

Callaway.

M. N. Carlisle was in Millville Monday on business.

Mr Daughtrie, of Andalusia, is visiting in Callaway this week.

Mr Rhodes has just about finished gathering his scuppernongs.

The rains of the last few days have been quite a blessing to our crops.

A railroad and ice plant and yet we see the lone fish hauler driving his oxen.

Mr and Mrs B. A. Rhodes had a very pleasant ride to Parker Sunday evening.

Miss Lillian Carlisle called on Mrs Rogerson and Mrs Wood and brother Friday evening.

M. N. Carlisle, Esq., will leave the first of next week for Dothan, Troy, and other points in Ala.

Mrs N. K. Fox and little son, of Parker, spent Saturday and Sunday with their mother-in-law here.

We are pleased to note that the new stores of Panama City are getting their stock straightened up ready for customers.

Mr A. R. Percival, our mail carrier, never make a miss on account of rain or sand. Would that all our carriers were as punctual.

Well, the postoffice inspector didn't come out here at all; asked about us down to our neighbors and must not have heard any complaints so drove on.

We heard that Millville was thinking of establishing a rural free delivery route, taking in Parker and Callaway, but as yet we haven't seen the man with the petition.

Mack E Rogerson was agreeable surprised to find that Millville could furnish him the necessary hooping to repair the tub of his still which burst Wednesday last. So the stiller only had a two days rest.

Frank Fox, age twelve, is having splendid luck with his hook and line these days. Says he caught something over one hundred nice trout and red fish the other day, which netted him two dollars, after he had taken all he wanted for home use. Pretty good days work for a boy.

Tompkins.

F. H. Ware was a Tompkins caller Monday.

A. E. Register was a business caller here Monday.

Mrs E. M. Newman is visiting relatives here this week.

E. M. Newman made a business trip to Fountain Monday, returning Tuesday.

J. H. Porter, of Millville, arrived here Sunday leaving Monday for Bennett, where he will spend some few days.

Master Hayes and Joe Ellis went hook and line fishing Monday, returning with sixty trout. Say boys dont go fishing any more soon.

Mrs M. J. Nixon who has been visiting relatives here the past week returned to her home at Fountain Monday. We all sympathize with her in her great grief.

J. C. McQuagge and family and E. McQuagge and family, of Marianna, have been spending some few days here the past week. They expected to enjoy plenty of fishing though the weather being unfavorable for fish catching they had to return home saying they had had no fish but oh they enjoyed bathing.

We regret very much to announce the sad death of Miss Gena Nixon, who died at her home at Fountain, on Tuesday, Aug. 18th. She had been suffering some forty days with typhoid fever. She was under the treatment of five physicians but all failed, and the great physician above called her home. She was laid to rest in the Nixon cemetery. We sincerely sympathize with the bereaved family

Card of Thanks.

We wish to tender our heart felt thanks to friends who so kindly gave us their help and sympathy in our sorrow. They will always be held in grateful remembrance.

MR M. W. NIXON,
MRS M. J. NIXON,

Farmdale.

We are having some nice showers.

Will soon be planting fine gardens.

News is rather scarce this week. Will try and give you a longer letter next week.

The nights are now nice and cool, in fact we have been able to sleep under from one to two blankets all summer.

Saturday was pay day here and Sunday the launch Syble took a full load of darkeys on a visit to the turpentine district on Wetappo creek.

The Davis brothers have bought the Charley Bracken launch, which makes 7 launches right around Farmdale. We are contemplating a launch race in the near future.

There are a good many summer people locating on the beach and at the light house, where there are several summer houses for their accommodation. Farmdale is headquarters for their mail and supplies.

Our school commences to-day, the 24th, with Miss Mary Shippey, as teacher. We are in hopes the patrons will try their best to send their children to school as Miss Shippey is recommended as a good teacher and ought to be encouraged.

Parker.

The launch Odd Fellow was a caller here on Wednesday.

W. H. Parker visited Millville and Panama City on Monday.

Mrs Audley Spicer spent Sunday on this side visiting home folks.

W. C. Vickery of the Bay Bottling Works was a caller here on Tuesday.

W. H. Parker and A. R. Percival were business callers at Cromanton on Tuesday.

Capt Ray Palmer has his boat turned down and is copper painting and fixing her up otherwise.

