker, about four miles west of Mt. Vernon on the old Delaware road, was completely destroyed by fire on Tuesday morning. At about nine o'clock Mrs. Bricker and her two children went into the orchard to gather some apples when one of the children noticed smoke issuing from the roof of the house. She immediately notified her mother of the fact and when an investigation was made, it was found that the entire upstairs was blazing. A number of neighbors were summoned and every effort was made to extinguish the flames, but to no avail. The blaze spread steadily until the entire structure was a mass of fire. Nothing except a few articles of furniture could be saved and the fire was a total loss to the former occupants of the house, which was owned by Mr. William Parker. Mr. Bricker was away from home at the time when the fire broke out, working on a hay baler and was unable to reach the spot in time to render any help.

## CONTRACT Award To The Mt. Vernon Bridge Company

The Iron Trade Review has this to say of the big plant to be rebuilt at Kent by the Seneca Chain company: "The Seneca Chain company has just awarded the contract for the construction of its new chain and forging manufacturing plant at Kent, Ohio, to the Mt. Vernon, (Ohio) Bridge company. The new plant will cover about three and one-half acres and will be constructed of steel and iron on concrete foundations. "A large quantity of new and modern power and operating equipment will be installed with a view of securing the most economical production with the greatest efficiency of operation. "The capacity of this plant is somewhat larger than that of the old and with the plant at Mansfield, Ohio, will make it possible for this company to very largely increase its output. When the new plant is completed, probably by Nov. 1 to Dec. 1, this company will make the most complete and assorted lines of machine-made and hand-made chains in this country. "Two new testing machines will be installed, making it possible to manufacture the largest size of chain in use today for any purpose, but especially in the line of anchor cables for large steamers, battleships, etc. "About 300 tons of structural steel will be required in erecting the plant."

## SOY BEAN Being Cultivated By A Coshocton County Farmer

(Coshocton Tribune)

C. E. Darling was exhibiting samples of soy bean plants in the city yesterday which he raised on his farm near Nellie. His experience with this species of bean leads him to believe that it is one of the best all around food crops for live stock that can be raised in this vicinity.

The soy bean is used extensively in many parts of the country for ensilage and Mr. Darling expects to raise several acres next year to be devoted to this purpose. This season he has been very successful in fattening lambs and hogs and gives it as his opinion that a sow and eight pigs can be fattened on a quarter of an acre of soy beans.

It is a leguminous plant of the clover, alfalfa and pea species and possesses high protein properties. The field he is pasturing now was sown the first of July, although for ensilage purposes it should be sown several weeks earlier. As it will grow where alfalfa will not it is looked upon with high favor with farmers who have experimented with it in many different localities.

Mr. Samuel Wagner, son of Mr. and Mrs. Frank Wagner of Wooster avenue, left Monday evening for Cleveland where he joined the U. S. navy. Wagner will work at his trade, that of tailoring.

## NOTED Composers Will Soon Visit America

New York, August 30—At least four, and possibly five of the most famous living composers will in all probability visit this country during the coming winter.

Sir Edward Elgar, the greatest living English composer, is coming over to direct performances of his symphony and other works.

Humperdinck hopes to be present at the promised production of his new opera, "Children of Kings," Mascagni is engaged for the production of his "Ysobel" and Puccini is expected to superintend the first performance of his "Girl of the Golden West."

A fifth celebrity, the priest-composer, Don Perosi, director of the Sistine Chapel choir and author of many successful oratorios, may also visit America.

## FIRE INSURANCE AGENTS MEET

Port Huron, Mich., Aug. 30—An important gathering of insurance men—the Michigan Association of Local Fire Insurance Agents—convened here today with many members in attendance, in addition to a considerable number of prominent fire insurance men from Detroit, Chicago and other points. The proposed fire marshal and agents' license bills are among the important matters to be discussed during the two days' session.

## SEVERE Injury Sustained By B. & O. Brakeman

Alva Moore, a brakeman on the B. & O. railroad, who resides in Newark, figured in a very unfortunate accident while at work on the south bound pick-up train Monday evening. At about 6:45 o'clock, a great deal of switching was being done. This being completed, a car, which was standing on the spur track by the freight depot was hitched to the rear end of the train to be removed to some other point. Moore climbed on top of the car in order to loosen the brakes after which he turned his back to the overhanging roof of the freight depot. This extends probably four feet over the top of a box car standing on the side track and is in such a position that it would sweep a man from the top and throw him to the ground. This was exactly what happened to Moore, as he did not notice the roof until it struck him on the back and hurled him to the ground. He alighted in the middle of the track with great force, breaking the bone in his left leg below the knee, causing a compound fracture. Besides the broken leg, the man was severely bruised about the body. Chappelle & Co's. ambulance was called and Moore was taken to the Mt. Vernon hospital where Drs. N. R. Eastman and L. L. Williams were called to reduce the fractured bone. On Tuesday morning, he was getting along very well, although suffering a great deal of pain. He was removed to his home in Newark on the 11:24 train on the B. & O.

## COXEY Bound Over To Probate Court For Trespassing

Massillon, O., August 30.—General Jacob S. Coxe, who in 1894 led the army of commonwealers from this city to Washington, was today bound over to probate court in the sum of \$300 for trespassing on the lands of Thomas Welsh, a neighbor. Five foreigners, employees of Coxe, were held on the same charge in their employer's bail.

Welsh testified before Justice H. B. Sibila that Coxe had removed to his land and built a railroad track on the land which adjoins the tract on which Coxe's quarry is located. He said that after his arrest a week ago, Coxe removed the track. Coxe, through his attorney, sought to have the foreigners discharged on the grounds that they were not willful trespassers, but the court overruled the motion.

## INJURED In A Runaway Accident Was Douglass Squires

Douglass Squires, residing one and a half miles south of Brandon, was badly injured in a runaway accident Monday afternoon while hauling baled hay to Hunts Station. The team Mr. Squires was driving ran away and the man was thrown from the wagon, striking the ground on his back. Mr. Squires was badly bruised about the back and shoulders.

## THE BEST HOUR OF LIFE

Is when you do some great deed or discover some wonderful fact. This hour came to J. R. Pitt, of Rocky Mt., N. C., when he was suffering intensely as he says, "from the worst cold I ever had. I then proved to my great satisfaction, what a wonderful cold and cough cure Dr. King's New Discovery is. For, after taking one bottle, I was entirely cured. You can't say anything too good of a medicine like that." Its the surest and best remedy for diseased lungs, hemorrhages, la-grippe, asthma, hay fever—any throat or lung trouble. 50c, \$1.00. Trial bottle free. Guaranteed by G. R. Baker & Co., F. Fink, Fredericktown.

## SAW Brother Killed But Can't Tell How It Happened

Massillon, O., August 30—Complete identification of the body of a man killed this afternoon near here by a north bound Baltimore & Ohio train is lacking tonight, owing to the fact that the dead man's companion is too much intoxicated to talk intelligently. The dead man's companion gives his name as Kieffer and his home as Bolivar and says the dead man is his brother. A telephone message from Bolivar says the two Kieffer brothers, answering the description given, left there for Akron today.

## BIRTHS

Mr. and Mrs. William McLain of Green Valley are the parents of a son, born Sunday.

A daughter was born Tuesday afternoon to Mr. and Mrs. Clyde Jacobs of Coshocton avenue.

A son was born Monday afternoon to Mr. and Mrs. Edward Hawkins, who reside near Lock.
