Dr. Price's Delicious Flavoring Extracts

A FUNNY SORT OF PROPOSITION

Just What Happened on the Street Car Line Is Not Quite Clear.

If three men quitting unless a street car strike, El Paso had one last night. These three men quit their runs last night, but two of them are back at work again. It is stated that the men who had been discharged attempted to form an organization among the men at work with a view to striking, but failed.

their case to the company officials and asked for reinstatement. The third one is an applicant for his old run and will probably get it back.

Instead of a "strike" it was a "poodle," one bowling member of the street car family said. A poodle is good.

COLQUITT OPENS HIS CAMPAIGN

Begins His Fight for Governor by Denouncing Campbell.

Wichita Falls, Tex., March 17.—O. B. Colquitt, of Terrell, opened the campaign for the Democratic gubernatorial nomination here this afternoon.

A large number of visitors have arrived, including a train load from Terrell.

Colquitt spoke at the opera house and made a plea for less politics and greater state development.

He said the present local option and Robertson-Fitzhugh laws are the best control of the liquor trade devised and that statutory prohibition is unconstitutional.

Colquitt also rapped governor Campbell and his policies.

COUNCIL AGAIN PASSES ORDINANCES TO OPEN WEST SAN ANTONIO STREET

Liverymen Protest Against Section of Traffic Ordinance. Z. T. White Defends Police on Complaint Made by Hotel Man—Express Wagons Must Move From Corner of Stanton and Texas Streets.

Two ordinances, which finally settled the opening of San Antonio street from El Paso street west, were passed by the city council this morning following a vetoed resolution which was passed last week. Work will commence on the opening early next week.

There was a protest of liverymen relative to the section of the traffic ordinance which, if enforced, would preclude the delivery of buggies and this will be eliminated from the ordinance.

B. Tom Smith protested against the action of policeman White, stationed at the union station, who he claimed discriminated in permitting some people to approach the line and prohibited runners from his hotel and others from approaching the "dead line" except on the side of the street occupied by the backs.

Express wagons will be compelled to move from their stand at the corner of Texas and North Stanton streets as property owners there object to their presence, claiming that it interferes with their business. No location has been selected as a stand, this matter being referred to the police committee to determine.

Traffic Complaint. A protest to section 13 of the new traffic ordinance, which rules that one buggy may not be hauled behind another was entered by livery men who stated in their petition that it would, if enforced, preclude the delivery of buggies.

The protesters were the Lowell Transfer company, Pomeroy Transfer company, Texico Transfer company, Dwyer stables and Greer stables.

Mayor Robinson said: "This matter has been discussed and I think it should be changed so that one buggy may be hauled behind another."

Alderman Clayton recommended that the matter be referred to the police committee for further consideration and this was done.

Hotel Men Consider. B. Tom Smith, representing himself and other hotel and rooming house proprietors, addressed the council as follows: "I have a license for a runner at the union depot and he told me that the policeman there would not let him go beyond the Bristol hotel."

"I went to talk to policeman Hord and he said he had made the rules himself and would not let the runners go to the dead line except on the back side. I am not working for Mr. Blumenthal or Mr. McChesney, I am working for the chief of police," he told me.

"He allows some to go up and they have hotels near the depot. I told him I thought he ought to treat all alike. I would like to know if they are allowed to go up."

Discrimination. Alderman Blumenthal said: "There is discrimination. The ordinance reads that all can go to the dead line."

Mayor Robinson then appointed alderman Blumenthal to investigate the complaint and give policeman Hord instructions.

City attorney Caldwell recommended that the complaint be reduced to writing and then referred to Mr. Blumenthal.

"I suppose you want it clearly established that the chairman of one of our committees is not a mere figurehead," he said.

Defends Police. Zack White said: "I should like to say something in behalf of the police. If a policeman is put there and enforces the rules I do not think they should make a complaint like this. I believe they should put it in and give the policeman a chance to defend himself. As far as a policeman abusing Mr. Blumenthal or any other member of the city council I don't believe they did it."

"John Hopper and I, together with Mr. Caldwell, are fathers of the ordinance. If any of us is going beyond he should be forced to keep back."

"Wart Square Deal." "All we want is a square deal. Mr. White has a tenant near the station and the woman running a hotel there employs a runner who is allowed to go up there."

White said: "I have no rooming house there or elsewhere in the city."

Smith: "I beg your pardon, then; I have been misinformed."

Alderman Clayton then stopped further argument by remarking: "The matter has already been referred to the chairman of the police committee and I do not think there is cause for any further argument."