We hope the Cromanton correspondent that was crying about rain last week, has all he or she wants by this time.

The Ladies Mrs Birch and Misses Payne and Young spent Wednesday with Mrs E. Z. Taylor on West Park street.

Henry Spicer spent Sunday, at W. H. Parker's. We are glad to see him getting out among his friends again after his siege of illness.

W. H. Parker and A. R. Percival were appointed appraisers of the A. T. Collum estate and are appraising the same this week.

Mr. J. N. Wilson and family also Mrs Sewell and Mrs W. J. Pender and son all left for their home at Sneads, Fla., last Thursday. Business affairs called Mr Wilson home sooner than he cared to go. But they will be with us again early next summer.

Bay Head.

F. B. Mashburn, of Bennett, was transacting business here Tuesday.

J. H. Porter, of Millville, passed by here en route to Econflina Monday.

R. L. Gainer, of Econflina, was a business visitor here Tuesday.

Mrs Ed Mashburn, of St Andrews, is a visitor at M. D. Mashburn's this week.

Mrs B. Attaway, of Comvass Lake, is staying here at the hotel for a few days.

That stork visited M. D. Mashburn's residence Monday night, leaving a fine girl baby.

The launch Francis, with F. H. Ware in charge, took Messrs Moss and Semmons to St Andrews Tuesday.

Thos Crooms, of Bennett, passed by here from St Andrews, en route to Bennett. Mr Crooms had been to town after fish, but failed to find any.

J. R. M. Beatty, oil well man, who has been spending a week at Orange Hill, arranging for the sinking of another well there, on Gen. Searlet's place, left for Jacksonville Tuesday. He tells us that work on the well will begin in a few days now.—Chipley Verdict.

Allanton.

A very pleasant free for all ice cream social was given by Mrs Kirvin Saturday night.

The Allanton Lumber Co. are repairing their mill and putting it in better order than ever, getting ready for the prospective fall boom.

This end of the bay is keeping well up with the times in the way of gasoline launches. The Davis boys have just bought one at St Andrews which makes the seventh launch in this little community.

The fishing season has started on the boom here also, and some of the young men have left on a three months tour, while the rest are preparing to be off. But before going they have placed their orders for fruit trees to be ready for them to plant when they get back. And by the way why do not more of the multitude of the would be business men that are flocking to the bay, do a little figuring and figure the difference in the income of an ordinary town business, and the same amount of capital invested in an orchard, or other product of the soil?

Wetappo.

The below items were received too late for last weeks paper.—Ed.

G. W. Lowe is building a new house.

Messrs C. and J. Oliver were up from Farmdale Friday.

G. W. Lowe was up Wetappo Creek Sunday morning.

Mr McKinnon, agent for fruit trees, passed through here Wednesday enroute from Wewahitchka to Panama City.

C. Oliver took a launch load of Taylor, Schermer & Co's hands to Hardy, Smith & Co's camp Saturday, and brought them back Sunday.

S. Dyer towed a becalmed sail boat from near Allanton up South Prong Wednesday, where they put on a load of rick, and were towed back this far.

Last Spring Miss Florence Dyer planted some water melon seed in the front yard, and during the past month several large melons have been picked from the vines, the heaviest weighing 58 1/4 pounds.

Messrs Dyer and Kronmiller went to Millville Monday.

S. Dyer and H. A. Allen made a business trip to St Andrew, Panama City and Millville last week.

A little rain to settle the dust and cool the atmosphere was very acceptable, but it came down rather too freely as we have to wade in places now.

Two weeks ago I sent a letter to the PILOT but suppose the office cat must have been hungry and eaten it for lunch as I never saw it in print.

It was received but two days ago.—Ed.

Last Friday night a possum caught a hen in S. Dyer's yard. When they went close to him with a lantern he would not run, but persisted in trying to drag the hen through the fence. A shot from the gun spoiled his supper.

A private letter from Elba, Ala., informs us that the stork was exceedingly kind on a recent visit to Mr. and Mrs. I. A. Hutchinson, inasmuch as a ten pound boy was left to gladden their hearts. That "daddy" wears an unusually broad smile, though occasionally required to "sit up (nights) and take notice." Congratulations are extended by numerous friends here, and best wishes for the future of the new arrival.—Chipley Verdict.
