

mentation, already made, to place the seaboard in a proper state for defence, & promptly to provide the means for amply protecting our commerce.

ANDREW JACKSON.

Washington, Feb. 8, 1836.

Pendleton, S. C. Feb. 5.—We are again required to perform the melancholy duty of recording the death of one of our oldest and most esteemed citizens. Gen. JOHN B. EARLE, Adjutant General of the State of South Carolina, died at his residence in the District, on Wednesday last, at 3 o'clock, P. M., after a severe illness of several days continuance.

The Bill to recharter the United States Bank has passed the House of Representatives of the Legislature of Pennsylvania. Of its progress in the Senate, we have the following intelligence in the American:

United States Bank.—The Committee of the Senate of Pennsylvania have reported in favor of chartering the U. S. Bank Bill as it passed the House with the alteration of restricting the issue to nothing less than ten dollars. The prevailing sentiment was, that the Bill would pass. Stock sold on Saturday in Philadelphia at 192 1/2.

Later—Bank of the U. S. States.—A letter of the 7th (yesterday) from Philadelphia, states that the Bank bill was taken up in Committee of the whole in the Senate of Pennsylvania, and, without material amendment, ordered to a third reading, by a vote of 21 to 12!

Charleston and Ohio Rail Road.—We receive that the grand project of a Rail Road from Charleston to Cincinnati meets with some difficulty in Kentucky arising solely from a desire on the part of the State to have the work to terminate at Louisville, and we have before us a pamphlet containing the address of Col. Blanding, the South Carolina Agent, before a Committee of the Kentucky Legislature, in relation to this subject. The address is clear and satisfactory, as was to be expected from the very able man who drew it up, and seems to us to be perfectly conclusive in its reasoning. It proposes a compromise equally honorable and advantageous to each State, and indeed to all the States concerned in the work. That is to say, it proposes to extend the road simultaneously to Louisville and Cincinnati.

New York Courier & Enquirer.

We learn from a gentleman directly from Frankfort, that the Cincinnati and Charleston Rail Road Bill will, without doubt, pass the Legislature of Kentucky.—Cincinnati Wh.

Complete Works of Hannah More.—The Harpers of New York, those indefatigable American publishers, have presented the reading world, with the complete works of this sound and yet popular religious writer, in a uniform and handsomely embellished edition of seven volumes. No English library can be deemed complete which is wanting in the entire productions of Hannah More, at once a distinguished ornament of her sex, and of the age in which she lived; and whose long life of usefulness and virtue was a practical commentary on most of the principles and truths she so ably and eloquently taught and advocated.

Charleston Cour.

Georgetown, February 4th.—The steam boat Atalanta left this place for Cheraw Thursday evening the 8th ult. at sundown—and returned last Monday at 3 o'clock in the afternoon—having remained at Cheraw 30 hours, carrying a load both ways. This is a new era in steam boat navigation on the Pee Dee, and we congratulate the enterprising owners of this fine boat on their success.

It is reported that Andrew Stevenson has been nominated by the President of the United States to the Senate for the office of Minister of the United States to Great Britain, and John H. Eaton for that of Minister to Spain.—Alexander Gazette.

From the Correspondence of the Charleston Courier.

Washington, January 9.

The elections of the Senators from Louisiana, Mississippi, Illinois, and Connecticut, having all resulted in the selection of friends of the Administration, the Senate now stands 25 anti-Administration, and 23 Administration Senators, counting Mr. Hendricks among the former. But as he may probably vote with the Administration members on the important nominations, the Senate may be considered about equally divided.

If the resolutions instructing the Virginia Senator to vote for Mr. Benton's expunging resolution, should pass the legislature of that State, Mr. Tyler intends to resign, but it is probable that he may not carry his intention into effect, while the Legislature is in session, so that his resignation may have as little effect on the opposition party as possible.

Our Navy stationed in the Gulf of Mexico, has acted in the present crisis of our affairs with a promptitude worthy of all praise. The frigate Constellation and Sloop-of-War Nandalia and St. Louis, besides smaller vessels of War, are already at the scene of action.

Floridian.

Monument to Commodore Perry.—A public meeting recently held at Buffalo, N. Y. appointed a committee to solicit subscriptions for the purpose of erecting a Monument to the memory of Commodore Perry.