San Antonio Street Opened. Two ordinances abandoning Sonora and West Sonora streets for the purpose of opening San Antonio street were passed.

O. H. Baum and Zack White, who have been working hard for the opening of this street, succeeded in securing the release of old mortgages and the street is to be opened at once.

"Work of tearing down the buildings on San Antonio street will commence early next week," said O. H. Baum after the ordinance were passed.

The City Health. City health officer W. H. Anderson's weekly report showed a total of 23 deaths, 12 being Americans, 23 Mexicans, 20 negroes. Twenty-three births were recorded, 13 being Americans and 10 Mexicans. Of these 12 were males and 10 females. The cases of contagious diseases reported existing are: Whooping cough 49, diphtheria two, smallpox seven, measles 101, chickenpox two, typhoid fever two.

Inspections were made of 297 meat markets, 120 dairies, 20 slaughter houses, 16 milk wagons, 254 cattle, 32 hogs, 44 calves, 122 sheep. Thirty-seven pounds of meat were condemned. During the week 120 patients were treated at the dispensary and 20 at their homes.

Makes Annual Report. Following the reading of his report, city health officer Anderson said that the annual report had been made and

handed to the mayor. "I should like to have it published and distributed," he said.

Mayor Robinson remarked: "This is information that I believe the public would be interested in and I think it should be done."

Alderman Clayton made a motion that it be left in the hands of the mayor, the motion being unanimously carried.

Sewer Work. City sewer commissioner J. W. Hadlock's weekly report showed six Ys put in, 10 plugged sewers cleaned and 25 final tanks examined.

The report continued: "We have completed the installation of a cement and brick connection so that a gate can be inserted at the sewer and keep the river from flowing back into the sewer when the pump is knalled. I am ready to install this pump as soon as I am given the authority."

Collections. The report of city assessor and collector Louis E. Behr showed \$194,372.37 collected during February.

The report of plumbing and meter inspector M. P. Maloney for the month of February showed collections amounting to \$165.

City Refunds Rent. The petition of Ralph W. Loomis for sewer connection to a residence on lots 13 and 14, block 25, Alexander addition, was granted.

It was ordered that \$33.28 be returned to the Surety Loan and Jewelry company for rent paid on the building at 121 El Paso street which is owned by the city, the firm having moved before the expiration of the month.

Mrs. Hanna Schaefer presented a claim for \$3500 alleged damage to lots 17 to 21 in block 42, Franklin Heights addition, on account of the erection of the viaduct. This was referred to the city attorney.

Agatha D. Grayson's petition for a sewer extension to her residence at the corner of High and Kansas streets was referred to the sanitary committee.

Residents of Nevada street between Octavia and Ange streets asked that the streets be sprinkled and the petition was referred to the street and grade committee.

Wagons Must Move. Merchants and property owners at Stanton and Texas streets complained of the use of the street as an express wagon stand and their motion was granted.

Alderman Blumenthal recommended that Overland street between Kansas and Campbell, and Campbell from Over-

land to San Antonio, be designated as a stand.

Alderman Clayton called attention to the fact that Overland street between the streets designated is used as a stand for market wagons.

Alderman Howitt then recommended that the matter be referred to the sanitary committee for further consideration.

Alderman Hewitt commenting on the protest of the Standard Electric company relative to the use of metal switch boxes in the Toltec building recommended that it be permitted to install the boxes.

Paving Matters. The fourth semi-monthly estimate of the Petrolitic company showed \$92.50 due for paving Mesa avenue from Curri to River streets, the clerk being authorized to pay the same.

The second semi-monthly estimate of the Bitulithic company showing \$2658.38 due for paving North Oregon street was presented and the clerk authorized to pay the same.

WESTINGHOUSE OPENS BRANCH

Electrical Supply Company Opens Offices in Thorne Building.

El Paso's wholesale district has a new addition. The Westinghouse Electrical company has rented a salesroom in the Thorne building on West San Antonio street which will be used as the El Paso headquarters of this company.

The Westinghouse branch for El Paso will be opened this month and eventually it is expected that it will occupy a building of its own which will be the southwestern headquarters of the Westinghouse company.

IMPROVE STREETS WITH SHADE TREES

Grass to Be Planted in Magoffin and Rio Grande Parkings.

"Preparations are being made to plant Arizona ash trees on one block of Magoffin avenue and one on Rio Grande street, and then grass will be planted. No other trees will be set out this year, as it is late in the season," said park commissioner Harris this morning.

