KNOX COUNTY MAN

Came Near Being In The Big Railroad Wreck At Dresden

In giving an account of the railroad wreck at Dresden in which eight persons were killed the Zanesville Times-Recorder on Wednesday says:

F. C. Clark of Fredericktown, O., a traveling salesman, would have been on the ill-fated coach and probably among the dead if the conductor of the train had allowed him to go on board at Trinway. Clark and Bartels were close friends, and Bartels was on the first train. He saw Clark at the depot and told him to come on and they would ride to Zanesville together. Here the conductor told him he would have to wait for the next train, as his own was not supposed to stop at Trinway, so Clark waited. Before he died Bartels asked that Clark be notified, that he would make the necessary arrangements.

DEAFNESS CANNOT BE CURED

Reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.