A clear profit of \$2000 was realized from the labor of the convicts in the Massachusetts State Prison during the last year.

Mr. Persico, the Italian artist is at present in Boston engaged in taking the busts of Mr. E. Everett, and Dr. Channing.—The Bostonians have recently had executed by an American sculptor of fine genius in France, busts of two others of their distinguished men, Mr. Bowditch and Mr. Webster.

C. Observer.

Loss of the Steam Boat Pioneer.

Darien, Feb. 1.

It is with regret that I state to you that the new steam boat Pioneer had the misfortune to be lost, on her upper trip, by the explosion of her boiler, 75 miles above this city. Both tow boats as well as the steam boat went to the bottom, and report states that 15 lives were lost, and the Captain badly wounded. Total loss of Cargo.

Other accounts state the number of lives lost at 10 or 12.

While two steam boats were lately racing on their way from Louisville to Cincinnati, one of the boats attempted to run the other ashore or make her fall back; whereupon the pilot of the latter boat procured a rifle and deliberately shot the pilot of the other, the boats at a distance of about fifty yards from each other. The ball entered the neck of the man who was shot, and it was believed must prove fatal.

Bank of Hamburg.—Six Thousand shares, the whole amount required by the Act of Incorporation, were subscribed in Hamburg, on Monday and Tuesday of last week.

Canada.—Agitation has again commenced in Canada, more seriously than ever. Lord Gosford, the Governor, has disbanded, by proclamation, a newly organized military company. Meetings have been held, and a General Congress is proposed. Things look squally in the British province.

A man named Vesil was found by a stage driver frozen to death near Boston a few mornings since, and it was stated on Drigg's Bulletin, that two men were frozen to death in Malden on Tuesday, while getting ice from a pond.

N. Y. Cour. & Eng.

The House of Representatives of the State of Indiana, have passed and sent to the Senate, a bill authorizing the borrowing of ten millions of Dollars, for purposes of Internal Improvement. And it was supposed the bill would pass the Senate by a majority of two thirds.

An offer has been made by the joint companies of New Jersey, to sell to the State the Camden and Amboy Rail Road and Delaware and Raritan Canal, for the sum of seven millions six hundred and fifty thousand dollars, which they say is two millions one hundred and fifty thousand dollars more than what it cost to construct them, the expense of constructing being five millions and a half.

The companies then offer to lease these works of the State for thirty-six years, for one per cent advance, if the State will give the privilege of making another rail road on or near the straight turnpike from Trenton Bridge to New Brunswick.

The Legislature of the State was expected to adjourn over for a short time, to consult their constituents upon these interesting propositions.—Charleston Courier.

Cincinnati, Jan. 9.—Our Pork market is brisk,—a large sale was made the other day of Pork, Lard and Bacon, amounting to something over a hundred and fifty thousand dollars, for cash, at the following rates—prime Pork \$16.00, Mess \$18.00, Clear \$20.00, Lard 11 cents. Another purchase could now be made at the same rates. I am informed that Pork merchants are asking the following prices—Prime, Mess and Clear Pork \$17, \$19 and \$21, Lard 12 cents. It is thought the prices will be still higher, as the demand is very great. The "knowing ones" say, that Lard must go up to 15 cents, and that Pork will advance in proportion.

From the Farmer & Gardener.

CORN CRUSHER AND GRINDER.

There is perhaps no part of the economy of a farm so badly managed as that of feeding stock; for if we are to judge, in most instances, by the manner in which this duty is performed, we would be led to conclude that to get it done, without any regard to economizing the provender, was the great desideratum. In a great majority of cases the horses get their allowance of corn in the ears, the cows in the nubbings, and the corn fed to the fattening hogs is also in the ears; by which process, the cob, a most nutritious and valuable part, is mainly lost; for although so far as the horses and hogs are concerned, the cob, after a series of years, is converted into manure, yet as an article of food its valuable properties are entirely lost, and lost too, without rendering any immediate service to the farm in the form of manure, inasmuch as from the very nature of its constituent parts, much time must elapse before it can possibly decompose and become food for plants. In husbandry, as in every other avocation of life, it should be the great object of all to effect the most good with the least means. In this, true economy consists. The questions which the farmer should ask himself are,—can the cob be converted into food?—is it sufficiently nourishing to justify the expense necessary to reduce it to meal? If he finds these questions can be affirmatively answered, he should no longer hesitate as to the propriety of feeding it in that form. These questions have been long since so answered. Experiments have been tried, and the cobs crushed into meal have been found to be two-thirds as nutritious as the meal made from the grain. This being the case, any contrivance by which they can be made available to the farmer as food for his stock, must prove a consummation most devoutly to be wished.

