NOTICE TO TAXPAYERS

The books are now open to receive June taxes. This collection ends the tax year of 1914 and taxes are the same as last December. There has been no change in the treasurer's books since the last collection and all property bought or sold within the past year, or since February 1, 1914, remains in the name of the seller. All property transferred before April 12, 1915 will appear in the name of the buyer at the next December collection. If you have your last December receipts it will not be necessary for you to ask for statement of June tax as the amount is the same. If taxpayers will keep these facts in mind much confusion may be avoided and the work of collection will be facilitated. Of Alfred Vanderbilt Is Found Today

Queenstown, June 10—The body of Alfred Gwynne Vanderbilt, the American multi-millionaire who lost his life when the Cunard liner Lusitania was sunk off the southern coast of Ireland on May 7, was found today at Point Doolin, on the coast of County Clare, where it had been washed ashore.
 The corpse was identified by a gold watch, which bore the initials of Mr. Vanderbilt, and also by papers, which, although water-soaked, were sufficiently decipherable to reveal the identity of the owner.
 Point Doolin juts into the Atlantic ocean on the west coast of Ireland and is about 250 miles from the point where the Lusitania was destroyed.
 The body was found by an old woman who was collecting seaweed on the coast. The authorities were notified at once and took charge of the remains.

WAR ON BASE BALL POOLS

Minneapolis, Minn., June 10—The first prosecution in this section against the sale of base ball pool tickets comes up for trial today, when Charles Jordan, a saloon keeper, will be arraigned for conducting a base ball lottery. According to the police, the pool is backed and operated by a big gambling syndicate in Chicago and New York. Already a campaign against the base ball lottery men is under way in these cities and in other cities of the east. The heads of the big leagues have allied themselves with the authorities in an attempt to stamp out the big base ball pools. While it is known that small pools have been operated in every city during the base ball season, the tremendous business at present under way in this form of lottery has reached such limits that the city, state and federal authorities are planning action.

Of all the trees, pines are believed to live longest. Some have attained ages reckoned at 700 years.