"The difficulty with Rio Grande street is that the people have been too slow. We have got water connections wherever the other work was ready, but the people should have started three months earlier. Next season we will set out the trees early and these streets will be in good condition."

"White clover has been planted in most of the parks this year, as it is evergreen. We have just finished planting some in Austin triangle, beyond the Southwestern shops."

"If we had all our streets lined with trees, 50 or 60 feet high, we would not be bothered by winds, and in this connection it might be well to call attention to the fact that the city of Riverside, Cal., claims that the planting of trees increased the value of property

there 100 percent in 10 years after planting.

"The shade afforded by the trees has also decreased the expense of sprinkling one half and has done considerable toward the improvement of cities in this section."

"In this country, trees planted on the east side of a house will grow 50 percent better than those planted on the opposite side, because most of the wind comes from the west, and trees protected from the wind will grow better."

DEMING BOOSTERS ORGANIZE CHAMBER OF COMMERCE; ALL ARE BOOSTERS

The spirit of cooperation is marked and good feeling prevails—Membership All Euthusiastic.

Deming, N. M., March 17.—Hustling Deming organized a chamber of commerce last evening. A feeling has gradually been growing that Deming, while a thriving and progressive community, was not making its resources known in the outside world as well as it should.

About three weeks ago, a few of the more aggressive among the business men, called the people of the town and the county together at a banquet and formal meeting to discuss the forming of an organization of some sort and a committee was appointed to draft articles of organization and suggest a plan upon which to act. This committee reported last night at a banquet arranged for the "get-together-boosters" and their plan, which was that of organizing a permanent chamber of commerce, was enthusiastically endorsed and adopted without a dissenting vote.

Before getting down to the more serious business of actual organization, Dr. S. D. Swope, who acted as toastmaster, started the ball rolling with a trite statement of facts concerning the things Deming had not done in the past and things which he hoped they would do in the future, by means of the organization proposed.

Reel Boosters. The first speaker introduced was John M. McTeer, who took as his subject "Advertising." Mr. McTeer made a very forcible talk and outlined some excellent methods which the new chamber of commerce should pursue in its efforts to gain more publicity.

C. J. Laughren followed with a talk on industries and how to secure them. Mr. Laughren in the course of his remarks said that Deming could double its population in the next two years by merely pulling together, with the good of the town as the one object in view, and quoted Dr. Douglas of the Copper Queen as stating that Deming was the logical point, both geographically and topographically, for the reduction of all the ores from the surrounding mountain ranges.

Railroad Man Talks. W. S. Clark, of the Santa Fe, made a talk on railroads. He cited the fact that there were three railroads already running through Deming and that it was likely, also that the water here is of excellent quality and would assist materially in inducing manufacturers to select Deming as a factory site.

E. H. "Boasting Bill" editor of the Deming Graphic, made a closing talk on the possibilities of the town and had everybody "sitting up and taking notice," long before he had finished.

J. R. Waddell, one of the biggest boosters of whom any town ever boasted, was called upon to prophesy the probable benefits to be secured through organization and consistent advertising. He painted a glowing word picture of a beautiful valley, "100 miles from rim to rim, rich in its resources, covered with beautiful crops, and peopled with a happy, contented, prosperous people." This prophesy, he stated, was based on the actual facts as they are and that no false statement was required to induce desirable citizens to settle around and in Deming.

The Election. The meeting then got down to business and the report of the committee on permanent organization was read by the committee chairman, Prof. J. F. Dodderer, superintendent of the Deming schools. It was decided to incorporate in the regular manner as provided by the laws of the territory and by-laws as compiled by the committee were read and approved with very few alterations.

The election of officers was next taken up. There was quite a spirited but friendly contest between the friends of Ralph C. Ely, one of Deming's most able lawyers, and those of Arthur C. Rathel, cashier of the Bank of Deming, as to which should have the honor of being the first president of Deming's first chamber of commerce. Mr. Ely was elected by a vote of 44 to 23 and received a rousing ovation when the result was announced. Leo O. Lester, the popular county clerk, was unanimously elected treasurer, there being no opposing candidate nominated. The by-laws provided for the appointment of a secretary by the board of directors instead of by general election.

The Directors. There was considerable difference of opinion as to who should serve as the first board of directors. The by-laws provided for seven and there were 15 names in nomination. From these the following men were chosen to serve for the first year: C. J. Laughren, John Hund, A. J. Clark, Clarence H. Hon, G. M. Sandler, John Corbett and Dr. P. M. Studd.

The meeting was then adjourned with a vote of thanks to J. A. Magnuson, manager of the Harvey House, for the excellent repast which he served at the opening of the meeting.