We were led into these remarks, on reading the subjoined certificate, which we copy from the Jonesborough (Tenn.) Republican. We of course know nothing about it, more than what we find in the voucher:

but if it realizes what is said of it, we think we may say it will prove almost as great a blessing to the South as the Cotton Gin.

JOURDAN'S CORN CRUSHER AND GRINDER. We, the subscribers, do certify, that we have seen in operation, and have carefully examined a machine invented by Mr. A. P. Jourdan, of Madisonville, Monroe county, East Tennessee, for crushing and grinding corn, and we have no hesitation in recommending it to the public as a valuable acquisition to the Agricultural community. It breaks the ear in pieces and grinds both cob and grain into a meal, well calculated for cattle and horses, and must be attended with a great saving of grain to all who use it. It is simple in its construction, cheap, costing only \$15, and may be worked by hand, by horse, or by water power. One of the machines may at any time be seen at the farm of Mr. John Hoss, of Washington county. Given under our hands this 20th day of January, 1836.

Peter Miller, John Hoss, Elijah Fine, Daniel Kenney, James Beard, Thos. H. Crouch, Samuel Hunt, J. Boyde.

Contents of the February number of the Tennessee Farmer. Editorial notice; answer to queries; clover, corn, and manuring; Jourdan's corn-crusher and grinder's moles; large carrots; large onions; Rohan potatoes; sweet potatoes; cut straw; large cabbage; directions for planting the gama grass seed, cultivating the grass, and curing the hay; large and successive crops of indian corn and hay; on securing the corn crop, and the value of its offal; salt your corn; culture of the strawberry; silk company of Queen Anne county; management of colts; on the utility and best method of cooking food for domestic animals; fattening hogs; comparison of steam and horse power; farming implements, &c.; clover machine; ploughing in of green crops; clover for manure; economy and comfort; gather up the fragments that nothing be lost; fruits of industry and economy; seed wheat; weeds; Religion; animal life; great crop of ruta baga; saffily, or vegetable oyster; on preserving cabbage in winter; letters from a father to a son; fruits of industry; items; poetry; additional list of agents; advertisement of silk manual.

We have on hand a fine stock of Sugar, Coffee, Molasses, Salt, Mackerel No. 1, 2 and 3, in barrels and half barrels, Northern Flour, Pickled Beef, Raisins, Iron, Steel, &c. &c., which will be sold low for cash. N. B. Those persons indebted to us by Note or Book account, will oblige us by calling and settling the same. D. & J. M. Feb. 16, 1836. 14.6

Sunday School and Tract Depositories. A NUMBER of individuals in this town and neighborhood have paid between \$700 and \$800 for Sunday school books and religious Tracts, and have thus established these Depositories which are intended to be perpetual. These books and tracts are sold at cost and charges, without any profit, to all who will buy, and the money reinvested in books of the same kind, and thus the supply is always kept up. The books are sold at the same prices that they are sold at the Depositories by retail in New York and Philadelphia.

These books and tracts inculcate that form of truth and doctrine in which Christians are agreed generally; and have nothing sectarian in them; and thus are calculated to supply the wants of Christians of every evangelical denomination. The Depositories are at the Book Store and are kept and attended to free of charge or expense.

The following Periodicals devoted to Agriculture are received in exchange at this office, and files of them kept in the bookstore, which Planters are invited to call and examine with a hope that for their own interest they may be induced to subscribe.

The SOUTHERN AGRICULTURIST, published monthly in Charleston, S. C. at five dollars per annum. The FARMER AND GARDENER, successor to the American Farmer, published weekly in Baltimore at five dollars per annum. The CULTIVATOR, published monthly in Albany, N. Y. at fifty cents per annum. The WESTERN FARMER, published monthly in Cincinnati, Ohio, at one dollar per annum. The MONTHLY GENESSEE FARMER, published at Rochester New York, price fifty cents per annum. TENNESSEE FARMER, published monthly in Jonesborough, Tennessee, at one dollar per annum.
