The Ohio War Board Says Today

The U. S. Boys' Working Reserve, which enrolled more than 15,000 boys in the land army in Ohio, last spring, will soon begin laying plans for next year's drive.

Present indications are that next year's farm labor supply will be shorter than this year and to meet the demand a strong campaign will be undertaken to enlist every available boy in the state.

Boys now engaged in farm work will be permitted to continue work wherever they are needed this fall to help again in the harvest to prepare for next year's wheat crop.

These boys will be given credit in their school work just as they were last spring when they left school before the term ended.

COMBINED COURSES

This is our most popular and valuable course for young men and young women who expect to find employment in offices and with general business concerns. In these days, an office assistant of any kind must be prepared to assist at any kind of work that must be done in an office.

He must know how to operate a typewriter speedily and accurately; he must know a great deal about bookkeeping and its application to various lines of business; he must be a good penman; he must be rapid and accurate in figures; he must know shorthand well and be able to take dictation rapidly and transcribe it quickly. Our Combined Regular Course prepares for this. It consists of our Regular Course in Bookkeeping and our Regular Course in Shorthand. Knowing when you enter that you are going to take both courses, your work can be so arranged that you can save a little time.

AT THE FRONT

At this writing twenty-five brave Mt. V. B. C. boys are at the front with the Stars and Stripes. We are proud of them as well as proud of our girls who are serving Uncle Sam in Washington. They have answered their duty's call, they have sacrificed their own interests for their country, their homes and their families. Many of these are now in France, others located in different training camps. Their names are enshrined upon our hearts. Blessings upon every one of them! "God be with you till we meet again!"

A Group of Mt. Vernon Business College Students

LOCATION
 The college is located in the Cooper Block, East Side Public Square.

TIME OF ENTRANCE
 All students should enter at the opening, September 3.

GREATEST BLESSINGS
 Business colleges are among the greatest blessings in American civilization today, because they have saved thousands of homes from being wrecked, and have made happy and comfortable tens of thousands of young men and young women who might otherwise be holding inferior positions. Nothing will stand you in better stead in the hard, cold, practical, everyday world, than a good solid business education. No matter what your vocation may be, you must be a business man first, or you will always be placed at a great disadvantage in the practical affairs of life.

A CALL FOR MEN AND WOMEN
 In making your choice of the kind of work in which you will serve, consider the department which is greatly handicapped now. For weeks the Civil Service Commission has been calling for men and women to qualify themselves for stenographic and clerical positions. Thousands are needed. The salaries, the hours, the working conditions are attractive. Up until this time the volunteer method of getting stenographers and clerks has been used, but sufficient numbers have not responded. The Government needs these assistants.

JOIN THE RANKS
 Of the future successful applicants. Let us teach you how to market your ability, and hold your position after securing it. There is the demand for competent office assistants. In every commercial center, you hear the echo of this ceaseless demand—competent young men and women stenographers, bookkeepers, and office assistants. And the person without an adequate business training has no excuse to offer, with the advantages this institution places within his reach. Somewhere there is an office position seeking you, somewhere there is an opening exactly suited to you if you graduate from here, the kind of a position that will enable you to grow, to hold a good position, to develop and command a lucrative income, and to succeed.

No young woman can afford to seek an office position until she has been thoroughly instructed in the things she will be required to do, whether it be the duties of a stenographer, bookkeeper, billing clerk, cashier, or general office assistant. Our course will also prepare you to assume the responsibility of life—to take care of yourself in case of future adversity.

Many a man and many a woman has missed the opportunity of acquiring ability and efficiency in early life, and because of this shortage they missed comfort, health, position, power, wealth and happiness.

Perhaps they may have begun from now you will be receiving letters from Business Firms asking you to call to accept positions which you will admit to be at least 50 percent better than you could have without a Mt. Vernon Business College training.
