## What's In Olive Oil

Nothing but pure olive oil of course, or at least that's what should be in it. However, there are numerous so-called olive oils on the market that are nothing more or less than cotton seed oil masquerading under a new title. If you insist upon buying cotton seed oil then buy it under its own name at a lower price, but if you really want olive oil, pure, rich and unadulterated, come to us.

## WORKINGS

### Of The Parcels Post, Effective January 1

### Weight And Distance Fix The Fee Charged

### The New System As Applied To Mt. Vernon

On January 1, 1913, the much-talked-of parcels post will go into effect, and patrons of Uncle Sam's mails will come into a privilege they have long waited for. It remains to be seen how much advantage they will realize by it.

It means, in short, that after that date you may send through the mails, if contained as prescribed, and otherwise complying with the laws as to mailable matter—packages up to 11 pounds in weight. The limit now is four pounds.

The charges of Uncle Sam will vary not only with the weight, but with the distance to be carried. To meet the latter provision, zones are established about the mailing points, and the rate charges as the destination is located, as to these zones. Within limits of a free delivery city, such as Mt. Vernon, the rates are quite low and at a glance it would seem likely that the parcels post change will be taken advantage of by people within such cities for delivery within its limits and in the zone immediately adjacent, more than for the longer distances.

After January 1, for instance, a Mt. Vernon merchant will be able to send a pound package to a purchaser's house anywhere in the city or on any rural mail route originating in this city for 5 cents, and parcels weighing more, with slightly increased charges up to the limit of 11 pounds. Within the city and the eight rural routes originating here the charge will be one additional cent for each additional pound above one pound, up to the maximum limit, so that the heaviest parcel—11 pounds, may be delivered in any part of the city, or on any of the eight rural routes, with fair promptness for 15 cents.

Outside the city, a zone of 50 miles with the city as the center, is established, and for delivery to any point in it, the charge will be 5 cents a pound package with an additional charge of 3 cents for each additional pound.

This will mean that a pound package may be delivered to Columbus for instance, for five cents, but a two-pound package will cost 8 cents, a three-pound parcel 11 cents, etc., up to the maximum charge of 35 cents.

The next zone will be outside this fifty-mile belt and within a radius of 150 miles from Mt. Vernon. In that zone the charge will be 6 cents for the first pound, with an additional charge of 4 cents for each additional pound in the parcel. That will mean that while a pound parcel may be sent from Mt. Vernon to Akron after January 1 for 6 cents, a two-pound parcel will cost 10 cents, a three-pound parcel 14 cents, etc., up to the maximum weight, which will cost 46 cents.

The next zone is that outside the 150-mile belt, and within a radius of 300 miles from the mailing point, in which the mailing charge is to be 7 cents for one-pound parcels, with an addition of 5 cents for each additional pound in the weight. The maximum charge in that zone would be 57 cents.

Then comes the zones with a 600-mile radius and a charge of 8 cents for the first pound and an additional charge of 6 cents for the additional pounds; the 1000-mile zone, with a rate of 9 cents, and 7 cents per pound additional; the 1400-mile radius, with charges of 10 and 9 cents; the 1800-mile zone, with charges of 11 and 10 cents, and finally all territory outside that zone, with flat charges of 12 cents a pound.

It is apparent that the new postal provisions will cut in on the business of the express companies, principally on the smaller weight parcels. The express companies have a minimum rate now that makes expressing expensive, and the parcels post will give relief from this; but on the larger or rather heavier packages, it will still be cheaper to send them by express.

## BIRTHS

## VITAL WASHINGTON NEWS

### TAVERNER, "WRITER AND THINKER," GIVES US THE FACTS AS THEY REALLY EXIST.

Washington, Sept. 25—If our protective system is not the "substantial" explanation of the abnormal increase in the cost of living in the United States, how does it come that British prices, under free trade, increased but 7.7 per cent in 10 years, while American prices, under protection, increased 34.3 per cent?

Here is a table which tells its own story and ought to be considered "Exhibit A" in any congressional or other investigation into the increased cost of living:

Year	English Prices	United States Prices
1896	100.0	100.0
1897	104.4	104.6
1898	109.6	112.6
1899	105.1	117.2
1900	107.2	124.2
1901	107.6	126.3
1902	109.0	132.8
1903	108.0	127.8
1904	108.7	127.9
1906	107.7	134.3
Increase	7.7	34.3

These figures are calculated from official statistics of the British Board of Trade in the Eleventh Abstract of Labor Statistics and from figures in the Seventy-first Bulletin of the United States Bureau of Labor.

The year 1896, which was the year preceding the enforcement of the highly protective Dingley tariff, is taken as the standard year, the cost of food in each country being taken as 100. The meaning of the table is that food which cost \$1 in Great Britain in 1896 could not be duplicated for less than \$1.077 in 1906, and that food for which the American consumer paid \$1 in 1896 cost \$1.343 in 1906.

### A Striking Comparison

Coming nearer home, the difference in the cost of living in Detroit and just across the river in Windsor, Canada, supplies us with a striking definition of the real meaning of excessive tariff rates. Prices of foodstuffs, wearing apparel, and rents average from 20 to 25 per cent more in Detroit than in Windsor. And between the two cities there are but 2,561 feet of water—and the Aldrich-Payne tariff bill!

The Detroit man is "protected" and the Windsor man is not.

By not being "protected," the Windsor man pays \$15 for a suit of clothes that the Detroit man will find it difficult to duplicate in quality for \$25. What the Windsor man is escaping in this instance is the Aldrich-Payne tax of 44 cents a pound on good all-wool clothes and the additional tax of 60 per cent of the value of the goods.

### Wool Tariff Robs Women

When a woman purchases \$10 worth of woolen dress goods, \$4.87 of that \$10 represents the actual value of the goods and the remaining \$5.13 of the \$10 the amount of the tariff. In other words, should the same purchase be made in England, where there is no tariff on woolsens, the woman would receive the same amount and quality of dress goods for \$4.87 that she pays \$10 for in this country.

### Germans Admit Tariff Increases Prices

When the German Government introduced its tariff law of 1902, it published with it, as is the custom in Germany, a printed explanation of the reasons for its introduction. This official document, which squarely declares that import duties raise the cost of living, reads, in part as follows:

"Inland prices are raised, so far as a consideration of the circumstances of the last 10 years will allow us to judge, in proportion to the duties." In precisely this way the tariff increases the cost of the necessities of life in the United States.

## Society Notes

### Pleasantly Entertained

Miss Orl Johnson of Monroe Center gave a reception at her home Saturday evening, Sept. 21, to about ninety guests who were recently married. Many beautiful and useful presents were received, besides the Ladies' Aid Society of Ebenezer presented them with a beautiful set of silver knives forks and spoons, and also the pupils of Mrs. Hill's Sunday school class gave her a beautiful mirror. The evening was spent in games and music. Refreshments were served.

## ARREST

### Of South Vernon Man For Raising A Disturbance

Sheriff Parker was called to South Vernon Tuesday night where he arrested J. R. Raybourn and placed him in the county jail. Raybourn was intoxicated and going to the home of his sister, Mrs. Fowles, on the Granville road, he became very abusive and it was necessary for Mrs. Fowles to call the sheriff. Raybourn was arraigned before Mayor Perrine Wednesday morning on a charge of drunkenness and was fined \$5 and costs.