PREPARE BIDS ON CROFT HOTEL

El Paso Contractors Are Now Making Estimates on Structure.

Plans for the new Cloudercroft hotel, to cost \$100,000, and to be built by the Southwestern system this summer, are now being figured on by local contractors. The building is to be modern in construction, and will be ready for the opening of the summer season of 1911.

Work will begin on the hotel as soon as the frost is out of the ground on the mountain, to permit of excavation work.

COUNTRY CLUB SELLS ITS OLD CLUBHOUSE

E. J. Peterson Buys Property and Will Convert It Into Residence.

The old Country club grounds were sold today by the El Paso Country club to E. J. Peterson. The tract has a frontage of 250 feet on the park car line and extends back to the canal.

Mr. Peterson will improve the clubhouse and will occupy it as a residence. The sale was made for the club by Broadbuss & Leavel.

ROOSEVELT LEAVES TONIGHT FOR CAIRO

Has a Day With His Correspondence and Attends a Garden Party in Khartoum—Is a Busy Man.

Khartoum, Egypt, March 17.—After two days' sightseeing with Mrs. Roosevelt and his children, Col. Roosevelt today dug into his great mass of correspondence, which alone is a task to discourage one less energetic.

This afternoon the Roosevelts attended a garden party at the Grand hotel.

The Roosevelts plan to leave here for Cairo in a special train at 9 tonight.

Eczema Cured

It makes no difference how long you have suffered, what you have tried, even if every part of your body is an itching, burning sore, a permanent cure awaits you.

IMPERIAL REMEDY

ALL SHOT TO PIECES

Nerves Were at the Bottom of What Mrs. Martha Hown Had to Endure for Years, Till She Found Out How to Help Them.

Sevierville, Tenn.—"I never did believe in patent medicines," writes Mrs. Martha Hown, of this place, "until I began to take Cardui, and it cured me."

"Cardui saved my life, after the doctor had failed to help me. Since taking it, I am stouter and weigh more than I ever did, and look and feel like a new woman."

"For six months before I began taking Cardui, I could not do anything, nor hardly sit up. Now I can do all my household work, go where I please and don't tire me."

"I used to get frightened at night and would just fall down in bed, and was so nervous, but now I feel better than I have been in twelve years, and the doctor, who is my own physician, says he never thought to see me so well."

The benefit to be obtained by Cardui is not confined to any one part of the body. The whole female system is benefited—the whole body is built up. A pure, vegetable extract, specially adapted for women's use, Cardui is the one remedy that every woman should have in the household when needed.

MOTHER'S FRIEND

A LINIMENT FOR EXTERNAL USE.

Cheerfulness and a bright disposition during the months before baby comes, are among the greatest blessings a mother can bestow upon the little life about to begin. Her happiness and physical comfort will largely govern the proper development of the health and nature of the child. Mother's Friend contributes much to the mother's happiness and health by the relief and mental comfort it affords. It is a liniment composed of penetrating oils and medicines which lubricate the muscles and tendons of the body, soothe the swollen mammary glands, cause a gradual expansion of the skin and tissues, and aid in the relief of nausea. The regular use of Mother's Friend greatly lessens the pain and danger when baby comes, and assures a quick and natural recovery for the mother. Mother's Friend is sold at drug stores. Write for our free book, containing valuable information for expectant Mothers.

The most wonderful sound-reproducing instrument of the cabinet type, combining the highest results of musical genius with a masterpiece of cabinet work—

The Amberola

The newest Edison Phonograph

The Amberola is beautifully simple in outline, exquisitely designed and comes in either mahogany or oak, to harmonize with surroundings in any home. It has drawers in the lower part for holding 100 records.

It plays both Edison Standard and Amberol Records

This is the Amberola's biggest advantage over all other instruments of the cabinet type—because Amberol Records play longer than any other Records made, rendering the best of all kinds of music as it is meant to be played, without hurrying or omitting important parts. But the Amberola gives you much of the best music that you cannot get in any other sound-reproducing instrument of the cabinet type. The price is \$200. Other types of Edison Phonographs, \$12.50 to \$125.

Leo Slezak now sings for the Edison

The greatest living lyric tenor, Leo Slezak, has made ten new Grand Opera Amberol Records for the Edison Phonograph. These Records include the great arias from Verdi's Otello, together with arias from other Italian Grand Operas. Slezak sings these Italian Grand Opera arias exclusively for the Edison Phonograph. Hear these new Slezak Records at your dealer's—and be sure to see and hear the Amberola.
